#	ARTICLE	IF	CITATIONS
1	Patient Experiences of Health Care Providers in Premenstrual Dysphoric Disorder: Examining the Role of Provider Specialty. <i>Journal of Women's Health</i> , 2022, 31, 100-109.	3.3	11
2	Using self-report RDoC measures to identify transdiagnostic translational targets for perinatal affective disorders. <i>Archives of Women's Mental Health</i> , 2022, 25, 411-420.	2.6	3
3	Prevalence of lifetime self-injurious thoughts and behaviors in a global sample of 599 patients reporting prospectively confirmed diagnosis with premenstrual dysphoric disorder. <i>BMC Psychiatry</i> , 2022, 22, 199.	2.6	9
4	Mood sensitivity to estradiol predicts depressive symptoms in the menopause transition. <i>Psychological Medicine</i> , 2021, 51, 1733-1741.	4.5	27
5	How to study the menstrual cycle: Practical tools and recommendations. <i>Psychoneuroendocrinology</i> , 2021, 123, 104895.	2.7	123
6	Refinement and Validation of the Balanced Inventory of Mindfulness-Related Skills (BIMS). <i>Mindfulness</i> , 2021, 12, 1208-1223.	2.8	3
7	Effects of Sex Steroid Manipulation on Neural Reward Circuitry and Depression in the Context of Antecedent Vulnerability. <i>Biological Psychiatry</i> , 2021, 89, S8.	1.3	0
8	Commentary on Joyce et al.: Studying menstrual cycle effects on behavior requires within-person designs and attention to individual differences in hormone sensitivity. <i>Addiction</i> , 2021, 116, 2759-2760.	3.3	5
9	Characterizing Response to Reproductive Steroids Among Females with Chronic suicidality: Evidence for Unique Surge and Withdrawal Sensitivities at Baseline and During Hormone Administration. <i>Biological Psychiatry</i> , 2021, 89, S7.	1.3	0
10	Understanding menstrual cycle effects on suicide will require prospective studies of suicidal thoughts and behaviors in premenstrual disorders. <i>BMC Medicine</i> , 2021, 19, 135.	5.5	4
11	Endocrine and psychosocial moderators of mindfulness-based stress reduction for the prevention of perimenopausal depressive symptoms: A randomized controlled trial. <i>Psychoneuroendocrinology</i> , 2021, 130, 105277.	2.7	18
12	Multilevel growth curve analyses of behavioral activation for anhedonia (BATA) and mindfulness-based cognitive therapy effects on anhedonia and resting-state functional connectivity: Interim results of a randomized trial. <i>Journal of Affective Disorders</i> , 2021, 292, 161-171.	4.1	20
13	Neuroactive steroids and depression in early pregnancy. <i>Psychoneuroendocrinology</i> , 2021, 134, 105424.	2.7	14
14	Sex differences in the transcription of monoamine transporters in major depression. <i>Journal of Affective Disorders</i> , 2021, 295, 1215-1219.	4.1	5
15	The Use of Task Shifting to Improve Treatment Engagement in an Internet-Based Mindfulness Intervention Among Chinese University Students: Randomized Controlled Trial. <i>JMIR Formative Research</i> , 2021, 5, e25772.	1.4	8
16	Are there temporal subtypes of premenstrual dysphoric disorder?: using group-based trajectory modeling to identify individual differences in symptom change. <i>Psychological Medicine</i> , 2020, 50, 964-972.	4.5	24
17	Using Non-Specialist Providers to Improve Treatment Engagement in an Online Mindfulness Intervention in China. <i>Behaviour Research and Therapy</i> , 2020, 130, 103644.	3.1	2
18	Understanding When and Why Some Adolescent Girls Attempt Suicide: An Emerging Framework Integrating Menstrual Cycle Fluctuations in Risk. <i>Child Development Perspectives</i> , 2020, 14, 116-123.	3.9	10

#	ARTICLE	IF	CITATIONS
19	Evolution, the Menstrual Cycle, and Theoretical Overreach. <i>Perspectives on Psychological Science</i> , 2020, 15, 1113-1130.	9.0	15
20	Higher Circulating Cortisol in the Follicular vs. Luteal Phase of the Menstrual Cycle: A Meta-Analysis. <i>Frontiers in Endocrinology</i> , 2020, 11, 311.	3.5	35
21	Effectiveness of transdermal nicotine patch in premenopausal female smokers is moderated by within-subject severity of negative affect and physical symptoms. <i>Psychopharmacology</i> , 2020, 237, 1737-1744.	3.1	2
22	Menstrual Cycle Changes in Vagally-Mediated Heart Rate Variability Are Associated with Progesterone: Evidence from Two Within-Person Studies. <i>Journal of Clinical Medicine</i> , 2020, 9, 617.	2.4	26
23	Neuroactive Steroids and Premenstrual Dysphoria: Divergent Associations of Ambient Levels and Acute Changes With Affective Symptoms. <i>Biological Psychiatry</i> , 2020, 87, S422.	1.3	0
24	Neural Mechanisms of Social and Nonsocial Reward Prediction Errors in Adolescents with Autism Spectrum Disorder. <i>Autism Research</i> , 2020, 13, 715-728.	3.8	21
25	Differential effects of the menstrual cycle on reactive and proactive aggression in borderline personality disorder. <i>Aggressive Behavior</i> , 2020, 46, 151-161.	2.4	12
26	Steroid Hormone Sensitivity in Reproductive Mood Disorders: On the Role of the GABAA Receptor Complex and Stress During Hormonal Transitions. <i>Frontiers in Medicine</i> , 2020, 7, 479646.	2.6	34
27	Hormones and Personality. , 2020, , 2010-2032.		1
28	Emotional approach coping in older adults as predictor of physical and mental health.. <i>Psychology and Aging</i> , 2020, 35, 591-603.	1.6	13
29	Examining HPA-axis functioning as a mediator of the relationship between depression and cognition across the adult lifespan. <i>Aging, Neuropsychology, and Cognition</i> , 2019, 26, 507-520.	1.3	9
30	Biological Responses to Acute Stress and Suicide: a Review and Opportunities for Methodological Innovation. <i>Current Behavioral Neuroscience Reports</i> , 2019, 6, 141-150.	1.3	5
31	Neural Mechanisms of Reward Prediction Error in Autism Spectrum Disorder. <i>Autism Research &amp; Treatment</i> , 2019, 2019, 1-10.	0.5	9
32	Effects of brief daily mindfulness practice on affective outcomes and correlates in a high BPD trait sample. <i>Psychiatry Research</i> , 2019, 280, 112485.	3.3	4
33	Ovarian Hormones as a Source of Fluctuating Biological Vulnerability in Borderline Personality Disorder. <i>Current Psychiatry Reports</i> , 2019, 21, 109.	4.5	7
34	Ovarian hormones influence eating disorder symptom variability during the menopause transition: A pilot study. <i>Eating Behaviors</i> , 2019, 35, 101337.	2.0	18
35	Does higher-than-usual stress predict nonsuicidal self-harm? Evidence from two prospective studies in adolescent and emerging adult females. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2019, 60, 1076-1084.	5.2	25
36	Within-person change in cardiac vagal activity across the menstrual cycle: A meta-analysis. <i>Psychoneuroendocrinology</i> , 2019, 100, S17.	2.7	1

#	ARTICLE	IF	CITATIONS
37	A Systematic Review and Meta-Analysis of Within-Person Changes in Cardiac Vagal Activity across the Menstrual Cycle: Implications for Female Health and Future Studies. <i>Journal of Clinical Medicine</i> , 2019, 8, 1946.	2.4	51
38	Effects of perimenopausal transdermal estradiol on self-reported sleep, independent of its effect on vasomotor symptom bother and depressive symptoms. <i>Menopause</i> , 2019, 26, 1318-1323.	2.0	15
39	Pretreatment brain connectivity during positive emotion upregulation predicts decreased anhedonia following behavioral activation therapy for depression. <i>Journal of Affective Disorders</i> , 2019, 243, 188-192.	4.1	19
40	Premenstrual Disorders: A Primer and Research Agenda for Psychologists. <i>The Clinical Psychologist</i> , 2019, 72, 5-17.	3.0	9
41	Efficacy of Transdermal Estradiol and Micronized Progesterone in the Prevention of Depressive Symptoms in the Menopause Transition. <i>JAMA Psychiatry</i> , 2018, 75, 149.	11.0	140
42	Reproductive steroids and ADHD symptoms across the menstrual cycle. <i>Psychoneuroendocrinology</i> , 2018, 88, 105-114.	2.7	34
43	Emotion-related impulsivity and rumination predict the perimenstrual severity and trajectory of symptoms in women with a menstrually related mood disorder. <i>Journal of Clinical Psychology</i> , 2018, 74, 579-593.	1.9	18
44	Early Life Abuse Moderates the Effects of Intranasal Oxytocin on Symptoms of Premenstrual Dysphoric Disorder: Preliminary Evidence From a Placebo-Controlled Trial. <i>Frontiers in Psychiatry</i> , 2018, 9, 547.	2.6	10
45	Suicide Risk and the Menstrual Cycle: a Review of Candidate RDoC Mechanisms. <i>Current Psychiatry Reports</i> , 2018, 20, 106.	4.5	28
46	HPA axis response and psychosocial stress as interactive predictors of suicidal ideation and behavior in adolescent females: a multilevel diathesis-stress framework. <i>Neuropsychopharmacology</i> , 2018, 43, 2564-2571.	5.4	48
47	Perimenstrual exacerbation of symptoms in borderline personality disorder: evidence from multilevel models and the Carolina Premenstrual Assessment Scoring System. <i>Psychological Medicine</i> , 2018, 48, 2085-2095.	4.5	30
48	Exploring the pathophysiology of emotion-based impulsivity: The roles of the sympathetic nervous system and hostile reactivity. <i>Psychiatry Research</i> , 2018, 267, 368-375.	3.3	9
49	Effects of mindfulness, reappraisal, and suppression on sad mood and cognitive resources. <i>Behaviour Research and Therapy</i> , 2017, 91, 33-42.	3.1	21
50	Predictors of premenstrual impairment among women undergoing prospective assessment for premenstrual dysphoric disorder: a cycle-level analysis. <i>Psychological Medicine</i> , 2017, 47, 1585-1596.	4.5	13
51	Response to a mindful self-compassion intervention in teens: A within-person association of mindfulness, self-compassion, and emotional well-being outcomes. <i>Journal of Adolescence</i> , 2017, 57, 108-118.	2.4	131
52	High trait shame undermines the protective effects of prevalence knowledge on state shame following HPV/CIN diagnosis in women. <i>Journal of Behavioral Medicine</i> , 2017, 40, 814-820.	2.1	5
53	Characteristics of Repetitive Thought Associated with Borderline Personality Features: A Multimodal Investigation of Ruminative Content and Style. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2017, 39, 456-466.	1.2	30
54	Treatment of premenstrual dysphoria with continuous versus intermittent dosing of oral contraceptives: Results of a three-arm randomized controlled trial. <i>Depression and Anxiety</i> , 2017, 34, 908-917.	4.1	20

#	ARTICLE	IF	CITATIONS
55	Attenuation of Frontostriatal Connectivity During Reward Processing Predicts Response to Psychotherapy in Major Depressive Disorder. <i>Neuropsychopharmacology</i> , 2017, 42, 831-843.	5.4	57
56	Toward the Reliable Diagnosis of DSM-5 Premenstrual Dysphoric Disorder: The Carolina Premenstrual Assessment Scoring System (C-PASS). <i>American Journal of Psychiatry</i> , 2017, 174, 51-59.	7.2	67
57	Interactive effects of ovarian steroid hormones on alcohol use and binge drinking across the menstrual cycle.. <i>Journal of Abnormal Psychology</i> , 2017, 126, 1104-1113.	1.9	42
58	A within-person approach to risk for suicidal ideation and suicidal behavior: Examining the roles of depression, stress, and abuse exposure.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 712-722.	2.0	58
59	Cognitive and Affective Aspects of Creative Option Generation in Everyday Life Situations. <i>Frontiers in Psychology</i> , 2016, 07, 1132.	2.1	8
60	Physiological response to reward and extinction predicts alcohol, marijuana, and cigarette use two years later. <i>Drug and Alcohol Dependence</i> , 2016, 163, S29-S36.	3.2	14
61	Task-switching ability protects against the adverse effects of pain on health: A longitudinal study of older adults. <i>British Journal of Health Psychology</i> , 2016, 21, 434-450.	3.5	6
62	Estradiol variability, stressful life events, and the emergence of depressive symptomatology during the menopausal transition. <i>Menopause</i> , 2016, 23, 257-266.	2.0	99
63	Traumatic experiences predict prospective emotional reactivity to ovarian steroid changes: Evidence from three prospective studies. <i>Psychoneuroendocrinology</i> , 2016, 71, 56-57.	2.7	0
64	Naturally Occurring Changes in Estradiol Concentrations in the Menopause Transition Predict Morning Cortisol and Negative Mood in Perimenopausal Depression. <i>Clinical Psychological Science</i> , 2016, 4, 919-935.	4.0	48
65	Sustained anterior cingulate cortex activation during reward processing predicts response to psychotherapy in major depressive disorder. <i>Journal of Affective Disorders</i> , 2016, 203, 204-212.	4.1	88
66	Toward the reliable diagnosis of DSM-5 premenstrual dysphoric disorder: The development of the Carolina Premenstrual Assessment Scoring System. <i>Psychoneuroendocrinology</i> , 2016, 71, 56.	2.7	0
67	Brief mindfulness training reduces salivary IL-6 and TNF- $\alpha$ in young women with depressive symptomatology.. <i>Journal of Consulting and Clinical Psychology</i> , 2016, 84, 887-897.	2.0	48
68	Cyclical Symptom Change Across the Menstrual Cycle. <i>Clinical Psychological Science</i> , 2016, 4, 882-894.	4.0	19
69	From Menarche to Menopause. <i>Clinical Psychological Science</i> , 2016, 4, 859-866.	4.0	10
70	Weekly Fluctuations in Nonjudging Predict Borderline Personality Disorder Feature Expression in Women. <i>Journal of Psychopathology and Behavioral Assessment</i> , 2016, 38, 149-157.	1.2	20
71	Histories of abuse predict stronger within-person covariation of ovarian steroids and mood symptoms in women with menstrually related mood disorder. <i>Psychoneuroendocrinology</i> , 2016, 67, 142-152.	2.7	46
72	Both Trait and State Mindfulness Predict Lower Aggressiveness via Anger Rumination: a Multilevel Mediation Analysis. <i>Mindfulness</i> , 2016, 7, 713-726.	2.8	70

#	ARTICLE	IF	CITATIONS
73	Dispositional mindfulness and rejection sensitivity: The critical role of nonjudgment. <i>Personality and Individual Differences</i> , 2016, 93, 125-129.	2.9	33
74	Hormones and Personality. , 2016, , 1-23.		1
75	Anger Rumination as a Mediator of the Relationship Between Mindfulness and Aggression: The Utility of a Multidimensional Mindfulness Model. <i>Journal of Clinical Psychology</i> , 2015, 71, 871-884.	1.9	67
76	Repetitive thought dimensions, psychological well-being, and perceived growth in older adults: a multilevel, prospective study. <i>Anxiety, Stress and Coping</i> , 2015, 28, 287-302.	2.9	16
77	Parasympathetic Reactivity in Fibromyalgia and Temporomandibular Disorder: Associations With Sleep Problems, Symptom Severity, and Functional Impairment. <i>Journal of Pain</i> , 2015, 16, 247-257.	1.4	22
78	Ovarian hormones and borderline personality disorder features: Preliminary evidence for interactive effects of estradiol and progesterone. <i>Biological Psychology</i> , 2015, 109, 37-52.	2.2	48
79	How Do Mindfulness-Based Interventions Work? Strategies for Studying Mechanisms of Change in Clinical Research. , 2015, , 155-170.		3
80	Mindfulness-Based Stress Reduction for Chronic Pain. , 2014, , 269-292.		7
81	Self-regulatory deficits associated with unpracticed mindfulness strategies for coping with acute pain. <i>Journal of Applied Social Psychology</i> , 2014, 44, 23-30.	2.0	35
82	Using Virtual Reality to Explore Self-Regulation in High-Risk Settings. <i>Trauma, Violence, and Abuse</i> , 2014, 15, 310-321.	6.2	13
83	The downside of being sexually restricted: The effects of sociosexual orientation on relationships between jealousy, rejection, and anger. <i>Journal of Research in Personality</i> , 2014, 51, 18-22.	1.7	5
84	Relations Between Trait Impulsivity, Behavioral Impulsivity, Physiological Arousal, and Risky Sexual Behavior Among Young Men. <i>Archives of Sexual Behavior</i> , 2014, 43, 1149-1158.	1.9	64
85	Comparing Mindfulness-Based Intervention Strategies: Differential Effects of Sitting Meditation, Body Scan, and Mindful Yoga. <i>Mindfulness</i> , 2013, 4, 383-388.	2.8	80
86	Revisiting the serotonin-aggression relation in humans: A meta-analysis.. <i>Psychological Bulletin</i> , 2013, 139, 1148-1172.	6.1	196
87	Autonomy, positive relationships, and IL-6: Evidence for gender-specific effects. <i>British Journal of Health Psychology</i> , 2013, 18, 420-438.	3.5	9
88	Nonjudgment as a moderator of the relationship between present-centered awareness and borderline features: Synergistic interactions in mindfulness assessment. <i>Personality and Individual Differences</i> , 2013, 55, 24-28.	2.9	49
89	The Association of Smoking Status with Sleep Disturbance, Psychological Functioning, and Pain Severity in Patients with Temporomandibular Disorders. <i>Journal of Orofacial Pain</i> , 2013, 27, 32-41.	1.7	24
90	Pain acceptance, psychological functioning, and self-regulatory fatigue in temporomandibular disorder.. <i>Health Psychology</i> , 2013, 32, 1236-1239.	1.6	9

#	ARTICLE	IF	CITATIONS
91	The "What" and the "How" of Dispositional Mindfulness. <i>Assessment</i> , 2012, 19, 276-286.	3.1	107
92	Emotion-related cognitive processes in borderline personality disorder: A review of the empirical literature. <i>Clinical Psychology Review</i> , 2012, 32, 359-369.	11.4	149
93	"Pause and plan" includes the liver: Self-regulatory effort slows alcohol metabolism for those low in self-control. <i>Biological Psychology</i> , 2012, 91, 229-231.	2.2	2
94	Optimism and pessimism dimensions in the Life Orientation Test-Revised: Method and meaning. <i>Journal of Research in Personality</i> , 2011, 45, 126-129.	1.7	91
95	<i>Positive Psychophysiology</i> . , 2011, , 25-40.		5
