citing authors

#	ARTICLE	IF	CITATIONS
1	On the influence of environmental boundary conditions on surface thermal resistance of walls: Experimental evaluation through a Guarded Hot Box. Case Studies in Thermal Engineering, 2022, 34, 101915.	5.7	6
2	How Do Temperature Differences and Stable Thermal Conditions Affect the Heat Flux Meter (HFM) Measurements of Walls? Laboratory Experimental Analysis. Energies, 2022, 15, 4746.	3.1	0
3	Learning lighting models for optimal control of lighting system via experimental and numerical approach. Science and Technology for the Built Environment, 2021, 27, 1018-1030.	1.7	1
4	Thermal imaging in the 3-5 micron range for precise localization of defects: application on frescoes at the Sforza Castle. , 2021, , .		1
5	Thermal Characterization of Different Insulating Materials via Experimental Analysis in a Guarded Hot Box. Tecnica Italiana, 2021, 65, 230-235.	0.2	0
6	A simple method for artworks monitoring by simultaneous speckle interferometry (ESPI) and speckle photography. , 2021, , .		1
7	Building energy performance analysis at urban scale: A supporting tool for energy strategies and urban building energy rating identification. Sustainable Cities and Society, 2021, 74, 103220.	10.4	15
8	Energy optimization analysis of archetype public buildings â€œ Results from SHERPA European Project. E3S Web of Conferences, 2021, 312, 02007.	0.5	0
9	Influence of environmental boundary conditions on convective heat transfer coefficients of wall internal surface. E3S Web of Conferences, 2021, 312, 02012.	0.5	0
10	Dual mode imaging in mid infrared with thermal signal reconstruction for innovative diagnostics of the â€œMonocromoâ€ by Leonardo da Vinci. Scientific Reports, 2021, 11, 22482.	3.3	6
11	Fast and robust method for flow analysis using GPU assisted diffractive optical element based background oriented schlieren (BOS). Optics and Lasers in Engineering, 2020, 126, 105908.	3.8	10
12	A Cost-Effective System for Aerial 3D Thermography of Buildings. Journal of Imaging, 2020, 6, 76.	3.0	18
13	Influence of the convective coefficient on the determination of thermal transmittance through outdoor infrared thermography. Journal of Physics: Conference Series, 2020, 1599, 012016.	0.4	1
14	Sensitivity of heating performance of an energy self-sufficient building to climate zone, climate change and HVAC system solutions. Sustainable Cities and Society, 2020, 61, 102300.	10.4	26
15	On Field Infrared Thermography Sensing for PV System Efficiency Assessment: Results and Comparison with Electrical Models. Sensors, 2020, 20, 1055.	3.8	14
16	Special Issue on â€œNovel Ideas for Infrared Thermography and Its Application to Integrated Approachesâ€™. Applied Sciences (Switzerland), 2020, 10, 56.	2.5	4
17	Spice Model of Photovoltaic Panel for Electronic System Design. Lecture Notes in Electrical Engineering, 2020, , 425-431.	0.4	1
18	On the use of phase change materials applied on cork-coconut-cork panels. Journal of Thermal Analysis and Calorimetry, 2019, 138, 4061-4090.	3.6	11

#	ARTICLE	IF	CITATIONS
19	The Potential of Optical Profilometry in the Study of Cultural Stone Weathering. Journal of Imaging, 2019, 5, 60.	3.0	2
20	Sensor monitoring system for PV plant with active load. , 2019, , .		2
21	Integrated Measuring and Control System for Thermal Analysis of Buildings Components in Hot Box Experiments. Energies, 2019, 12, 2053.	3.1	25
22	Effects of energy efficiency measures on building performance: an analysis in seven European cities. IOP Conference Series: Materials Science and Engineering, 2019, 609, 072076.	0.6	1
23	Influence of insulation defects on the thermal performance of walls. An experimental and numerical investigation. Journal of Building Engineering, 2019, 21, 355-365.	3.4	15
24	Smartphone diagnostics for cultural heritage. , 2019, , .		8
25	Is a self-sufficient building energy efficient? Lesson learned from a case study in Mediterranean climate. Applied Energy, 2018, 218, 131-145.	10.1	29
26	Combined experimental and computational approach for defect detection in precious walls built in indoor environments. International Journal of Thermal Sciences, 2018, 129, 29-46.	4.9	21
27	Active thermography testing and data analysis for the state of conservation of panel paintings. International Journal of Thermal Sciences, 2018, 126, 143-151.	4.9	39
28	The thermophysical behaviour of cork supports doped with an innovative thermal insulation and protective coating: A numerical analysis based on in situ experimental data. Energy and Buildings, 2018, 159, 508-528.	6.7	17
29	Data-driven model predictive control using random forests for building energy optimization and climate control. Applied Energy, 2018, 226, 1252-1272.	10.1	220
30	Multipurpose, dual-mode imaging in the 3-5 $\mu\text{m}$ range (MWIR) for artwork diagnostics: A systematic approach. Optics and Lasers in Engineering, 2018, 104, 266-273.	3.8	17
31	Room and window geometry influence for daylight harvesting maximization - Effects on energy savings in an academic classroom. Energy Procedia, 2018, 148, 1090-1097.	1.8	33
32	A versatile system for in-situ speckle and thermography-based diagnostics of artifacts. IOP Conference Series: Materials Science and Engineering, 2018, 364, 012063.	0.6	1
33	Quantification of heat energy losses through the building envelope: A state-of-the-art analysis with critical and comprehensive review on infrared thermography. Building and Environment, 2018, 146, 190-205.	6.9	112
34	Effect of noise on measurements of diffusivity in transparent liquid mixtures by digital speckle photography. EPJ Applied Physics, 2018, 82, 30501.	0.7	1
35	Multi-scale approach for analyzing convective heat transfer flow in background-oriented Schlieren technique. Optics and Lasers in Engineering, 2018, 110, 415-419.	3.8	10
36	The energy efficiency challenge for a historical building undergone to seismic and energy refurbishment. Energy Procedia, 2017, 133, 231-242.	1.8	22

#	ARTICLE	IF	CITATIONS
37	A proposal of a new material for greenhouses on the basis of numerical, optical, thermal and mechanical approaches. <i>Construction and Building Materials</i> , 2017, 155, 332-347.	7.2	18
38	The hybrid thermography approach applied to architectural structures. <i>Proceedings of SPIE</i> , 2017, , .	0.8	2
39	A first approach to universal daylight and occupancy control system for any lamps: Simulated case in an academic classroom. <i>Energy and Buildings</i> , 2017, 152, 24-39.	6.7	38
40	Energetic performance analysis of a commercial water-based photovoltaic thermal system (PV/T) under summer conditions. <i>Journal of Physics: Conference Series</i> , 2017, 923, 012040.	0.4	11
41	IR thermography as a preliminary tool in acoustical inspection of ancient historical structures. , 2017, , .		0
42	Modeling and Optimization of the Thermal Performance of a Wood-Cement Block in a Low-Energy House Construction. <i>Energies</i> , 2016, 9, 677.	3.1	11
43	Multi-year consumption analysis and innovative energy perspectives: The case study of Leonardo da Vinci International Airport of Rome. <i>Energy Conversion and Management</i> , 2016, 128, 261-272.	9.2	33
44	U-value assessment by infrared thermography: A comparison of different calculation methods in a Guarded Hot Box. <i>Energy and Buildings</i> , 2016, 122, 211-221.	6.7	78
45	Ceramics and defects. <i>Journal of Thermal Analysis and Calorimetry</i> , 2016, 123, 43-62.	3.6	36
46	Infrared exploration of the architectural heritage: from passive infrared thermography to &emdash;hybrid&emdash; infrared thermography (HIRT) approach. <i>Materiales De Construccion</i> , 2016, 66, e094.	0.7	29
47	How to Retrieve Information Inherent to Old Restorations Made on Frescoes of Particular Artistic Value Using Infrared Vision?. <i>International Journal of Thermophysics</i> , 2015, 36, 3051-3070.	2.1	18
48	A comparison between thermographic and flow-meter methods for the evaluation of thermal transmittance of different wall constructions. <i>Journal of Physics: Conference Series</i> , 2015, 655, 012007.	0.4	35
49	33rd UIT (Italian Union of Thermo-fluid dynamics) Heat Transfer Conference. <i>Journal of Physics: Conference Series</i> , 2015, 655, 011001.	0.4	1
50	Validation of quantitative IR thermography for estimating the U-value by a hot box apparatus. <i>Journal of Physics: Conference Series</i> , 2015, 655, 012006.	0.4	12
51	Role of the masonry in paintings during a seismic event analyzed by infrared vision. <i>Proceedings of SPIE</i> , 2015, , .	0.8	4
52	Santa Maria di Collemaggio Church (L'Aquila, Italy): Historical Reconstruction by Non-Destructive Testing Techniques. <i>International Journal of Architectural Heritage</i> , 2015, 9, 367-390.	3.1	24
53	Evaluating Mitigation Effects of Urban Heat Islands in a Historical Small Center with the ENVI-Met® Climate Model. <i>Sustainability</i> , 2014, 6, 7013-7029.	3.2	101
54	Discovering the Defects in Paintings Using Non-destructive Testing (NDT) Techniques and Passing Through Measurements of Deformation. <i>Journal of Nondestructive Evaluation</i> , 2014, 33, 358-383.	2.4	23

#	ARTICLE	IF	CITATIONS
55	Holographic Interferometry (HI), Infrared Vision and X-Ray Fluorescence (XRF) spectroscopy for the assessment of painted wooden statues: a new integrated approach. Applied Physics A: Materials Science and Processing, 2014, 115, 1041-1056.	2.3	30
56	Non-Destructive Testing Techniques to Help the Restoration of Frescoes. Arabian Journal for Science and Engineering, 2014, 39, 3461-3480.	1.1	16
57	A qualitative method for combining thermal imprints to emerging weak points of ancient wall structures by passive infrared thermography " A case study. Journal of Cultural Heritage, 2014, 15, 199-202.	3.3	51
58	Diffusion Measurements Using DOE Schardin's Schlieren #2 Technique. , 2014, , .		0
59	Quantitative thermography for the estimation of the U-value: state of the art and a case study. Journal of Physics: Conference Series, 2014, 547, 012016.	0.4	24
60	Preventive thermographic diagnosis of historical buildings for consolidation. Journal of Cultural Heritage, 2013, 14, 116-121.	3.3	80
61	Thermal Quasi-Reflectography (TQR): current research and potential applications. Proceedings of SPIE, 2013, , .	0.8	3
62	Defects detection and non-destructive testing (NDT) techniques in paintings: a unified approach through measurements of deformation. Proceedings of SPIE, 2013, , .	0.8	4
63	Eco-Friendly Laminates: From the Indentation to Non-Destructive Evaluation by Optical and Infrared Monitoring Techniques. Strain, 2013, 49, 175-189.	2.4	21
64	Mid-infrared reflectography for the analysis of pictorial surface layers in artworks. , 2013, , .		7
65	Thermal quasi-reflectography: a new imaging tool in art conservation. Optics Express, 2012, 20, 14746.	3.4	33
66	NDT inspection of plastered mosaics by means of transient thermography and holographic interferometry. NDT and E International, 2012, 47, 150-156.	3.7	33
67	Flow visualization and beyond. Optics and Lasers in Engineering, 2012, 50, 1-7.	3.8	12
68	Role of data processing in measuring temperature gradients with DOE Schardin's schlieren #2. Optics and Lasers in Engineering, 2012, 50, 1069-1074.	3.8	7
69	Wide-band IR imaging in the NIR-MIR-FIR regions for in situ analysis of frescoes. Proceedings of SPIE, 2011, , .	0.8	11
70	Integrated approach between pulsed thermography, near-infrared reflectography and sandwich holography for wooden panel paintings advanced monitoring. Russian Journal of Nondestructive Testing, 2011, 47, 284-293.	0.9	27
71	The use of optical and infrared techniques for the restoration of the frescoes damaged by earthquake: a case study "the fresco of Giacomo Farelli in the Church of Santa Maria della Croce di Roio (L'Aquila, Italy). WIT Transactions on the Built Environment, 2011, , .	0.0	2
72	Comparative study for the nondestructive testing of advanced ceramic materials by infrared thermography and holographic interferometry. , 2010, , .		8

#	ARTICLE	IF	CITATIONS
73	White-light speckle photography technique applied for free convection heat transfer problems. Flow Measurement and Instrumentation, 2010, 21, 98-104.	2.0	8
74	Integrated reflectography and thermography for wooden paintings diagnostics. Journal of Cultural Heritage, 2010, 11, 196-204.	3.3	58
75	Diagnostics of panel paintings using holographic interferometry and pulsed thermography. Quantitative InfraRed Thermography Journal, 2010, 7, 85-114.	4.2	56
76	Quantitative Infrared Thermography (IRT) and Holographic Interferometry (HI): Nondestructive Testing (NDT) for Defects Detection in the Silicate Ceramics Industry. Advances in Science and Technology, 2010, 68, 102-107.	0.2	9
77	Sandwich holography for studying convective fields: performance analysis. Optical Engineering, 2010, 49, 033605.	1.0	0
78	A comparative investigation for the nondestructive testing of honeycomb structures by holographic interferometry and infrared thermography. Journal of Physics: Conference Series, 2010, 214, 012071.	0.4	15
79	Imaging data integration for painting diagnostics. , 2009, , .		3
80	Overview of diffusion measurements by optical techniques. Optics and Lasers in Engineering, 2008, 46, 852-864.	3.8	53
81	Subsurface defect characterization in artworks by quantitative pulsed phase thermography and holographic interferometry. Quantitative InfraRed Thermography Journal, 2008, 5, 131-149.	4.2	34
82	NDT methods in artwork corrosion monitoring. , 2007, , .		6
83	Heat transfer measurement by a diffractive optical element fringe projection. Optical Engineering, 2007, 46, 093606.	1.0	6
84	Optical methods in heat transfer and fluid flow. Optics and Lasers in Engineering, 2006, 44, 155-158.	3.8	14
85	Comparative measurements of natural convection heat transfer in channels by holographic interferometry and schlieren. European Journal of Physics, 2006, 27, 159-172.	0.6	22
86	Unusual Optical Techniques in Diffusivity Measurements. , 2006, , .		1
87	Destructive interference from three partially coherent point sources. Optics Communications, 2005, 254, 30-39.	2.1	12
88	Low-Cost Optoelectronic System for Three-Dimensional Artwork Texture Measurement. IEEE Transactions on Image Processing, 2004, 13, 390-396.	9.8	11
89	Liquid diffusion coefficients by digital moiré. Optical Engineering, 2004, 43, 798.	1.0	13
90	Holographic and speckle methods for the analysis of panel paintings. Developments since the early 1970s. Studies in Conservation, 2004, 49, 38-48.	1.1	13

#	ARTICLE	IF	CITATIONS
91	INVESTIGATION OF NATURAL CONVECTION IN VERTICAL CHANNELS BY SCHLIEREN AND HOLOGRAPHIC INTERFEROMETRY. Journal of Flow Visualization and Image Processing, 2004, 11, 323-334.	0.5	5
92	An NDT electro-optic system for mosaics investigations. Journal of Cultural Heritage, 2003, 4, 369-376.	3.3	23
93	Study of free-convective onset on a horizontal wire using speckle pattern interferometry. International Journal of Heat and Mass Transfer, 2003, 46, 4145-4155.	4.8	16
94	Digital moiré by a diffractive optical element for deformation analysis of ancient paintings. Journal of Optics, 2003, 5, S146-S151.	1.5	6
95	Diffractive optical element based sensor to measure small diffusion coefficients. , 2003, , .		0
96	Unwrapping weighted algorithm in fringe projection 3D profilometry. , 2003, , .		0
97	<title>Virtual gallery of ancient coins through conoscopic holography</title>. , 2003, , .		4
98	Vibration analysis of layered structures by digital local correlation of laser speckle. , 2003, 5144, 669.		0
99	Variable resolution profilometer for artwork surface topography. , 2003, , .		0
100	ESPI for mosaics diagnostics. , 2002, , .		0
101	<title>Vibration analysis of layered structures by optoelectronics methods</title>. , 2002, , .		0
102	Displacement measurement using the Talbot effect with a Ronchi grating. Journal of Optics, 2002, 4, S376-S380.	1.5	55
103	Diffractive optical element based sensor for roughness measurement. Sensors and Actuators A: Physical, 2002, 100, 180-186.	4.1	9
104	Speckle decorrelation study of liquid diffusion. Optics and Lasers in Engineering, 2002, 37, 341-353.	3.8	10
105	White-light digital speckle photography in free convection. Optics Communications, 2002, 201, 39-44.	2.1	4
106	Sandwich holography for simultaneous temperature visualization and convective heat transport measurement beneath a heated horizontal plate. , 2002, , .		0
107	Comparative study on the efficiency of some optical methods for artwork diagnostics. , 2001, , .		5
108	Sandwich holography for simultaneous temperature visualization and heat-transfer coefficient measurement. Optical Engineering, 2001, 40, 1274.	1.0	4

#	ARTICLE	IF	CITATIONS
109	Diffractive optical element-based profilometer for surface inspection. <i>Optical Engineering</i> , 2001, 40, 44.	1.0	27
110	The propagator for a particle in a well. <i>European Journal of Physics</i> , 2001, 22, 53-66.	0.6	13
111	Surface contouring by diffractive optical element-based fringe projection. <i>Measurement Science and Technology</i> , 2001, 12, N6-N8.	2.6	5
112	Contouring of artwork surface by fringe projection and FFT analysis. <i>Optics and Lasers in Engineering</i> , 2000, 33, 141-156.	3.8	47
113	Fibre optic projected fringes for monitoring marble surface status. <i>Journal of Cultural Heritage</i> , 2000, 1, S337-S343.	3.3	11
114	Sandwich holography for determining the convective heat transfer coefficient. <i>Journal of Optics</i> , 2000, 2, 39-42.	1.5	8
115	Three-dimensional optical profilometry for artwork inspection. <i>Journal of Optics</i> , 2000, 2, 353-361.	1.5	17
116	Talbot effect application: measurement of distance with a Fourier-transform method. <i>Measurement Science and Technology</i> , 2000, 11, 77-82.	2.6	13
117	Artwork Profilometry Using a Diffractive Element for Fringe Projection. , 2000, , 581-588.		0
118	Buoyancy-induced flows monitoring by digital speckle photography and Fourier transform analysis. <i>Optics Communications</i> , 1999, 169, 51-57.	2.1	6
119	Measurement of vibration amplitude by an optical fiber-based moiré interferometer. <i>Optics and Lasers in Engineering</i> , 1998, 30, 213-223.	3.8	7
120	High-precision digital automated measurement of degree of coherence in the Thompson and Wolf experiment. <i>Journal of Optics</i> , 1998, 7, 933-939.	0.5	18
121	Electro-optic correlation for in situ diagnostics in mural frescoes. <i>Journal of Optics</i> , 1997, 6, 557-563.	0.5	18
122	An elementary approach to spinors. <i>European Journal of Physics</i> , 1997, 18, 256-262.	0.6	4
123	Bouncing light beams and the Hamiltonian analogy. <i>European Journal of Physics</i> , 1997, 18, 284-289.	0.6	20
124	Successful pinhole photography. <i>American Journal of Physics</i> , 1997, 65, 256-257.	0.7	4
125	Image decorrelation for in situ diagnostics of wooden artifacts. <i>Applied Optics</i> , 1997, 36, 8358.	2.1	14
126	Roughness measurement by electronic speckle correlation and mechanical profilometry. <i>Measurement: Journal of the International Measurement Confederation</i> , 1997, 20, 243-249.	5.0	15
