#	ARTICLE	IF	CITATIONS
1	Risk factors for squamous cell carcinoma of the oral cavity in young people – a comprehensive literature review. <i>Oral Oncology</i> , 2001, 37, 401-418.	1.5	419
2	Evaluating the effectiveness of health belief model interventions in improving adherence: a systematic review. <i>Health Psychology Review</i> , 2014, 8, 253-269.	8.6	280
3	An analysis of risk factors for oral cancer in young people: a case-control study. <i>Oral Oncology</i> , 2004, 40, 304-313.	1.5	224
4	Sexual orientation disclosure in health care: a systematic review. <i>British Journal of General Practice</i> , 2018, 68, e187-e196.	1.4	132
5	Can we predict which head and neck cancer survivors develop fears of recurrence?. <i>Journal of Psychosomatic Research</i> , 2008, 65, 525-532.	2.6	127
6	Squamous cell carcinoma of the oral cavity in patients aged 45 years and under: a descriptive analysis of 116 cases diagnosed in the South East of England from 1990 to 1997. <i>Oral Oncology</i> , 2003, 39, 106-114.	1.5	113
7	Illness and treatment beliefs in head and neck cancer: Is Leventhal's common sense model a useful framework for determining changes in outcomes over time?. <i>Journal of Psychosomatic Research</i> , 2007, 63, 17-26.	2.6	112
8	The Illness Perceptions and Treatment Beliefs of Individuals with Severe Haemophilia and their Role in Adherence to Home Treatment. <i>Psychology and Health</i> , 2003, 18, 185-200.	2.2	92
9	How satisfied are head and neck cancer (HNC) patients with the information they receive pre-treatment? Results from the satisfaction with cancer information profile (SCIP). <i>Oral Oncology</i> , 2006, 42, 726-734.	1.5	81
10	Are psycho-social and behavioural factors related to health related-quality of life in patients with head and neck cancer? A systematic review. <i>Oral Oncology</i> , 2005, 41, 440-454.	1.5	79
11	The impact of stomatological disease on oral health-related quality of life. <i>European Journal of Oral Sciences</i> , 2003, 111, 297-304.	1.5	78
12	Associations between quality of life, coping styles, optimism, and anxiety and depression in pretreatment patients with head and neck cancer. <i>Head and Neck</i> , 2011, 33, 65-71.	2.0	78
13	Human papillomavirus and vaccine-related perceptions among men who have sex with men: a systematic review. <i>Sexually Transmitted Infections</i> , 2014, 90, 515-523.	1.9	76
14	Obtaining Self-Samples to Diagnose Curable Sexually Transmitted Infections: A Systematic Review of Patients' Experiences. <i>PLoS ONE</i> , 2015, 10, e0124310.	2.5	74
15	Assessing the psychological predictors of benefit finding in patients with head and neck cancer. <i>Psycho-Oncology</i> , 2013, 22, 97-105.	2.3	67
16	Syndemics of stigma, minority-stress, maladaptive coping, risk environments and littoral spaces among men who have sex with men using chemsex. <i>Culture, Health and Sexuality</i> , 2018, 20, 411-427.	1.8	63
17	Factors associated with delay in presentation among younger patients with oral cancer. <i>Oral Surgery Oral Medicine Oral Pathology Oral Radiology and Endodontics</i> , 2004, 97, 707-713.	1.4	61
18	A systematic review of the effectiveness of interventions using the Common Sense Self-Regulatory Model to improve adherence behaviours. <i>Journal of Health Psychology</i> , 2016, 21, 2709-2724.	2.3	51

#	ARTICLE	IF	CITATIONS
19	Conducting oral examinations for cancer in general practice: what are the barriers?. <i>Family Practice</i> , 2010, 27, 77-84.	1.9	50
20	Factors associated with good adherence to self-care behaviours amongst adolescents with food allergy. <i>Pediatric Allergy and Immunology</i> , 2015, 26, 111-118.	2.6	50
21	Head and neck cancer: To what extent can psychological factors explain differences between health-related quality of life and individual quality of life?. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2006, 44, 351-357.	0.8	48
22	Perceptions of HPV and attitudes towards HPV vaccination amongst men who have sex with men: A qualitative analysis. <i>British Journal of Health Psychology</i> , 2017, 22, 345-361.	3.5	47
23	Medical students' awareness of health issues, attitudes, and confidence about caring for lesbian, gay, bisexual and transgender patients: a cross-sectional survey. <i>BMC Medical Education</i> , 2021, 21, 56.	2.4	46
24	Explaining adherence to self-care behaviours amongst adolescents with food allergy: A comparison of the health belief model and the common sense self-regulation model. <i>British Journal of Health Psychology</i> , 2014, 19, 65-82.	3.5	38
25	Home Sampling for Sexually Transmitted Infections and HIV in Men Who Have Sex with Men: A Prospective Observational Study. <i>PLoS ONE</i> , 2015, 10, e0120810.	2.5	38
26	The relationship between the Patient Generated Index (PGI) and measures of HRQoL following diagnosis with head and neck cancer: Are illness and treatment perceptions determinants of judgment-based outcomes?. <i>British Journal of Health Psychology</i> , 2007, 12, 421-437.	3.5	35
27	Vaccine acceptability, uptake and completion amongst men who have sex with men: A systematic review, meta-analysis and theoretical framework. <i>Vaccine</i> , 2021, 39, 3565-3581.	3.8	35
28	Acceptability of artificial intelligence (AI)-enabled chatbots, video consultations and live webchats as online platforms for sexual health advice. <i>BMJ Sexual and Reproductive Health</i> , 2020, 46, 210-217.	1.7	33
29	Development and preliminary validation of a new measure to assess satisfaction with information among head and neck cancer patients: The satisfaction with cancer information profile (SCIP). <i>Head and Neck</i> , 2006, 28, 540-548.	2.0	31
30	Queering undergraduate medical curricula: a cross-sectional online survey of lesbian, gay, bisexual, transgender, and queer content inclusion in UK undergraduate medical education. <i>BMC Medical Education</i> , 2021, 21, 100.	2.4	30
31	"Cancer Doesn't Mean Curtains" Benefit Finding in Patients with Head and Neck Cancer in Remission. <i>Journal of Psychosocial Oncology</i> , 2010, 28, 666-682.	1.2	26
32	Home sampling kits for sexually transmitted infections: preferences and concerns of men who have sex with men. <i>Culture, Health and Sexuality</i> , 2011, 13, 343-353.	1.8	24
33	Men who have sex with men who do not access sexual health clinics nor disclose sexual orientation are unlikely to receive the HPV vaccine in the UK. <i>Vaccine</i> , 2018, 36, 5065-5070.	3.8	24
34	Preferences for HIV testing services among men who have sex with men in the UK: A discrete choice experiment. <i>PLoS Medicine</i> , 2019, 16, e1002779.	8.4	23
35	Understanding patient choices for attending sexually transmitted infection testing services: a qualitative study. <i>Sexually Transmitted Infections</i> , 2012, 88, 504-509.	1.9	21
36	Public attitudes towards opt-out testing for HIV in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2014, 64, e60-e66.	1.4	21

#	ARTICLE	IF	CITATIONS
37	Striking the right balance: A qualitative pilot study examining the role of information on the development of expectations in patients treated for head and neck cancer. <i>Psychology, Health and Medicine</i> , 2005, 10, 180-193.	2.4	20
38	Assessing user preferences for sexually transmitted infection testing services: a discrete choice experiment. <i>Sexually Transmitted Infections</i> , 2012, 88, 510-516.	1.9	19
39	A systematic review of patient acceptance of screening for oral cancer outside of dental care settings. <i>Oral Oncology</i> , 2014, 50, 956-962.	1.5	19
40	Testing for sexually transmitted infections among students: a discrete choice experiment of service preferences. <i>BMJ Open</i> , 2013, 3, e003240.	1.9	18
41	A systematic review of patients', parents' and healthcare professionals' adrenaline auto-injector administration techniques. <i>Emergency Medicine Journal</i> , 2017, 34, 403-416.	1.0	17
42	Talking about links between sexually transmitted infections and infertility with college and university students from SE England, UK: a qualitative study. <i>Reproductive Health</i> , 2013, 10, 47.	3.1	13
43	A cross-sectional comparison study of cognitive and emotional well-being in oral cancer patients. <i>Oral Oncology</i> , 2008, 44, 124-132.	1.5	12
44	Are home sampling kits for sexually transmitted infections acceptable among men who have sex with men?. <i>Journal of Health Services Research and Policy</i> , 2009, 14, 35-43.	1.7	12
45	Sexual healthcare professionals' views on HPV vaccination for men in the UK. <i>British Journal of Cancer</i> , 2015, 113, 1599-1601.	6.4	10
46	The role of digital interventions in sexual health. <i>Sexually Transmitted Infections</i> , 2017, 93, 234.2-235.	1.9	10
47	Patients' perspectives on the development of HIV services to accommodate ageing with HIV: a qualitative study. <i>International Journal of STD and AIDS</i> , 2018, 29, 483-490.	1.1	10
48	Sexual risk reduction interventions for patients attending sexual health clinics: a mixed-methods feasibility study. <i>Health Technology Assessment</i> , 2019, 23, 1-122.	2.8	10
49	Patient sexual orientation and gender identity disclosure. <i>Clinical Teacher</i> , 2020, 17, 669-673.	0.8	9
50	Is the Satisfaction with Cancer Information Profile (SCIP) valid for tailoring information for patients with head and neck cancer?. <i>BMC Cancer</i> , 2008, 8, 164.	2.6	7
51	Healthcare provider and service user perspectives on STI risk reduction interventions for young people and MSM in the UK. <i>Sexually Transmitted Infections</i> , 2019, 96, sextrans-2018-053903.	1.9	7
52	Sexual healthcare professionals' views on the rapid provision of remote services at the beginning of COVID-19 pandemic: A mixed-methods study. <i>International Journal of STD and AIDS</i> , 2021, 32, 1138-1148.	1.1	7
53	The relative clinical effectiveness and cost-effectiveness of three contrasting approaches to partner notification for curable sexually transmitted infections: a cluster randomised trial in primary care. <i>Health Technology Assessment</i> , 2015, 19, 1-116.	2.8	7
54	Sexual health promotion in people with severe mental illness: the RESPECT feasibility RCT. <i>Health Technology Assessment</i> , 2019, 23, 1-136.	2.8	7

#	ARTICLE	IF	CITATIONS
55	HIV self-tests for men who have sex with men, accessed via a digital vending machine: a qualitative study of acceptability. <i>International Journal of STD and AIDS</i> , 2020, 31, 420-425.	1.1	6
56	What is the extent of repeat prescriptions for post-exposure prophylaxis for HIV after sexual exposure among men who have sex with men in the UK?. <i>Sexual Health</i> , 2016, 13, 595.	0.9	5
57	Designing a brief behaviour change intervention to reduce sexually transmitted infections: a discrete choice experiment. <i>International Journal of STD and AIDS</i> , 2018, 29, 851-860.	1.1	5
58	The NHS England Fundamental Information Standard for Monitoring Sexual Orientation. <i>British Journal of General Practice</i> , 2019, 69, 94-95.	1.4	5
59	Multicentre RCT and economic evaluation of a psychological intervention together with a leaflet to reduce risk behaviour amongst men who have sex with men (MSM) prescribed post-exposure prophylaxis for HIV following sexual exposure (PEPSE): A protocol. <i>BMC Infectious Diseases</i> , 2012, 12, 70.	2.9	4
60	Understanding HIV-positive patients' preferences for healthcare services: a protocol for a discrete choice experiment. <i>BMJ Open</i> , 2016, 6, e008549.	1.9	4
61	A randomised controlled trial of a telephone administered brief HIV risk reduction intervention amongst men who have sex with men prescribed post-exposure prophylaxis for HIV after sexual exposure in the UK: Project PEPSE. <i>PLoS ONE</i> , 2019, 14, e0216855.	2.5	4
62	What is it about STI research that is unappealing? An experience of conducting sexual health research in general practice in England. <i>Sexually Transmitted Infections</i> , 2012, 88, 345-345.	1.9	1
63	P109...The SantÃ© project: Attitude towards STI risk assessment, preferences for STI behavioural risk reduction interventions: Service Users Perspectives. <i>Sexually Transmitted Infections</i> , 2016, 92, A56.4-A57.	1.9	1
64	O13...I was struggling to feel intimate, the drugs just helped... chemsex and HIV-risk among men who have sex with men (MSM) in the uk: syndemics of stigma, minority-stress, maladaptive coping and risk environments. <i>Sexually Transmitted Infections</i> , 2017, 93, A5.1-A5.	1.9	1
65	A decline in patient disclosure of heterosexuality in the English General Practice Patient Survey: a longitudinal analysis of cross-sectional data. <i>Family Practice</i> , 2020, 37, 661-667.	1.9	1
66	Nonclinical Sexual Health Support for HIV, Viral Hepatitis, and Other Sexually Transmitted Infections in Gay, Bisexual, and Other Men Who Have Sex With Men: Protocol for a European Community Health Worker Online Survey (ECHOES). <i>JMIR Research Protocols</i> , 2020, 9, e15012.	1.0	1
67	Understanding Patients' Experiences of Hayfever and its Treatment: A Survey of Illness and Medication Cognitions. <i>Journal of Allergy &amp; Therapy</i> , 2012, 01, .	0.1	1
68	U2...What do men who have sex with men (MSM) taking post-exposure prophylaxis (PEP) for hiv following sexual exposure report about their recent sexual risk-taking behaviour?. <i>Sexually Transmitted Infections</i> , 2015, 91, A14.2-A14.	1.9	0
69	P105...Sexual healthcare professionals' attitudes towards HPV vaccination for men in the united kingdom. <i>Sexually Transmitted Infections</i> , 2015, 91, A50.3-A51.	1.9	0
70	P117...A qualitative assessment of UK sexual healthcare professionals' views on targeted vaccination against human papillomavirus (HPV) for men who have sex with men (MSM). <i>Sexually Transmitted Infections</i> , 2015, 91, A54.3-A54.	1.9	0
71	P25...Investigating factors for increased gonorrhoea re-infection in msm attending a gu clinic: a qualitative study. <i>Sexually Transmitted Infections</i> , 2015, 91, A24.1-A24.	1.9	0
72	U7...Factors contributing to repeat pepse in msm. <i>Sexually Transmitted Infections</i> , 2015, 91, A15.3-A15.	1.9	0

#	ARTICLE	IF	CITATIONS
73	O025â€¦Behavioural factors associated with HPV vaccine acceptability amongst men who have sex with men in the United Kingdom. Sexually Transmitted Infections, 2016, 92, A9.3-A10.	1.9	0
74	O013â€¦Understanding the sexual appetites of men who have sex with men (MSM) taking part in a sexual risk reduction intervention after being prescribed post exposure prophylaxis for HIV after sexual exposure (PEPSE). Sexually Transmitted Infections, 2016, 92, A5.2-A5.	1.9	0
75	P110â€¦The SantÃ© Project: a mixed-methods assessment of opportunities and challenges for the delivery of brief risk reduction interventions in sexual health clinics in England - a healthcare providerâ€™s perspective: Abstract P110 Table 1.
