#	ARTICLE	IF	CITATIONS
1	Reasons why patients referred to diabetes education programmes choose not to attend: a systematic review. <i>Diabetic Medicine</i> , 2017, 34, 14-26.	2.3	174
2	Self-management of chronic illness: implications for nursing. <i>International Journal of Nursing Studies</i> , 1995, 32, 628-640.	5.6	51
3	Management and quality indicators of diabetes mellitus in people with intellectual disabilities. <i>Journal of Intellectual Disability Research</i> , 2013, 57, 1152-1163.	2.0	50
4	Views of Caregivers on the Ethics of Assistive Technology Used for Home Surveillance of People Living with Dementia. <i>Neuroethics</i> , 2017, 10, 255-266.	2.8	41
5	A systematic review of the methodological and practical challenges of undertaking randomised-controlled trials with cognitive disability populations. <i>Social Science and Medicine</i> , 2018, 200, 114-128.	3.8	36
6	The influence of psychological factors on the self-management of insulin-dependent diabetes mellitus. <i>Journal of Advanced Nursing</i> , 1998, 27, 528-537.	3.3	34
7	Randomised controlled trial of a tailored information pack for patients undergoing surgery and treatment for rectal cancer. <i>European Journal of Oncology Nursing</i> , 2014, 18, 183-191.	2.1	30
8	Impact of the COVID-19 pandemic on family carers in the community: A scoping review. <i>Health and Social Care in the Community</i> , 2022, 30, 1275-1285.	1.6	29
9	Pilot feasibility study examining a structured self-management diabetes education programme, <scp>DESMOND</scp> & <scp>ID</scp>, targeting HbA_{1c} in adults with intellectual disabilities. <i>Diabetic Medicine</i> , 2018, 35, 137-146.	2.3	25
10	Exploring organizational support for the provision of structured self-management education for people with Type 2 diabetes: findings from a qualitative study. <i>Diabetic Medicine</i> , 2019, 36, 761-770.	2.3	19
11	A study protocol for a pilot randomised trial of a structured education programme for the self-management of Type 2 diabetes for adults with intellectual disabilities. <i>Trials</i> , 2015, 16, 148.	1.6	16
12	Exploring why young people with Type 1 diabetes decline structured education with a view to overcoming barriers. <i>Diabetic Medicine</i> , 2017, 34, 1092-1099.	2.3	15
13	An evaluation of the effectiveness of self-management interventions for people with type 2 diabetes after an acute coronary syndrome: a systematic review. <i>Journal of Clinical Nursing</i> , 2017, 26, 1458-1472.	3.0	12
14	Declining structured diabetes education in those with type 2 diabetes: A plethora of individual and organisational reasons. <i>Patient Education and Counseling</i> , 2018, 101, 696-702.	2.2	10
15	Florence Nightingale's legacy for clinical academics: A framework analysis of a clinical professorial network and a model for clinical academia. <i>Journal of Clinical Nursing</i> , 2022, 31, 353-361.	3.0	10
16	Comparing patient generated blood glucose diary records with meter memory in type 2 diabetes. <i>Diabetes Research and Clinical Practice</i> , 2014, 104, 358-362.	2.8	9
17	Using a Delphi survey to gain an international consensus on the challenges of conducting trials with adults with intellectual disabilities. <i>Clinical Trials</i> , 2020, 17, 138-146.	1.6	9
18	â€œWhatâ€™s the Point?â€ Understanding Why People With Type 2 Diabetes Decline Structured Education. <i>Clinical Diabetes</i> , 2020, 38, 166-175.	2.2	9

#	ARTICLE	IF	CITATIONS
19	An evaluation of multi-professional education in diabetes. <i>Journal of Interprofessional Care</i> , 2008, 22, 295-307.	1.7	6
20	The RCT: a very beautiful technique. <i>Practical Diabetes International: the International Journal for Diabetes Care Teams Worldwide</i> , 2010, 27, 27-31.	0.2	4
21	Hypoglycaemia risk among a hospitalised stroke patient cohort: A case for increased vigilance in glucose monitoring. <i>Journal of Clinical Neuroscience</i> , 2014, 21, 232-235.	1.5	4
22	Moderating the relationship between diabetes distress and mastery: the role of depression and empowerment. <i>Psychology, Health and Medicine</i> , 2022, 27, 838-847.	2.4	4
23	Using qualitative data to enhance our understanding of the reasons young people decline Structured Diabetes Education programmes. <i>Journal of Clinical Nursing</i> , 2018, 27, 3139-3147.	3.0	3
24	Patient and service-related barriers and facilitators to the acceptance and use of interventions to promote communication in health and social care: a realist review. <i>BMC Health Services Research</i> , 2020, 20, 503.	2.2	3
25	Use of Continuous Glucose Monitoring in Non-ICU Hospital Settings for People With Diabetes: A Scoping Review of Emerging Benefits and Issues. <i>Journal of Diabetes Science and Technology</i> , 2023, 17, 467-473.	2.2	3
26	Teaching microcomputing to student nurses: an evaluation. <i>Journal of Advanced Nursing</i> , 1989, 14, 152-157.	3.3	2
27	Functional health patterns applied to palliative care: a case study. <i>International Journal of Palliative Nursing</i> , 1997, 3, 324-329.	0.5	2
28	Commentary on Whittemore R, Melkus GD & Grey M (2005) Metabolic control, self-management and psychosocial adjustment in women with type 2 diabetes. <i>Journal of Clinical Nursing</i> 14, 195-203. <i>Journal of Clinical Nursing</i> , 2006, 15, 234-236.	3.0	2
29	Acceptability and use of a patient-held communication tool for people living with dementia: a longitudinal qualitative study. <i>BMJ Open</i> , 2020, 10, e036249.	1.9	2
30	Challenges to conducting randomised controlled trials with adults with intellectual disabilities: Experiences of international experts. <i>Journal of Applied Research in Intellectual Disabilities</i> , 2021, 34, 891-904.	2.0	2
31	Reducing unscheduled hospital care for adults with diabetes following a hypoglycaemic event: which community-based interventions are most effective? A systematic review. <i>Journal of Diabetes and Metabolic Disorders</i> , 2021, 20, 1033-1050.	1.9	2
32	Factors influencing hospital conveyance following ambulance attendance for people with diabetes: A retrospective observational study. <i>Diabetic Medicine</i> , 2021, 38, e14384.	2.3	1
33	Exploring variation in ambulance calls and conveyance rates for adults with diabetes mellitus who contact the Northern Ireland Ambulance Service: a retrospective database analysis. <i>British Paramedic Journal</i> , 2021, 6, 15-23.	0.8	1
34	Redefining avoidable and inappropriate admissions. <i>Public Health</i> , 2022, 202, 66-73.	2.9	1
35	Overcoming Barriers to Injectable Therapies: Development of the ORBIT Intervention Within a Behavioural Change Framework. <i>Frontiers in Clinical Diabetes and Healthcare</i> , 2021, 2, .	0.8	1
36	Health professionals' ability to recognise body weight status of adults and children: the outcomes of the Weight Care Project, an all-Ireland study. <i>Proceedings of the Nutrition Society</i> , 2012, 71, .	1.0	0

#	ARTICLE	IF	CITATIONS
37	Progression to unscheduled hospital admissions in people with diabetes: a qualitative interview study. <i>BJGP Open</i> , 2021, 5, BJGPO.2021.0044.	1.8	0
38	Women's experiences when caring for relatives with mental illness in Northern Ireland: A qualitative study. <i>Health and Social Care in the Community</i> , 2021, , .	1.6	0
39	Duty of care trumps utilitarianism in multi-professional obesity management decisions. <i>Nursing Ethics</i> , 0, , 096973302210757.	3.4	0
