ΔΝΝΑ ΕΠΟΗS

#	Article	IF	CITATIONS
1	Impact of a maternal history of childhood abuse on the development of mother–infant interaction during the first year of life. Child Abuse and Neglect, 2015, 48, 179-189.	2.6	72
2	EMOTIONAL AVAILABILITY IN MOTHER-CHILD INTERACTION: THE EFFECTS OF MATERNAL DEPRESSION IN REMISSION AND ADDITIONAL HISTORY OF CHILDHOOD ABUSE. Depression and Anxiety, 2016, 33, 648-657.	4.1	68
3	The Early Mother-to-Child Bond and Its Unique Prospective Contribution to Child Behavior Evaluated by Mothers and Teachers. Psychopathology, 2016, 49, 211-216.	1.5	40
4	Impact of Maternal Early Life Maltreatment and Maternal History of Depression on Child Psychopathology: Mediating Role of Maternal Sensitivity?. Child Psychiatry and Human Development, 2019, 50, 278-290.	1.9	38
5	Effects of maternal history of depression and early life maltreatment on children's health-related quality of life. Journal of Affective Disorders, 2018, 225, 280-288.	4.1	30
6	Link between children's hair cortisol and psychopathology or quality of life moderated by childhood adversity risk. Psychoneuroendocrinology, 2018, 90, 52-60.	2.7	24
7	Parents' childhood experiences of bonding and parental psychopathology predict borderline personality disorder during adolescence in offspring. Psychiatry Research, 2016, 246, 373-378.	3.3	20
8	Neural processing of the own child's facial emotions in mothers with a history of early life maltreatment. European Archives of Psychiatry and Clinical Neuroscience, 2019, 269, 171-181.	3.2	18
9	The effect of a maternal history of childhood abuse on adrenocortical attunement in mothers and their toddlers. Developmental Psychobiology, 2017, 59, 639-652.	1.6	17
10	Differences in mother–child and father–child RSA synchrony: Moderation by child selfâ€regulation and dyadic affect. Developmental Psychobiology, 2021, 63, 1210-1224.	1.6	15
11	Sex-specific differences in adrenocortical attunement in mothers with a history of childhood abuse and their 5-month-old boys and girls. Journal of Neural Transmission, 2016, 123, 1085-1094.	2.8	14
12	Early life maltreatment but not lifetime depression predicts insecure attachment in women. Archives of Women's Mental Health, 2017, 20, 477-486.	2.6	14
13	The maternal brain in women with a history of early-life maltreatment: an imagination-based fMRI study of conflictual versus pleasant interactions with children. Journal of Psychiatry and Neuroscience, 2018, 43, 273-282.	2.4	14
14	Individual differences in parent and child average RSA and parent psychological distress influence parent-child RSA synchrony. Biological Psychology, 2021, 161, 108077.	2.2	13
15	Psychosocial functioning in adolescents with non-suicidal self-injury: the roles of childhood maltreatment, borderline personality disorder and depression. Borderline Personality Disorder and Emotion Dysregulation, 2021, 8, 21.	2.6	12
16	Alterations of empathy in mothers with a history of early life maltreatment, depression, and borderline personality disorder and their effects on child psychopathology. Psychological Medicine, 2020, 50, 1182-1190.	4.5	10
17	Maternal bonding impairment predicts personality disorder features in adolescence: The moderating role of child temperament and sex Personality Disorders: Theory, Research, and Treatment, 2021, 12, 475-483.	1.3	10
18	Understanding and breaking the intergenerational cycle of abuse in families enrolled in routine mental health services: study protocol for a randomized controlled trial and two non-interventional trials investigating mechanisms of change within the UBICA II consortium. Trials, 2021, 22, 749.	1.6	9

Anna Fuchs

#	Article	IF	CITATIONS
19	Observational Context of Mother-Child Interaction: Impact of a stress Context on Emotional Availability. Journal of Child and Family Studies, 2017, 26, 1583-1591.	1.3	8
20	Mind the Fathers: Associations of Parental Childhood Adversities With Borderline Personality Disorder Pathology in Female Adolescents. Journal of Personality Disorders, 2017, 31, 827-843.	1.4	8
21	Childhood adversity and parenting behavior: the role of oxytocin receptor gene polymorphisms. Journal of Neural Transmission, 2019, 126, 777-787.	2.8	8
22	The Cycle of Abuse: Emotional Availability in Resilient and Non-Resilient Mothers with Early Life Maltreatment. Psychopathology, 2020, 53, 298-305.	1.5	7
23	Dissociation Links Maternal History Of Childhood Abuse To Impaired parenting. Journal of Trauma and Dissociation, 2022, 23, 37-51.	1.9	5
24	Early life maltreatment and depression: Mediating effect of maternal hair cortisol concentration on child abuse potential. Psychoneuroendocrinology, 2020, 120, 104791.	2.7	3
25	Early Parenting Stress Links Obstetric Complications and Child Psychopathology in Middle Childhood in an At-Risk Sample. Journal of Developmental and Behavioral Pediatrics, 2022, 43, e48-e55.	1.1	3
26	Early life maltreatment affects intrinsic neural function in mothers. Journal of Psychiatric Research, 2021, 143, 176-182.	3.1	3
27	Hair cortisol moderates the association between obstetric complications and child wellbeing. Psychoneuroendocrinology, 2020, 121, 104845.	2.7	2
28	Maternal early life maltreatment and psychopathology affect the next generation: Alterations in postâ€awakening cortisol levels of primary schoolâ€aged children. Developmental Psychobiology, 2021, 63, 98-107.	1.6	1
29	Parental history of childhood maltreatment and child average RSA shape parent–child RSA synchrony. Developmental Psychobiology, 2021, 63, e22171.	1.6	1
30	Parenting and care: a complex role in the development of mental health. European Child and Adolescent Psychiatry, 2020, 29, 1171-1173.	4.7	0
