#	ARTICLE	IF	CITATIONS
1	The increasing significance of disease severity in a burden of disease framework. <i>Scandinavian Journal of Public Health</i> , 2023, 51, 296-300.	2.3	5
2	Falling down the rabbit hole? Methodological, conceptual and policy issues in current health inequalities research. <i>Critical Public Health</i> , 2023, 33, 37-47.	2.4	15
3	Glossary: economics and health. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 518-524.	3.7	3
4	Assessing the causal relationship between income inequality and mortality and self-rated health: protocol for systematic review and meta-analysis. <i>Systematic Reviews</i> , 2022, 11, 20.	5.3	5
5	Measuring disability-adjusted life years (DALYs) due to COVID-19 in Scotland, 2020. <i>Archives of Public Health</i> , 2022, 80, 105.	2.4	30
6	Putting economic policy in service of "health for all". <i>BMJ</i> , The, 2022, 377, o1075.	6.0	3
7	Widening of inequalities in COVID-19 years of life lost from 2020 to 2021: a Scottish Burden of Disease Study. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 746-749.	3.7	5
8	How do income changes impact on mental health and wellbeing for working-age adults? A systematic review and meta-analysis. <i>Lancet Public Health</i> , The, 2022, 7, e515-e528.	10.0	62
9	Trends in healthy life expectancy in the age of austerity. <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 743-745.	3.7	19
10	Scaling COVID-19 against inequalities: should the policy response consistently match the mortality challenge?. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 315-320.	3.7	17
11	Approaches to triangulation of alcohol data in Scotland: Commentary on Rehm et al .. <i>Drug and Alcohol Review</i> , 2021, 40, 173-175.	2.1	3
12	Health inequalities, fundamental causes and power: towards the practice of good theory. <i>Sociology of Health and Illness</i> , 2021, 43, 20-39.	2.1	39
13	What Are the Implications of Applying Equipose in Planning Citizens Basic Income Pilots in Scotland?. <i>Public Health Ethics</i> , 2021, 14, 109-116.	1.0	0
14	A critical reflection on the use of improvement science approaches in public health. <i>Scandinavian Journal of Public Health</i> , 2021, , 140349482199024.	2.3	2
15	Trends in infant mortality and stillbirth rates in Scotland by socio-economic position, 2000-2018: a longitudinal ecological study. <i>BMC Public Health</i> , 2021, 21, 995.	2.9	4
16	Deaths from "diseases of despair"™ in Britain: comparing suicide, alcohol-related and drug-related mortality for birth cohorts in Scotland, England and Wales, and selected cities. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 1195-1201.	3.7	25
17	Knowing the goal: an inclusive economy that can address the public health challenges of our time. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 1129-1132.	3.7	15
18	Spatial and temporal inequalities in mortality in the USA, 1968-2016. <i>Health and Place</i> , 2021, 70, 102586.	3.3	7

#	ARTICLE	IF	CITATIONS
19	Inequalities in population health loss by multiple deprivation: COVID-19 and pre-pandemic all-cause disability-adjusted life years (DALYs) in Scotland. <i>International Journal for Equity in Health</i> , 2021, 20, 214.	3.5	14
20	Economic relationships and health inequalities: improving public health recommendations. <i>Public Health</i> , 2021, 199, 103-106.	2.9	17
21	Population health post-pandemic: critiquing the economic approach to recovery. <i>Public Health in Practice</i> , 2021, 2, 100098.	1.5	4
22	The contribution of changes to tax and social security to stalled life expectancy trends in Scotland: a modelling study. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, 365-370.	3.7	4
23	Intended and unintended consequences of the implementation of minimum unit pricing of alcohol in Scotland: a natural experiment. <i>Public Health Research</i> , 2021, 9, 1-210.	1.3	6
24	Tackling population health challenges as we build back from the pandemic. <i>BMJ, The</i> , 2021, 375, e066232.	6.0	18
25	Correcting for non-participation bias in health surveys using record-linkage, synthetic observations and pattern mixture modelling. <i>Statistical Methods in Medical Research</i> , 2020, 29, 1212-1226.	1.5	11
26	How do world and European standard populations impact burden of disease studies? A case study of disability-adjusted life years (DALYs) in Scotland. <i>Archives of Public Health</i> , 2020, 78, 1.	2.4	88
27	Is austerity responsible for the recent change in mortality trends across high-income nations? A protocol for an observational study. <i>BMJ Open</i> , 2020, 10, e034832.	1.9	11
28	Analysis of age, sex and deprivation stratified trends in assault deaths in Scotland (1974-2015) to identify age, period or cohort effects. <i>BMJ Open</i> , 2020, 10, e030064.	1.9	0
29	Do age, period or cohort effects explain circulatory disease mortality trends, Scotland 1974-2015?. <i>Heart</i> , 2020, 106, 584-589.	2.9	4
30	Can changes in spending on health and social care explain the recent mortality trends in Scotland? A protocol for an observational study. <i>BMJ Open</i> , 2020, 10, e036025.	1.9	2
31	How bad are life expectancy trends across the UK, and what would it take to get back to previous trends?. <i>Journal of Epidemiology and Community Health</i> , 2020, 74, jech-2020-213870.	3.7	8
32	Can Scotland achieve its aim of narrowing health inequalities in a post-pandemic world?. <i>Public Health in Practice</i> , 2020, 1, 100042.	1.5	5
33	Theory driven analysis of social class and health outcomes using UK nationally representative longitudinal data. <i>International Journal for Equity in Health</i> , 2020, 19, 193.	3.5	3
34	Mitigating the wider health effects of covid-19 pandemic response. <i>BMJ, The</i> , 2020, 369, m1557.	6.0	723
35	“Superpolicies” and “policy-omnishambles”. <i>Public Health in Practice</i> , 2020, 1, 100003.	1.5	3
36	The effect of income-based policies on mortality inequalities in Scotland: a modelling study. <i>Lancet Public Health, The</i> , 2020, 5, e150-e156.	10.0	15

#	ARTICLE	IF	CITATIONS
37	Prioritising the development of severity distributions in burden of disease studies for countries in the European region. Archives of Public Health, 2020, 78, 3.	2.4	19
38	COVID-19 “ exploring the implications of long-term condition type and extent of multimorbidity on years of life lost: a modelling study. Wellcome Open Research, 2020, 5, 75.	1.8	46
39	Changing mortality trends in countries and cities of the UK: a population-based trend analysis. BMJ Open, 2020, 10, e038135.	1.9	18
40	COVID-19 “ exploring the implications of long-term condition type and extent of multimorbidity on years of life lost: a modelling study. Wellcome Open Research, 2020, 5, 75.	1.8	85
41	How have changes in death by cause and age group contributed to the recent stalling of life expectancy gains in Scotland? Comparative decomposition analysis of mortality data, 2000-2002 to 2015-2017. BMJ Open, 2020, 10, e036529.	1.9	3
42	How have changes in death by cause and age group contributed to the recent stalling of life expectancy gains in Scotland? Comparative decomposition analysis of mortality data, 2000“2002 to 2015“2017. BMJ Open, 2020, 10, e036529.	1.9	15
43	The impact of worldwide, national and sub-national severity distributions in Burden of Disease studies: A case study of cancers in Scotland. PLoS ONE, 2019, 14, e0221026.	2.5	20
44	What causes the burden of stroke in Scotland? A comparative risk assessment approach linking the Scottish Health Survey to administrative health data. PLoS ONE, 2019, 14, e0216350.	2.5	4
45	Relationship between childhood socioeconomic position and adverse childhood experiences (ACEs): a systematic review. Journal of Epidemiology and Community Health, 2019, 73, 1087-1093.	3.7	218
46	Theorising social class and its application to the study of health inequalities. SSM - Population Health, 2019, 7, 100315.	2.7	37
47	Defining health and health inequalities. Public Health, 2019, 172, 22-30.	2.9	185
48	Impact of Political Economy on Population Health: A Systematic Review of Reviews. American Journal of Public Health, 2019, 109, e1-e12.	2.7	89
49	Does ethnic diversity explain intra-UK variation in mortality? A longitudinal cohort study. BMJ Open, 2019, 9, e024563.	1.9	3
50	Socioeconomic inequality in recent adverse all-cause mortality trends in Scotland. Journal of Epidemiology and Community Health, 2019, 73, 971-974.	3.7	32
51	P37“...How can the recent stalling of life expectancy gains in scotland be best explained?. , 2019, , .		0
52	OP40“...The association between childhood socio-economic position and adverse childhood experiences (ACEs): a systematic review. , 2019, , .		1
53	Evaluating possible intended and unintended consequences of the implementation of alcohol minimum unit pricing (MUP) in Scotland: a natural experiment protocol. BMJ Open, 2019, 9, e028482.	1.9	6
54	Recent adverse mortality trends in Scotland: comparison with other high-income countries. BMJ Open, 2019, 9, e029936.	1.9	47
