#	ARTICLE	IF	CITATIONS
1	Web-Based Structured Education for Type 2 Diabetes: Interdisciplinary User-Centered Design Approach. JMIR Human Factors, 2022, 9, e31567.	2.0	1
2	Digital Health Intervention Design and Deployment for Engaging Demographic Groups Likely to Be Affected by the Digital Divide: Protocol for a Systematic Scoping Review. JMIR Research Protocols, 2022, 11, e32538.	1.0	5
3	Supportive care needs of men with prostate cancer: A systematic review update. European Journal of Cancer Care, 2022, 31, e13541.	1.5	9
4	Development, deployment and evaluation of digitally enabled, remote, supported rehabilitation for people with long COVID-19 (Living With COVID-19 Recovery): protocol for a mixed-methods study. BMJ Open, 2022, 12, e057408.	1.9	14
5	Economic Evaluation of Digital Health Interventions: Methodological Issues and Recommendations for Practice. Pharmacoeconomics, 2022, 40, 367-378.	3.3	26
6	Translational framework for implementation evaluation and research: a normalisation process theory coding manual for qualitative research and instrument development. Implementation Science, 2022, 17, 19.	6.9	50
7	Factors influencing the efficacy of an online behavioural intervention for children and young people with tics: Process evaluation of a randomised controlled trial. Journal of Behavioral and Cognitive Therapy, 2022, 32, 197-206.	1.4	2
8	Frameworks for Implementation, Uptake, and Use of Cardiometabolic Disease-Related Digital Health Interventions in Ethnic Minority Populations: Scoping Review. JMIR Cardio, 2022, 6, e37360.	1.7	4
9	Uptake and impact of the English National Health Service digital diabetes prevention programme: observational study. BMJ Open Diabetes Research and Care, 2022, 10, e002736.	2.8	30
10	Economic evaluation of the Target-D platform to match depression management to severity prognosis in primary care: A within-trial cost-utility analysis. PLoS ONE, 2022, 17, e0268948.	2.5	6
11	The Supportive Care Needs of Cancer Patients: a Systematic Review. Journal of Cancer Education, 2021, 36, 899-908.	1.3	34
12	Home and Online Management and Evaluation of Blood Pressure (HOME BP) using a digital intervention in poorly controlled hypertension: randomised controlled trial. BMJ, The, 2021, 372, m4858.	6.0	106
13	Circulating Tissue Factor Pathway Inhibitor (TFPI) is increased preceding preeclampsia diagnosis and in established preeclampsia. Placenta, 2021, 105, 32-40.	1.5	8
14	Combining patient talk about internet use during primary care consultations with retrospective accounts. A qualitative analysis of interactional and interview data. Social Science and Medicine, 2021, 272, 113703.	3.8	7
15	Qualitative study: patients' enduring concerns about discussing internet use in general practice consultations. BMJ Open, 2021, 11, e047508.	1.9	5
16	Feasibility randomised controlled trial comparing TRAK-ACL digital rehabilitation intervention plus treatment as usual versus treatment as usual for patients following anterior cruciate ligament reconstruction. BMJ Open Sport and Exercise Medicine, 2021, 7, e001002.	2.9	3
17	Fidelity of Delivery and Contextual Factors Influencing Children's Level of Engagement: Process Evaluation of the Online Remote Behavioral Intervention for Tics Trial. Journal of Medical Internet Research, 2021, 23, e25470.	4.3	8
18	Mixed methods process evaluation of my breathing matters, a digital intervention to support self-management of asthma. Npj Primary Care Respiratory Medicine, 2021, 31, 35.	2.6	5

#	ARTICLE	IF	CITATIONS
19	Patients' use of the internet to negotiate about treatment. <i>Social Science and Medicine</i> , 2021, 290, 114262.	3.8	7
20	Efficacy and Safety of Text Messages Targeting Adherence to Cardiovascular Medications in Secondary Prevention: TXT2HEART Colombia Randomized Controlled Trial. <i>JMIR MHealth and UHealth</i> , 2021, 9, e25548.	3.7	9
21	Circulating syndecan-1 is reduced in pregnancies with poor fetal growth and its secretion regulated by matrix metalloproteinases and the mitochondria. <i>Scientific Reports</i> , 2021, 11, 16595.	3.3	5
22	An Evaluation Service for Digital Public Health Interventions: User-Centered Design Approach. <i>Journal of Medical Internet Research</i> , 2021, 23, e28356.	4.3	12
23	Deprescribing intervention activities mapped to guiding principles for use in general practice: a scoping review. <i>BMJ Open</i> , 2021, 11, e052547.	1.9	12
24	Therapist-supported online remote behavioural intervention for tics in children and adolescents in England (ORBIT): a multicentre, parallel group, single-blind, randomised controlled trial. <i>Lancet Psychiatry</i> , 2021, 8, 871-882.	7.4	35
25	The multidisciplinary, theory-based co-design of a new digital health intervention supporting the care of oesophageal cancer patients. <i>Digital Health</i> , 2021, 7, 205520762110384.	1.8	7
26	Interactive digital interventions for prevention of sexually transmitted HIV. <i>Aids</i> , 2021, 35, 643-653.	2.2	9
27	Matching depression management to severity prognosis in primary care: results of the Target-D randomised controlled trial. <i>British Journal of General Practice</i> , 2021, 71, e85-e94.	1.4	16
28	Potential normalization of an asthma mHealth intervention in community pharmacies: Applying a theory-based framework. <i>Research in Social and Administrative Pharmacy</i> , 2020, 16, 195-201.	3.0	7
29	Protocol for the Process Evaluation of the Online Remote Behavioural Intervention for Tics (ORBIT) randomized controlled trial for children and young people. <i>Trials</i> , 2020, 21, 6.	1.6	12
30	Use of the TIDieR checklist to describe an online structured education programme for type 2 diabetes. <i>Digital Health</i> , 2020, 6, 205520762097564.	1.8	6
31	Opportunities and challenges of delivering digital clinical trials: lessons learned from a randomised controlled trial of an online behavioural intervention for children and young people. <i>Trials</i> , 2020, 21, 1011.	1.6	13
32	Implementation of An online Relatives' Toolkit for psychosis or bipolar (IMPART study): iterative multiple case study to identify key factors impacting on staff uptake and use. <i>BMC Health Services Research</i> , 2020, 20, 219.	2.2	7
33	Circulating Delta-like homolog 1 (DLK1) at 36 weeks is correlated with birthweight and is of placental origin. <i>Placenta</i> , 2020, 91, 24-30.	1.5	9
34	Clinical effectiveness of a web-based peer-supported self-management intervention for relatives of people with psychosis or bipolar (REACT): online, observer-blind, randomised controlled superiority trial. <i>BMC Psychiatry</i> , 2020, 20, 160.	2.6	23
35	A scoping review of the resources needed to deliver anterior cruciate ligament physiotherapy rehabilitation in randomised controlled trials. <i>Physical Therapy Reviews</i> , 2020, 25, 81-95.	0.8	2
36	Feasibility, Acceptability, and Impact of a Web-Based Structured Education Program for Type 2 Diabetes: Real-World Study. <i>JMIR Diabetes</i> , 2020, 5, e15744.	1.9	25

#	ARTICLE	IF	CITATIONS
37	Methodological Challenges in Web-Based Trials: Update and Insights From the Relatives Education and Coping Toolkit Trial. <i>JMIR Mental Health</i> , 2020, 7, e15878.	3.3	10
38	A web-based, peer-supported self-management intervention to reduce distress in relatives of people with psychosis or bipolar disorder: the REACT RCT. <i>Health Technology Assessment</i> , 2020, 24, 1-142.	2.8	14
39	eHealth/mHealth Trial Methodology. , 2020, , 736-739.		0
40	An online supported self-management toolkit for relatives of people with psychosis or bipolar experiences: the IMPART multiple case study. <i>Health Services and Delivery Research</i> , 2020, 8, 1-248.	1.4	4
41	Health on the Move (HOME) Study: Using a smartphone app to explore the health and wellbeing of migrants in the United Kingdom. <i>Wellcome Open Research</i> , 2020, 5, 268.	1.8	1
42	The Healthier You: <scp>NHS</scp> Diabetes Prevention Programme: digital modes of delivery engage younger people. <i>Diabetic Medicine</i> , 2019, 36, 1510-1511.	2.3	14
43	General Practitioner's use of online resources during medical visits: managing the boundary between inside and outside the clinic. <i>Sociology of Health and Illness</i> , 2019, 41, 65-81.	2.1	14
44	Evaluation of the digital diabetes prevention programme pilot: uncontrolled mixed-methods study protocol. <i>BMJ Open</i> , 2019, 9, e025903.	1.9	12
45	An online healthy relationship tool and safety decision aid for women experiencing intimate partner violence (I-DECIDE): a randomised controlled trial. <i>Lancet Public Health</i> , The, 2019, 4, e301-e310.	10.0	65
46	Help-Seeking for Sexual Difficulties and the Potential Role of Interactive Digital Interventions: Findings From the Third British National Survey of Sexual Attitudes and Lifestyles. <i>Journal of Sex Research</i> , 2019, 56, 937-946.	2.5	19
47	A digital self-management intervention for adults with type 2 diabetes: Combining theory, data and participatory design to develop HeLP-Diabetes. <i>Internet Interventions</i> , 2019, 17, 100241.	2.7	36
48	Evaluation of the efficacy and safety of text messages targeting adherence to cardiovascular medications in secondary prevention: the txt2heart Colombia randomised controlled trial protocol. <i>BMJ Open</i> , 2019, 9, e028017.	1.9	4
49	Relationship between popularity and the likely efficacy: an observational study based on a random selection on top-ranked physical activity apps. <i>BMJ Open</i> , 2019, 9, e027536.	1.9	16
50	Health care professionals's views towards self-management and self-management education for people with type 2 diabetes. <i>BMJ Open</i> , 2019, 9, e029961.	1.9	19
51	Investigating a therapist-guided, parent-assisted remote digital behavioural intervention for tics in children and adolescents's "Online Remote Behavioural Intervention for Tics" (ORBIT) trial: protocol of an internal pilot study and single-blind randomised controlled trial. <i>BMJ Open</i> , 2019, 9, e027583.	1.9	34
52	Factors affecting implementation of digital health interventions for people with psychosis or bipolar disorder, and their family and friends: a systematic review. <i>Lancet Psychiatry</i> , the, 2019, 6, 257-266.	7.4	85
53	"I'm not a real boozier": a qualitative study of primary care patients's views on drinking and its consequences. <i>Journal of Public Health</i> , 2019, 41, e185-e191.	1.8	24
54	Improving the normalization of complex interventions: part 1 - development of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). <i>BMC Medical Research Methodology</i> , 2018, 18, 133.	3.1	97

#	ARTICLE	IF	CITATIONS
55	Improving the normalization of complex interventions: part 2 - validation of the NoMAD instrument for assessing implementation work based on normalization process theory (NPT). BMC Medical Research Methodology, 2018, 18, 135.	3.1	139
56	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. BMC Health Services Research, 2018, 18, 794.	2.2	74
57	Effectiveness and treatment moderators of internet interventions for adult problem drinking: An individual patient data meta-analysis of 19 randomised controlled trials. PLoS Medicine, 2018, 15, e1002714.	8.4	186
58	Protocol paper for the "Harnessing resources from the internet to maximise outcomes from GP consultations (HaRI)" study: a mixed qualitative methods study. BMJ Open, 2018, 8, e024188.	1.9	8
59	DIAMOND (Digital Alcohol Management ON Demand): a feasibility RCT and embedded process evaluation of a digital health intervention to reduce hazardous and harmful alcohol use recruiting in hospital emergency departments and online. Pilot and Feasibility Studies, 2018, 4, 114.	1.2	3
60	Using Normalization Process Theory in feasibility studies and process evaluations of complex healthcare interventions: a systematic review. Implementation Science, 2018, 13, 80.	6.9	350
61	Seven lessons for interdisciplinary research on interactive digital health interventions. Digital Health, 2018, 4, 205520761877032.	1.8	122
62	Crossing the Digital Divide in Online Self-Management Support: Analysis of Usage Data From HeLP-Diabetes. JMIR Diabetes, 2018, 3, e10925.	1.9	21
63	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. Journal of Medical Internet Research, 2018, 20, e40.	4.3	98
64	Cost-Effectiveness of Facilitated Access to a Self-Management Website, Compared to Usual Care, for Patients With Type 2 Diabetes (HeLP-Diabetes): Randomized Controlled Trial. Journal of Medical Internet Research, 2018, 20, e201.	4.3	35
65	Quality of Publicly Available Physical Activity Apps: Review and Content Analysis. JMIR MHealth and UHealth, 2018, 6, e53.	3.7	119
66	A web-based self-management programme for people with type 2 diabetes: the HeLP-Diabetes research programme including RCT. Programme Grants for Applied Research, 2018, 6, 1-242.	1.0	13
67	eHealth/mHealth Trial Methodology. , 2018, , 1-4.		0
68	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. BMJ Open, 2017, 7, e016009.	1.9	75
69	Protocol for an online randomised controlled trial to evaluate the clinical and cost-effectiveness of a peer-supported self-management intervention for relatives of people with psychosis or bipolar disorder: Relatives Education And Coping Toolkit (REACT). BMJ Open, 2017, 7, e016965.	1.9	18
70	Standards for Reporting Implementation Studies (StaRI): explanation and elaboration document. BMJ Open, 2017, 7, e013318.	1.9	165
71	Intervention planning for a digital intervention for self-management of hypertension: a theory-, evidence- and person-based approach. Implementation Science, 2017, 12, 25.	6.9	107
72	Validation of the AUDIT-C in adults seeking help with their drinking online. Addiction Science & Clinical Practice, 2017, 12, 2.	2.6	64

#	ARTICLE	IF	CITATIONS
73	Using digital interventions for self-management of chronic physical health conditions: A meta-ethnography review of published studies. <i>Patient Education and Counseling</i> , 2017, 100, 616-635.	2.2	147
74	IMpLeMentation of A Relativesâ€™ Toolkit (IMPART study): an iterative case study to identify key factors impacting on the implementation of a web-based supported self-management intervention for relatives of people with psychosis or bipolar experiences in a National Health Service: a study protocol. <i>Implementation Science</i> , 2017, 12, 152.	6.9	12
75	Target-D: a stratified individually randomized controlled trial of the diamond clinical prediction tool to triage and target treatment for depressive symptoms in general practice: study protocol for a randomized controlled trial. <i>Trials</i> , 2017, 18, 342.	1.6	15
76	Standards for Reporting Implementation Studies (StaRI) Statement. <i>BMJ: British Medical Journal</i> , 2017, 356, i6795.	2.3	621
77	DIAMOND (Digital Alcohol Management ON Demand): a mixed methods feasibility RCT and embedded process evaluation of a digital health intervention to reduce hazardous and harmful alcohol use. <i>Pilot and Feasibility Studies</i> , 2017, 3, 34.	1.2	5
78	Promoting Engagement With a Digital Health Intervention (HeLP-Diabetes) Using Email and Text Message Prompts: Mixed-Methods Study. <i>Interactive Journal of Medical Research</i> , 2017, 6, e14.	1.4	32
79	The Impact of an Internet-Based Self-Management Intervention (HeLP-Diabetes) on the Psychological Well-Being of Adults with Type 2 Diabetes: A Mixed-Method Cohort Study. <i>Journal of Diabetes Research</i> , 2016, 2016, 1-13.	2.3	26
80	Digital interventions to promote self-management in adults with hypertension systematic review and meta-analysis. <i>Journal of Hypertension</i> , 2016, 34, 600-612.	0.5	112
81	I-DECIDE: An Online Intervention Drawing on the Psychosocial Readiness Model for Women Experiencing Domestic Violence. <i>Women's Health Issues</i> , 2016, 26, 208-216.	2.0	45
82	The Menâ€™s Safer Sex Trial: A feasibility randomised controlled trial of an interactive digital intervention to increase condom use in men. <i>Digital Health</i> , 2016, 2, 205520761667900.	1.8	6
83	Designing and Undertaking a Health Economics Study of Digital Health Interventions. <i>American Journal of Preventive Medicine</i> , 2016, 51, 852-860.	3.0	60
84	Evaluating Digital Health Interventions. <i>American Journal of Preventive Medicine</i> , 2016, 51, 843-851.	3.0	553
85	Factors that influence the implementation of e-health: a systematic review of systematic reviews (an) Tj ETQq1 1 0.784314 rgBT /Ove	6.9	636
86	Interactive digital interventions to promote self-management in adults with asthma: systematic review and meta-analysis. <i>BMC Pulmonary Medicine</i> , 2016, 16, 83.	2.0	44
87	The Effectiveness of Prompts to Promote Engagement With Digital Interventions: A Systematic Review. <i>Journal of Medical Internet Research</i> , 2016, 18, e6.	4.3	229
88	The Menâ€™s Safer Sex project: intervention development and feasibility randomised controlled trial of an interactive digital intervention to increase condom use in men. <i>Health Technology Assessment</i> , 2016, 20, 1-124.	2.8	13
89	Patient reactions to a web-based cardiovascular risk calculator in type 2 diabetes: a qualitative study in primary care. <i>British Journal of General Practice</i> , 2015, 65, e152-e160.	1.4	35
90	Achieving change in primary careâ€™ effectiveness of strategies for improving implementation of complex interventions: systematic review of reviews. <i>BMJ Open</i> , 2015, 5, e009993.	1.9	153

#	ARTICLE	IF	CITATIONS
91	HeLP-Diabetes: randomised controlled trial protocol. BMC Health Services Research, 2015, 15, 578.	2.2	12
92	Achieving change in primary care—causes of the evidence to practice gap: systematic reviews of reviews. Implementation Science, 2015, 11, 40.	6.9	316
93	Digital Alcohol Management ON Demand (DIAMOND) feasibility randomised controlled trial of a web-based intervention to reduce alcohol consumption in people with hazardous and harmful use versus a face-to-face intervention: protocol. Pilot and Feasibility Studies, 2015, 1, 28.	1.2	5
94	Online Health Check for Reducing Alcohol Intake among Employees: A Feasibility Study in Six Workplaces across England. PLoS ONE, 2015, 10, e0121174.	2.5	16
95	Digital media interventions for sexual health promotion—opportunities and challenges. BMJ, The, 2015, 350, h1099-h1099.	6.0	35
96	Negotiating the “grey area between normal social drinking and being a smelly tramp”: a qualitative study of people searching for help online to reduce their drinking. Health Expectations, 2015, 18, 2011-2020.	2.6	32
97	The Men's Safer Sex (MenSS) trial: protocol for a pilot randomised controlled trial of an interactive digital intervention to increase condom use in men. BMJ Open, 2015, 5, e007552-e007552.	1.9	19
98	Exploring the challenges of implementing e-health: a protocol for an update of a systematic review of reviews. BMJ Open, 2015, 5, e006773-e006773.	1.9	47
99	A BEME systematic review of UK undergraduate medical education in the general practice setting: BEME Guide No. 32. Medical Teacher, 2015, 37, 611-630.	1.8	48
100	Calling the shots: Young professional women's relationship with alcohol. Feminism and Psychology, 2015, 25, 219-234.	1.8	20
101	Protocol for a randomised controlled trial of a web-based healthy relationship tool and safety decision aid for women experiencing domestic violence (I-DECIDE). BMC Public Health, 2015, 15, 736.	2.9	31
102	Views of People With High and Low Levels of Health Literacy About a Digital Intervention to Promote Physical Activity for Diabetes: A Qualitative Study in Five Countries. Journal of Medical Internet Research, 2015, 17, e230.	4.3	93
103	The Effectiveness of Technology-Based Strategies to Promote Engagement With Digital Interventions: A Systematic Review Protocol. JMIR Research Protocols, 2015, 4, e47.	1.0	40
104	Defining the Content of an Online Sexual Health Intervention: The MenSS Website. JMIR Research Protocols, 2015, 4, e82.	1.0	10
105	Digital Interventions to Promote Self-Management in Adults With Hypertension: Protocol for Systematic Review and Meta-Analysis. JMIR Research Protocols, 2015, 4, e133.	1.0	9
106	Sexual health promotion for young people delivered via digital media: a scoping review. Public Health Research, 2015, 3, 1-120.	1.3	74
107	Addressing the evidence to practice gap for complex interventions in primary care: a systematic review of reviews protocol. BMJ Open, 2014, 4, e005548-e005548.	1.9	17
108	Computer-Based Interventions to Improve Self-management in Adults With Type 2 Diabetes: A Systematic Review and Meta-analysis. Diabetes Care, 2014, 37, 1759-1766.	8.6	200
