#	ARTICLE	IF	CITATIONS
1	Nutrient Intake During School Lunch in Title I Elementary Schools With Universal Free Meals. <i>Health Education and Behavior</i> , 2022, 49, 118-127.	2.5	7
2	The role of parents in adolescent obesity treatment: Results of the <scp>TEENS</scp>+ randomized clinical pilot trial. <i>Pediatric Obesity</i> , 2022, 17, e12858.	2.8	5
3	Home Food Environment Changes and Dietary Intake during an Adolescent Behavioral Weight Loss Intervention Differ by Food Security Status. <i>Nutrients</i> , 2022, 14, 976.	4.1	3
4	511 Automation of Home Food Inventory Scoring to Standardize Reporting, Enhance Clinical Utility, and Operationalize Delivery of Personalized Behavioral Targets. <i>Journal of Clinical and Translational Science</i> , 2022, 6, 104-104.	0.6	0
5	Parents Are Stressed! Patterns of Parent Stress Across COVID-19. <i>Frontiers in Psychiatry</i> , 2021, 12, 626456.	2.6	175
6	Longitudinal patterns of food insecurity, the home food environment, and parent feeding practices during COVID-19. <i>Obesity Science and Practice</i> , 2021, 7, 415-424.	1.9	27
7	Effect of a High-Intensity Dietary Intervention on Changes in Dietary Intake and Eating Pathology during a Multicomponent Adolescent Obesity Intervention. <i>Nutrients</i> , 2021, 13, 1850.	4.1	9
8	Society of Behavioral Medicine (SBM) Position Statement: increase access to mental health services due to COVID-19-related parent and family stress. <i>Translational Behavioral Medicine</i> , 2021, 11, 1635-1637.	2.4	2
9	Pediatric Surgery and School Nurse Attitudes Regarding Children with Obesity. <i>Journal of Pediatric Nursing</i> , 2021, 59, 75-80.	1.5	2
10	Behavioral weight loss in emerging adults: Design and rationale for the Richmond Emerging Adults Choosing Health (REACH) randomized clinical trial. <i>Contemporary Clinical Trials</i> , 2021, 107, 106426.	1.8	4
11	Salad bars and energy intake in Virginia elementary schools with free meals. <i>Preventive Medicine Reports</i> , 2021, 24, 101515.	1.8	1
12	Using motivational interviewing to enhance emerging adults' engagement in weight loss: The Live Well RVA pilot randomized clinical trial. <i>Obesity Science and Practice</i> , 2020, 6, 460-472.	1.9	10
13	Food Insecurity, the Home Food Environment, and Parent Feeding Practices in the Era of COVID-19. <i>Obesity</i> , 2020, 28, 2056-2063.	3.0	181
14	Parent Involvement in Adolescent Obesity Treatment: A Systematic Review. <i>Pediatrics</i> , 2020, 146, e20193315.	2.1	25
15	Using digital imagery to quantify students' added sugar intake at lunch in Title I schools with universal free meals. <i>Preventive Medicine Reports</i> , 2020, 20, 101253.	1.8	3
16	Salad Bars and Fruit and Vegetable Intake in Title I Elementary Schools. <i>Health Behavior and Policy Review</i> , 2020, 7, 461-472.	0.4	6
17	An Examination of Adolescents' Values in a Motivational Interviewing-based Obesity Intervention. <i>American Journal of Health Behavior</i> , 2020, 44, 526-533.	1.4	1
18	Response to Vorland et al's Letter to the Editor about "Impact of motivational interviewing on outcomes of an adolescent obesity treatment: Results from the MI Values randomized controlled pilot trial". <i>Clinical Obesity</i> , 2019, 9, e12333.	2.0	1

#	ARTICLE	IF	CITATIONS
19	A Cafeteria Personnel Intervention to Improve the School Food Environment. <i>American Journal of Health Behavior</i> , 2019, 43, 158-167.	1.4	8
20	A pilot study of laparoscopic gastric plication in adolescent patients with severe obesity. <i>Journal of Pediatric Surgery</i> , 2019, 54, 1696-1701.	1.6	3
21	Exploring the role of motivational interviewing in adolescent patient-provider communication about type 1 diabetes. <i>Pediatric Diabetes</i> , 2019, 20, 217-225.	2.9	21
22	Impact of motivational interviewing on engagement in a parent-exclusive paediatric obesity intervention: randomized controlled trial of NOURISH+MI. <i>Pediatric Obesity</i> , 2019, 14, e12484.	2.8	15
23	Total Sugar in Free Breakfasts Served in Virginia Elementary Schools. <i>Health Behavior and Policy Review</i> , 2019, 6, 455-462.	0.4	2
24	Reliability and Validity of Digital Imagery Methodology for Measuring Starting Portions and Plate Waste from School Salad Bars. <i>Journal of the Academy of Nutrition and Dietetics</i> , 2018, 118, 1482-1489.	0.8	11
25	Salad Bars Increased Selection and Decreased Consumption of Fruits and Vegetables 1 Month After Installation in Title I Elementary Schools: A Plate Waste Study. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 589-597.	0.7	17
26	Impact of motivational interviewing on outcomes of an adolescent obesity treatment: results from the MI Values randomized controlled pilot trial. <i>Clinical Obesity</i> , 2018, 8, 323-326.	2.0	29
27	Cafeteria Personnel Responses to Culinary Training and School Salad Bars. <i>Health Behavior and Policy Review</i> , 2018, 5, 3-11.	0.4	2
28	Parents' and School Personnel Members' Perspectives on the Food and Activity Environment in a Title-I Elementary School. <i>Health Behavior and Policy Review</i> , 2018, 5, 65-75.	0.4	0
29	An exploration of factors influencing attrition from a pediatric weight management intervention. <i>Obesity Research and Clinical Practice</i> , 2017, 11, 233-240.	1.8	15
30	A Pilot Intervention Targeting Dietary Intake in School Cafeterias. <i>Health Behavior and Policy Review</i> , 2017, 4, 256-264.	0.4	4
31	Development and preliminary effectiveness of an innovative treatment for binge eating in racially diverse adolescent girls. <i>Eating Behaviors</i> , 2016, 22, 199-205.	2.0	39
32	Culturally-Based Communication about Health, Eating, and Food: Development and validation of the CHEF scale. <i>Appetite</i> , 2016, 96, 399-407.	3.7	4
33	Cultural Humility of Nutrition Programming in Public Housing. <i>Health Behavior and Policy Review</i> , 2016, 3, 176-186.	0.4	0
34	Cardiometabolic and Fitness Improvements in Obese Girls Who Either Gained or Lost Weight during Treatment. <i>Journal of Pediatrics</i> , 2015, 166, 1364-1369.	1.8	8
35	Motivational interviewing targeting diet and physical activity improves adherence to paediatric obesity treatment: results from the MI Values randomized controlled trial. <i>Pediatric Obesity</i> , 2015, 10, 118-125.	2.8	67
36	Pediatric Health Care Provider Perceptions of Weight Loss Surgery in Adolescents. <i>Clinical Pediatrics</i> , 2014, 53, 60-65.	0.8	20

#	ARTICLE	IF	CITATIONS
37	Laparoscopic gastric plication in the morbidly obese adolescent patient. <i>Seminars in Pediatric Surgery</i> , 2014, 23, 24-30.	1.1	7
38	Differences in Response to a Dietary Intervention Between the General Population and First-Degree Relatives of Colorectal Cancer Patients. <i>Journal of Nutrition Education and Behavior</i> , 2014, 46, 376-383.	0.7	4
39	Motivational interviewing with parents of overweight children: Study design and methods for the NOURISH+MI study. <i>Contemporary Clinical Trials</i> , 2014, 37, 312-321.	1.8	7
40	Effect Of Weight Loss Quality On Weight Management Program Outcomes In Obese Female Adolescents. <i>Medicine and Science in Sports and Exercise</i> , 2014, 46, 644.	0.4	0
41	Psychological Treatment Improves Hemoglobin A1c Outcomes in Adolescents with Type 1 Diabetes Mellitus. <i>Journal of Clinical Psychology in Medical Settings</i> , 2013, 20, 333-342.	1.4	18
42	Social Cognitive Factors Associated With Physical Activity in Elementary School Girls. <i>American Journal of Health Behavior</i> , 2012, 36, 265-274.	1.4	14
43	Dietary intake in a randomized-controlled pilot of NOURISH: A parent intervention for overweight children. <i>Preventive Medicine</i> , 2012, 55, 224-227.	3.4	13
44	Motivational Interviewing in Health Care: Results of a Brief Training in Endocrinology. <i>Journal of Graduate Medical Education</i> , 2012, 4, 357-361.	1.3	10
45	A values-based Motivational Interviewing (MI) intervention for pediatric obesity: Study design and methods for MI Values. <i>Contemporary Clinical Trials</i> , 2011, 32, 667-674.	1.8	23
46	Six-Month Dietary Changes in Ethnically Diverse, Obese Adolescents Participating in a Multidisciplinary Weight Management Program. <i>Clinical Pediatrics</i> , 2011, 50, 408-416.	0.8	25
47	Psychosocial Factors and Perspectives on Weight Gain and Barriers to Weight Loss Among Adolescents Enrolled in Obesity Treatment. <i>Journal of Clinical Psychology in Medical Settings</i> , 2010, 17, 98-102.	1.4	40
48	Back on Track: Confronting Post-Surgical Weight Gain. <i>Bariatric Nursing and Surgical Patient Care</i> , 2010, 5, 179-185.	0.1	26
49	Psychosocial Factors, Quality of Life, and Psychological Distress: Ethnic Differences in Patients with Heart Failure. <i>Progress in Cardiovascular Nursing</i> , 2009, 24, 131-140.	0.4	39
50	Obesity in America: Implications for Clinical and Health Psychologists. <i>Journal of Clinical Psychology in Medical Settings</i> , 2008, 15, 214-224.	1.4	50
51	Rural adolescent attitudes toward smoking and weight loss: Relationship to smoking status. <i>Nicotine and Tobacco Research</i> , 2008, 10, 279-286.	2.6	11
52	Family factors as correlates of diet in relatives of colon cancer patients. <i>American Journal of Health Behavior</i> , 2008, 32, 347-55.	1.4	2
53	Middle school students' perceived access to cigarettes in Virginia. <i>American Journal of Health Behavior</i> , 2008, 32, 399-410.	1.4	4
54	Gender, Ethnicity, Psychosocial Factors, and Quality of Life Among Severely Overweight, Treatment-Seeking Adolescents. <i>Journal of Pediatric Psychology</i> , 2007, 32, 90-94.	2.1	55

#	ARTICLE	IF	CITATIONS
55	Psychosocial factors associated with non-smoking adolescents' intentions to smoke. Health Education Research, 2006, 22, 238-247.	1.9	35
56	Differences in food intake and exercise by smoking status in adolescents. Preventive Medicine, 2005, 40, 872-879.	3.4	83
