#	ARTICLE	IF	CITATIONS
1	Psychometric properties of the Chinese version of the modified Yale Food Addiction Scale version 2.0 (C-mYFAS 2.0): Prevalence of food addiction and relationship with resilience and social support. <i>Eating and Weight Disorders</i> , 2022, 27, 273-284.	2.5	15
2	A cross-sectional examination of reported changes to weight, eating, and activity behaviors during the COVID-19 pandemic among United States adults with food addiction. <i>Appetite</i> , 2022, 168, 105740.	3.7	14
3	The Association Between Food Addiction and Weight Status in School-Age Children and Adolescents. <i>Frontiers in Psychiatry</i> , 2022, 13, .	2.6	3
4	Attributes of the food addiction phenotype within overweight and obesity. <i>Eating and Weight Disorders</i> , 2021, 26, 2043-2049.	2.5	22
5	Weight Bias During the COVID-19 Pandemic. <i>Current Obesity Reports</i> , 2021, 10, 181-190.	8.4	22
6	Is Food Addictive? A Review of the Science. <i>Annual Review of Nutrition</i> , 2021, 41, 387-410.	10.1	78
7	Pilot evaluation of a personalized commercial program on weight loss, health outcomes, and quality of life. <i>Translational Behavioral Medicine</i> , 2021, , .	2.4	4
8	Adverse childhood experiences and weight stigma: Co-occurrence and associations with psychological well-being.. <i>Stigma and Health</i> , 2021, 6, 408-418.	1.7	8
9	Secondary analysis of YFAS 2.0 symptom counts, impairment/distress, and food addiction severity in adults with overweight/obesity. <i>Eating and Weight Disorders</i> , 2021, 26, 2393-2399.	2.5	7
10	Advances in the Neurobiology of Food Addiction. <i>Current Behavioral Neuroscience Reports</i> , 2021, 8, 103-112.	1.3	1
11	Measurement Invariance of the Modified Yale Food Addiction Scale 2.0 Across Gender and Racial Groups. <i>Assessment</i> , 2020, 27, 356-364.	3.1	14
12	Development of the Highly Processed Food Withdrawal Scale for Children. <i>Appetite</i> , 2020, 147, 104553.	3.7	16
13	Food versus Eating Addictions. , 2020, , 340-351.		43
14	An evaluation of food addiction as a distinct psychiatric disorder. <i>International Journal of Eating Disorders</i> , 2020, 53, 1610-1622.	4.0	24
15	Changes in weight control behaviors and hedonic hunger in a commercial weight management program adapted for individuals with type 2 diabetes. <i>International Journal of Obesity</i> , 2020, 44, 990-998.	3.4	5
16	Food addiction prevalence. , 2019, , 15-39.		4
17	Food cue reactivity in food addiction: A functional magnetic resonance imaging study. <i>Physiology and Behavior</i> , 2019, 208, 112574.	2.1	52
18	Subjective experiences of highly processed food consumption in individuals with food addiction.. <i>Psychology of Addictive Behaviors</i> , 2019, 33, 144-153.	2.1	36

#	ARTICLE	IF	CITATIONS
19	Associations of Food Addiction in a Sample Recruited to Be Nationally Representative of the United States. <i>European Eating Disorders Review</i> , 2018, 26, 112-119.	4.1	83
20	How much does the Addiction-Like Eating Behavior Scale add to the debate regarding food versus eating addictions?. <i>International Journal of Obesity</i> , 2018, 42, 946-946.	3.4	50
21	Development of the Highly Processed Food Withdrawal Scale. <i>Appetite</i> , 2018, 131, 148-154.	3.7	37
22	Specific theoretical considerations and future research directions for evaluating addictive-like eating as a substance-based, food addiction: Comment on Lacroix et al. (2018). <i>Appetite</i> , 2018, 130, 293-295.	3.7	10
23	Food addiction prevalence and concurrent validity in African American adolescents with obesity.. <i>Psychology of Addictive Behaviors</i> , 2018, 32, 187-196.	2.1	39
24	Future Directions in "Food Addiction" Next Steps and Treatment Implications. <i>Current Addiction Reports</i> , 2017, 4, 165-171.	3.4	15
25	Development of the Modified Yale Food Addiction Scale Version 2.0. <i>European Eating Disorders Review</i> , 2017, 25, 302-308.	4.1	143
26	Prevalence of "Food Addiction" as Measured with the Yale Food Addiction Scale 2.0 in a Representative German Sample and Its Association with Sex, Age and Weight Categories. <i>Obesity Facts</i> , 2017, 10, 12-24.	3.4	108
27	Wanting and liking: Separable components in problematic eating behavior?. <i>Appetite</i> , 2017, 115, 45-53.	3.7	77
28	A commentary on the "eating addiction" versus "food addiction" perspectives on addictive-like food consumption. <i>Appetite</i> , 2017, 115, 9-15.	3.7	129
29	Foods are differentially associated with subjective effect report questions of abuse liability. <i>PLoS ONE</i> , 2017, 12, e0184220.	2.5	97
30	Shared and unique mechanisms underlying binge eating disorder and addictive disorders. <i>Clinical Psychology Review</i> , 2016, 44, 125-139.	11.4	187
31	Neural systems implicated in obesity as an addictive disorder. <i>Progress in Brain Research</i> , 2016, 223, 329-346.	1.4	25
32	Belief in Food Addiction and Obesity-Related Policy Support. <i>PLoS ONE</i> , 2016, 11, e0147557.	2.5	71
33	Addictive-like eating mediates the association between eating motivations and elevated body mass index.. <i>Translational Issues in Psychological Science</i> , 2015, 1, 217-228.	1.0	13
34	Which Foods May Be Addictive? The Roles of Processing, Fat Content, and Glycemic Load. <i>PLoS ONE</i> , 2015, 10, e0117959.	2.5	439
35	Current Considerations Regarding Food Addiction. <i>Current Psychiatry Reports</i> , 2015, 17, 563.	4.5	63
36	Comparison of obese adults with poor versus good sleep quality during a functional neuroimaging delay discounting task: A pilot study. <i>Psychiatry Research - Neuroimaging</i> , 2015, 234, 90-95.	1.8	23
