63 all docs	63 docs citations	63 times ranked	628 citing authors

#	Article	IF	Citations
1	Effectiveness of Lateral Auditory Collision Warnings: Should Warnings Be Toward Danger or Toward Safety?. Human Factors, 2022, 64, 418-435.	3.5	8
2	A review of computer vision-based approaches for physical rehabilitation and assessment. Multimedia Systems, 2022, 28, 209-239.	4.7	36
3	When two actors perform different tasks: Still no evidence for shared task-sets in joint task switching. Quarterly Journal of Experimental Psychology, 2021, 74, 1914-1923.	1.1	1
4	The role of explicit categorization in the Implicit Association Test.. Journal of Experimental Psychology: General, 2020, 149, 809-827.	2.1	8
5	Modulating proactive cognitive control by reward: differential anticipatory effects of performance-contingent and non-contingent rewards. Psychological Research, 2019, 83, 258-274.	1.7	17
6	Editorial: What's Shared in Sharing Tasks and Actions? Processes and Representations Underlying Joint Performance. Frontiers in Psychology, 2019, 10, 659.	2.1	1
7	Modes of spatial coding in the Simon task. Journal of Cognitive Psychology, 2019, 31, 343-352.	0.9	5
8	The roles of action selection and actor selection in joint task settings. Cognition, 2019, 182, 184-192.	2.2	9
9	Affective influences without approach-avoidance actions: on the congruence between valence and stimulus-response mappings. Psychonomic Bulletin and Review, 2019, 26, 545-551.	2.8	4
10	Sharing tasks or sharing actions? Evidence from the joint Simon task. Psychological Research, 2018, 82, 385-394.	1.7	30
11	Flowers and spiders in spatial stimulus-response compatibility: does affective valence influence selection of task-sets or selection of responses?. Cognition and Emotion, 2018, 32, 1003-1017.	2.0	14
12	Adapting MobileNets for mobile based upper body pose estimation. , 2018, , .		12
13	Dissecting Deep Learning Networksâ€"Visualizing Mutual Information. Entropy, 2018, 20, 823.	2.2	10
14	Is Your Color My Color? Dividing the Labor of the Stroop Task Between Co-actors. Frontiers in Psychology, 2018, 9, 1407.	2.1	8
15	Top-down contributions to attention shifting and disengagement: A template model of visual attention.. Journal of Experimental Psychology: General, 2018, 147, 859-887.	2.1	3
16	Threat captures attention but does not affect learning of contextual regularities. Cognition and Emotion, 2017, 31, 564-571.	2.0	7
17	No evidence for shared representations of task sets in joint task switching. Psychological Research, 2017, 81, 1166-1177.	1.7	15
18	Action-effect sharing induces task-set sharing in joint task switching. Cognition, 2017, 165, 113-120.	2.2	14

#	Article	IF	Citations
19	A proposal for the inclusion of 'obesity dysmorphia' in the <i>Diagnostic and Statistical Manual of Mental Disorders</i>. Australian and New Zealand Journal of Psychiatry, 2017, 51, 1085-1086.	2.3	3
20	Factors Affecting Speed and Accuracy of Response Selection in Operational Environments. , 2017, , 31-46.		0
21	Pushing typists back on the learning curve: Memory chunking improves retrieval of prior typing episodes.. Journal of Experimental Psychology: Learning Memory and Cognition, 2017, 43, 1432-1447.	0.9	1
22	Pushing typists back on the learning curve: Memory chunking in the hierarchical control of skilled typewriting.. Journal of Experimental Psychology: Learning Memory and Cognition, 2016, 42, 1919-1936.	0.9	8
23	Watch what you type: The role of visual feedback from the screen and hands in skilled typewriting. Attention, Perception, and Psychophysics, 2015, 77, 282-292.	1.3	21
24	Inhibitory control in mind and brain 2.0: Blocked-input models of saccadic countermanding.. Psychological Review, 2015, 122, 115-147.	3.8	123
25	Response-effect compatibility with complex actions: The case of wheel rotations. Attention, Perception, and Psychophysics, 2015, 77, 930-940.	1.3	29
26	Transfer of learning in choice reactions: The roles of stimulus type, response mode, and set-level compatibility. Memory and Cognition, 2015, 43, 825-836.	1.6	8
27	Pushing typists back on the learning curve: Revealing chunking in skilled typewriting.. Journal of Experimental Psychology: Human Perception and Performance, 2014, 40, 592-612.	0.9	35
28	Pushing typists back on the learning curve: Contributions of multiple linguistic units in the acquisition of typing skill.. Journal of Experimental Psychology: Learning Memory and Cognition, 2014, 40, 1713-1732.	0.9	12
29	Estimating averages from distributions of tone durations. Attention, Perception, and Psychophysics, 2014, 76, 605-620.	1.3	9
30	Specificity of Transfer in Basic and Applied Perceptual-Motor Tasks. American Journal of Psychology, 2013, 126, 401.	0.3	1
31	Speed–accuracy trade-off in skilled typewriting: Decomposing the contributions of hierarchical control loops.. Journal of Experimental Psychology: Human Perception and Performance, 2013, 39, 678-699.	0.9	39
32	Multiple bottlenecks in hierarchical control of action sequences: What does "response selection" select in skilled typewriting?. Journal of Experimental Psychology: Human Perception and Performance, 2013, 39, 1059-1084.	0.9	16
33	Dissociation of S-R compatibility and Simon effects with mixed tasks and mappings.. Journal of Experimental Psychology: Human Perception and Performance, 2013, 39, 593-609.	0.9	25
34	Mechanisms Underlying Transfer of Task-Defined Rules Across Feature Dimensions. Experimental Psychology, 2013, 60, 410-424.	0.7	5
35	Stopping while going! Response inhibition does not suffer dual-task interference.. Journal of Experimental Psychology: Human Perception and Performance, 2012, 38, 123-134.	0.9	26
36	Multidimensional vector model of stimulus–response compatibility.. Psychological Review, 2012, 119, 272-303.	3.8	52

#	Article	IF	Citations
37	Automaticity without extensive training: The role of memory retrieval in implementation of task-defined rules. Psychonomic Bulletin and Review, 2011, 18, 347-354.	2.8	20
38	The Simon task with multi-component responses: two loci of response–effect compatibility. Psychological Research, 2011, 75, 214-226.	1.7	24
39	Compatibility of motion information in two aircraft attitude displays for a tracking task. American Journal of Psychology, 2010, 123, 81-92.	0.3	19
40	Principles for Utilization of Construction Equipment Operator Training Simulators. , 2010, , .		2
41	Transfer of learning in choice reactions: Contributions of specific and general components of manual responses. Acta Psychologica, 2009, 130, 1-10.	1.5	22
42	Dilution of compatibility effects in Simon-type tasks depends on categorical similarity between distractors and diluters. Attention, Perception, and Psychophysics, 2009, 71, 1598-1606.	1.3	7
43	Influence of visual stimulus mode on transfer of acquired spatial associations.. Journal of Experimental Psychology: Learning Memory and Cognition, 2009, 35, 434-445.	0.9	45
44	Influence of display type and cue format on task-cuing effects: Dissociating switch cost and right-left prevalence effects. Memory and Cognition, 2008, 36, 998-1012.	1.6	5
45	Influence of color word availability on the Stroop color-naming effect. Perception & Psychophysics, 2008, 70, 1540-1551.	2.3	14
46	Influences of response position and hand posture on the orthogonal Simon effect. Quarterly Journal of Experimental Psychology, 2008, 61, 1020-1035.	1.1	22
47	Transfer of noncorresponding spatial associations to the auditory Simon task.. Journal of Experimental Psychology: Learning Memory and Cognition, 2007, 33, 245-253.	0.9	21
48	Stimulus-response compatibility with pure and mixed mappings in a flight task environment.. Journal of Experimental Psychology: Applied, 2006, 12, 207-222.	1.2	42
49	Perception and Attention. , 0, , 107-125.		2
