#	Article	IF	CITATIONS
1	Dietary and Physical Activity Changes and Adherence to WCRF/AICR Cancer Prevention Recommendations following a Remotely Delivered Weight Loss Intervention for Female Breast Cancer Survivors: The Living Well after Breast Cancer Randomized Controlled Trial. Journal of the Academy of Nutrition and Dietetics. 2022	0.8	5
2	A Randomised, Comparative, Effectiveness Trial Evaluating Low- versus High-Level Supervision of an Exercise Intervention for Women with Breast Cancer: The SAFE Trial. Cancers, 2022, 14, 1528.	3.7	6
3	Data sources for precision public health of obesity: a scoping review, evidence map and use case in Queensland, Australia. BMC Public Health, 2022, 22, 584.	2.9	4
4	Precision Public Health for Non-communicable Diseases: An Emerging Strategic Roadmap and Multinational Use Cases. Frontiers in Public Health, 2022, 10, 854525.	2.7	13
5	Complexities and Context of Scaling Up: A Qualitative Study of Stakeholder Perspectives of Scaling Physical Activity and Nutrition Interventions in Australia. Frontiers in Public Health, 2022, 10, 771235.	2.7	4
6	Sitting less and moving more for improved metabolic and brain health in type 2 diabetes: â€~OPTIMISE your health' trial protocol. BMC Public Health, 2022, 22, 929.	2.9	4
7	Outcomes from a hybrid implementation-effectiveness study of the living well during pregnancy Tele-coaching program for women at high risk of excessive gestational weight gain. BMC Health Services Research, 2022, 22, 589.	2.2	3
8	What do cancer survivors and their health care providers want from a healthy living program? Results from the first round of a co-design project. Supportive Care in Cancer, 2021, 29, 4847-4858.	2.2	7
9	Implementation of the Living Well During Pregnancy Telecoaching Program for Women at High Risk of Excessive Gestational Weight Gain: Protocol for an Effectiveness-Implementation Hybrid Study. JMIR Research Protocols, 2021, 10, e27196.	1.0	3
10	Dose and engagement during an extended contact physical activity and dietary behavior change intervention delivered via tailored text messaging: exploring relationships with behavioral outcomes. International Journal of Behavioral Nutrition and Physical Activity, 2021, 18, 119.	4.6	1
11	Evaluation of the Healthy Living after Cancer text message-delivered, extended contact intervention using the RE-AIM framework. BMC Cancer, 2021, 21, 1081.	2.6	3
12	Effect of a Remotely Delivered Weight Loss Intervention in Early-Stage Breast Cancer: Randomized Controlled Trial. Nutrients, 2021, 13, 4091.	4.1	16
13	Sedentary Behavior and Public Health: Integrating the Evidence and Identifying Potential Solutions. Annual Review of Public Health, 2020, 41, 265-287.	17.4	103
14	Cost-Effectiveness Analysis from a Randomized Controlled Trial of Tailored Exercise Prescription for Women with Breast Cancer with 8-Year Follow-Up. International Journal of Environmental Research and Public Health, 2020, 17, 8608.	2.6	6
15	Translating research into practice: outcomes from the Healthy Living after Cancer partnership project. BMC Cancer, 2020, 20, 963.	2.6	10
16	Supporting Workers to Sit Less and Move More Through the Web-Based BeUpstanding Program: Protocol for a Single-Arm, Repeated Measures Implementation Study. JMIR Research Protocols, 2020, 9, e15756.	1.0	15
17	Feasibility, acceptability and efficacy of a text message-enhanced clinical exercise rehabilitation intervention for increasing â€~whole-of-day' activity in people living with and beyond cancer. BMC Public Health, 2019, 19, 542.	2.9	32
18	Evaluation of the efficacy of 3D total-body photography with sequential digital dermoscopy in a high-risk melanoma cohort: protocol for a randomised controlled trial. BMJ Open, 2019, 9, e032969.	1.9	27

#	Article	IF	CITATIONS
19	Temporal features of sitting, standing and stepping changes in a cluster-randomised controlled trial of a workplace sitting-reduction intervention. International Journal of Behavioral Nutrition and Physical Activity, 2019, 16, 111.	4.6	12
20	Get Healthy, Stay Healthy: Evaluation of the Maintenance of Lifestyle Changes Six Months After an Extended Contact Intervention. JMIR MHealth and UHealth, 2019, 7, e11070.	3.7	8
21	A cluster randomized controlled trial to reduce office workers' sitting time: effect on productivity outcomes. Scandinavian Journal of Work, Environment and Health, 2019, 45, 483-492.	3.4	17
22	Weight management and physical activity throughout the cancer care continuum. Ca-A Cancer Journal for Clinicians, 2018, 68, 64-89.	329.8	109
23	Cardiometabolic Impact of Changing Sitting, Standing, and Stepping in the Workplace. Medicine and Science in Sports and Exercise, 2018, 50, 516-524.	0.4	60
24	Implementation and scale up of population physical activity interventions for clinical and community settings: the PRACTIS guide. International Journal of Behavioral Nutrition and Physical Activity, 2018, 15, 51.	4.6	177
25	What strategies do desk-based workers choose to reduce sitting time and how well do they work? Findings from a cluster randomised controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2018, 15, 98.	4.6	16
26	Exercise as part of routine cancer care. Lancet Oncology, The, 2018, 19, e432.	10.7	8
27	Clinical Oncology Society of Australia position statement on exercise in cancer care. Medical Journal of Australia, 2018, 209, 184-187.	1.7	254
28	Assessing the Feasibility and Pre-Post Impact Evaluation of the Beta (Test) Version of the BeUpstanding Champion Toolkit in Reducing Workplace Sitting: Pilot Study. JMIR Formative Research, 2018, 2, e17.	1.4	11
29	Economic evaluation of a randomized controlled trial of an intervention to reduce office workers' sitting time: the "Stand Up Victoria" trial. Scandinavian Journal of Work, Environment and Health, 2018, 44, 503-511.	3.4	30
30	Telephoneâ€delivered weight management services in the hospital outpatient setting: Decisionâ€makers' perceptions of their use in routine practice. Nutrition and Dietetics, 2017, 74, 261-267.	1.8	4
31	Cost-effectiveness of a pragmatic exercise intervention for women with breast cancer: results from a randomized controlled trial. Psycho-Oncology, 2017, 26, 649-655.	2.3	31
32	Breast cancer survivors' experience of making weight, dietary and physical activity changes during participation in a weight loss intervention. Supportive Care in Cancer, 2017, 25, 1455-1463.	2.2	21
33	Twelve-Year Television Viewing Time Trajectories and Physical Function in Older Adults. Medicine and Science in Sports and Exercise, 2017, 49, 1359-1365.	0.4	16
34	Reducing occupational sitting: Workers' perspectives on participation in a multi-component intervention. International Journal of Behavioral Nutrition and Physical Activity, 2017, 14, 73.	4.6	48
35	Relative validity of a brief Fat and Fibre Behaviour Questionnaire in a population of overweight and obese breast cancer survivors: A note of caution. Nutrition and Dietetics, 2017, 74, 18-28.	1.8	2
36	Intervening to reduce workplace sitting: mediating role of social-cognitive constructs during a cluster randomised controlled trial. International Journal of Behavioral Nutrition and Physical Activity, 2017, 14, 27.	4.6	29

#	Article	IF	CITATIONS
37	A Cluster RCT to Reduce Workers' Sitting Time. Medicine and Science in Sports and Exercise, 2017, 49, 2032-2039.	0.4	101
38	Common mental disorders and recent physical activity status: findings from a National Community Survey. Social Psychiatry and Psychiatric Epidemiology, 2017, 52, 795-802.	3.1	8
39	The Living Well after Breast Cancerâ,,¢ Pilot Trial: a weight loss intervention for women following treatment for breast cancer. Asia-Pacific Journal of Clinical Oncology, 2017, 13, 125-136.	1.1	39
40	Translating Research into Community Practice: The Healthy Living after Cancer Partnership Project. Obesity, 2017, 25, S31-S31.	3.0	2
41	Women's Perceptions of Participation in an Extended Contact Text Message–Based Weight Loss Intervention: An Explorative Study. JMIR MHealth and UHealth, 2017, 5, e21.	3.7	22
42	Associations of Monitor-Assessed Activity with Performance-Based Physical Function. PLoS ONE, 2016, 11, e0153398.	2.5	28
43	A Cluster Randomized Controlled Trial to Reduce Office Workers' Sitting Time. Medicine and Science in Sports and Exercise, 2016, 48, 1787-1797.	0.4	219
44	Living well after breast cancer randomized controlled trial protocol: evaluating a telephone-delivered weight loss intervention versus usual care in women following treatment for breast cancer. BMC Cancer, 2016, 16, 830.	2.6	19
45	Office workers' objectively assessed total and prolonged sitting time: Individual-level correlates and worksite variations. Preventive Medicine Reports, 2016, 4, 184-191.	1.8	84
46	Feasibility, effectiveness and cost-effectiveness of a telephone-based weight loss program delivered via a hospital outpatient setting. Translational Behavioral Medicine, 2016, 6, 386-395.	2.4	14
47	Evaluating the Maintenance of Lifestyle Changes in a Randomized Controlled Trial of the â€~Get Healthy, Stay Healthy' Program. JMIR MHealth and UHealth, 2016, 4, e42.	3.7	36
48	The BeUpstanding Program <sup>TM</sup> : Scaling up the <em>Stand Up Australia</em> Workplace Intervention for Translation into Practice. AIMS Public Health, 2016, 3, 341-347.	2.6	24
49	Responsiveness to Change of Self-Report and Device-Based Physical Activity Measures in the Living Well With Diabetes Trial. Journal of Physical Activity and Health, 2015, 12, 1082-1087.	2.0	16
50	Healthy Living after Cancer: a dissemination and implementation study evaluating a telephone-delivered healthy lifestyle program for cancer survivors. BMC Cancer, 2015, 15, 992.	2.6	39
51	Accelerometer-Derived Sedentary and Physical Activity Time in Overweight/Obese Adults with Type 2 Diabetes: Cross-Sectional Associations with Cardiometabolic Biomarkers. PLoS ONE, 2015, 10, e0119140.	2.5	94
52	Fat and fibre behaviour questionnaire: Reliability, relative validity and responsiveness to change in A ustralian adults with type 2 diabetes and/or hypertension. Nutrition and Dietetics, 2015, 72, 368-376.	1.8	23
53	Adaptation of a Counseling Intervention to Address Multiple Cancer Risk Factors Among Overweight/Obese Latino Smokers. Health Education and Behavior, 2015, 42, 65-72.	2.5	6
54	Telephone, print, and Web-based interventions for physical activity, diet, and weight control among cancer survivors: a systematic review. Journal of Cancer Survivorship, 2015, 9, 660-682.	2.9	143

#	Article	IF	CITATIONS
55	Sensitivity to Change of Objectively-Derived Measures of Sedentary Behavior. Measurement in Physical Education and Exercise Science, 2015, 19, 138-147.	1.8	56
56	Relationship between Intervention Dose and Outcomes in Living Well with Diabetes—A Randomized Trial of a Telephone-Delivered Lifestyle-Based Weight Loss Intervention. American Journal of Health Promotion, 2015, 30, 120-129.	1.7	23
57	Effectiveness of lifestyleâ€based weight loss interventions for adults with type 2 diabetes: a systematic review and metaâ€analysis. Diabetes, Obesity and Metabolism, 2015, 17, 371-378.	4.4	64
58	Efficacy of a Text Message-Delivered Extended Contact Intervention on Maintenance of Weight Loss, Physical Activity, and Dietary Behavior Change. JMIR MHealth and UHealth, 2015, 3, e88.	3.7	73
59	Living Well With Diabetes: 24-Month Outcomes From a Randomized Trial of Telephone-Delivered Weight Loss and Physical Activity Intervention to Improve Glycemic Control. Diabetes Care, 2014, 37, 2177-2185.	8.6	67
60	Translating research into practice: The healthy living after cancer partnership project. Journal of Science and Medicine in Sport, 2014, 18, e13.	1.3	2
61	Reducing occupational sedentary time: a systematic review and metaâ€analysis of evidence on activityâ€permissive workstations. Obesity Reviews, 2014, 15, 822-838.	6.5	254
62	Addressing physical inactivity in Omani adults: perceptions of public health managers. Public Health Nutrition, 2014, 17, 674-681.	2.2	26
63	Moderators of health behavior initiation and maintenance in a randomized telephone counseling trial. Preventive Medicine, 2014, 61, 34-41.	3.4	13
64	Iterative development of Stand Up Australia: a multi-component intervention to reduce workplace sitting. International Journal of Behavioral Nutrition and Physical Activity, 2014, 11, 21.	4.6	87
65	â€~Cet Healthy, Stay Healthy': protocol for evaluation of a lifestyle intervention delivered by text-message following the Get Healthy Information and Coaching Service®. BMC Public Health, 2014, 14, 112.	2.9	10
66	Weight loss intervention trials in women with breast cancer: a systematic review. Obesity Reviews, 2014, 15, 749-768.	6.5	131
67	Intervening to reduce workplace sitting time: how and when do changes to sitting time occur?. British Journal of Sports Medicine, 2014, 48, 1037-1042.	6.7	41
68	Workplace Sitting and Height-Adjustable Workstations. American Journal of Preventive Medicine, 2014, 46, 30-40.	3.0	187
69	A National Strategy for Promoting Physical Activity in Oman: A call for action. Sultan Qaboos University Medical Journal, 2014, 14, e170-5.	1.0	9
70	Dissemination of an evidence-based telephone-delivered lifestyle intervention: factors associated with successful implementation and evaluation. Translational Behavioral Medicine, 2013, 3, 351-356.	2.4	9
71	Results from the dissemination of an evidence-based telephone-delivered intervention for healthy lifestyle and weight loss: the Optimal Health Program. Translational Behavioral Medicine, 2013, 3, 340-350.	2.4	13
72	Design of a randomized controlled trial for multiple cancer risk behaviors among Spanish-speaking Mexican-origin smokers. BMC Public Health, 2013, 13, 237.	2.9	8

#	Article	IF	CITATIONS
73	Effectiveness of Australia's Get Healthy Information and Coaching Service®: maintenance of self-reported anthropometric and behavioural changes after program completion. BMC Public Health, 2013, 13, 175.	2.9	32
74	Six-Month Outcomes from Living Well with Diabetes: A Randomized Trial of a Telephone-Delivered Weight Loss and Physical Activity Intervention to Improve Glycemic Control. Annals of Behavioral Medicine, 2013, 46, 193-203.	2.9	37
75	Physical activity and/or dietary interventions in breast cancer survivors: a systematic review of the maintenance of outcomes. Journal of Cancer Survivorship, 2013, 7, 74-82.	2.9	123
76	Reducing sitting time in office workers: Short-term efficacy of a multicomponent intervention. Preventive Medicine, 2013, 57, 43-48.	3.4	286
77	Reducing office workers' sitting time: rationale and study design for the Stand Up Victoria cluster randomized trial. BMC Public Health, 2013, 13, 1057.	2.9	111
78	Exercise for health: a randomized, controlled trial evaluating the impact of a pragmatic, translational exercise intervention on the quality of life, function and treatment-related side effects following breast cancer. Breast Cancer Research and Treatment, 2013, 137, 175-186.	2.5	150
79	Evaluation Framework for Translational Research. Health Promotion Practice, 2013, 14, 380-389.	1.6	30
80	Correlates of Omani adults' physical inactivity and sitting time. Public Health Nutrition, 2013, 16, 65-72.	2.2	30
81	Is Measurement Error Altered by Participation in a Physical Activity Intervention?. Medicine and Science in Sports and Exercise, 2013, 45, 1004-1011.	0.4	10
82	Active adults recall their physical activity differently to less active adults: test–retest reliability and validity of a physical activity survey. Health Promotion Journal of Australia, 2013, 24, 26-31.	1.2	41
83	Objectively Measured Activity Patterns among Adults in Residential Aged Care. International Journal of Environmental Research and Public Health, 2013, 10, 6783-6798.	2.6	65
84	Exercise Behavior, Motivation, and Maintenance Among Cancer Survivors. , 2013, , 215-231.		3
85	Translation from Research to Practice: Community Dissemination of a Telephone-Delivered Physical Activity and Dietary Behavior Change Intervention. American Journal of Health Promotion, 2012, 26, 253-259.	1.7	15
86	Correlates of Omani adults' physical inactivity and sitting time – Corrigendum. Public Health Nutrition, 2012, 15, 2164-2164.	2.2	2
87	Control Group Improvements in Physical Activity Intervention Trials and Possible Explanatory Factors: A Systematic Review. Journal of Physical Activity and Health, 2012, 9, 884-895.	2.0	64
88	Depressive symptoms and obesity: Assessing and addressing the black dog in the room. Nutrition and Dietetics, 2012, 69, 234-235.	1.8	1
89	Effectiveness of Australia's Get Healthy Information and Coaching Service®: Translational research with population wide impact. Preventive Medicine, 2012, 55, 292-298.	3.4	76
90	Telephone-Delivered Interventions for Physical Activity and Dietary Behavior Change. American Journal of Preventive Medicine, 2012, 42, 81-88.	3.0	225

#	Article	IF	CITATIONS
91	Associations of Physical Activity and Sitting Time With the Metabolic Syndrome Among Omani Adults. Obesity, 2012, 20, 2290-2295.	3.0	32
92	Sit–Stand Workstations. American Journal of Preventive Medicine, 2012, 43, 298-303.	3.0	318
93	Relationships of Sun-Protection Habit Strength with Sunscreen Use During Outdoor Sport and Physical Activity. International Journal of Environmental Research and Public Health, 2012, 9, 916-923.	2.6	11
94	A Randomized Trial of a Telephone-Delivered Exercise Intervention for Non-urban Dwelling Women Newly Diagnosed with Breast Cancer: Exercise for Health. Annals of Behavioral Medicine, 2012, 43, 229-238.	2.9	84
95	Designing for the Dissemination of Environmental and Policy Initiatives and Programs for High-Risk Groups. , 2012, , 114-127.		5
96	The impact of behavioural screening on intervention outcomes in a randomised, controlled multiple behaviour intervention trial. International Journal of Behavioral Nutrition and Physical Activity, 2011, 8, 24.	4.6	6
97	Systematic review of maintenance of behavior change following physical activity and dietary interventions Health Psychology, 2011, 30, 99-109.	1.6	332
98	Feasibility of Reducing Older Adults' Sedentary Time. American Journal of Preventive Medicine, 2011, 41, 174-177.	3.0	213
99	Adults' Sedentary Behavior. American Journal of Preventive Medicine, 2011, 41, 189-196.	3.0	691
100	Design and implementation of the Exercise for Health trial — A pragmatic exercise intervention for women with breast cancer. Contemporary Clinical Trials, 2011, 32, 577-585.	1.8	32
101	Who Participates in Physical Activity Intervention Trials?. Journal of Physical Activity and Health, 2011, 8, 85-103.	2.0	88
102	Objectively assessed physical activity, sedentary time and waist circumference among prostate cancer survivors: findings from the National Health and Nutrition Examination Survey (2003-2006). European Journal of Cancer Care, 2011, 20, 514-519.	1.5	67
103	Associations Between Television Viewing Time and Overall Sitting Time with the Metabolic Syndrome in Older Men and Women: The Australian Diabetes Obesity and Lifestyle Study. Journal of the American Geriatrics Society, 2011, 59, 788-796.	2.6	142
104	Associations of objectively assessed physical activity and sedentary time with biomarkers of breast cancer risk in postmenopausal women: findings from NHANES (2003–2006). Breast Cancer Research and Treatment, 2011, 130, 183-194.	2.5	103
105	Follow-up care after breast cancer treatment: experiences and perceptions of service provision and provider interactions in rural Australian women. Supportive Care in Cancer, 2011, 19, 1975-1982.	2.2	45
106	Safety, feasibility and effects of an individualised walking intervention for women undergoing chemotherapy for ovarian cancer: a pilot study. BMC Cancer, 2011, 11, 389.	2.6	53
107	Characteristics of control group participants who increased their physical activity in a cluster-randomized lifestyle intervention trial. BMC Public Health, 2011, 11, 27.	2.9	10
108	A Telephone-Delivered Physical Activity and Dietary Intervention for Type 2 Diabetes and Hypertension: Does Intervention Dose Influence Outcomes?. American Journal of Health Promotion, 2011, 25, 257-263.	1.7	26

#	Article	IF	CITATIONS
109	Measuring Older Adults' Sedentary Time. Medicine and Science in Sports and Exercise, 2011, 43, 2127-2133.	0.4	143
110	Evidence of physical activity participation among men and women in the countries of the Gulf Cooperation Council: a review. Obesity Reviews, 2010, 11, 457-464.	6.5	104
111	Measuring Physical Activity Change in Broad-Reach Intervention Trials. Journal of Physical Activity and Health, 2010, 7, 194-202.	2.0	46
112	Multiple Health Behavior Changes and Co-variation in a Telephone Counseling Trial. Annals of Behavioral Medicine, 2010, 39, 250-257.	2.9	21
113	Objectively measured physical activity and sedentary time of breast cancer survivors, and associations with adiposity: findings from NHANES (2003–2006). Cancer Causes and Control, 2010, 21, 283-288.	1.8	192
114	Living Well with Diabetes: a randomized controlled trial of a telephone-delivered intervention for maintenance of weight loss, physical activity and glycaemic control in adults with type 2 diabetes. BMC Public Health, 2010, 10, 452.	2.9	46
115	Gynecological cancer survivors and community support services: referral, awareness, utilization and satisfaction. Psycho-Oncology, 2010, 19, 54-61.	2.3	23
116	Gender differences in prevalence of the metabolic syndrome in Gulf Cooperation Council Countries: a systematic review. Diabetic Medicine, 2010, 27, 593-597.	2.3	115
117	Maintenance of physical activity and dietary change following a telephone-delivered intervention Health Psychology, 2010, 29, 566-573.	1.6	34
118	Measuring physical activity change in broad-reach intervention trials. Journal of Physical Activity and Health, 2010, 7, 194-202.	2.0	24
119	Prevalence and determinants of sunburn in Queensland. Health Promotion Journal of Australia, 2009, 20, 102-106.	1.2	6
120	Cost-Effectiveness of a Telephone-Delivered Intervention for Physical Activity and Diet. PLoS ONE, 2009, 4, e7135.	2.5	72
121	Randomized trial of a neighborhood environment-focused physical activity website intervention. Preventive Medicine, 2009, 48, 144-150.	3.4	71
122	Telephone Counseling for Physical Activity and Diet in Primary Care Patients. American Journal of Preventive Medicine, 2009, 36, 142-149.	3.0	119
123	Gynecological cancer survivors' health behaviors and their associations with quality of life. Cancer Causes and Control, 2008, 19, 775-782.	1.8	64
124	Prevalence and correlates of multiple cancer risk behaviors in an Australian population-based survey: results from the Queensland Cancer Risk Study. Cancer Causes and Control, 2008, 19, 1339-1347.	1.8	33
125	Unmet needs of gynaecological cancer survivors: implications for developing community support services. Psycho-Oncology, 2008, 17, 392-400.	2.3	139
126	Unmet supportive care needs and interest in services among patients with a brain tumour and their carers. Patient Education and Counseling, 2008, 71, 251-258.	2.2	167
