#	ARTICLE	IF	CITATIONS
1	Closed-loop assisted versus manual goal-directed fluid therapy during high-risk abdominal surgery: a caseâ€“control study with propensity matching. <i>Critical Care</i> , 2015, 19, 94.	5.8	58
2	Anxiety and stress among anaesthesiology and critical care residents during high-fidelity simulation sessions. <i>Anaesthesia, Critical Care & Pain Medicine</i> , 2016, 35, 407-416.	1.4	22
3	Relaxation before Debriefing during High-fidelity Simulation Improves Memory Retention of Residents at Three Months. <i>Anesthesiology</i> , 2018, 128, 638-649.	2.5	17
4	Comparison of cardiac output optimization with an automated closed-loop goal-directed fluid therapy versus non standardized manual fluid administration during elective abdominal surgery: first prospective randomized controlled trial. <i>Journal of Clinical Monitoring and Computing</i> , 2018, 32, 993-1003.	1.6	15
5	A trans-atlantic high-fidelity mannequin based telesimulation experience. <i>Anaesthesia, Critical Care & Pain Medicine</i> , 2017, 36, 239-241.	1.4	13
6	Does a twoâ€“minute miniâ€“fluid challenge predict fluid responsiveness in pediatric patients under general anesthesia?. <i>Paediatric Anaesthesia</i> , 2020, 30, 161-167.	1.1	9
7	Implementing biofeedback as a proactive coping strategy: Psychological and physiological effects on anticipatory stress. <i>Behaviour Research and Therapy</i> , 2021, 140, 103834.	3.1	9
8	Endotracheal bioimpedance cardiography improves immediate postoperative outcome: a case-control study in off-pump coronary surgery. <i>Journal of Clinical Monitoring and Computing</i> , 2018, 32, 81-87.	1.6	8
9	Relationship between the regurgitated and the aspirated volume of water. AÂmanikin study. <i>Anesthesiology Intensive Therapy</i> , 2019, 51, 121-125.	1.0	6
10	Combining proactive transcranial stimulation and cardiac biofeedback to substantially manage harmful stress effects. <i>Brain Stimulation</i> , 2021, 14, 1384-1392.	1.6	5
11	Active participation in high fidelity simulation might be associated with higher stress level and better learning outcomes at three months than external observation. <i>Anaesthesia, Critical Care & Pain Medicine</i> , 2019, 38, 523-525.	1.4	3
12	Mindfulness Improves Otolaryngology Residentsâ€™ Performance in a Simulated Bad-News Consultation: A Pilot Study. <i>Journal of Surgical Education</i> , 2021, 78, 1357-1365.	2.5	3
13	Implementation of a novel synchronous multi-site all day high-fidelity simulation. <i>Advances in Simulation</i> , 2018, 3, 2.	2.3	2
14	Impact of stress management strategies and experience on electrodermal activity during high-fidelity simulation of critical situations. <i>British Journal of Anaesthesia</i> , 2020, 125, e410-e412.	3.4	2
15	Cognitive aids: What are we talking about?. <i>Journal of Clinical Anesthesia</i> , 2021, 74, 110433.	1.6	2
16	Use of simulation to teach in the operating room â€“ Don't let the COVID-19 pandemic interrupt education:an observational clinical trial. <i>Brazilian Journal of Anesthesiology (Elsevier)</i> , 2022, 72, 185-188.	0.4	2
17	OSCEs for ranking medical students. <i>Medical Teacher</i> , 2022, 44, 1424-1425.	1.8	1
18	Simulation of difficult airway management for residents: prospective comparative study. <i>Brazilian Journal of Anesthesiology (Elsevier)</i> , 2019, 69, 358-368.	0.4	0
