| # | ARTICLE | IF | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1 | Breast cancer prognostic factors in the digital era: Comparison of Nottingham grade using whole slide images and glass slides. <i>Journal of Pathology Informatics</i> , 2019, 10, 11. | 1.7 | 19 |
| 2 | Complexities of perceived and actual performance in pathology interpretation: A comparison of cutaneous melanocytic skin and breast interpretations. <i>Journal of Cutaneous Pathology</i> , 2018, 45, 478-490. | 1.3 | 2 |
| 3 | An Assessment of Primary Care and Pulmonary Provider Perspectives on Lung Cancer Screening. <i>Annals of the American Thoracic Society</i> , 2018, 15, 69-75. | 3.2 | 68 |
| 4 | Malpractice Concerns, Defensive Medicine, and the Histopathology Diagnosis of Melanocytic Skin Lesions. <i>American Journal of Clinical Pathology</i> , 2018, 150, 338-345. | 0.7 | 17 |
| 5 | Pathologists' Use of Second Opinions in Interpretation of Melanocytic Cutaneous Lesions: Policies, Practices, and Perceptions. <i>Dermatologic Surgery</i> , 2018, 44, 177-185. | 0.8 | 11 |
| 6 | Characteristics and diagnostic performance of pathologists who enjoy interpreting melanocytic lesions. <i>Dermatology Online Journal</i> , 2018, 24, . | 0.5 | 0 |
| 7 | The Influence of Disease Severity of Preceding Clinical Cases on Pathologists'™ Medical Decision Making. <i>Medical Decision Making</i> , 2017, 37, 91-100. | 2.4 | 8 |
| 8 | Characteristics associated with requests by pathologists for second opinions on breast biopsies. <i>Journal of Clinical Pathology</i> , 2017, 70, 947-953. | 2.0 | 4 |
| 9 | The influence of tumor regression, solar elastosis, and patient age on pathologists'™ interpretation of melanocytic skin lesions. <i>Laboratory Investigation</i> , 2017, 97, 187-193. | 3.7 | 3 |
| 10 | The diagnostic challenge of low-grade ductal carcinoma in situ. <i>European Journal of Cancer</i> , 2017, 80, 39-47. | 2.8 | 32 |
| 11 | Surgical implications and variability in the use of the flat epithelial atypia diagnosis on breast biopsy specimens. <i>Breast</i> , 2017, 34, 34-43. | 2.2 | 14 |
| 12 | Diagnostic Reproducibility: What Happens When the Same Pathologist Interprets the Same Breast Biopsy Specimen at Two Points in Time?. <i>Annals of Surgical Oncology</i> , 2017, 24, 1234-1241. | 1.5 | 19 |
| 13 | Identifying and processing the gap between perceived and actual agreement in breast pathology interpretation. <i>Modern Pathology</i> , 2016, 29, 717-726. | 5.5 | 10 |
| 14 | Use of Digital Whole Slide Imaging in Dermatopathology. <i>Journal of Digital Imaging</i> , 2016, 29, 243-253. | 2.9 | 23 |
| 15 | Evaluation of the Melanocytic Pathology Assessment Tool and Hierarchy for Diagnosis (MPATH-Dx) classification scheme for diagnosis of cutaneous melanocytic neoplasms: Results from the International Melanoma Pathology Study Group. <i>Journal of the American Academy of Dermatology</i> , 2016, 75, 356-363. | 1.2 | 30 |
| 16 | Region of interest identification and diagnostic agreement in breast pathology. <i>Modern Pathology</i> , 2016, 29, 1004-1011. | 5.5 | 17 |
| 17 | The self-reported use of immunostains and cytogenetic testing in the diagnosis of melanoma by practicing U.S. pathologists of 10 selected states. <i>Journal of Cutaneous Pathology</i> , 2016, 43, 492-497. | 1.3 | 10 |
| 18 | How concerns and experiences with medical malpractice affect dermatopathologists' perceptions of their diagnostic practices when interpreting cutaneous melanocytic lesions. <i>Journal of the American Academy of Dermatology</i> , 2016, 74, 317-324.e8. | 1.2 | 32 |

| # | ARTICLE | IF | CITATIONS |
|----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Medical Malpractice Concerns and Defensive Medicine. American Journal of Clinical Pathology, 2015, 144, 916-922. | 0.7 | 36 |
| 20 | Demographic and practice characteristics of pathologists who enjoy breast tissue interpretation. Breast, 2015, 24, 107-111. | 2.2 | 2 |
| 21 | Second opinion in breast pathology: policy, practice and perception. Journal of Clinical Pathology, 2014, 67, 955-960. | 2.0 | 29 |
| 22 | Previous Myocardial Infarction as a Risk Factor for In-Hospital Cardiovascular Outcomes (from the Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 1694-1700. | 1.6 | 5 |
| 23 | Association of Age and Sex With Myocardial Infarction Symptom Presentation and In-Hospital Mortality. JAMA - Journal of the American Medical Association, 2012, 307, 813-22. | 7.4 | 541 |
| 24 | Renal failure and acute myocardial infarction: Clinical characteristics in patients with advanced chronic kidney disease, on dialysis, and without chronic kidney disease. A collaborative project of the United States Renal Data System/National Institutes of Health and the National Registry of Myocardial Infarction. American Heart Journal, 2012, 163, 399-406. | 2.7 | 110 |
| 25 | Differences in symptom presentation and hospital mortality according to type of acute myocardial infarction. American Heart Journal, 2012, 163, 572-579. | 2.7 | 70 |
| 26 | Atherosclerotic Risk Factors and Their Association With Hospital Mortality Among Patients With First Myocardial Infarction (from the National Registry of Myocardial Infarction). American Journal of Cardiology, 2012, 110, 1256-1261. | 1.6 | 42 |
| 27 | Association of initial Thrombolysis in Myocardial Infarction flow grade with mortality among patients with ST-segment elevation myocardial infarction undergoing primary percutaneous coronary intervention: A National Registry of Myocardial Infarction-5 (NRM1-5) analysis. American Heart Journal, 2011, 162, 178-183. | 2.7 | 10 |
| 28 | Number of Coronary Heart Disease Risk Factors and Mortality in Patients With First Myocardial Infarction. JAMA - Journal of the American Medical Association, 2011, 306, 2120-7. | 7.4 | 187 |
| 29 | Benefit of Transferring ST-Segmentâ€“Elevation Myocardial Infarction Patients for Percutaneous Coronary Intervention Compared With Administration of Onsite Fibrinolytic Declines as Delays Increase. Circulation, 2011, 124, 2512-2521. | 1.6 | 155 |
| 30 | Outcomes Among Patients With ST-Segmentâ€“Elevation Myocardial Infarction Presenting to Interventional Hospitals With and Without On-Site Cardiac Surgery. Circulation: Cardiovascular Quality and Outcomes, 2009, 2, 574-582. | 2.2 | 32 |
| 31 | Choice of Reperfusion Strategy at Hospitals With Primary Percutaneous Coronary Intervention. Circulation, 2009, 120, 2455-2461. | 1.6 | 24 |
| 32 | Outcomes Among Patients With Nonâ€“ST-Segment Elevation Myocardial Infarction Presenting to Interventional Hospitals With and Without On-Site Cardiac Surgery. JACC: Cardiovascular Interventions, 2009, 2, 944-952. | 2.9 | 17 |
| 33 | Trends in the use of lipid-lowering medications at discharge in patients with acute myocardial infarction: 1998 to 2006. American Heart Journal, 2009, 157, 185-194.e2. | 2.7 | 25 |
| 34 | Is Coding for Myocardial Infarction More Accurate Now That Coding Descriptions Have Been Clarified to Distinguish ST-Elevation Myocardial Infarction from Non-ST Elevation Myocardial Infarction?. American Journal of Cardiology, 2008, 102, 513-517. | 1.6 | 28 |
| 35 | Trends in reperfusion strategies, door-to-needle and door-to-balloon times, and in-hospital mortality among patients with ST-segment elevation myocardial infarction enrolled in the National Registry of Myocardial Infarction from 1990 to 2006. American Heart Journal, 2008, 156, 1035-1044. | 2.7 | 240 |
| 36 | Trends in presenting characteristics and hospital mortality among patients with ST elevation and non-ST elevation myocardial infarction in the National Registry of Myocardial Infarction from 1990 to 2006. American Heart Journal, 2008, 156, 1026-1034. | 2.7 | 350 |

| # | ARTICLE | IF | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 37 | Clinical Characteristics of Dialysis Patients With Acute Myocardial Infarction in the United States. <i>Circulation</i> , 2007, 116, 1465-1472. | 1.6 | 190 |
| 38 | Current incidence and clinical outcomes of bivalirudin administration among patients undergoing primary coronary intervention for stent thrombosis elevation acute myocardial infarction. <i>Coronary Artery Disease</i> , 2007, 18, 141-148. | 0.7 | 13 |
| 39 | Impact of Delay in Door-to-Needle Time on Mortality in Patients With ST-Segment Elevation Myocardial Infarction. <i>American Journal of Cardiology</i> , 2007, 100, 1227-1232. | 1.6 | 56 |
| 40 | Effect of Door-to-Balloon Time on Mortality in Patients With ST-Segment Elevation Myocardial Infarction. <i>Journal of the American College of Cardiology</i> , 2006, 47, 2180-2186. | 2.8 | 676 |
| 41 | Application of the Thrombolysis In Myocardial Infarction Risk Index in Non-ST-Segment Elevation Myocardial Infarction. <i>Journal of the American College of Cardiology</i> , 2006, 47, 1553-1558. | 2.8 | 53 |
| 42 | Impact of Pregnancy on Women With Cystic Fibrosis. <i>Chest</i> , 2006, 129, 706-711. | 0.8 | 165 |
| 43 | Missed Diagnosis of the Diagnosis Codes. <i>Critical Pathways in Cardiology</i> , 2006, 5, 59-63. | 0.5 | 4 |
| 44 | Early Coronary Revascularization Diminishes the Risk of Ischemic Stroke With Acute Myocardial Infarction. <i>Stroke</i> , 2006, 37, 2546-2551. | 2.0 | 21 |
| 45 | Hospital Delays in Reperfusion for ST-Elevation Myocardial Infarction. <i>Circulation</i> , 2006, 114, 2019-2025. | 1.6 | 472 |
| 46 | Quality Improvement Efforts and Hospital Performance. <i>Medical Care</i> , 2005, 43, 282-292. | 2.4 | 105 |
| 47 | ST-segment depression on the initial electrocardiogram in acute myocardial infarction—prognostic significance and its effect on short-term mortality: A report from the National Registry of Myocardial Infarction (NRM-2, 3, 4). <i>American Journal of Cardiology</i> , 2005, 95, 843-848. | 1.6 | 14 |
| 48 | Use of Combination Evidence-Based Medical Therapy Prior to Acute Myocardial Infarction (from the) <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 5</i> | 1.6 | 8 |
| 49 | Outcome in Patients Transferred for Percutaneous Coronary Intervention (A National Registry of) <i>Tj ETQq1 1 0.784314 rgBT /Overlock 46</i> | 1.6 | 46 |
| 50 | Trends in Management and Outcomes of Patients With Acute Myocardial Infarction Complicated by Cardiogenic Shock. <i>JAMA - Journal of the American Medical Association</i> , 2005, 294, 448. | 7.4 | 581 |
| 51 | Racial differences in reperfusion therapy use in patients hospitalized with myocardial infarction: A regional phenomenon. <i>American Heart Journal</i> , 2005, 149, 1074-1081. | 2.7 | 9 |
| 52 | Sex and Racial Differences in the Management of Acute Myocardial Infarction, 1994 through 2002. <i>New England Journal of Medicine</i> , 2005, 353, 671-682. | 27.0 | 482 |
| 53 | Early Withdrawal of Statin Therapy in Patients With Non-ST-Segment Elevation Myocardial Infarction<subtitle>National Registry of Myocardial Infarction</subtitle>. <i>Archives of Internal Medicine</i> , 2004, 164, 2162. | 3.8 | 104 |
| 54 | Comparability of quality-of-care indicators for emergency coronary angioplasty in patients with acute myocardial infarction regardless of on-site cardiac surgery (report from the National Registry of) <i>Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 5</i> | 1.6 | 10 |

| # | ARTICLE | IF | CITATIONS |
|----|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|-----------|
| 55 | Performance of the thrombolysis in myocardial infarction risk index in the National Registry of Myocardial Infarction-3 and -4. <i>Journal of the American College of Cardiology</i> , 2004, 44, 783-789. | 2.8 | 48 |
| 56 | Hospital-Level Performance Improvement. <i>Medical Care</i> , 2004, 42, 591-599. | 2.4 | 26 |
| 57 | Performance of the thrombolysis in myocardial infarction risk index in the National Registry of Myocardial Infarction-3 and -4A simple index that predicts mortality in ST-segment elevation myocardial infarction. <i>Journal of the American College of Cardiology</i> , 2004, 44, 783-789. | 2.8 | 81 |
| 58 | Hospital Performance With Myocardial Reperfusion Therapy. <i>Critical Pathways in Cardiology</i> , 2003, 2, 197-206. | 0.5 | 4 |
| 59 | What Are Hospitals Doing to Increase Beta-Blocker Use?. <i>Joint Commission Journal on Quality and Safety</i> , 2003, 29, 409-415. | 1.3 | 8 |
| 60 | Use of Emergency Medical Services in Acute Myocardial Infarction and Subsequent Quality of Care. <i>Circulation</i> , 2002, 106, 3018-3023. | 1.6 | 259 |
| 61 | The Association of Sex and Payer Status on Management and Subsequent Survival in Acute Myocardial Infarction. <i>Archives of Internal Medicine</i> , 2002, 162, 587. | 3.8 | 19 |
| 62 | Inhospital outcome of acute myocardial infarction in patients with prior coronary artery bypass surgery. <i>American Heart Journal</i> , 2002, 144, 463-469. | 2.7 | 22 |
| 63 | Predictors of door-to-balloon delay in primary angioplasty. <i>American Journal of Cardiology</i> , 2002, 89, 1156-1161. | 1.6 | 147 |
| 64 | Hormone therapy and the risk of stroke after acute myocardial infarction in postmenopausal women11A complete listing of registry hospitals is available from STATProbe, Inc., Lexington, Kentucky.. <i>Journal of the American College of Cardiology</i> , 2001, 38, 1297-1301. | 2.8 | 32 |
| 65 | Age and the utilization of cardiac catheterization following uncomplicated first acute myocardial infarction treated with thrombolytic therapy (The Second National Registry of Myocardial Infarction) Tj ETQq1 1 0.784314 rgr8 / Over | 1.6 | 109 |
| 66 | Hormone Therapy and In-Hospital Survival After Myocardial Infarction in Postmenopausal Women. <i>Circulation</i> , 2001, 104, 2300-2304. | 1.6 | 109 |
| 67 | The Volume of Primary Angioplasty Procedures and Survival after Acute Myocardial Infarction. <i>New England Journal of Medicine</i> , 2000, 342, 1573-1580. | 27.0 | 352 |
| 68 | Treatment and outcomes of left bundle-branch block patients with myocardial infarction who present without chest pain. <i>Journal of the American College of Cardiology</i> , 2000, 36, 706-712. | 2.8 | 42 |
| 69 | Temporal trends in the treatment of over 1.5 million patients with myocardial infarction in the U.S. from 1990 through 1999. <i>Journal of the American College of Cardiology</i> , 2000, 36, 2056-2063. | 2.8 | 610 |
| 70 | A comparison of the National Registry of Myocardial Infarction 2 with the Cooperative Cardiovascular Project. <i>Journal of the American College of Cardiology</i> , 1999, 33, 1886-1894. | 2.8 | 113 |
| 71 | A survey of hospital infection control policies and employee measles cases during Los Angeles County's measles epidemic, 1987 to 1989. <i>American Journal of Infection Control</i> , 1992, 20, 301-304. | 2.3 | 9 |
