#	ARTICLE	IF	CITATIONS
1	Collaborative care for depression and anxiety problems. The Cochrane Library, 2012, 10, CD006525.	2.8	624
2	Understanding the implementation of complex interventions in health care: the normalization process model. BMC Health Services Research, 2007, 7, 148.	2.2	495
3	The treatment of somatization: Teaching techniques of reattribution. Journal of Psychosomatic Research, 1989, 33, 689-695.	2.6	209
4	Integrated primary care for patients with mental and physical multimorbidity: cluster randomised controlled trial of collaborative care for patients with depression comorbid with diabetes or cardiovascular disease. BMJ, The, 2015, 350, h638-h638.	6.0	200
5	Clinical effectiveness of collaborative care for depression in UK primary care (CADET): cluster randomised controlled trial. BMJ, The, 2013, 347, f4913-f4913.	6.0	173
6	Evaluating models of working at the interface between mental health services and primary care. British Journal of Psychiatry, 1997, 170, 6-11.	2.8	164
7	Characteristics of Effective Collaborative Care for Treatment of Depression: A Systematic Review and Meta-Regression of 74 Randomised Controlled Trials. PLoS ONE, 2014, 9, e108114.	2.5	158
8	What Do Patients Choose to Tell Their Doctors? Qualitative Analysis of Potential Barriers to Reattributing Medically Unexplained Symptoms. Journal of General Internal Medicine, 2009, 24, 443-449.	2.6	134
9	Access to primary mental health care for hard-to-reach groups: From "silent suffering" to "making it work". Social Science and Medicine, 2011, 72, 763-772.	3.8	118
10	Health technology assessment in its local contexts: studies of telehealthcare. Social Science and Medicine, 2003, 57, 697-710.	3.8	117
11	Why do General Practitioners Decline Training to Improve Management of Medically Unexplained Symptoms?. Journal of General Internal Medicine, 2007, 22, 565-571.	2.6	116
12	Cluster randomised controlled trial of training practices in reattribution for medically unexplained symptoms. British Journal of Psychiatry, 2007, 191, 536-542.	2.8	97
13	Peering through the barriers in GPs' explanations for declining to participate in research: the role of professional autonomy and the economy of time. Family Practice, 2007, 24, 269-275.	1.9	95
14	Evaluating STORM skills training for managing people at risk of suicide. Journal of Advanced Nursing, 2006, 54, 739-750.	3.3	84
15	Reattribution reconsidered: Narrative review and reflections on an educational intervention for medically unexplained symptoms in primary care settings. Journal of Psychosomatic Research, 2011, 71, 325-334.	2.6	83
16	The treatment of somatization: Evaluation of a teaching package with general practice trainees. Journal of Psychosomatic Research, 1989, 33, 697-703.	2.6	77
17	Teaching front-line health and voluntary workers to assess and manage suicidal patients. Journal of Affective Disorders, 1999, 52, 77-83.	4.1	74
18	General practitioners' views on reattribution for patients with medically unexplained symptoms: a questionnaire and qualitative study. BMC Family Practice, 2008, 9, 46.	2.9	74

#	ARTICLE	IF	CITATIONS
19	Access to mental health in primary care: A qualitative meta-synthesis of evidence from the experience of people from "hard to reach" groups. <i>Health (United Kingdom)</i> , 2012, 16, 76-104.	1.5	72
20	Why may older people with depression not present to primary care? Messages from secondary analysis of qualitative data. <i>Health and Social Care in the Community</i> , 2012, 20, 52-60.	1.6	68
21	Overt and covert barriers to the integration of primary and specialist mental health care. <i>Social Science and Medicine</i> , 2005, 61, 1785-1794.	3.8	67
22	Treatment of Patients With Somatized Mental Disorder: Effects of Reattribution Training on Outcomes Under the Direct Control of the Family Doctor. <i>Psychosomatics</i> , 2002, 43, 394-399.	2.5	64
23	Collaborative care approaches for people with severe mental illness. <i>The Cochrane Library</i> , 2013, , CD009531.	2.8	64
24	Developing a U.K. protocol for collaborative care: a qualitative study. <i>General Hospital Psychiatry</i> , 2006, 28, 296-305.	2.4	60
25	Capturing complexity: The case for a new classification system for mental disorders in primary care. <i>European Psychiatry</i> , 2008, 23, 469-476.	0.2	57
26	Qualitative study of patients' perceptions of the quality of care for depression in general practice. <i>British Journal of General Practice</i> , 2003, 53, 278-83.	1.4	57
27	What is the relationship between diabetes and depression? A qualitative meta-synthesis of patient experience of co-morbidity. <i>Chronic Illness</i> , 2011, 7, 239-252.	1.5	56
28	Facilitating professional liaison in collaborative care for depression in UK primary care; a qualitative study utilising normalisation process theory. <i>BMC Family Practice</i> , 2014, 15, 78.	2.9	54
29	What work has to be done to implement collaborative care for depression? Process evaluation of a trial utilizing the Normalization Process Model. <i>Implementation Science</i> , 2010, 5, 15.	6.9	53
30	Screening for anxiety, depression, and anxious depression in primary care: A field study for ICD-11 PHC. <i>Journal of Affective Disorders</i> , 2017, 213, 199-206.	4.1	53
31	Evaluation of a training package in the assessment and management of depression in primary care. <i>Medical Education</i> , 1998, 32, 190-198.	2.1	52
32	Delivering the WISE (Whole Systems Informing Self-Management Engagement) training package in primary care: learning from formative evaluation. <i>Implementation Science</i> , 2010, 5, 7.	6.9	49
33	Turning theory into practice: rationale, feasibility and external validity of an exploratory randomized controlled trial of training family practitioners in reattribution to manage patients with medically unexplained symptoms (the MUST). <i>General Hospital Psychiatry</i> , 2006, 28, 343-351.	2.4	46
34	The effects on suicide rates of an educational intervention for front-line health professionals with suicidal patients (the STORM Project). <i>Psychological Medicine</i> , 2005, 35, 957-960.	4.5	45
35	Long-term clinical and cost-effectiveness of collaborative care (versus usual care) for people with mental "physical multimorbidity: cluster-randomised trial. <i>British Journal of Psychiatry</i> , 2018, 213, 456-463.	2.8	44
36	Evaluation of a mental health training intervention for multidisciplinary teams in primary care in Brazil: a pre- and posttest study. <i>General Hospital Psychiatry</i> , 2013, 35, 304-308.	2.4	43

#	ARTICLE	IF	CITATIONS
37	Training general practitioners to detect and manage emotional disorders. <i>International Review of Psychiatry</i> , 1992, 4, 293-300.	2.8	42
38	Researching the mental health needs of hard-to-reach groups: managing multiple sources of evidence. <i>BMC Health Services Research</i> , 2009, 9, 226.	2.2	41
39	Clinical effectiveness and cost-effectiveness of collaborative care for depression in UK primary care (CADET): a cluster randomised controlled trial. <i>Health Technology Assessment</i> , 2016, 20, 1-192.	2.8	41
40	Beyond the limits of clinical governance? The case of mental health in English primary care. <i>BMC Health Services Research</i> , 2008, 8, 63.	2.2	39
41	Improving access to psychosocial interventions for common mental health problems in the United Kingdom: narrative review and development of a conceptual model for complex interventions. <i>BMC Health Services Research</i> , 2012, 12, 249.	2.2	39
42	Role of specialists in common chronic diseases. <i>BMJ: British Medical Journal</i> , 2005, 330, 651-653.	2.3	38
43	Cost-Effectiveness of Collaborative Care for Depression in UK Primary Care: Economic Evaluation of a Randomised Controlled Trial (CADET). <i>PLoS ONE</i> , 2014, 9, e104225.	2.5	38
44	“Getting back to normal”: the added value of an art-based programme in promoting “recovery” for common but chronic mental health problems. <i>Chronic Illness</i> , 2012, 8, 64-75.	1.5	37
45	Isolation, feeling “stuck” and loss of control: Understanding persistence of depression in British Pakistani women. <i>Journal of Affective Disorders</i> , 2011, 128, 49-55.	4.1	33
46	Effectiveness of collaborative care for depression in Italy. A randomized controlled trial. <i>General Hospital Psychiatry</i> , 2013, 35, 579-586.	2.4	33
47	Multiple somatic symptoms in primary care: A field study for ICD-11 PHC, WHO's revised classification of mental disorders in primary care settings. <i>Journal of Psychosomatic Research</i> , 2016, 91, 48-54.	2.6	33
48	NPM merger mania Lessons from an early case. <i>Public Management Review</i> , 2003, 5, 19-44.	4.9	31
49	Balint-Style Case Discussion Groups in Psychiatric Training: An Evaluation. <i>Academic Psychiatry</i> , 2009, 33, 198-203.	0.9	31
50	Collaborative Depression Trial (CADET): multi-centre randomised controlled trial of collaborative care for depression - study protocol. <i>BMC Health Services Research</i> , 2009, 9, 188.	2.2	30
51	Community Engagement in a complex intervention to improve access to primary mental health care for hard-to-reach groups. <i>Health Expectations</i> , 2015, 18, 2865-2879.	2.6	26
52	Development and evaluation of culturally sensitive psychosocial interventions for under-served people in primary care. <i>BMC Psychiatry</i> , 2014, 14, 217.	2.6	25
53	Dissemination and implementation of suicide prevention training in one Scottish region. <i>BMC Health Services Research</i> , 2008, 8, 246.	2.2	24
54	Collaborative Interventions for Circulation and Depression (COINCIDE): study protocol for a cluster randomized controlled trial of collaborative care for depression in people with diabetes and/or coronary heart disease. <i>Trials</i> , 2012, 13, 139.	1.6	24

#	ARTICLE	IF	CITATIONS
55	Some National Service Frameworks are more equal than others: Implementing clinical governance for mental health in primary care groups and trusts. <i>Journal of Mental Health</i> , 2002, 11, 199-212.	1.9	23
56	Powerlessness, Control, and Complexity: The Experience of Family Physicians in a Group Model HMO. <i>Annals of Family Medicine</i> , 2004, 2, 150-155.	1.9	23
57	Loss of doctor-to-doctor communication: Lessons from the reconfiguration of mental health services in England. <i>Journal of Health Services Research and Policy</i> , 2008, 13, 6-12.	1.7	23
58	Improvements to Suicide Prevention Training for Prison Staff in England and Wales. <i>Suicide and Life-Threatening Behavior</i> , 2008, 38, 708-713.	1.9	22
59	Identifying the patient perspective of the quality of mental healthcare for common chronic problems: a qualitative study. <i>Chronic Illness</i> , 2007, 3, 46-65.	1.5	21
60	Qualitative study of an intervention for depression among patients with diabetes: how can we optimize patient-professional interaction?. <i>Chronic Illness</i> , 2006, 2, 231-242.	1.5	19
61	Patients' experiences of receiving collaborative care for the treatment of depression in the UK: a qualitative investigation. <i>Mental Health in Family Medicine</i> , 2008, 5, 95-104.	0.2	19
62	Primary care mental health workers: role expectations, conflict and ambiguity. <i>Health and Social Care in the Community</i> , 2004, 12, 336-345.	1.6	18
63	Training Russian family physicians in mental health skills. <i>European Journal of General Practice</i> , 2008, 14, 19-22.	2.0	18
64	Core outcome sets for use in effectiveness trials involving people with bipolar and schizophrenia in a community-based setting (PARTNERS2): study protocol for the development of two core outcome sets. <i>Trials</i> , 2015, 16, 47.	1.6	18
65	Qualitative study of an educational intervention for GPs in the assessment and management of depression. <i>British Journal of General Practice</i> , 2005, 55, 854-9.	1.4	18
66	Serious Mental Illness and the Role of Primary Care. <i>Current Psychiatry Reports</i> , 2014, 16, 458.	4.5	17
67	Depression and diabetes: The role and impact of models of health care systems. <i>Journal of Affective Disorders</i> , 2012, 142, S80-S88.	4.1	15
68	Educating Family Physicians to Recognize and Manage Depression: Where are We Now?. <i>Canadian Journal of Psychiatry</i> , 2013, 58, 449-455.	1.9	15
69	An evaluation of the implementation of cascade training for suicide prevention during the "Choose Life"™ initiative in Scotland - utilizing Normalization Process Theory. <i>BMC Health Services Research</i> , 2019, 19, 588.	2.2	15
70	The role of relapse prevention for depression in collaborative care: A systematic review. <i>Journal of Affective Disorders</i> , 2020, 265, 618-644.	4.1	15
71	Qualitative study of an intervention for depression among patients with diabetes: how can we optimize patient-professional interaction?. <i>Chronic Illness</i> , 2006, 2, 231-242.	1.5	15
72	Aiming to improve the quality of primary mental health care: developing an intervention for underserved communities. <i>BMC Family Practice</i> , 2014, 15, 68.	2.9	14

#	ARTICLE	IF	CITATIONS
73	Evaluating a complex model designed to increase access to high quality primary mental health care for under-served groups: a multi-method study. <i>BMC Health Services Research</i> , 2016, 16, 58.	2.2	13
