#	ARTICLE	IF	CITATIONS
1	Healthcare resource utilisation and medical costs for children with interstitial lung diseases (chILD) in Europe. <i>Thorax</i> , 2022, 77, 781-789.	5.6	5
2	Epidemiology, healthcare utilization, and related costs among patients with IPF: results from a German claims database analysis. <i>Respiratory Research</i> , 2022, 23, 62.	3.6	7
3	Effects of Influenza Vaccination in Patients with Interstitial Lung Diseases: An Epidemiological Claims Data Analysis. <i>Annals of the American Thoracic Society</i> , 2022, 19, 1479-1488.	3.2	5
4	Age, period, and cohort effects on trends in outpatient addiction care utilization in the general Berlin population from 2008 to 2016. <i>BMC Public Health</i> , 2022, 22, 320.	2.9	1
5	Why do they gamble and what does it mean? Latent class analysis of gambling motives among young male gamblers. <i>Addiction Research and Theory</i> , 2022, 30, 431-440.	1.9	2
6	Cocaine treatment demands in 10 western European countries: observed trends between 2011 and 2018. <i>Addiction</i> , 2021, 116, 1131-1143.	3.3	6
7	In-Patient Pulmonary Rehabilitation to Improve Asthma Control. <i>Deutsches A&#x0308;rzteblatt International</i> , 2021, 118, 23-30.	0.9	19
8	Effectiveness of a specialised breathlessness service for patients with advanced disease in Germany: a pragmatic fast-track randomised controlled trial (BreathEase). <i>European Respiratory Journal</i> , 2021, 58, 2002139.	6.7	12
9	Gambling disorder in the context of outpatient counselling and treatment: Background and design of a prospective German cohort study. <i>International Journal of Methods in Psychiatric Research</i> , 2021, 30, e1867.	2.1	1
10	Substance use disorder and the baby boom generation: Does Berlin outpatient addiction care face a sustained change?. <i>Drug and Alcohol Review</i> , 2021, 40, 979-988.	2.1	5
11	Changes in gambling behaviour and related problems in clients seeking help in outpatient addiction care: Results from a 36-month follow-up study in Bavaria. <i>Journal of Behavioral Addictions</i> , 2021, 10, 690-700.	3.7	0
12	Long-term weight gain in obese COPD patients participating in a disease management program: a risk factor for reduced health-related quality of life. <i>Respiratory Research</i> , 2021, 22, 226.	3.6	3
13	Cost drivers in the pharmacological treatment of interstitial lung disease. <i>Respiratory Research</i> , 2021, 22, 218.	3.6	5
14	Impact of Lung Function and Exacerbations on Health-Related Quality of Life in COPD Patients Within One Year: Real-World Analysis Based on Claims Data. <i>International Journal of COPD</i> , 2021, Volume 16, 2637-2651.	2.3	7
15	Cost-Effectiveness of Pulmonary Rehabilitation in Patients With Bronchial Asthma: An Analysis of the EPRA Randomized Controlled Trial. <i>Value in Health</i> , 2021, 24, 1254-1262.	0.3	4
16	Gender-linked determinants for utilization of long-term care in community-dwelling adults 65+ in Germany: Results from the population-based KORA-Age study. <i>Experimental Gerontology</i> , 2021, 153, 111500.	2.8	4
17	Can Adherence to and Persistence with Inhaled Long-acting Bronchodilators Improve the Quality of Life in Patients with Chronic Obstructive Pulmonary Disease? Results from a German Disease Management Program. <i>Clinical Drug Investigation</i> , 2021, 41, 989-998.	2.2	1
18	BreathEase: rationale, design and recruitment of a randomised trial and embedded mixed-methods study of a multiprofessional breathlessness service in early palliative care. <i>ERJ Open Research</i> , 2021, 7, 00228-2020.	2.6	2

#	ARTICLE	IF	CITATIONS
19	Pirfenidone vs. nintedanib in patients with idiopathic pulmonary fibrosis: a retrospective cohort study. <i>Respiratory Research</i> , 2021, 22, 268.	3.6	24
20	Is bouldering-psychotherapy a cost-effective way to treat depression when compared to group cognitive behavioral therapy “ results from a randomized controlled trial. <i>BMC Health Services Research</i> , 2021, 21, 1162.	2.2	5
21	Cost and survival of video-assisted thoracoscopic lobectomy versus open lobectomy in lung cancer patients: a propensity score-matched study. <i>European Journal of Cardio-thoracic Surgery</i> , 2020, 57, 92-99.	1.4	7
22	Measuring quality of life in COPD patients: comparing disease-specific supplements to the EQ-5D-5L. <i>Expert Review of Pharmacoeconomics and Outcomes Research</i> , 2020, 20, 523-529.	1.4	6
23	Differences in therapy and survival between lung cancer patients treated in hospitals with high and low patient case volume. <i>Health Policy</i> , 2020, 124, 1217-1225.	3.0	0
24	Utilization and determinants of use of non-pharmacological interventions in COPD: Results of the COSYCONET cohort. <i>Respiratory Medicine</i> , 2020, 171, 106087.	2.9	11
25	Determinants of health-related quality of life decline in interstitial lung disease. <i>Health and Quality of Life Outcomes</i> , 2020, 18, 334.	2.4	9
26	Effect of BMI on health care expenditures stratified by COPD GOLD severity grades: Results from the LQ-DMP study. <i>Respiratory Medicine</i> , 2020, 175, 106194.	2.9	4
27	The relationship between body mass index and health-related quality of life in COPD: real-world evidence based on claims and survey data. <i>Respiratory Research</i> , 2020, 21, 291.	3.6	10
28	Health-related quality of life associates with change in FEV1 in COPD: results from the COSYCONET cohort. <i>BMC Pulmonary Medicine</i> , 2020, 20, 148.	2.0	15
29	How does the EQ-5D-5L perform in asthma patients compared with an asthma-specific quality of life questionnaire?. <i>BMC Pulmonary Medicine</i> , 2020, 20, 168.	2.0	19
30	Hospitalisation patterns of patients with interstitial lung disease in the light of comorbidities and medical treatment “ a German claims data analysis. <i>Respiratory Research</i> , 2020, 21, 73.	3.6	10
31	Cost-effectiveness of a non-pharmacological treatment vs. “œcare as usual” in day care centers for community-dwelling older people with cognitive impairment: results from the German randomized controlled DeTaMAKS-trial. <i>European Journal of Health Economics</i> , 2020, 21, 825-844.	2.8	14
32	Effectiveness of a breathlessness service for patients suffering from breathlessness in advanced disease: pragmatic fast-track randomized controlled trial. , 2020, , .		0
33	Direct and indirect costs of COPD progression and its comorbidities in a structured disease management program: results from the LQ-DMP study. <i>Respiratory Research</i> , 2019, 20, 215.	3.6	21
34	The effect of bariatric surgery on health care costs: A synthetic control approach using Bayesian structural time series. <i>Health Economics (United Kingdom)</i> , 2019, 28, 1293-1307.	1.7	8
35	<p>Dementia care in the Danube Region. A multi-national expert survey</p>. <i>Neuropsychiatric Disease and Treatment</i> , 2019, Volume 15, 2503-2511.	2.2	3
36	Economic burden of incident interstitial lung disease (ILD) and the impact of comorbidity on costs of care. <i>Respiratory Medicine</i> , 2019, 152, 25-31.	2.9	20

#	ARTICLE	IF	CITATIONS
37	“Age matters” German claims data indicate disparities in lung cancer care between elderly and young patients. PLoS ONE, 2019, 14, e0217434.	2.5	20
38	Psychometric properties and minimal important differences of SF-36 in Idiopathic Pulmonary Fibrosis. Respiratory Research, 2019, 20, 47.	3.6	31
39	Assessing the lung cancer comorbidity: An analysis of German claims data. Lung Cancer, 2019, 127, 122-129.	2.0	7
40	Prospects for research in haemophilia with real-world data: An analysis of German registry and secondary data. Haemophilia, 2018, 24, 584-594.	2.1	1
41	Rural versus urban differences in end-of-life care for lung cancer patients in Germany. Supportive Care in Cancer, 2018, 26, 2275-2283.	2.2	11
42	Associations between comorbidities, their treatment and survival in patients with interstitial lung diseases – a claims data analysis. Respiratory Research, 2018, 19, 73.	3.6	47
43	Factors related to and economic implications of in-hospital death in German lung cancer patients - results of a Nationwide health insurance claims data based study. BMC Health Services Research, 2018, 18, 793.	2.2	6
44	Quality of life assessment in interstitial lung diseases: a comparison of the disease-specific K-BILD with the generic EQ-5D-5L. Respiratory Research, 2018, 19, 101.	3.6	36
45	Effects of Nursing Home Residency on Diabetes Care in Individuals with Dementia: An Explorative Analysis Based on German Claims Data. Dementia and Geriatric Cognitive Disorders Extra, 2017, 7, 41-51.	1.3	4
46	USING CLAIMS DATA FOR EVIDENCE GENERATION IN MANAGED ENTRY AGREEMENTS. International Journal of Technology Assessment in Health Care, 2016, 32, 69-77.	0.5	6
47	Better understanding of the health care costs of lung cancer and the implications. Expert Review of Respiratory Medicine, 2016, 10, 373-375.	2.5	8
48	Impact of chronic ischemic heart disease on the health care costs of COPD patients – An analysis of German claims data. Respiratory Medicine, 2016, 118, 112-118.	2.9	10
49	Costs of conservative management of early-stage prostate cancer compared to radical prostatectomy – a claims data analysis. BMC Health Services Research, 2016, 16, 664.	2.2	4
50	Cost-components of lung cancer care within the first three years after initial diagnosis in context of different treatment regimens. Lung Cancer, 2015, 90, 274-280.	2.0	30
51	A claims data-based comparison of comorbidity in individuals with and without dementia. BMC Geriatrics, 2014, 14, 10.	2.7	126
52	Competing risks duration models with correlated random effects: an application to dementia patients’ transition histories. Statistics in Medicine, 2014, 33, 3919-3931.	1.6	0
53	Health Care Service Utilization of Dementia Patients before and after Institutionalization: A Claims Data Analysis. Dementia and Geriatric Cognitive Disorders Extra, 2014, 4, 195-208.	1.3	9
54	Health Services Utilization by Community-Dwelling Dementia Patients and Their Family Caregivers. , 2014, , 193-219.		0

#	ARTICLE	IF	CITATIONS
55	Official statistics and claims data records indicate non-response and recall bias within survey-based estimates of health care utilization in the older population. BMC Health Services Research, 2013, 13, 1.	2.2	472
56	Are community-living and institutionalized dementia patients cared for differently? Evidence on service utilization and costs of care from German insurance claims data. BMC Health Services Research, 2013, 13, 2.	2.2	52
57	Predictors of Institutionalization of Dementia Patients in Mild and Moderate Stages: A 4-Year Prospective Analysis. Dementia and Geriatric Cognitive Disorders Extra, 2013, 3, 426-445.	1.3	90
58	Excess costs of dementia disorders and the role of age and gender - an analysis of German health and long-term care insurance claims data. BMC Health Services Research, 2012, 12, 165.	2.2	57
59	Costs of Care for Dementia Patients in Community Setting: An Analysis for Mild and Moderate Disease Stage. Value in Health, 2011, 14, 827-835.	0.3	76
