#	ARTICLE	IF	CITATIONS
1	Systematic Reviews of Systematic Quantitative, Qualitative, and Mixed Studies Reviews in Healthcare Research: How to Assess the Methodological Quality of Included Reviews?. <i>Journal of Mixed Methods Research</i> , 2023, 17, 51-69.	2.6	4
2	Combinations of Practical Integration Strategies Used in Mixed Methods Information Studies. <i>Advances in Knowledge Acquisition, Transfer and Management Book Series</i> , 2022, , 70-86.	0.2	0
3	Maternal Experience with Online Information on Parenting and Infant Care: Qualitative Findings from Quebec, Canada. <i>Journal of Child and Family Studies</i> , 2022, 31, 1798-1808.	1.3	4
4	Better understanding care transitions of adults with complex health and social care needs: a study protocol. <i>BMC Health Services Research</i> , 2022, 22, 206.	2.2	4
5	Proxy Information Seeking by Users of a Parenting Information Website: Quantitative Observational Study. <i>JMIR Pediatrics and Parenting</i> , 2022, 5, e32406.	1.6	5
6	Contexts and Outcomes of Proxy Online Health Information Seeking: Mixed Studies Review With Framework Synthesis. <i>Journal of Medical Internet Research</i> , 2022, 24, e34345.	4.3	7
7	Understanding parents' use of a knowledge translation tool to manage children's vaccination pain. <i>Pain Reports</i> , 2021, 6, e907.	2.7	5
8	An Overview of Reviews on Interprofessional Collaboration in Primary Care: Effectiveness. <i>International Journal of Integrated Care</i> , 2021, 21, 31.	0.2	25
9	Impact of a videoconferencing educational programme for the management of concurrent disorders on nurses' competency development and clinical practice: protocol for a convergent mixed methods study. <i>BMJ Open</i> , 2021, 11, e042875.	1.9	4
10	Factors associated with parents' experiences using a knowledge translation tool for vaccination pain management: a qualitative study. <i>BMC Health Services Research</i> , 2021, 21, 355.	2.2	2
11	An Overview of Reviews on Interprofessional Collaboration in Primary Care: Barriers and Facilitators. <i>International Journal of Integrated Care</i> , 2021, 21, 32.	0.2	69
12	Evidence reversals in primary care research: a study of randomized controlled trials. <i>Family Practice</i> , 2021, , .	1.9	0
13	Cannabis against chronic musculoskeletal pain: a scoping review on users and their perceptions. <i>Journal of Cannabis Research</i> , 2021, 3, 41.	3.2	8
14	Evaluating implementation and impact of a provincial quality improvement collaborative for the management of chronic diseases in primary care: the COMPAS+ study protocol. <i>BMC Family Practice</i> , 2020, 21, 3.	2.9	4
15	Decisional needs assessment of patients with complex care needs in primary care. <i>Journal of Evaluation in Clinical Practice</i> , 2020, 26, 489-502.	1.8	18
16	Evaluating online health information sources using a mixed methods approach. Part 3. <i>Education for Information</i> , 2020, 36, 1-6.	0.5	0
17	Identifying empirical studies for mixed studies reviews: The mixed filter and the automated text classifier. <i>Education for Information</i> , 2020, 36, 101-105.	0.5	0
18	High Users of Healthcare Services: Development and Alpha Testing of a Patient Decision Aid for Case Management. <i>Patient</i> , 2020, 13, 757-766.	2.7	6

#	ARTICLE	IF	CITATIONS
19	Development and Validation of the McGill Empowerment Assessmentâ€“Diabetes (MEA-D). <i>Diabetes Spectrum</i> , 2020, 33, 307-314.	1.0	1
20	Will this benefit my patients? Expected benefits of information from a continuing medical education program may lead to higher participation rates by family physicians. <i>Education for Information</i> , 2020, 36, 51-58.	0.5	0
21	The Information Assessment Method: Over 15 years of research evaluating the value of health information. <i>Education for Information</i> , 2020, 36, 7-18.	0.5	8
22	Understanding collaboration in monitoring research publications: Protocol for a qualitative multiple case study. <i>Education for Information</i> , 2020, 36, 69-79.	0.5	3
23	Using spaced education to deliver clinical information to medical residents: A mixed methods pilot study. <i>Education for Information</i> , 2020, 36, 29-50.	0.5	1
24	Outcomes of Equity-Oriented, Web-Based Parenting Information in Mothers of Low Socioeconomic Status Compared to Other Mothers: Participatory Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2020, 22, e22440.	4.3	12
25	The planning and reporting of mixed methods studies on the built environment and health. <i>Preventive Medicine</i> , 2019, 126, 105752.	3.4	25
26	Why and how to use mixed methods in primary health care research. <i>Family Practice</i> , 2019, 36, 365-368.	1.9	21
27	Health outcomes of online consumer health information: A systematic mixed studies review with framework synthesis. <i>Journal of the Association for Information Science and Technology</i> , 2019, 70, 643-659.	2.9	46
28	Patient Information Aid: An innovative educational program to improve outcomes of online consumer health information. <i>Education for Information</i> , 2019, 35, 41-49.	0.5	2
29	Improving the content validity of the mixed methods appraisal tool: aâ€“modified e-Delphi study. <i>Journal of Clinical Epidemiology</i> , 2019, 111, 49-59.e1.	5.0	441
30	Is online consumer health information only beneficial for the wealthy and the educated? A commentary. <i>Education for Information</i> , 2019, 35, 35-39.	0.5	1
31	Practical mixed methods strategies used to integrate qualitative and quantitative methods in community-based primary health care research. <i>Family Practice</i> , 2019, 36, 666-671.	1.9	28
32	Evaluating online health information sources using a mixed methods approach: Part 2. <i>Education for Information</i> , 2019, 35, 3-5.	0.5	1
33	A Conceptual Framework for Critical Appraisal in Systematic Mixed Studies Reviews. <i>Journal of Mixed Methods Research</i> , 2019, 13, 446-460.	2.6	64
34	Delineating and Operationalizing the Definition of Patient-Oriented Research: A Modified e-Delphi Study. <i>Journal of Patient-centered Research and Reviews</i> , 2019, 6, 7-16.	0.9	13
35	Improving the usefulness of a tool for appraising the quality of qualitative, quantitative and mixed methods studies, the <sc>Mixed Methods Appraisal Tool</sc> (<sc>MMAT</sc>). <i>Journal of Evaluation in Clinical Practice</i> , 2018, 24, 459-467.	1.8	392
36	Crowdsourcing a mixed systematic review on a complex topic and a heterogeneous population: Lessons learned. <i>Education for Information</i> , 2018, 34, 293-300.	0.5	6

#	ARTICLE	IF	CITATIONS
37	The wiki toolkit for planning, conducting and reporting mixed studies reviews. <i>Education for Information</i> , 2018, 34, 277-283.	0.5	7
38	A systematic mixed studies review on Organizational Participatory Research: towards operational guidance. <i>BMC Health Services Research</i> , 2018, 18, 992.	2.2	8
39	Systematic reviews: A brief historical overview. <i>Education for Information</i> , 2018, 34, 261-276.	0.5	16
40	The Mixed Methods Appraisal Tool (MMAT) version 2018 for information professionals and researchers. <i>Education for Information</i> , 2018, 34, 285-291.	0.5	1,312
41	Disseminating health evidence summaries to increase evidence use in health care. <i>Revista De Saude Publica</i> , 2018, 52, 57.	1.7	2
42	Evaluating online health information sources using a mixed methods approach: Part I. <i>Education for Information</i> , 2018, 34, 255-259.	0.5	0
43	Case management in primary care for frequent users of healthcare services with chronic diseases and complex care needs: an implementation and realist evaluation protocol. <i>BMJ Open</i> , 2018, 8, e026433.	1.9	14
44	Top 5 primary care topics for pharmacists in 2016. <i>Canadian Pharmacists Journal</i> , 2018, 151, 176-178.	0.8	1
45	Discriminating between empirical studies and nonempirical works using automated text classification. <i>Research Synthesis Methods</i> , 2018, 9, 587-601.	8.7	17
46	Reducing Negative Outcomes of Online Consumer Health Information: Qualitative Interpretive Study with Clinicians, Librarians, and Consumers. <i>Journal of Medical Internet Research</i> , 2018, 20, e169.	4.3	52
47	Assessing and Improving the Use of Online Information About Child Development, Education, Health, and Well-Being in Low-Education, Low-Income Parents: Protocol for a Mixed-Methods Multiphase Study. <i>JMIR Research Protocols</i> , 2018, 7, e186.	1.0	6
48	A World of Possibilities in Mixed Methods: Review of the Combinations of Strategies Used to Integrate Qualitative and Quantitative Phases, Results and Data. <i>International Journal of Multiple Research Approaches</i> , 2018, 10, 41-56.	0.1	64
49	Top 5 primary care topics for pharmacists in 2015. <i>Canadian Pharmacists Journal</i> , 2017, 150, 17-18.	0.8	2
50	Can we Build on Social Movement Theories to Develop and Improve Community-Based Participatory Research? A Framework Synthesis Review. <i>American Journal of Community Psychology</i> , 2017, 59, 333-362.	2.5	38
51	Decisional needs assessment of patients with complex care needs in primary care: a participatory systematic mixed studies review protocol. <i>BMJ Open</i> , 2017, 7, e016400.	1.9	18
52	Overcoming the digital divide? Low education low income parents are equally likely to report benefits associated with online parenting information. <i>Proceedings of the Association for Information Science and Technology</i> , 2017, 54, 775-777.	0.6	3
53	Convergent and sequential synthesis designs: implications for conducting and reporting systematic reviews of qualitative and quantitative evidence. <i>Systematic Reviews</i> , 2017, 6, 61.	5.3	365
54	Case management in primary care among frequent users of healthcare services with chronic conditions: protocol of a realist synthesis. <i>BMJ Open</i> , 2017, 7, e017701.	1.9	14

#	ARTICLE	IF	CITATIONS
55	The value of user feedback: Parent's comments to online health and well-being information providers. Proceedings of the Association for Information Science and Technology, 2017, 54, 662-663.	0.6	6
56	Organizational participatory research: a systematic mixed studies review exposing its extra benefits and the key factors associated with them. Implementation Science, 2017, 12, 119.	6.9	58
57	Métodos de pesquisa mistos e revisões de literatura mistas: conceitos, construções e critérios de avaliação. InCID Revista De Ciência Da Informação E Documentação, 2017, 8, 4.	0.1	20
58	When Educational Material Is Delivered: A Mixed Methods Content Validation Study of the Information Assessment Method. JMIR Medical Education, 2017, 3, e4.	2.6	8
59	Opening-up the definition of systematic literature review: the plurality of worldviews, methodologies and methods for reviews and syntheses. Journal of Clinical Epidemiology, 2016, 73, 2-5.	5.0	47
60	Strategies and impacts of patient and family engagement in collaborative mental healthcare: protocol for a systematic and realist review. BMJ Open, 2016, 6, e012949.	1.9	6
61	Organizational interventions improving access to community-based primary health care for vulnerable populations: a scoping review. International Journal for Equity in Health, 2016, 15, 168.	3.5	50
62	Expected health benefits of e-Therapeutics Highlights according to pharmacists and physicians. Canadian Pharmacists Journal, 2016, 149, 70-74.	0.8	4
63	An open letter to the BMJ editors on qualitative research. BMJ, The, 2016, 352, i563.	6.0	234
64	Perceived outcomes of online parenting information according to self-selected participants from a population of website users. Proceedings of the Association for Information Science and Technology, 2015, 52, 1-3.	0.6	9
65	Toward an information management system for handling parenting information users' comments. Proceedings of the Association for Information Science and Technology, 2015, 52, 1-3.	0.6	3
66	Successful Strategies to Engage Research Partners for Translating Evidence into Action in Community Health: A Critical Review. Journal of Environmental and Public Health, 2015, 2015, 1-15.	0.9	56
67	Patient Information Aid: Promoting the Right to Know, Evaluate, and Share Consumer Health Information Found on the Internet. Journal of Consumer Health on the Internet, 2015, 19, 233-240.	0.4	2
68	The value of user feedback: Healthcare professionals' comments to the health information provider. Journal of the Association for Information Science and Technology, 2015, 66, 377-391.	2.9	10
69	Mixed kinds of evidence: synthesis designs and critical appraisal for systematic mixed studies reviews including qualitative, quantitative and mixed methods studies. Evidence-Based Medicine, 2015, 20, 79-79.	0.6	24
70	Feasibility of a randomized controlled trial to evaluate the impact of decision boxes on shared decision-making processes. BMC Medical Informatics and Decision Making, 2015, 15, 13.	3.0	10
71	Patient-Oriented Evidence that Matters (POEMs) Suggest Potential Clinical Topics for the Choosing Wisely Campaign. Journal of the American Board of Family Medicine, 2015, 28, 184-189.	1.5	15
72	Regulation profiles of e-cigarettes in the United States: a critical review with qualitative synthesis. BMC Medicine, 2015, 13, 130.	5.5	30

#	ARTICLE	IF	CITATIONS
73	Systematic mixed studies reviews: Updating results on the reliability and efficiency of the mixed methods appraisal tool. <i>International Journal of Nursing Studies</i> , 2015, 52, 500-501.	5.6	245
74	Advantages and Disadvantages of Educational Email Alerts for Family Physicians: Viewpoint. <i>Journal of Medical Internet Research</i> , 2015, 17, e49.	4.3	10
75	Manifesto for family medicine educational research. <i>Canadian Family Physician</i> , 2015, 61, 745-7, e398-400.	0.4	2
76	Partners for the optimal organisation of the healthcare continuum for high users of health and social services: protocol of a developmental evaluation case study design. <i>BMJ Open</i> , 2014, 4, e006991.	1.9	8
77	Critical reflections on realist review: insights from customizing the methodology to the needs of participatory research assessment. <i>Research Synthesis Methods</i> , 2014, 5, 131-141.	8.7	105
78	Barriers to Implementation of Case Management for Patients With Dementia: A Systematic Mixed Studies Review. <i>Annals of Family Medicine</i> , 2014, 12, 456-465.	1.9	53
79	Case management for dementia in primary health care: a systematic mixed studies review based on the diffusion of innovation model. <i>Clinical Interventions in Aging</i> , 2014, 9, 915.	2.9	48
80	Combining the Power of Stories and the Power of Numbers: Mixed Methods Research and Mixed Studies Reviews. <i>Annual Review of Public Health</i> , 2014, 35, 29-45.	17.4	872
81	Development and Content Validation of the Information Assessment Method for Patients and Consumers. <i>JMIR Research Protocols</i> , 2014, 3, e7.	1.0	34
82	"Better-than-best" evidence? Using family physicians' feedback for 2-way knowledge translation. <i>Canadian Family Physician</i> , 2014, 60, 415-7.	0.4	10
83	Physician assessments of the value of therapeutic information delivered via e-mail. <i>Canadian Family Physician</i> , 2014, 60, e258-62.	0.4	12
84	Four levels of outcomes of information seeking: A mixed methods study in primary health care. <i>Journal of the Association for Information Science and Technology</i> , 2013, 64, 108-125.	2.6	64
85	The Clinical Relevance of Information Index (<scp>CRII</scp>): assessing the relevance of health information to the clinical practice. <i>Health Information and Libraries Journal</i> , 2013, 30, 110-120.	2.5	13
86	In pursuit of a valid information assessment method for continuing education: a mixed methods study. <i>BMC Medical Education</i> , 2013, 13, 137.	2.4	3
87	Number Needed to Benefit From Information (NNBI): Proposal From a Mixed Methods Research Study With Practicing Family Physicians. <i>Annals of Family Medicine</i> , 2013, 11, 559-567.	1.9	21
88	An Online Knowledge Resource and Questionnaires as a Continuing Pharmacy Education Tool to Document Reflective Learning. <i>American Journal of Pharmaceutical Education</i> , 2012, 76, 82.	2.1	16
89	Feasibility of a Knowledge Translation CME Program: Courriels Cochrane. <i>Journal of Continuing Education in the Health Professions</i> , 2012, 32, 134-141.	1.3	26
90	Customer feedback management: Developing an organizational process of information use. <i>Proceedings of the American Society for Information Science and Technology</i> , 2011, 48, 1-4.	0.2	0

#	ARTICLE	IF	CITATIONS
91	Physicians' assessment of the value of clinical information: Operationalization of a theoretical model. <i>Journal of the Association for Information Science and Technology</i> , 2011, 62, 1884-1891.	2.6	30
92	Do Family Physicians Retrieve Synopses of Clinical Research Previously Read as Email Alerts?. <i>Journal of Medical Internet Research</i> , 2011, 13, e101.	4.3	11
93	A reflective learning framework to evaluate CME effects on practice reflection. <i>Journal of Continuing Education in the Health Professions</i> , 2010, 30, 78-88.	1.3	30
94	Evaluation of email alerts in practice: part 1 " review of the literature on clinical emailing channels. <i>Journal of Evaluation in Clinical Practice</i> , 2010, 16, 1227-1235.	1.8	18
95	Evaluation of email alerts in practice: Part 2 " validation of the information assessment method. <i>Journal of Evaluation in Clinical Practice</i> , 2010, 16, 1236-1243.	1.8	25
96	Understanding divergence of quantitative and qualitative data (or results) in mixed methods studies. <i>International Journal of Multiple Research Approaches</i> , 2009, 3, 58-72.	0.1	68
97	A scoring system for appraising mixed methods research, and concomitantly appraising qualitative, quantitative and mixed methods primary studies in Mixed Studies Reviews. <i>International Journal of Nursing Studies</i> , 2009, 46, 529-546.	5.6	763
98	The cognitive impact of research synopses on physicians: a prospective observational analysis of evidence-based summaries sent by email. <i>Journal of Innovation in Health Informatics</i> , 2009, 17, 79-86.	0.9	5
99	A mix-method approach to the cultural understanding of distress and the non-use of mental health services. <i>Journal of Mental Health</i> , 2007, 16, 731-741.	1.9	20
100	Seven reasons why health professionals search clinical information-retrieval technology (CIRT): toward an organizational model. <i>Journal of Evaluation in Clinical Practice</i> , 2007, 13, 39-49.	1.8	21
101	Systematically Assessing the Situational Relevance of Electronic Knowledge Resources: A Mixed Methods Study. <i>Journal of the American Medical Informatics Association: JAMIA</i> , 2007, 14, 616-625.	4.4	11
102	Cognitive impact assessment of electronic knowledge resources: a mixed methods evaluation study of a handheld prototype. <i>AMIA ... Annual Symposium proceedings</i> , 2006, , 634-8.	0.2	1
103	Impact of clinical information-retrieval technology on physicians: A literature review of quantitative, qualitative and mixed methods studies. <i>International Journal of Medical Informatics</i> , 2005, 74, 745-768.	3.3	90
104	A new impact assessment method to evaluate knowledge resources. <i>AMIA ... Annual Symposium proceedings</i> , 2005, , 609-13.	0.2	5
105	Community coalitions and health promotion: is it that important to develop an inter-organisational network?. <i>Global Health Promotion</i> , 2004, 11, 17-23.	0.7	0
106	Shortcomings of health information on the Internet. <i>Health Promotion International</i> , 2003, 18, 381-386.	1.8	295
107	Factors and outcomes of collaborative information seeking: A mixed studies review with a framework synthesis. <i>Journal of the Association for Information Science and Technology</i> , 0, , .	2.9	6
108	Teaching-learning methodologies from the perspective of nursing students. <i>Revista Da Rede De Enfermagem Do Nordeste</i> , 0, 19, e3408.	0.2	0
