#	Article	IF	CITATIONS
1	Critically engaging vulnerability: Rethinking oral health with vulnerabilized populations. Community Dentistry and Oral Epidemiology, 2022, 50, 469-475.	1.9	7
2	Dental Health Access When Using Drugs. , 2022, , .		0
3	Looking After My Dental Health. , 2022, , .		O
4	Looking After My Family's Dental Health. , 2022, , .		0
5	Examining the effectiveness of different dental recall strategies on maintenance of optimum oral health: the INTERVAL dental recalls randomised controlled trial. British Dental Journal, 2021, 230, 236-243.	0.6	9
6	Communication strategies to encourage child participation in an oral health promotion session: An exemplar video observational study. Health Expectations, 2021, 24, 700-708.	2.6	6
7	Expert view: Ruth Freeman. British Dental Journal, 2021, 230, 306-306.	0.6	O
8	An ADePT evaluation for incorporating the TIPPS periodontal health intervention into primary care antenatal programmes to enhance infant birth weight in Palestine: a feasibility study. Pilot and Feasibility Studies, 2021, 7, 91.	1.2	2
9	Exploring the Effect of the COVID-19 Pandemic on the Dental Team: Preparedness, Psychological Impacts and Emotional Reactions. Frontiers in Oral Health, 2021, 2, 669752.	3.0	22
10	Implementing the Smile4life intervention for people experiencing homelessness: a path analytical evaluation. BMC Oral Health, 2021, 21, 383.	2.3	2
11	Investigating the Effectiveness and Acceptability of Oral Health and Related Health Behaviour Interventions in Adults with Severe and Multiple Disadvantage: Protocol for a Mixed-Methods Systematic Review. International Journal of Environmental Research and Public Health, 2021, 18, 11554.	2.6	2
12	Oral Health as a Door to Promoting Psychosocial Functioning for People in Custody: Lessons Learnt from the Development of the Mouth Matters Intervention., 2021,, 211-233.		O
13	Uncertainty and Fears Around Sustainability: A Qualitative Exploration of the Emotional Reactions of Dental Practitioners and Dental Care Professionals During COVID-19. Frontiers in Oral Health, 2021, 2, 799158.	3.0	2
14	Inclusion oral health: Advancing a theoretical framework for policy, research and practice. Community Dentistry and Oral Epidemiology, 2020, 48, 1-6.	1.9	42
15	Association of depression and anxiety with different aspects of dental anxiety in pregnant mothers and their partners. Community Dentistry and Oral Epidemiology, 2020, 48, 137-142.	1.9	16
16	Communication, Trust and Dental Anxiety: A Person-Centred Approach for Dental Attendance Behaviours. Dentistry Journal, 2020, 8, 118.	2.3	22
17	Reflexive mapping exercise of services to support people experiencing or at risk of homelessness: a framework to promote health and social care integration. Journal of Social Distress and the Homeless, 2020, , 1-10.	0.9	3
18	What is intersectionality and why is it important in oral health research?. Community Dentistry and Oral Epidemiology, 2020, 48, 464-470.	1.9	35

#	Article	IF	Citations
19	Children and parents' perspectives on the acceptability of three management strategies for dental caries in primary teeth within the †Filling Children's Teeth: Indicated or Not' (FiCTION) randomised controlled trial – a qualitative study. BMC Oral Health, 2020, 20, 69.	2.3	7
20	Dental professionals $\hat{a} \in \mathbb{N}$ experiences of managing children with carious lesions in their primary teeth $\hat{a} \in \mathbb{N}$ a qualitative study within the FiCTION randomised controlled trial. BMC Oral Health, 2020, 20, 64.	2.3	4
21	Depression, drugs and dental anxiety in prisons: A mediation model explaining dental decay experience. Community Dentistry and Oral Epidemiology, 2020, 48, 248-255.	1.9	9
22	Promoting Inclusion Oral Health: Social Interventions to Reduce Oral Health Inequities. Dentistry Journal, 2020, 8, 5.	2.3	6
23	The FiCTION trial: Child oral healthâ€related quality of life and dental anxiety across three treatment strategies for managing caries in young children. Community Dentistry and Oral Epidemiology, 2020, 48, 328-337.	1.9	8
24	Best-practice prevention alone or with conventional or biological caries management for 3- to 7-year-olds: the FiCTION three-arm RCT. Health Technology Assessment, 2020, 24, 1-174.	2.8	30
25	Risk-based, 6-monthly and 24-monthly dental check-ups for adults: the INTERVAL three-arm RCT. Health Technology Assessment, 2020, 24, 1-138.	2.8	18
26	Development of an interaction coding scheme (PaeD-TrICS) to record the triadic communication behaviours in preventive dental consultations with preschool child patients and families: a video-based observational study. BMC Oral Health, 2019, 19, 162.	2.3	8
27	Maternal and child oral health interventions in Middle East and North Africa regions: a rapid review. International Dental Journal, 2019, 69, 409-418.	2.6	2
28	The psychometric properties of the CFSS ―DS for schoolchildren in Saudi Arabia: A confirmatory factor analytic approach. International Journal of Paediatric Dentistry, 2019, 29, 489-495.	1.8	3
29	What is the function of psychosocial factors in predicting length of time since last dental visit? A secondary data analysis. International Dental Journal, 2019, 69, 369-375.	2.6	7
30	Factors Associated with Accessing Prison Dental Services in Scotland: A Cross-Sectional Study. Dentistry Journal, 2019, 7, 12.	2.3	14
31	Strengthening Social Interactions and Constructing New Oral Health and Health Knowledge: The Co-design, Implementation and Evaluation of A Pedagogical Workshop Program with and for Homeless Young People. Dentistry Journal, 2019, 7, 11.	2.3	10
32	Recording communication in primary dental practice: an exploratory study of interactions between dental health professionals, children and parents. British Dental Journal, 2019, 227, 887-892.	0.6	8
33	Dental students' perceptions of learning communication skills in a forum theatreâ€style teaching session on breaking bad news. European Journal of Dental Education, 2019, 23, 95-100.	2.0	8
34	A new complementary approach for oral health and diabetes management: health coaching. International Dental Journal, 2018, 68, 54-64.	2.6	17
35	Implementing an Oral Health Intervention for People Experiencing Homelessness in Scotland: A Participant Observation Study. Dentistry Journal, 2018, 6, 68.	2.3	5
36	Homeless in Scotland: An Oral Health and Psychosocial Needs Assessment. Dentistry Journal, 2018, 6, 67.	2.3	8

#	Article	IF	CITATIONS
37	A mixed-methods feasibility study protocol to assess the communication behaviours within the dental health professional-parent-child triad in a general dental practice setting. Pilot and Feasibility Studies, 2018, 4, 136.	1.2	6
38	The social gradient in oral health: Is there a role for dental anxiety?. Community Dentistry and Oral Epidemiology, 2017, 45, 348-355.	1.9	6
39	Is health coaching effective in changing the health status and behaviour of prisoners?—a systematic review protocol. Systematic Reviews, 2017, 6, 127.	5.3	2
40	The relationship between childhood body weight and dental caries experience: an umbrella systematic review protocol. Systematic Reviews, 2017, 6, 216.	5.3	9
41	School-based health education programmes, health-learning capacity and child oral health–related quality of life. Health Education Journal, 2016, 75, 698-711.	1.2	9
42	Exploring the oral health experiences of homeless people: a deconstruction–reconstruction formulation. Community Dentistry and Oral Epidemiology, 2016, 44, 53-63.	1,9	17
43	Oral health promotion and homelessness: A theory-based approach to understanding processes of implementation and adoption. Health Education Journal, 2016, 75, 184-197.	1.2	8
44	Storytelling, sugar snacking, and toothbrushing rules: a proposed theoretical and developmental perspective on children's health and oral health literacy. International Journal of Paediatric Dentistry, 2015, 25, 339-348.	1.8	17
45	Reducing the volume, exposure and negative impacts of advertising for foods high in fat, sugar and salt to children: A systematic review of the evidence from statutory and self-regulatory actions and educational measures. Preventive Medicine, 2015, 75, 32-43.	3.4	49
46	Training and fairer payments would increase caries prevention in practice. Evidence-Based Dentistry, 2015, 16, 6-7.	0.8	2
47	Why Are People Afraid of the Dentist? Observations and Explanations. Medical Principles and Practice, 2014, 23, 295-301.	2.4	101
48	Applying the Verona coding definitions of emotional sequences (VR-CoDES) in the dental context involving patients with complex communication needs: An exploratory study. Patient Education and Counseling, 2014, 97, 180-187.	2.2	11
49	UK population norms for the modified dental anxiety scale with percentile calculator: adult dental health survey 2009 results. BMC Oral Health, 2013, 13, 29.	2.3	98
50	Dental therapists/hygienists working in remote-rural primary care: a structured review of effectiveness, efficiency, sustainability, acceptability and affordability. International Dental Journal, 2013, 63, 103-112.	2.6	11
51	The health-promoting prison: can it improve oral health? An evaluation of an Oral Health Improvement Project for high-security prisoners. International Journal of Health Promotion and Education, 2012, 50, 169-177.	0.9	9
52	Using the verona coding definitions of emotional sequences (VR-CoDES) and health provider responses (VR-CoDES-P) in the dental context. Patient Education and Counseling, 2012, 89, 205-208.	2.2	23
53	Decayed and missing teeth and oral-health-related factors: Predicting depression in homeless people. Journal of Psychosomatic Research, 2011, 71, 108-112.	2.6	35
54	A systematic review and meta-analysis of face-to-face communication of tailored health messages: Implications for practice. Patient Education and Counseling, 2011, 85, 348-355.	2.2	73
