#	ARTICLE	IF	CITATIONS
1	Minor salivary gland infection as origin of peritonsillitis – novel theory and preliminary results. Acta Oto-Laryngologica, 2022, , 1-5.	0.9	2
2	Patient Injuries in Treatment of Peripheral Arterial Disease in Finland: Review of National Patient Insurance Charts. Annals of Vascular Surgery, 2020, 66, 225-232.	0.9	1
3	Microbial aetiology of acute rhinosinusitis during pregnancy. Rhinology, 2020, 59, 0-0.	1.3	1
4	Peritonsillar abscess may not always be a complication of acute tonsillitis: A prospective cohort study. PLoS ONE, 2020, 15, e0228122.	2.5	12
5	Title is missing!. , 2020, 15, e0228122.		0
6	Title is missing!. , 2020, 15, e0228122.		0
7	Title is missing!. , 2020, 15, e0228122.		0
8	Title is missing!. , 2020, 15, e0228122.		0
9	Smoking or poor oral hygiene do not predispose to peritonsillar abscesses <i>via</i> changes in oral flora. Acta Oto-Laryngologica, 2019, 139, 798-802.	0.9	1
10	Complications and number of follow-up visits after using septal stapler in septoplasty. Rhinology, 2019, 57, 273-278.	1.3	1
11	Patient injuries in pediatric otorhinolaryngology. International Journal of Pediatric Otorhinolaryngology, 2019, 120, 36-39.	1.0	4
12	Patient injuries in operative rhinology during a ten-year period: Review of national patient insurance charts. Clinical Otolaryngology, 2018, 43, 7-12.	1.2	8
13	The presence of minor salivary glands in the peritonsillar space. European Archives of Oto-Rhino-Laryngology, 2017, 274, 3997-4001.	1.6	10
14	Renewal of peritonsillar abscess: Impact of the bacterial species of the infection and clinical features of the patient – A prospective comparative aetiological study. Clinical Otolaryngology, 2017, 42, 1358-1362.	1.2	7
15	Nasal bone fractures are successfully managed under local anaesthesia – experience on 483 patients. Clinical Otolaryngology, 2016, 41, 79-82.	1.2	7
16	Metronidazole in conjunction with penicillin neither prevents recurrence nor enhances recovery from peritonsillar abscess when compared with penicillin alone: a prospective, double-blind, randomized, placebo-controlled trial. Journal of Antimicrobial Chemotherapy, 2016, 71, 1681-1687.	3.0	8
17	Towards better patient safety in otolaryngology: characteristics of patient injuries and their relationship with items on the WHO Surgical Safety Checklist. Clinical Otolaryngology, 2015, 40, 443-448.	1.2	14
18	Microarray identification of bacterial species in peritonsillar abscesses. European Journal of Clinical Microbiology and Infectious Diseases, 2015, 34, 905-911.	2.9	8

#	ARTICLE	IF	CITATIONS
19	Impact of tonsillectomy on health-related quality of life and healthcare costs in children and adolescents. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2014, 78, 1508-1512.	1.0	11
20	Effect of tonsillectomy on health-related quality of life and costs. <i>Acta Oto-Laryngologica</i> , 2013, 133, 499-503.	0.9	13
21	Tympanometry by nurses—Can allocation of tasks be optimised?. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2007, 71, 7-10.	1.0	4
22	Patients' preferences for length of stay: valuable in day-case tonsillectomy planning. <i>European Archives of Oto-Rhino-Laryngology</i> , 2005, 262, 943-945.	1.6	4
23	Current challenges in diagnosis of acute otitis media. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2005, 69, 295-299.	1.0	20
24	Acute sinusitis: Finnish clinical practice guidelines. <i>Scandinavian Journal of Infectious Diseases</i> , 2005, 37, 245-50.	1.5	9
25	Effect of accurate diagnostic criteria on incidence of acute otitis media in otitis-prone children. <i>Scandinavian Journal of Infectious Diseases</i> , 2004, 36, 6-9.	1.5	14
26	Clinical significance of incidental magnetic resonance image abnormalities in mastoid cavity and middle ear in children. <i>International Journal of Pediatric Otorhinolaryngology</i> , 2003, 67, 757-760.	1.0	12
27	Is it possible to diagnose acute otitis media accurately in primary health care?. <i>Family Practice</i> , 2003, 20, 524-527.	1.9	55
28	Peak nasal inspiratory and expiratory flow measurements—practical tools in primary care?. <i>Rhinology</i> , 2003, 41, 206-10.	1.3	6
