#	ARTICLE	IF	CITATIONS
1	Three-variable systems: An integrative moderation and mediation framework for developmental psychopathology. <i>Development and Psychopathology</i> , 2023, 35, 12-23.	2.3	6
2	Quantifying Severity of Preschool-Aged Children's Internalizing Behaviors: A Daily Diary Analysis. <i>Assessment</i> , 2023, 30, 190-209.	3.1	5
3	Do State and Trait Affect Measures Retain Their Measurement Properties during a Disaster? An Investigation of Measurement Invariance during the COVID-19 Pandemic. <i>Journal of Personality Assessment</i> , 2023, 105, 134-142.	2.1	3
4	Affective Dynamics and Mean Levels of Preschool Irritability and Sadness: Predictors of Children's Psychological Functioning Two Years Later. <i>Child Psychiatry and Human Development</i> , 2022, 53, 244-255.	1.9	5
5	Intergenerational Transmission of Rumination via Parenting Behaviors and Family Characteristics: The Impact on Adolescent Internalizing Symptoms. <i>Child Psychiatry and Human Development</i> , 2022, 53, 27-38.	1.9	3
6	Examination of developmental pathways from preschool temperament to early adolescent ADHD symptoms through initial responsiveness to reward. <i>Development and Psychopathology</i> , 2022, 34, 841-853.	2.3	11
7	Testing Invariance of Measures of Internalizing Symptoms Before and After a Major Life Stressor: The Impact of COVID-19 in an Adolescent and Young Adult Sample. <i>Assessment</i> , 2022, 29, 1371-1380.	3.1	5
8	Depression in 3/6-year-old children: clinical and psychosocial outcomes in later childhood and adolescence. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2022, 63, 984-991.	5.2	5
9	Evaluating the item-level factor structure of anhedonia. <i>Journal of Affective Disorders</i> , 2022, 299, 215-222.	4.1	5
10	Validity and utility of Hierarchical Taxonomy of Psychopathology (HiTOP): Emotional dysfunction superspectrum. <i>World Psychiatry</i> , 2022, 21, 26-54.	10.4	97
11	Temperament and psychopathology in early childhood predict body dissatisfaction and eating disorder symptoms in adolescence. <i>Behaviour Research and Therapy</i> , 2022, 151, 104039.	3.1	12
12	Maternal Response to Positive Affect Moderates the Impact of Familial Risk for Depression on Ventral Striatal Response to Winning Reward in 6- to 8-Year-Old Children. <i>Biological Psychiatry: Cognitive Neuroscience and Neuroimaging</i> , 2022, 7, 824-832.	1.5	4
13	Parent-Child Synchrony After Early Childhood: A Systematic Review. <i>Clinical Child and Family Psychology Review</i> , 2022, 25, 529-551.	4.5	10
14	How Robust Is the p Factor? Using Multitrait-Multimethod Modeling to Inform the Meaning of General Factors of Youth Psychopathology. <i>Clinical Psychological Science</i> , 2022, 10, 640-661.	4.0	17
15	Offspring irritability: associations with parental psychopathology and personality. <i>European Child and Adolescent Psychiatry</i> , 2022, , .	4.7	2
16	Residence in High-Crime Neighborhoods Moderates the Association Between Interleukin 6 and Social and Nonsocial Reward Brain Responses. <i>Biological Psychiatry Global Open Science</i> , 2022, 2, 273-282.	2.2	7
17	A multimethod, multiinformant study of early childhood temperament and depression and anxiety symptoms in adolescence.. , 2022, 131, 741-753.		4
18	A missing link in affect regulation: the cerebellum. <i>Social Cognitive and Affective Neuroscience</i> , 2022, 17, 1068-1081.	3.0	13

#	ARTICLE	IF	CITATIONS
19	Factor Structure, Convergent, and Divergent Validity of the Prodromal Questionnaire's Negative Symptom Subscale. <i>Assessment</i> , 2021, 28, 153-168.	3.1	6
20	Using Item Response Theory to Compare Irritability Measures in Early Adolescent and Childhood Samples. <i>Assessment</i> , 2021, 28, 918-927.	3.1	27
21	Associations between individual differences in approach motivation and effort-based task performance. <i>Personality and Individual Differences</i> , 2021, 169, 109903.	2.9	3
22	The Main and Interactive Associations between Demographic Factors and Psychopathology and Treatment Utilization in Youth: A Test of Intersectionality in the ABCD Study. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 5-17.	2.3	9
23	Changes in community clinicians' attitudes and competence following a transdiagnostic Cognitive Behavioral Therapy training. <i>Implementation Research and Practice</i> , 2021, 2, 263348952110302.	1.9	8
24	Does maternal psychopathology bias reports of offspring symptoms? A study using moderated non-linear factor analysis. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 1195-1201.	5.2	37
25	A developmental perspective on personality and psychopathology across the life span. <i>Journal of Personality</i> , 2021, 89, 915-932.	3.2	10
26	Latent Class Analysis of Adolescent Psychosocial Functioning and Course of Major Depression. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 963-973.	2.3	2
27	Differential outcomes of tonic and phasic irritability in adolescent girls. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2021, 62, 1220-1227.	5.2	24
28	Increased self-reported reward responsiveness predicts better response to cognitive behavioral therapy for youth with anxiety. <i>Journal of Anxiety Disorders</i> , 2021, 80, 102402.	3.2	5
29	Early childhood temperament predicts intolerance of uncertainty in adolescence. <i>Journal of Anxiety Disorders</i> , 2021, 80, 102390.	3.2	5
30	Examining the Neurobiology of Non-Suicidal Self-Injury in Children and Adolescents: The Role of Reward Responsivity. <i>Journal of Clinical Medicine</i> , 2021, 10, 3561.	2.4	6
31	The relationship between executive functioning and repetitive negative thinking in youth: A systematic review of the literature. <i>Clinical Psychology Review</i> , 2021, 88, 102050.	11.4	8
32	The effect of caregiver key opinion leaders on increasing caregiver demand for evidence-based practices to treat youth anxiety: protocol for a randomized control trial. <i>Implementation Science Communications</i> , 2021, 2, 107.	2.2	7
33	Identifying profiles of brain structure and associations with current and future psychopathology in youth. <i>Developmental Cognitive Neuroscience</i> , 2021, 51, 101013.	4.0	4
34	Examining self-reported social functioning, sleep quality, and psychotic-like experiences in college students. <i>Journal of Psychiatric Research</i> , 2021, 143, 54-59.	3.1	3
35	Reliability and Validity of Preschool Feelings Checklist. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 367-379.	2.3	3
36	Parsing between- and within-person effects: Longitudinal associations between irritability and internalizing and externalizing problems from early childhood through adolescence. <i>Development and Psychopathology</i> , 2021, , 1-11.	2.3	1

#	ARTICLE	IF	CITATIONS
37	Childhood temperament as a predictor of adolescent nonsuicidal self-injury. <i>Development and Psychopathology</i> , 2021, , 1-8.	2.3	1
38	Executive dysfunction in depression in adolescence: the role of inflammation and higher body mass. <i>Psychological Medicine</i> , 2020, 50, 683-691.	4.5	42
39	Person-Centered Profiles Among Treatment-Seeking Children and Adolescents with Anxiety Disorders. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2020, 49, 626-638.	3.4	2
40	Functions of Non-Suicidal Self-Injury in Late Adolescence: A Latent Class Analysis. <i>Archives of Suicide Research</i> , 2020, 24, S165-S186.	2.3	26
41	Profiles of psychosocial and clinical functioning in adolescence and risk for later depression and other outcomes. <i>Psychological Medicine</i> , 2020, 50, 2066-2074.	4.5	3
42	Dimensions of irritability in adolescents: longitudinal associations with psychopathology in adulthood. <i>Psychological Medicine</i> , 2020, 50, 2759-2767.	4.5	35
43	Life stress moderates the effects of preschool behavioral inhibition on anxiety in early adolescence. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2020, 61, 167-174.	5.2	5
44	Training with tarantulas: A randomized feasibility and acceptability study using experiential learning to enhance exposure therapy training. <i>Journal of Anxiety Disorders</i> , 2020, 76, 102308.	3.2	14
45	Application of a diathesis-stress model to the interplay of cortical structural development and emerging depression in youth. <i>Clinical Psychology Review</i> , 2020, 82, 101922.	11.4	13
46	Clinical Applications of Measurement Invariance. <i>Journal of Personality Assessment</i> , 2020, 102, 727-729.	2.1	7
47	Depression moderates maternal response to preschoolers' positive affect. <i>Infant and Child Development</i> , 2020, 29, e2198.	1.5	6
48	In-Session Involvement in Anxious Youth Receiving CBT with/without Medication. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2020, 42, 615-626.	1.2	5
49	Matters arising from Blanchard, A. E., Dunn, T. J., & Sumich, A. (2020). Borderline personality traits in attractive women and wealthy low attractive men are relatively favoured by the opposite sex. <i>Personality and Individual Differences</i> , 109964. <i>Personality and Individual Differences</i> , 2020, 165, 110123.	2.9	1
50	Parent versus child report of children's sexual orientation: associations with psychiatric morbidity in the Adolescent Brain Cognitive Development study. <i>Annals of Epidemiology</i> , 2020, 45, 1-4.	1.9	6
51	Trajectories of depressive symptoms through adolescence as predictors of cortical thickness in the orbitofrontal cortex: An examination of sex differences. <i>Psychiatry Research - Neuroimaging</i> , 2020, 303, 111132.	1.8	2
52	Responses to affect subtypes differentially associate with anxious and depressive symptom severity. <i>PLoS ONE</i> , 2020, 15, e0235256.	2.5	2
53	Mediators of youth anxiety outcomes 3 to 12 years after treatment. <i>Journal of Anxiety Disorders</i> , 2020, 70, 102188.	3.2	4
54	Approach and avoidance patterns in reward learning across domains: An initial examination of the Social Iowa Gambling Task. <i>Behaviour Research and Therapy</i> , 2020, 125, 103547.	3.1	11

#	ARTICLE	IF	CITATIONS
55	Evaluating maternal psychopathology biases in reports of child temperament: An investigation of measurement invariance.. <i>Psychological Assessment</i> , 2020, 32, 1037-1046.	1.5	24
56	Psychometric analysis of the adult separation anxiety symptom questionnaire: Item functioning and invariance across gender and time.. <i>Psychological Assessment</i> , 2020, 32, 582-593.	1.5	4
57	Validity of retrospectively-reported depressive episodes. <i>Journal of Affective Disorders</i> , 2020, 277, 908-913.	4.1	1
58	Offspring of Mothers With Histories of Chronic and Non-chronic Depression: Symptom Trajectories From Ages 6 to 15. <i>Frontiers in Psychiatry</i> , 2020, 11, 601779.	2.6	3
59	Neural responses to social evaluation: The role of fear of positive and negative evaluation. <i>Journal of Anxiety Disorders</i> , 2019, 67, 102114.	3.2	9
60	Mapping the frequency and severity of anxiety behaviors in preschool-aged children. <i>Journal of Anxiety Disorders</i> , 2019, 63, 9-17.	3.2	11
61	Wired to be connected? Links between mobile technology engagement, intertemporal preference and frontostriatal white matter connectivity. <i>Social Cognitive and Affective Neuroscience</i> , 2019, 14, 367-379.	3.0	10
62	A Factor Analysis and Test of Longitudinal Measurement Invariance of the Children's Depression Inventory (CDI) Across Adolescence. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2019, 41, 692-698.	1.2	11
63	Multi-informant Expectancies and Treatment Outcomes for Anxiety in Youth. <i>Child Psychiatry and Human Development</i> , 2019, 50, 1002-1010.	1.9	6
64	Reactive and Regulatory Temperament: Longitudinal Associations with Internalizing and Externalizing Symptoms through Childhood. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 1771-1784.	3.5	11
65	The role of hedonics in the Human Affectome. <i>Neuroscience and Biobehavioral Reviews</i> , 2019, 102, 221-241.	6.1	38
66	A Daily Diary Analysis of Preschool Depressive Behaviors: Prospective Associations and Moderators Across 14 Days. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 1547-1558.	3.5	10
67	Pubertal Timing and Substance use in Adolescence: an Investigation of Two Cognitive Moderators. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 1509-1520.	3.5	13
68	The consistency and cognitive predictors of children's oral language, reading, and math learning profiles. <i>Learning and Individual Differences</i> , 2019, 70, 130-141.	2.7	7
69	A Longitudinal Investigation of Cognitive Self-schemas across Adolescent Development. <i>Journal of Youth and Adolescence</i> , 2019, 48, 635-647.	3.5	9
70	Worry and anxiety account for unique variance in the relationship between intolerance of uncertainty and depression. <i>Cognitive Behaviour Therapy</i> , 2019, 48, 253-264.	3.5	16
71	Is Worse Attention a Risk Factor for or a Consequence of Depression, or Are Worse Attention and Depression Better Accounted for by Stress? A Prospective Test of Three Hypotheses. <i>Clinical Psychological Science</i> , 2019, 7, 93-109.	4.0	22
72	Is the Assessment of Personality Comparable in Persons Who Have and Have Not Experienced Depressive, Anxiety, and Substance Use Disorders? An Examination of Measurement Invariance. <i>Assessment</i> , 2019, 26, 45-55.	3.1	3

#	ARTICLE	IF	CITATIONS
73	Traumatic life event exposure and psychotic-like experiences: A multiple mediation model of cognitive-based mechanisms. <i>Schizophrenia Research</i> , 2019, 205, 15-22.	2.0	40
74	Positive and Negative Emotionality at Age 3 Predicts Change in Frontal EEG Asymmetry across Early Childhood. <i>Journal of Abnormal Child Psychology</i> , 2019, 47, 209-219.	3.5	9
75	Emotional clarity development and psychosocial outcomes during adolescence.. <i>Emotion</i> , 2019, 19, 563-572.	1.8	11
76	Attentional biases and trauma status: Do psychotic-like experiences matter?. <i>Psychological Trauma: Theory, Research, Practice, and Policy</i> , 2019, 11, 300-306.	2.1	1
77	Early temperamental fearfulness and the developmental trajectory of error-related brain activity. <i>Developmental Psychobiology</i> , 2018, 60, 224-231.	1.6	22
78	The Development of Latent Dimensions of Psychopathology across Early Childhood: Stability of Dimensions and Moderators of Change. <i>Journal of Abnormal Child Psychology</i> , 2018, 46, 1373-1383.	3.5	50
79	The Development of Future Orientation is Associated with Faster Decline in Hopelessness during Adolescence. <i>Journal of Youth and Adolescence</i> , 2018, 47, 2129-2142.	3.5	20
80	The Stability of Temperament from Early Childhood to Early Adolescence: A Multi-Informant Examination. <i>European Journal of Personality</i> , 2018, 32, 128-145.	3.1	36
81	Emotional clarity and attention to emotions in cognitive behavioral group therapy and mindfulness-based stress reduction for social anxiety disorder. <i>Journal of Anxiety Disorders</i> , 2018, 55, 31-38.	3.2	28
82	Temperament Distinguishes Persistent/Recurrent from Remitting Anxiety Disorders Across Early Childhood. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2018, 47, 1004-1013.	3.4	14
83	Toward an Empirical Multidimensional Structure of Anhedonia, Reward Sensitivity, and Positive Emotionality: An Exploratory Factor Analytic Study. <i>Assessment</i> , 2018, 25, 679-690.	3.1	27
84	Developmental Origins of Rumination in Middle Childhood: The Roles of Early Temperament and Positive Parenting. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2018, 47, S409-S420.	3.4	21
85	Associations between observed temperament in preschoolers and parent psychopathology. <i>Personality and Mental Health</i> , 2018, 12, 131-144.	1.2	6
86	A longitudinal examination of event-related potentials sensitive to monetary reward and loss feedback from late childhood to middle adolescence. <i>International Journal of Psychophysiology</i> , 2018, 132, 323-330.	1.0	51
87	Is Parent-Child Disagreement on Child Anxiety Explained by Differences in Measurement Properties? An Examination of Measurement Invariance Across Informants and Time. <i>Frontiers in Psychology</i> , 2018, 9, 1295.	2.1	18
88	Understanding the Constellation of Adolescent Emotional Clarity and Cognitive Response Styles when Predicting Depression: A Latent Class Analysis. <i>Cognitive Therapy and Research</i> , 2018, 42, 803-812.	1.9	2
89	The BDNF gene <i>val66met</i> polymorphism and behavioral inhibition in early childhood. <i>Social Development</i> , 2018, 27, 543-554.	1.3	5
90	F212. Convergent and Divergent Validity of the Prodromal Questionnaire Negative Symptom Subscale. <i>Biological Psychiatry</i> , 2018, 83, S321.	1.3	0

#	ARTICLE	IF	CITATIONS
91	Negative cognitive style interacts with negative life events to predict first onset of a major depressive episode in adolescence via hopelessness.. <i>Journal of Abnormal Psychology</i> , 2018, 127, 1-11.	1.9	47
92	Results from the Child/Adolescent Anxiety Multimodal Longitudinal Study (CAMELS): Functional outcomes.. <i>Journal of Consulting and Clinical Psychology</i> , 2018, 86, 738-750.	2.0	40
93	Higher and Lower Order Factor Analyses of the Temperament in Middle Childhood Questionnaire. <i>Assessment</i> , 2017, 24, 1050-1061.	3.1	10
94	Early childhood cortisol reactivity moderates the effects of parent-child relationship quality on the development of children's temperament in early childhood. <i>Developmental Science</i> , 2017, 20, e12378.	2.4	17
95	Genetic and neural predictors of behavioral weight loss treatment: A preliminary study. <i>Obesity</i> , 2017, 25, 66-75.	3.0	7
96	Predicting Nonsuicidal Self-Injury in Borderline Personality Disorder Using Ecological Momentary Assessment. <i>Journal of Personality Disorders</i> , 2017, 31, 844-855.	1.4	24
97	The Cognitive Distortions Questionnaire (CD-Quest): Validation in a Sample of Adults with Social Anxiety Disorder. <i>Cognitive Therapy and Research</i> , 2017, 41, 576-587.	1.9	22
98	Initial Psychometric Validation of the Non-Suicidal Self-Injury Scar Cognition Scale. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2017, 39, 546-562.	1.2	11
99	Mapping the Frequency and Severity of Depressive Behaviors in Preschool-Aged Children. <i>Child Psychiatry and Human Development</i> , 2017, 48, 934-943.	1.9	13
100	Parents' behavioral inhibition moderates association of preschoolers' BI with risk for age 9 anxiety disorders. <i>Journal of Affective Disorders</i> , 2017, 210, 35-42.	4.1	14
101	Puberty Predicts Approach But Not Avoidance on the Iowa Gambling Task in a Multinational Sample. <i>Child Development</i> , 2017, 88, 1598-1614.	3.0	32
102	On the importance of temporal precedence in mediational analyses.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 80-82.	2.0	16
103	Evaluation of an open-access CBT-based Internet program for social anxiety: Patterns of use, retention, and outcomes.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 988-999.	2.0	29
104	Autonomic reactivity and vulnerability to depression: A multi-wave study.. <i>Emotion</i> , 2017, 17, 602-615.	1.8	31
105	Role of Reward Sensitivity and Processing in Major Depressive and Bipolar Spectrum Disorders. <i>Behavior Therapy</i> , 2016, 47, 600-621.	2.4	123
106	Future Research Directions in the Positive Valence Systems: Measurement, Development, and Implications for Youth Unipolar Depression. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2016, 45, 681-705.	3.4	38
107	A longitudinal investigation of predictors of the association between age 3 and age 6 behavioural inhibition. <i>Journal of Research in Personality</i> , 2016, 63, 51-61.	1.7	16
108	Higher- and lower-order factor analyses of the Children's Behavior Questionnaire in early and middle childhood.. <i>Psychological Assessment</i> , 2016, 28, 92-108.	1.5	20

#	ARTICLE	IF	CITATIONS
109	Revising the BIS/BAS Scale to study development: Measurement invariance and normative effects of age and sex from childhood through adulthood.. <i>Psychological Assessment</i> , 2016, 28, 429-442.	1.5	104
110	Pathways to anxiety-depression comorbidity: A longitudinal examination of childhood anxiety disorders. <i>Depression and Anxiety</i> , 2016, 33, 978-986.	4.1	25
111	Developmental changes in electroencephalographic frontal asymmetry in young children at risk for depression. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016, 57, 1075-1082.	5.2	33
112	Anger profiles in social anxiety disorder. <i>Journal of Anxiety Disorders</i> , 2016, 37, 21-29.	3.2	25
113	The Relationship Between Family Functioning and Adolescent Depressive Symptoms: The Role of Emotional Clarity. <i>Journal of Youth and Adolescence</i> , 2016, 45, 505-519.	3.5	44
114	Predicting clinical outcome from reward circuitry function and white matter structure in behaviorally and emotionally dysregulated youth. <i>Molecular Psychiatry</i> , 2016, 21, 1194-1201.	7.9	32
115	Child temperamental flexibility moderates the relation between positive parenting and adolescent adjustment. <i>Journal of Applied Developmental Psychology</i> , 2016, 43, 43-53.	1.7	14
116	The Temporal Sequence of Social Anxiety and Depressive Symptoms Following Interpersonal Stressors During Adolescence. <i>Journal of Abnormal Child Psychology</i> , 2016, 44, 495-509.	3.5	64
117	History of Depression and Frontostriatal Connectivity During Reward Processing in Late Adolescent Boys. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2016, 45, 59-68.	3.4	30
118	Maternal Depression, Parenting, and Youth Depressive Symptoms: Mediation and Moderation in a Short-Term Longitudinal Study. <i>Journal of Clinical Child and Adolescent Psychology</i> , 2016, 45, 279-290.	3.4	20
119	Negative emotionality and its facets moderate the effects of exposure to Hurricane Sandy on children's postdisaster depression and anxiety symptoms.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 471-481.	1.9	55
120	A comparison of psychometric and convergent validity for social anhedonia and social closeness.. <i>Psychological Assessment</i> , 2016, 28, 1465-1474.	1.5	8
121	The structural and rank-order stability of temperament in young children based on a laboratory-observational measure.. <i>Psychological Assessment</i> , 2015, 27, 1388-1401.	1.5	32
122	Adolescent development of inhibition as a function of SES and gender: Converging evidence from behavior and fMRI. <i>Human Brain Mapping</i> , 2015, 36, 3194-3203.	3.6	57
123	Social Reward in Youth at Risk for Depression: A Preliminary Investigation of Subjective and Neural Differences. <i>Journal of Child and Adolescent Psychopharmacology</i> , 2015, 25, 711-721.	1.3	106
124	Psychometric Comparison of Self- and Informant-Reports of Personality. <i>Assessment</i> , 2015, 22, 655-664.	3.1	33
125	Positive Parenting Interacts With Child Temperament and Negative Parenting to Predict Children's Socially Appropriate Behavior. <i>Journal of Social and Clinical Psychology</i> , 2015, 34, 411-435.	0.5	21
126	Attention allocation: Relationships to general working memory or specific language processing. <i>Journal of Experimental Child Psychology</i> , 2015, 139, 83-98.	1.4	13
