#	Article	IF	CITATIONS
1	Effects of a Functional Therapy Program on Motor Abilities of Children With Cerebral Palsy. Physical Therapy, 2001, 81, 1534-1545.	1.1	374
2	Exercise Training Program in Children and Adolescents With Cerebral Palsy: A Randomized Controlled Trial. JAMA Pediatrics, 2007, 161, 1075-1081.	3.6	252
3	Poststroke Fatigue: Course and Its Relation to Personal and Stroke-Related Factors. Archives of Physical Medicine and Rehabilitation, 2006, 87, 184-188.	0.5	211
4	Goal attainment scaling in paediatric rehabilitation: a critical review of the literature. Developmental Medicine and Child Neurology, 2007, 49, 550-556.	1.1	186
5	Capacity, Capability, and Performance: Different Constructs or Three of a Kind?. Archives of Physical Medicine and Rehabilitation, 2009, 90, 849-855.	0.5	184
6	Participation and social participation: are they distinct concepts?. Clinical Rehabilitation, 2014, 28, 211-220.	1.0	164
7	What influences participation in leisure activities of children and youth with physical disabilities? A systematic review. Research in Developmental Disabilities, 2011, 32, 1521-1529.	1.2	163
8	Functional motor abilities of children with cerebral palsy: a systematic literature review of assessment measures. Clinical Rehabilitation, 1998, 12, 369-380.	1.0	151
9	Identification of Facilitators and Barriers to Physical Activity in Children and Adolescents with Cerebral Palsy. Journal of Pediatrics, 2012, 161, 488-494.	0.9	149
10	Exercise Programs for Children with Cerebral Palsy. American Journal of Physical Medicine and Rehabilitation, 2008, 87, 404-417.	0.7	147
11	Use of the GMFCS in infants with CP: the need for reclassification at age 2 years or older. Developmental Medicine and Child Neurology, 2009, 51, 46-52.	1.1	125
12	Muscle Strengthening in Children and Adolescents With Spastic Cerebral Palsy: Considerations for Future Resistance Training Protocols. Physical Therapy, 2011, 91, 1130-1139.	1.1	119
13	Reliability of hand-held dynamometry and functional strength tests for the lower extremity in children with Cerebral Palsy. Disability and Rehabilitation, 2008, 30, 1358-1366.	0.9	112
14	Parents of children with cerebral palsy: a review of factors related to the process of adaptation. Child: Care, Health and Development, 2007, 33, 161-169.	0.8	111
15	Responsiveness of Goal Attainment Scaling in comparison to two standardized measures in outcome evaluation of children with cerebral palsy. Clinical Rehabilitation, 2011, 25, 1128-1139.	1.0	110
16	Comparing contents of functional outcome measures in stroke rehabilitation using the International Classification of Functioning, Disability and Health. Disability and Rehabilitation, 2007, 29, 221-230.	0.9	106
17	Reliability and Validity of Data for 2 Newly Developed Shuttle Run Tests in Children With Cerebral Palsy. Physical Therapy, 2006, 86, 1107-1117.	1.1	103
18	Responsiveness of evaluative measures for children with cerebral palsy: The Gross Motor Function Measure and the Pediatric Evaluation of Disability Inventory. Disability and Rehabilitation, 2005, 27, 1245-1252.	0.9	101

#	Article	IF	CITATIONS
19	Reliability for Running Tests for Measuring Agility and Anaerobic Muscle Power in Children and Adolescents with Cerebal Palsy. Pediatric Physical Therapy, 2007, 19, 108-115.	0.3	99
20	Designing a tool to support patient and public involvement in research projects: the Involvement Matrix. Research Involvement and Engagement, 2020, 6, 30.	1.1	97
21	Stress in parents of children with cerebral palsy: what sources of stress are we talking about?. Child: Care, Health and Development, 2008, 34, 825-829.	0.8	89
22	Cross-cultural validation and psychometric evaluation of the Dutch language version of the Children's Assessment of Participation and Enjoyment (CAPE) in children with and without physical disabilities. Clinical Rehabilitation, 2010, 24, 843-853.	1.0	71
23	Stages of change in physical activity behavior in children and adolescents with cerebral palsy. Disability and Rehabilitation, 2013, 35, 1630-1635.	0.9	71
24	Health-related quality-of-life measures for long-term follow-up in children after major trauma. Quality of Life Research, 2008, 17, 701-713.	1.5	67
25	Interrater Reliability of Goal Attainment Scaling in Rehabilitation of Children With Cerebral Palsy. Archives of Physical Medicine and Rehabilitation, 2010, 91, 429-435.	0.5	67
26	Parents' reactions to the diagnosis of cerebral palsy: associations between resolution, age and severity of disability. Child: Care, Health and Development, 2009, 35, 673-680.	0.8	66
27	Relationship between gross motor capacity and dailyâ€life mobility in children with cerebral palsy. Developmental Medicine and Child Neurology, 2010, 52, e60-6.	1.1	66
28	Development of daily activities in school-age children with cerebral palsy. Research in Developmental Disabilities, 2011, 32, 222-234.	1.2	64
29	Health-Enhancing Physical Activity in Children With Cerebral Palsy: More of the Same Is Not Enough. Physical Therapy, 2014, 94, 297-305.	1.1	63
30	Functional recovery differs between ischaemic and haemorrhagic stroke patients. Journal of Rehabilitation Medicine, 2008, 40, 487-489.	0.8	62
31	Parents' actions, challenges, and needs while enabling participation of children with a physical disability: a scoping review. BMC Pediatrics, 2012, 12, 177.	0.7	60
32	Goal Attainment Scaling in paediatric rehabilitation: a report on the clinical training of an interdisciplinary team. Child: Care, Health and Development, 2008, 34, 521-529.	0.8	59
33	Prediction of Social Activity 1 Year Poststroke. Archives of Physical Medicine and Rehabilitation, 2005, 86, 1472-1476.	0.5	56
34	Promoting the Use of Measurement Tools in Practice: A Mixed-Methods Study of the Activities and Experiences of Physical Therapist Knowledge Brokers. Physical Therapy, 2010, 90, 1580-1590.	1.1	55
35	Information seeking by parents of children with physical disabilities: An exploratory qualitative study. Research in Developmental Disabilities, 2017, 60, 125-134.	1.2	53
36	An international comparison of patterns of participation in leisure activities for children with and without disabilities in Sweden, Norway and the Netherlands. Developmental Neurorehabilitation, 2012, 15, 369-385.	0.5	52

#	Article	IF	CITATIONS
37	Parents' experiences with physical and occupational therapy for their young child with cerebral palsy: a mixed studies review. Child: Care, Health and Development, 2014, 40, 787-796.	0.8	52
38	Promoting Leisure Participation as Part of Health and Well-Being in Children and Youth With Cerebral Palsy. Journal of Child Neurology, 2014, 29, 1125-1133.	0.7	50
39	Relation between physical fitness and gross motor capacity in children and adolescents with cerebral palsy. Developmental Medicine and Child Neurology, 2009, 51, 866-871.	1.1	48
40	Identification of a core set of exercise tests for children and adolescents with cerebral palsy: a Delphi survey of researchers and clinicians. Developmental Medicine and Child Neurology, 2011, 53, 449-456.	1.1	48
41	Classification of manual abilities in children with cerebral palsy under 5 years of age: how reliable is the Manual Ability Classification System?. Clinical Rehabilitation, 2009, 23, 164-170.	1.0	46
42	Developmental Trajectories of Daily Activities in Children and Adolescents With Cerebral Palsy. Pediatrics, 2013, 132, e915-e923.	1.0	46
43	Responsiveness of functional health status measures frequently used in stroke research. Disability and Rehabilitation, 2006, 28, 1035-1040.	0.9	45
44	Parent participation in paediatric rehabilitation treatment centres in the Netherlands: a parents' viewpoint. Child: Care, Health and Development, 2007, 33, 196-205.	0.8	45
45	The Challenge of Moving Evidence-Based Measures into Clinical Practice: Lessons in Knowledge Translation. Physical and Occupational Therapy in Pediatrics, 2008, 28, 191-206.	0.8	43
46	Parents' experiences and needs regarding physical and occupational therapy for their young children with cerebral palsy. Research in Developmental Disabilities, 2016, 53-54, 314-322.	1.2	43
47	The measure of processes of care (MPOC): validation of the Dutch translation. Child: Care, Health and Development, 2004, 30, 529-539.	0.8	41
48	Children's adjustment to a parent's stroke: determinants of health status and psychological problems, and the role of support from the rehabilitation team. Journal of Rehabilitation Medicine, 2005, 37, 236-241.	0.8	41
49	Gamification in Physical Therapy: More Than Using Games. Pediatric Physical Therapy, 2017, 29, 95-99.	0.3	41
50	Parental experience of participation in physical therapy for children with physical disabilities. Developmental Medicine and Child Neurology, 2003, 45, 58-69.	1.1	39
51	Manual Ability Classification System for Children With Cerebral Palsy in a School Setting and Its Relationship to Home Self-Care Activities. American Journal of Occupational Therapy, 2010, 64, 614-620.	0.1	39
52	Participation and Quality of Life in Children and Adolescents with Congenital Limb Deficiencies. Prosthetics and Orthotics International, 2010, 34, 351-361.	0.5	37
53	Reproducibility and Validity of the 10-Meter Shuttle Ride Test in Wheelchair-Using Children and Adolescents With Cerebral Palsy. Physical Therapy, 2013, 93, 967-974.	1.1	36
54	How Do Changes in Motor Capacity, Motor Capability, and Motor Performance Relate in Children and Adolescents With Cerebral Palsy?. Archives of Physical Medicine and Rehabilitation, 2014, 95, 1577-1584.	0.5	36

#	Article	IF	CITATIONS
55	Longitudinal development of gross motor function among <scp>D</scp> utch children and young adults with cerebral palsy: an investigation of motor growth curves. Developmental Medicine and Child Neurology, 2013, 55, 378-384.	1.1	35
56	Predicting leisure participation of schoolâ€aged children with cerebral palsy: longitudinal evidence of child, family and environmental factors. Child: Care, Health and Development, 2013, 39, 374-380.	0.8	34
57	Assessment of family needs in children with physical disabilities: development of a family needs inventory. Child: Care, Health and Development, 2014, 40, 498-506.	0.8	33
58	Developmental Trajectories of Mobility and Self-Care Capabilities in Young Children with Cerebral Palsy. Journal of Pediatrics, 2014, 164, 769-774.e2.	0.9	33
59	Developmental trajectories of social participation in individuals with cerebral palsy: a multicentre longitudinal study. Developmental Medicine and Child Neurology, 2014, 56, 370-377.	1.1	32
60	Family-centred services in the Netherlands: validating a self-report measure for paediatric service providers. Clinical Rehabilitation, 2006, 20, 502-512.	1.0	31
61	The relationship between spasticity in young children (18 months of age) with cerebral palsy and their gross motor function development. BMC Musculoskeletal Disorders, 2009, 10, 108.	0.8	30
62	Factors contributing to the longitudinal development of social participation in individuals with cerebral palsy. Research in Developmental Disabilities, 2016, 57, 125-135.	1.2	30
63	Participation in physical play and leisure: developing a theory- and evidence-based intervention for children with motor impairments. BMC Pediatrics, 2011, 11, 100.	0.7	29
64	Selecting the appropriate outcome in paediatric physical therapy; how individual treatment goals of children with cerebral palsy are reflected in GMFM-88 and PEDI. Acta Dermato-Venereologica, 2007, 39, 225-231.	0.6	28
65	Arithmetic performance of children with cerebral palsy: The influence of cognitive and motor factors. Research in Developmental Disabilities, 2012, 33, 530-537.	1.2	28
66	Sjögren–Larsson syndrome: motor performance and everyday functioning in 17 patients. Developmental Medicine and Child Neurology, 2008, 50, 38-43.	1.1	27
67	Longâ€ŧerm course of difficulty in participation of individuals with cerebral palsy aged 16 to 34 years: a prospective cohort study. Developmental Medicine and Child Neurology, 2019, 61, 194-203.	1.1	27
68	Transparency and tuning of rehabilitation care for children with cerebral palsy: A multiple case study in five children with complex needs. Developmental Neurorehabilitation, 2007, 10, 193-204.	0.5	26
69	Parental Reactions Following the Diagnosis of Cerebral Palsy in Their Young Child. Journal of Pediatric Psychology, 2009, 34, 671-676.	1.1	26
70	Shortâ€ŧerm changes in parents' resolution regarding their young child's diagnosis of cerebral palsy. Child: Care, Health and Development, 2010, 36, 703-708.	0.8	26
71	Participation and health-related quality of life of Dutch children and adolescents with congenital lower limb deficiencies. Journal of Rehabilitation Medicine, 2011, 43, 584-589.	0.8	26
72	Development of nonâ€verbal intellectual capacity in schoolâ€age children with cerebral palsy. Journal of Intellectual Disability Research, 2011, 55, 550-562.	1.2	26

#	Article	IF	CITATIONS
73	Personal and environmental factors contributing to participation in romantic relationships and sexual activity of young adults with cerebral palsy. Disability and Rehabilitation, 2012, 34, 1481-1487.	0.9	26
74	Provided support, caregiver burden and well-being in partners of persons with spinal cord injury 5 years after discharge from first inpatient rehabilitation. Spinal Cord, 2018, 56, 436-446.	0.9	26
75	How do adolescents with cerebral palsy participate? Learning from their personal experiences. Health Expectations, 2018, 21, 1024-1034.	1.1	26
76	Long-term health condition in major pediatric trauma: a pilot study. Journal of Pediatric Surgery, 2009, 44, 1591-1600.	0.8	25
77	Selective motor control of the lower extremities in children with cerebral palsy: Inter-rater reliability of two tests. Developmental Neurorehabilitation, 2010, 13, 258-265.	0.5	25
78	Long-Term Trajectories of Health-Related Quality of Life in Individuals With Cerebral Palsy: A Multicenter Longitudinal Study. Archives of Physical Medicine and Rehabilitation, 2014, 95, 2029-2039.	0.5	25
79	Efficacy of three therapy approaches in preschool children with cerebral palsy: a randomized controlled trial. Developmental Medicine and Child Neurology, 2016, 58, 758-766.	1.1	25
80	Quality of paediatric rehabilitation from the parent perspective: validation of the short Measure of Processes of Care (MPOC-20) in the Netherlands. Clinical Rehabilitation, 2007, 21, 62-72.	1.0	24
81	Do children participate in the activities they prefer? A comparison of children and youth with and without physical disabilities. Clinical Rehabilitation, 2014, 28, 388-396.	1.0	24
82	Reliability and validity of shortâ€ŧerm performance tests for wheelchairâ€using children and adolescents with cerebral palsy. Developmental Medicine and Child Neurology, 2013, 55, 1129-1135.	1.1	23
83	What do parents need to enhance participation of their schoolâ€aged child with a physical disability? A crossâ€sectional study in the <scp>N</scp> etherlands. Child: Care, Health and Development, 2015, 41, 84-92.	0.8	23
84	Association between motor and mental functioning in toddlers with cerebral palsy. Developmental Neurorehabilitation, 2008, 11, 276-282.	0.5	22
85	Sleep problems in children with cerebral palsy and their parents. Developmental Medicine and Child Neurology, 2021, 63, 1344-1350.	1.1	22
86	Assessing participation of children with acquired brain injury and cerebral palsy: a systematic review of measurement properties. Developmental Medicine and Child Neurology, 2020, 62, 434-444.	1.1	21
87	Parental Participation in Intervention Programs for Children with Cerebral Palsy. Topics in Early Childhood Special Education, 1998, 18, 107-117.	1.5	20
88	Perceptions of family participation among parents of children with cerebral palsy followed from infancy to toddler hood. Disability and Rehabilitation, 2009, 31, 1828-1834.	0.9	20
89	Co-creation of a digital tool for the empowerment of parents of children with physical disabilities. Research Involvement and Engagement, 2017, 3, 26.	1.1	20
90	LEARN 2 MOVE 2-3: a randomized controlled trial on the efficacy of child-focused intervention and context-focused intervention in preschool children with cerebral palsy. BMC Pediatrics, 2010, 10, 80.	0.7	19

#	Article	IF	CITATIONS
91	The lived experience of parents enabling participation of their child with a physical disability at home, at school and in the community. Disability and Rehabilitation, 2016, 38, 803-812.	0.9	19
92	Autonomy in participation in cerebral palsy from childhood to adulthood. Developmental Medicine and Child Neurology, 2020, 62, 363-371.	1.1	19
93	Monitoring the functional health status of stroke patients: the value of the Stroke-Adapted Sickness Impact Profile-30. Disability and Rehabilitation, 2004, 26, 635-640.	0.9	18
94	Effects of Postural Management on Hip Migration in Children With Cerebral Palsy: A Systematic Review. Pediatric Physical Therapy, 2018, 30, 82-91.	0.3	18
95	Development curves of communication and social interaction in individuals with cerebral palsy. Developmental Medicine and Child Neurology, 2020, 62, 132-139.	1.1	18
96	Needs of Families with Children Who Have a Physical Disability: A Literature Review. Critical Reviews in Physical and Rehabilitation Medicine, 2012, 24, 85-108.	0.1	18
97	The relevance of family-centred medicine and the implications for doctor education. Medical Education, 2010, 44, 332-334.	1.1	17
98	Family entred service: differences in what parents of children with cerebral palsy rate important. Child: Care, Health and Development, 2017, 43, 663-669.	0.8	17
99	Assessment of the family environment in pediatric neurodisability: a stateâ€ofâ€theâ€art review. Developmental Medicine and Child Neurology, 2017, 59, 259-269.	1.1	16
100	Mobility and self-care trajectories for individuals with cerebral palsy (aged 1–21 years): a joint longitudinal analysis of cohort data from the Netherlands and Canada. The Lancet Child and Adolescent Health, 2019, 3, 548-557.	2.7	16
101	Defining Functional Therapy in Research Involving Children with Cerebral Palsy: A Systematic Review. Physical and Occupational Therapy in Pediatrics, 2020, 40, 231-246.	0.8	16
102	Reproducibility of two functional field exercise tests for children with cerebral palsy who self-propel a manual wheelchair. Developmental Medicine and Child Neurology, 2013, 55, 185-190.	1.1	15
103	Anaerobic Performance in Children With Cerebral Palsy Compared to Children With Typical Development. Pediatric Physical Therapy, 2013, 25, 409-413.	0.3	15
104	Longitudinal Association Between Gross Motor Capacity and Neuromusculoskeletal Function in Children and Youth With Cerebral Palsy. Archives of Physical Medicine and Rehabilitation, 2016, 97, 1329-1337.	0.5	15
105	Patient and public involvement of young people with a chronic condition: lessons learned and practical tips from a large participatory program. Research Involvement and Engagement, 2020, 6, 59.	1.1	15
106	Daily actions, challenges, and needs among Dutch parents while supporting the participation of their child with a physical disability at home, at school, and in the community: a qualitative diary study. BMC Pediatrics, 2017, 17, 12.	0.7	14
107	Validation of the Dutch Giving Youth a Voice Questionnaire (GYV-20): A measure of the client-centredness of rehabilitation services from an adolescent perspective. Disability and Rehabilitation, 2007, 29, 373-380.	0.9	13
108	One-year stability of the Measure of Processes of Care. Child: Care, Health and Development, 2007, 33, 604-610.	0.8	13

#	Article	IF	CITATIONS
109	Psychometric Evaluation of the Dutch Version of the Assessment of Preschool Children's Participation (APCP): Construct Validity and Test–Retest Reliability. Physical and Occupational Therapy in Pediatrics, 2013, 33, 372-383.	0.8	13
110	Parents' perceptions of the services provided to children with cerebral palsy in the transition from preschool rehabilitation to schoolâ€based services. Child: Care, Health and Development, 2016, 42, 455-463.	0.8	13
111	Perspectives of parents and nurses on the content validity of the Family Empowerment Scale for parents of children with a chronic condition: A mixedâ€methods study. Child: Care, Health and Development, 2019, 45, 111-120.	0.8	13
112	Parental empowerment in paediatric rehabilitation: Exploring the role of a digital tool to help parents prepare for consultation with a physician. Child: Care, Health and Development, 2019, 45, 623-636.	0.8	12
113	Building a culture of engagement at a research centre for childhood disability. Research Involvement and Engagement, 2021, 7, 78.	1.1	12
114	A family-specific use of the Measure of Processes of Care for Service Providers (MPOC-SP). Clinical Rehabilitation, 2008, 22, 242-251.	1.0	11
115	Exercise training programs to improve hand rim wheelchair propulsion capacity: a systematic review. Clinical Rehabilitation, 2014, 28, 847-861.	1.0	11
116	Parental perspectives on care for sleep in children with cerebral palsy: a wake-up call. Disability and Rehabilitation, 2022, 44, 458-467.	0.9	11
117	Introducing the concept of learning styles in rehabilitation. Journal of Rehabilitation Medicine, 2010, 42, 697-699.	0.8	10
118	Determinants of Developmental Gain in Daily Activities in Young Children with Cerebral Palsy. Physical and Occupational Therapy in Pediatrics, 2015, 35, 265-279.	0.8	10
119	Effects of family group conferences among high-risk patients of chronic disability and their significant others: study protocol for a multicentre controlled trial. BMJ Open, 2018, 8, e018883.	0.8	10
120	Parental Presence and Activities in a Dutch Neonatal Intensive Care Unit. Journal of Perinatal and Neonatal Nursing, 2018, 32, E3-E10.	0.5	10
121	Prediction of Psychological Distress Among Persons With Spinal Cord Injury or Acquired Brain Injury and Their Significant Others. Archives of Physical Medicine and Rehabilitation, 2020, 101, 2093-2102.	0.5	10
122	Parental experience of participation in physical therapy for children with physical disabilities. Developmental Medicine and Child Neurology, 2003, 45, .	1.1	9
123	Parental perceptions of participation of preschool children with and without mobility limitations: validity and reliability of the PART. Disability and Rehabilitation, 2011, 33, 1421-1432.	0.9	9
124	The course of health-related quality of life of preschool children with cerebral palsy. Disability and Rehabilitation, 2013, 35, 686-693.	0.9	9
125	Self-Efficacy Predicts Personal and Family Adjustment Among Persons With Spinal Cord Injury or Acquired Brain Injury and Their Significant Others: A Dyadic Approach. Archives of Physical Medicine and Rehabilitation, 2020, 101, 1937-1945.	0.5	9
126	Long-Term Health-Related Quality of Life in Major Pediatric Trauma: A Pilot Study. European Journal of Trauma and Emergency Surgery, 2009, 35, 371-377.	0.8	8

#	Article	IF	CITATIONS
127	Construct validity of the Capacity Profile in preschool children with cerebral palsy. Developmental Medicine and Child Neurology, 2009, 51, 446-453.	1.1	8
128	Developments in Measuring Functional Activities: Where Do We Go with the PEDI-CAT?. Physical and Occupational Therapy in Pediatrics, 2010, 30, 185-189.	0.8	8
129	Illness Perceptions in Pediatric Spinal Muscular Atrophy: Agreement between Children and their Parents, and its Association with Quality of Life. Journal of Developmental and Physical Disabilities, 2021, 33, 297-310.	1.0	8
130	Evaluating communication partner training in healthcare centres: Understanding the mechanisms of behaviour change. International Journal of Language and Communication Disorders, 2021, 56, 1190-1203.	0.7	8
131	Family group decision-making interventions in adult healthcare and welfare: a systematic literature review of its key elements and effectiveness. BMJ Open, 2019, 9, e026768.	0.8	7
132	Measures used to assess impact of providing care among informal caregivers of persons with stroke, spinal cord injury, or amputation: a systematic review. Disability and Rehabilitation, 2021, 43, 746-772.	0.9	7
133	Parents' perspectives on nusinersen treatment for children with spinal muscular atrophy. Developmental Medicine and Child Neurology, 2021, 63, 816-823.	1.1	7
134	Mental health and life satisfaction of individuals with spinal cord injury and their partners 5 years after discharge from first inpatient rehabilitation. Spinal Cord, 2018, 56, 598-606.	0.9	6
135	Participation in Social Roles of Adolescents With Cerebral Palsy: Exploring Accomplishment and Satisfaction. Archives of Rehabilitation Research and Clinical Translation, 2019, 1, 100021.	0.5	6
136	Effects of a school-based sports program on psychosocial health and attention in youth with physical disabilities. Journal of Pediatric Rehabilitation Medicine, 2020, 13, 37-46.	0.3	6
137	Structured game-related group therapy for an adolescent with Acquired Brain Injury: A case report. Journal of Pediatric Rehabilitation Medicine, 2012, 5, 125-132.	0.3	5
138	Understanding the essential components and experiences of youth with autism spectrum disorders in peer mentorship programmes during the transition to adulthood: A qualitative metaâ€ethnography. Child: Care, Health and Development, 2020, 46, 667-681.	0.8	5
