#	Article	IF	CITATIONS
1	Patient-centred care delivered by general practitioners: a qualitative investigation of the experiences and perceptions of patients and providers. BMJ Quality and Safety, 2022, 31, 191-198.	3.7	14
2	Perceptions of private practice dietitians regarding the collection and use of outcomes data in primary healthcare practices: A qualitative study. Journal of Human Nutrition and Dietetics, 2022, 35, 154-164.	2.5	7
3	Is there enough behaviour change science in nutrition and dietetics curricula in Australia and New Zealand? A descriptive study. Nutrition and Dietetics, 2022, 79, 636-646.	1.8	8
4	The <i>Qu</i> ality <i>i</i> n <i>N</i> utrition <i>C</i> ar <i>e</i> (QUINCE) model: development of a model based on Australian healthcare consumer perspectives. Family Practice, 2022, 39, 471-478.	1.9	4
5	What happens to diet quality in people newly diagnosed with type 2 diabetes? The 3D caseâ€series study. Journal of Human Nutrition and Dietetics, 2022, 35, 191-201.	2.5	0
6	Quality improvement strategies enhance primary care dietetics: A systematic review and metaâ€analysis. Journal of Human Nutrition and Dietetics, 2022, 35, 479-493.	2.5	6
7	Behaviour change for type 2 diabetes: perspectives of general practitioners, primary care academics, and behaviour change experts on the use of the 5As framework. Family Practice, 2022, 39, 891-896.	1.9	2
8	Development of affective learning in dietetics graduates: A qualitative longitudinal study. Journal of Human Nutrition and Dietetics, 2022, 35, 872-882.	2.5	2
9	Addressing childhood obesity in Queensland: Aboriginal and Torres Strait Islander Health Worker perspectives and practices. Health Promotion Journal of Australia, 2022, 33, 163-173.	1.2	2
10	Analyzing Dietary Behaviors Self-reported by People With Diabetes Using a Behavior Change Technique Taxonomy. Journal of Nutrition Education and Behavior, 2022, 54, 753-763.	0.7	2
11	Impact of a resilience and wellbeing program: A longitudinal cohort study of student dietitians. Australian Journal of Cancer Nursing, 2022, 24, 591-600.	1.6	2
12	Key Design Characteristics of Interprofessional Simulation-based Learning Experiences as Rated by Allied Health and Nursing Students. Clinical Simulation in Nursing, 2021, 50, 55-64.	3.0	3
13	A selfâ€determination theory analysis of reflective debrief themes about dietetic student placement experiences in hospital: implications for education. Journal of Human Nutrition and Dietetics, 2021, 34, 115-123.	2.5	7
14	Potential of anthocyanin as an anti-inflammatory agent: a human clinical trial on type 2 diabetic, diabetic at-risk and healthy adults. Inflammation Research, 2021, 70, 275-284.	4.0	18
15	Advances in assessing dietary intake: Lessons from technology and nutritional epidemiology. Nutrition and Dietetics, 2021, 78, 117-120.	1.8	1
16	Enhancing graduate employability through targeting ePortfolios to employer expectations: A systematic scoping review. Journal of Teaching and Learning for Graduate Employability, 2021, 12, 82-98.	2.1	3
17	How do healthcare providers support people with prediabetes to eat well? An in-depth, mixed-methods case study of provider practices. Australian Journal of General Practice, 2021, 50, 497-504.	0.8	2
18	Studying the transition from graduate to health practitioner: The <scp>Griffith Dietetics Graduate Outcomes Survey</scp> . Australian Journal of Cancer Nursing, 2021, 23, 723-732.	1.6	9

#	Article	IF	CITATIONS
19	How do patients want to receive nutrition care? Qualitative findings from Australian health consumers. Australian Journal of Primary Health, 2021, , .	0.9	0
20	A new model of patient-centred care for general practitioners: results of an integrative review. Family Practice, 2020, 37, 154-172.	1.9	19
21	Simulation-Based Learning Experiences in Dietetics Programs: A Systematic Review. Journal of Nutrition Education and Behavior, 2020, 52, 429-438.	0.7	21
22	â€ĩl could have made those changes years earlier': experiences and characteristics associated with receiving a prediabetes diagnosis among individuals recently diagnosed with type 2 diabetes. Family Practice, 2020, 37, 382-389.	1.9	12
23	Short-term improvements in diet quality in people newly diagnosed with type 2 diabetes are associated with smoking status, physical activity and body mass index: the 3D case series study. Nutrition and Diabetes, 2020, 10, 25.	3.2	2
24	Parents' Experiences of Family Therapy for Adolescent Anorexia Nervosa. Australian Social Work, 2020, 73, 408-419.	1.0	11
25	The Use of Behavior Change Theories in Dietetics Practice in Primary Health Care: A Systematic Review of Randomized Controlled Trials. Journal of the Academy of Nutrition and Dietetics, 2020, 120, 1172-1197.	0.8	41
26	Understanding the knowledge, attitudes and practices of providing and receiving nutrition care for prediabetes: an integrative review. Australian Journal of Primary Health, 2019, 25, 289.	0.9	8
27	Development and Process Evaluation of a Complex Intervention for Improving Nutrition among Hospitalised Patients: A Mixed Methods Study. Healthcare (Switzerland), 2019, 7, 79.	2.0	10
28	Improving Nutrition Care, Delivery, and Intakes Among Hospitalised Patients: A Mixed Methods, Integrated Knowledge Translation Study. Nutrients, 2019, 11, 1417.	4.1	13
29	Maintaining the Outcomes of a Successful Weight Gain Prevention Intervention in Mid-Age Women: Two Year Results from the 40-Something Randomized Control Trial. Nutrients, 2019, 11, 1100.	4.1	9
30	Health practitioner practices and their influence on nutritional intake of hospitalised patients. International Journal of Nursing Sciences, 2019, 6, 162-168.	1.3	22
31	Effectiveness of dietetic consultation for lowering blood lipid levels in the management of cardiovascular disease risk: A systematic review and metaâ€analysis of randomised controlled trials. Nutrition and Dietetics, 2019, 76, 199-210.	1.8	25
32	How Effective Are Dietitians in Weight Management? A Systematic Review and Meta-Analysis of Randomized Controlled Trials. Healthcare (Switzerland), 2019, 7, 20.	2.0	47
33	How Does Diet Change with A Diagnosis of Diabetes? Protocol of the 3D Longitudinal Study. Nutrients, 2019, 11, 158.	4.1	17
34	The tension between efficiency and effectiveness: a study of dietetic practice in primary care. Journal of Human Nutrition and Dietetics, 2019, 32, 259-266.	2.5	6
35	Barriers to Nutrition Intervention for Patients With a Traumatic Brain Injury: Views and Attitudes of Medical and Nursing Practitioners in the Acute Care Setting. Journal of Parenteral and Enteral Nutrition, 2018, 42, 318-326.	2.6	17
36	Parent-child feeding practices in a developing country: Findings from the Family Diet Study. Appetite, 2018, 125, 90-97.	3.7	13

#	Article	IF	CITATIONS
37	Dietary intake by food group of individuals with type 2 diabetes mellitus: A systematic review. Diabetes Research and Clinical Practice, 2018, 137, 160-172.	2.8	23
38	Effect of probiotics and synbiotics on blood glucose: a systematic review and meta-analysis of controlled trials. European Journal of Nutrition, 2018, 57, 95-106.	3.9	87
39	Quality of development and reporting of dietetic intervention studies in primary care: a systematic review of randomised controlled trials. Journal of Human Nutrition and Dietetics, 2018, 31, 47-57.	2.5	21
40	Investigating the Perceptions of Primary Care Dietitians on the Potential for Information Technology in the Workplace: Qualitative Study. Journal of Medical Internet Research, 2018, 20, e265.	4.3	12
41	Optimizing Gestational Weight Gain With the Eating4Two Smartphone App: Protocol for a Randomized Controlled Trial. JMIR Research Protocols, 2018, 7, e146.	1.0	11
42	A role for whey-derived lactoferrin and immunoglobulins in the attenuation of obesity-related inflammation and disease. Critical Reviews in Food Science and Nutrition, 2017, 57, 1593-1602.	10.3	21
43	Food allergy in schools: The importance of government involvement. Nutrition and Dietetics, 2017, 74, 82-87.	1.8	16
44	Is it possible to enhance the confidence of student dietitians prior to professional placements? A designâ€based research model. Journal of Human Nutrition and Dietetics, 2017, 30, 588-595.	2.5	13
45	Longitudinal changes in body composition and impact on self-reported physical function following traumatic brain injury. Australian Critical Care, 2017, 30, 112-113.	1.3	0
46	Developing research priorities in Australian primary health care: a focus on nutrition and physical activity. Australian Journal of Primary Health, 2017, 23, 554.	0.9	2
47	Implementation of cardiovascular disease prevention in primary health care: enhancing understanding using normalisation process theory. BMC Family Practice, 2017, 18, 28.	2.9	9
48	Effectiveness of Dietetic Consultations in Primary Health Care: A Systematic Review of Randomized Controlled Trials. Journal of the Academy of Nutrition and Dietetics, 2017, 117, 1941-1962.	0.8	138
49	Weekend days are not required to accurately measure oral intake in hospitalised patients. Journal of Human Nutrition and Dietetics, 2017, 30, 378-384.	2.5	2
50	Effects of short-term supplementation with bovine lactoferrin and/or immunoglobulins on body mass and metabolic measures: a randomised controlled trial. International Journal of Food Sciences and Nutrition, 2017, 68, 219-226.	2.8	2
51	Body Weight Status and Dietary Intakes of Urban Malay Primary School Children: Evidence from the Family Diet Study. Children, 2017, 4, 5.	1.5	14
52	Clinicians' views on parental involvement in the treatment of adolescent anorexia nervosa. Eating Disorders, 2016, 24, 393-411.	3.0	6
53	The Family Diet Study: a crossâ€sectional study into the associations between diet, food habits and body weight status in <scp>M</scp> alay families. Journal of Human Nutrition and Dietetics, 2016, 29, 441-448.	2.5	10
54	Association of BMI and interpregnancy BMI change with birth outcomes in an Australian obstetric population: a retrospective cohort study. BMJ Open, 2016, 6, e010667.	1.9	53

#	Article	IF	CITATIONS
55	Community-based lifestyle modification workforce: an underutilised asset for cardiovascular disease prevention. Australian Journal of Primary Health, 2016, 22, 327.	0.9	4
56	Research in dietetic practice and education: Insights from the sociological perspective. Nutrition and Dietetics, 2016, 73, 217-219.	1.8	6
57	The role of occupational therapists in the provision of dietary interventions for people with severe mental illness: Results from a national survey. British Journal of Occupational Therapy, 2016, 79, 442-449.	0.9	2
58	Energy and protein deficits throughout hospitalization in patients admitted with a traumatic brain injury. Clinical Nutrition, 2016, 35, 1315-1322.	5.0	94
59	The perspectives of obese women receiving antenatal care: A qualitative study of women's experiences. Women and Birth, 2016, 29, 189-195.	2.0	39
60	The 40‣omething Randomised Controlled Trial improved fruit intake and nutrient density of the diet in midâ€age women. Nutrition and Dietetics, 2015, 72, 316-326.	1.8	7
61	Student-Assisted Services (SAS): An Innovative Clinical Education Model that Prepares Graduates for the Future, Contributes to Health Service Delivery, and Addresses Internship Shortages. Journal of the Academy of Nutrition and Dietetics, 2015, 115, 351-352.	0.8	4
62	A taste of ethical consumption at a slow food festival. Appetite, 2015, 91, 321-328.	3.7	44
63	Aged care facilities and primary healthâ€care clinics provide appropriate settings for dietetic students to demonstrate individual case management clinical competence. Nutrition and Dietetics, 2015, 72, 54-62.	1.8	11
64	Credible and defensible assessment of entry-level clinical competence: Insights from a modified Delphi study. Focus on Health Professional Education, 2015, 16, 57.	0.8	2
65	Development and Pilot Testing of the Eating4two Mobile Phone App to Monitor Gestational Weight Gain. JMIR MHealth and UHealth, 2015, 3, e44.	3.7	65
66	Competency-Based Assessment for Clinical Supervisors: Design-Based Research on a Web-Delivered Program. JMIR Research Protocols, 2015, 4, e26.	1.0	6
67	Can a relatively low-intensity intervention by health professionals prevent weight gain in mid-age women? 12-Month outcomes of the 40-Something randomised controlled trial. Nutrition and Diabetes, 2014, 4, e116-e116.	3.2	29
68	Quality of dietary assessment methodology and reporting in epidemiology studies examining relationship between dietary outcome and childhood obesity in developing <scp>A</scp> sian countries: A systematic review. Nutrition and Dietetics, 2014, 71, 201-209.	1.8	4
69	Prevalence of Energy Intake Misreporting in Malay Children Varies Based on Application of Different Cut Points. Journal of Tropical Pediatrics, 2014, 60, 472-475.	1.5	3
70	The views and attitudes of health professionals providing antenatal care to women with a high BMI: A qualitative research study. Women and Birth, 2014, 27, 138-144.	2.0	38
71	Compliance to step count and vegetable serve recommendations mediates weight gain prevention in mid-age, premenopausal women. Findings of the 40-Something RCT. Appetite, 2014, 83, 33-41.	3.7	15
72	Nutrition therapy in the optimisation of health outcomes in adult patients with moderate to severe traumatic brain injury: Findings from a scoping review. Injury, 2014, 45, 1834-1841.	1.7	33

#	Article	IF	CITATIONS
73	Does Motivational Interviewing Align with International Scope of Practice, Professional Competency Standards, and Best Practice GuidelinesÂin Dietetics Practice?. Journal of the Academy of Nutrition and Dietetics, 2014, 114, 676-687.	0.8	8
74	Improving the Prevention of Cardiovascular Disease in Primary Health Care: The Model for Prevention Study Protocol. JMIR Research Protocols, 2014, 3, e33.	1.0	10
75	Client satisfaction and weight loss outcomes of student centred dietetic outpatient clinics. Obesity Research and Clinical Practice, 2013, 7, e421-e430.	1.8	8
76	Tyrosine supplementation as an adjunct treatment in anorexia nervosa – a noradrenergic repletion hypothesis. Advances in Eating Disorders (Abingdon, England), 2013, 1, 161-168.	0.7	3
77	The 40-Something randomized controlled trial to prevent weight gain in mid-age women. BMC Public Health, 2013, 13, 1007.	2.9	7
78	Does Milk Cause Constipation? A Crossover Dietary Trial. Nutrients, 2013, 5, 253-266.	4.1	29
79	How mental health occupational therapists address issues of diet with their clients: a qualitative study. Australian Occupational Therapy Journal, 2012, 59, 294-301.	1.1	9
80	How do mothers juggle the special dietary needs of one child while feeding the family? A qualitative exploration. Nutrition and Dietetics, 2012, 69, 272-277.	1.8	4
81	Portrayal of the Slow Food movement in the Australian print media. Journal of Sociology, 2011, 47, 89-106.	1.5	25
82	The effect of social class on mid-age women's weight control practices and weight gain. Appetite, 2011, 56, 719-725.	3.7	20
83	Private practice in rural areas: An untapped opportunity for dietitians. Australian Journal of Rural Health, 2011, 19, 191-196.	1.5	10
84	Going rural but not staying long: Recruitment and retention issues for the rural dietetic workforce in Australia. Nutrition and Dietetics, 2010, 67, 294-302.	1.8	21
85	Evidence for a role of cow's milk consumption in chronic functional constipation in children: Systematic review of the literature from 1980 to 2006. Nutrition and Dietetics, 2008, 65, 29-35.	1.8	7
86	A best practice dietetic service for rural patients with cancer undergoing chemotherapy: A pilot of a pseudo-randomised controlled trial. Nutrition and Dietetics, 2008, 65, 175-180.	1.8	9
87	Preventing weight gain: a population cohort study of the nature and effectiveness of mid-age women's weight control practices. International Journal of Obesity, 2007, 31, 978-986.	3.4	54
88	Profile of the Australian dietetic workforce: 1991–2005. Nutrition and Dietetics, 2006, 63, 166-178.	1.8	33
89	Weight gained in two years by a population of mid-aged women: how much is too much?. International Journal of Obesity, 2006, 30, 1229-1233.	3.4	28
90	ldentifying the Energy Gap: Magnitude and Determinants of 5â€Year Weight Gain in Midage Women. Obesity, 2005, 13, 1431-1441.	4.0	209

#	Article	IF	CITATIONS
91	The Epidemic of Dieting Women: The Need for a Sociological Approach to Food and Nutrition. Appetite, 1996, 27, 97-108.	3.7	88
92	The Sexual Division of Dieting: Women's Voices. Sociological Review, 1996, 44, 630-647.	1.6	29
