#	ARTICLE	IF	CITATIONS
1	Impact of Medicaid Expansion on Interpregnancy Interval. <i>Women's Health Issues</i> , 2022, 32, 226-234.	2.0	1
2	Ways Forward in Preventing Severe Maternal Morbidity and Maternal Health Inequities: Conceptual Frameworks, Definitions, and Data, from a Population Health Perspective. <i>Women's Health Issues</i> , 2022, 32, 213-218.	2.0	12
3	Accurate identification of cohort study designs in perinatal research: a practical guide. <i>American Journal of Obstetrics and Gynecology</i> , 2022, 227, 231-235.e1.	1.3	4
4	Predicting vaginal birth after previous cesarean: Using machine learning models and a population-based cohort in Sweden. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2021, 100, 513-520.	2.8	13
5	Occupational Noise Exposure and Longitudinal Hearing Changes in Post-9/11 US Military Personnel During an Initial Period of Military Service. <i>Ear and Hearing</i> , 2021, Publish Ahead of Print, 1163-1172.	2.1	2
6	Interpregnancy Interval and Subsequent Severe Maternal Morbidity: A 16-Year Population-Based Study From California. <i>American Journal of Epidemiology</i> , 2021, 190, 1034-1046.	3.4	13
7	Coronavirus Trauma and African Americans' Mental Health: Seizing Opportunities for Transformational Change. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 3568.	2.6	15
8	Severe Maternal Morbidity: A Comparison of Definitions and Data Sources. <i>American Journal of Epidemiology</i> , 2021, 190, 1890-1897.	3.4	39
9	Differences in Perinatal Outcomes of Birthing People in Same-Sex and Different-Sex Marriages. <i>American Journal of Epidemiology</i> , 2021, 190, 2350-2359.	3.4	7
10	The association between postpartum hemorrhage and postpartum depression: A Swedish national register-based study. <i>PLoS ONE</i> , 2021, 16, e0255938.	2.5	5
11	Blast Exposure and Self-Reported Hearing Difficulty in Service Members and Veterans Who Have Normal Pure-Tone Hearing Sensitivity: The Mediating Role of Posttraumatic Stress Disorder. <i>Journal of Speech, Language, and Hearing Research</i> , 2021, 64, 4458-4467.	1.6	4
12	Routinely collected antenatal data for longitudinal prediction of preeclampsia in nulliparous women: a population-based study. <i>Scientific Reports</i> , 2021, 11, 17973.	3.3	7
13	The impact of Severe Maternal Morbidity on probability of subsequent birth in a population-based study of women in California from 1997-2017. <i>Annals of Epidemiology</i> , 2021, 64, 8-14.	1.9	3
14	COVID-19 and Perinatal Care: Facing Challenges, Seizing Opportunities. <i>Journal of Midwifery and Women's Health</i> , 2021, 66, 10-13.	1.3	4
15	Postpartum health risks among women with hypertensive disorders of pregnancy, California 2008-2012. <i>Journal of Hypertension</i> , 2021, 39, 1009-1017.	0.5	13
16	Use of Intrauterine Devices and Risk of Human Immunodeficiency Virus Acquisition Among Insured Women in the United States. <i>Clinical Infectious Diseases</i> , 2020, 70, 2221-2223.	5.8	0
17	Words Matter: Putting an End to "Unsafe" and "Risky" Sex. <i>Sexually Transmitted Diseases</i> , 2020, 47, 1-3.	1.7	29
18	Conceiving of Questions Before Delivering Analyses. <i>Epidemiology</i> , 2020, 31, 644-648.	2.7	8

#	ARTICLE	IF	CITATIONS
19	The association between longer durations of the latent phase of labor and subsequent perinatal processes and outcomes among midwifery patients. <i>Birth</i> , 2020, 47, 418-429.	2.2	5
20	The Association between Hospital Frequency of Labor after Cesarean and Outcomes in California. <i>Women's Health Issues</i> , 2020, 30, 453-461.	2.0	1
21	You're From Here, Again? A Critical Assessment of Institutional Diversity in the Society for Epidemiologic Research. <i>American Journal of Epidemiology</i> , 2020, 189, 1026-1029.	3.4	3
22	Cesarean birth and maternal morbidity among Black women and White women after implementation of a blended payment policy. <i>Health Services Research</i> , 2020, 55, 729-740.	2.0	8
23	Multi-Fetal Pregnancy, Preeclampsia, and Long-Term Cardiovascular Disease. <i>Hypertension</i> , 2020, 76, 167-175.	2.7	33
24	Maternal prepregnancy BMI and size at birth: race/ethnicity-stratified, within-family associations in over 500,000 siblings. <i>Annals of Epidemiology</i> , 2020, 46, 49-56.e5.	1.9	5
25	Defining maternal obesity in studies of birth outcomes: Comparing ICD-9 codes at delivery and measures on the birth certificate. <i>Paediatric and Perinatal Epidemiology</i> , 2020, 34, 618-627.	1.7	5
26	Resuscitation outcomes for weekend deliveries of very low birthweight infants. <i>Archives of Disease in Childhood: Fetal and Neonatal Edition</i> , 2020, 105, 656-661.	2.8	2
27	The ARRIVE Trial: Interpretation from an Epidemiologic Perspective. <i>Journal of Midwifery and Women's Health</i> , 2019, 64, 657-663.	1.3	26
28	Unexpected term NICU admissions: a marker of obstetrical care quality?. <i>American Journal of Obstetrics and Gynecology</i> , 2019, 221, 662-663.	1.3	8
29	Utility of the 5-Minute Apgar Score as a Research Endpoint. <i>American Journal of Epidemiology</i> , 2019, 188, 1695-1704.	3.4	15
30	Invited Commentary: The Causal Association Between Obesity and Stillbirth—Strengths and Limitations of the Consecutive-Pregnancies Approach. <i>American Journal of Epidemiology</i> , 2019, 188, 1337-1342.	3.4	4
31	Opposing or complementary perspectives? Perinatal outcomes, causality, and time zero. <i>Paediatric and Perinatal Epidemiology</i> , 2019, 33, 113-115.	1.7	3
32	Describing latent phase duration and associated characteristics among 1281 low-risk women in spontaneous labor. <i>Birth</i> , 2019, 46, 592-601.	2.2	17
33	Community Levels of PrEP Use Among Men Who Have Sex with Men by Race/Ethnicity, San Francisco, 2017. <i>AIDS and Behavior</i> , 2019, 23, 2687-2693.	2.7	11
34	Association between measured teamwork and medical errors: an observational study of prehospital care in the USA. <i>BMJ Open</i> , 2019, 9, e025314.	1.9	42
35	Clinical risk assessment in early pregnancy for preeclampsia in nulliparous women: A population based cohort study. <i>PLoS ONE</i> , 2019, 14, e0225716.	2.5	26
36	Re: Maternal age and risk for adverse outcomes. <i>American Journal of Obstetrics and Gynecology</i> , 2019, 220, 210-211.	1.3	2

#	ARTICLE	IF	CITATIONS
37	Barriers to preexposure prophylaxis use among individuals with recently acquired HIV infection in Northern California. <i>AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV</i> , 2019, 31, 536-544.	1.2	45
38	Increases in Pre-exposure Prophylaxis Use and Decreases in Condom Use: Behavioral Patterns Among HIV-Negative San Francisco Men Who have Sex with Men, 2004–2017. <i>AIDS and Behavior</i> , 2019, 23, 1841-1845.	2.7	39
39	The Association between Maternal Height, Body Mass Index, and Perinatal Outcomes. <i>American Journal of Perinatology</i> , 2019, 36, 632-640.	1.4	21
40	Shifting Patterns in Cesarean Delivery Scheduling and Timing in Oregon before and after a Statewide Hard Stop Policy. <i>Health Services Research</i> , 2018, 53, 2839-2857.	2.0	5
41	Early Elective Delivery Disparities between Non-Hispanic Black and White Women after Statewide Policy Implementation. <i>Women's Health Issues</i> , 2018, 28, 224-231.	2.0	8
42	Strengthening the Health Care Workforce in Fragile States: Considerations in the Health Care Sector and Beyond. <i>Health Services Research</i> , 2018, 53, 1308-1315.	2.0	2
43	Type-2 diabetes mellitus: does prenatal care affect outcomes?. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2018, 31, 93-97.	1.5	18
44	Poorer maternal diet quality and increased birth weight*. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2018, 31, 1613-1619.	1.5	26
45	Causal inference in studies of preterm babies: a simulation study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 686-692.	2.3	19
46	Re: Trends in operative vaginal delivery, 2005–2013: a population-based study. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2018, 125, 97-97.	2.3	4
47	The Curse of the Perinatal Epidemiologist: Inferring Causation Amidst Selection. <i>Current Epidemiology Reports</i> , 2018, 5, 379-387.	2.4	30
48	Cesarean Delivery Rates and Costs of Childbirth in a State Medicaid Program After Implementation of a Blended Payment Policy. <i>Medical Care</i> , 2018, 56, 658-664.	2.4	21
49	Applying causal diagrams in pediatrics to improve research, communication, and practice. <i>Pediatric Research</i> , 2018, 84, 485-486.	2.3	0
50	Further Applications of Advanced Methods to Infer Causes in the Study of Physiologic Childbirth. <i>Journal of Midwifery and Women's Health</i> , 2018, 63, 710-720.	1.3	6
51	Formulating and Answering High-Impact Causal Questions in Physiologic Childbirth Science: Concepts and Assumptions. <i>Journal of Midwifery and Women's Health</i> , 2018, 63, 721-730.	1.3	9
52	United States State-Level Variation in the Use of Neuraxial Analgesia During Labor for Pregnant Women. <i>JAMA Network Open</i> , 2018, 1, e186567.	5.9	79
53	Historical (retrospective) cohort studies and other epidemiologic study designs in perinatal research. <i>American Journal of Obstetrics and Gynecology</i> , 2018, 219, 447-450.	1.3	41
54	Promoting inclusive and person-centered care: Starting with birth. <i>Birth</i> , 2018, 45, 232-235.	2.2	8

#	ARTICLE	IF	CITATIONS
55	The Causal Inference Framework: A Primer on Concepts and Methods for Improving the Study of Well-Being in Woman Childbearing Processes. <i>Journal of Midwifery and Women's Health</i> , 2018, 63, 700-709.	1.3	12
56	Duration of Second Stage of Labour at Term and Pushing Time: Risk Factors for Postpartum Haemorrhage. <i>Paediatric and Perinatal Epidemiology</i> , 2017, 31, 126-133.	1.7	26
57	Prevalence and characteristics of users of pre-exposure prophylaxis (PrEP) among men who have sex with men, San Francisco, 2014 in a cross-sectional survey: implications for disparities. <i>Sexually Transmitted Infections</i> , 2017, 93, 52-55.	1.9	62
58	Uptake and Utilization of Practice Guidelines in Hospitals in the United States: the Case of Routine Episiotomy. <i>Joint Commission Journal on Quality and Patient Safety</i> , 2017, 43, 41-48.	0.7	30
59	Vaginal birth after cesarean: neonatal outcomes and United States birth setting. <i>American Journal of Obstetrics and Gynecology</i> , 2017, 216, 403.e1-403.e8.	1.3	34
60	Maternal Body Mass Index and Regional Anaesthesia Use at Term: Prevalence and Complications. <i>Paediatric and Perinatal Epidemiology</i> , 2017, 31, 495-505.	1.7	12
61	Reframing US Maternity Care: Lessons Learned From End-of-Life Care. <i>Journal of Midwifery and Women's Health</i> , 2017, 62, 9-11.	1.3	2
62	In Reply. <i>Obstetrics and Gynecology</i> , 2017, 129, 754-754.	2.4	2
63	Utilizing Datasets to Advance Perinatal Research. <i>Journal of Midwifery and Women's Health</i> , 2017, 62, 545-561.	1.3	7
64	A "busy day" effect on perinatal complications of delivery on weekends: a retrospective cohort study. <i>BMJ Quality and Safety</i> , 2017, 26, e1-e1.	3.7	33
65	Does Infection During Pregnancy Outside of the Time of Delivery Increase the Risk of Cerebral Palsy?. <i>American Journal of Perinatology</i> , 2017, 34, 223-228.	1.4	4
66	The increased perinatal mortality rate over weekends is proof that we require a 7-day maternity service: FOR: No baby should die simply because they are born at a weekend. <i>BJOG: an International Journal of Obstetrics and Gynaecology</i> , 2016, 123, 1358-1358.	2.3	1
67	The Impact of maternal obesity and race/ethnicity on perinatal outcomes: Independent and joint effects. <i>Obesity</i> , 2016, 24, 1590-1598.	3.0	35
68	Planned Out-of-Hospital Birth and Birth Outcomes. <i>Obstetrical and Gynecological Survey</i> , 2016, 71, 203-204.	0.4	3
69	Race, obesity, and birth outcomes: Unraveling a complex association to improve maternal-child health. <i>Obesity</i> , 2016, 24, 2447-2447.	3.0	0
70	Oregon's Hard-Stop Policy Limiting Elective Early-Term Deliveries. <i>Obstetrics and Gynecology</i> , 2016, 128, 1389-1396.	2.4	29
71	Pre-exposure Prophylaxis (PrEP) Use, Seroadaptation, and Sexual Behavior Among Men Who Have Sex with Men, San Francisco, 2004-2014. <i>AIDS and Behavior</i> , 2016, 20, 2791-2797.	2.7	66
72	Pharmacist-Prescribed Birth Control in Oregon and Other States. <i>JAMA - Journal of the American Medical Association</i> , 2016, 315, 1567.	7.4	15

#	ARTICLE	IF	CITATIONS
73	Association between Hospital Birth Volume and Maternal Morbidity among Low-Risk Pregnancies in Rural, Urban, and Teaching Hospitals in the United States. <i>American Journal of Perinatology</i> , 2016, 33, 590-599.	1.4	40
74	Risk factors for brachial plexus injury in a large cohort with shoulder dystocia. <i>Archives of Gynecology and Obstetrics</i> , 2016, 294, 925-929.	1.7	16
75	Preexposure Prophylaxis and Patient Centeredness. <i>American Journal of Men's Health</i> , 2016, 10, 353-358.	1.6	2
76	Measuring Perinatal Complications: Different Approaches Depending on Who Is at Risk. <i>Paediatric and Perinatal Epidemiology</i> , 2016, 30, 23-24.	1.7	11
77	Is there a weekend effect in obstetrics?. <i>BMJ, The</i> , 2015, 351, h6192.	6.0	8
78	Framing Air Pollution Epidemiology in Terms of Population Interventions, with Applications to Multipollutant Modeling. <i>Epidemiology</i> , 2015, 26, 271-279.	2.7	13
79	Prospective risk of fetal death with gastroschisis. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2015, 28, 2126-2129.	1.5	14
80	Planned Out-of-Hospital Birth and Birth Outcomes. <i>New England Journal of Medicine</i> , 2015, 373, 2642-2653.	27.0	159
81	Population intervention models to estimate ambient NO2 health effects in children with asthma. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2015, 25, 567-573.	3.9	16
82	Velamentous cord insertion: is it associated with adverse perinatal outcomes?. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2015, 28, 409-412.	1.5	86
83	The impact of hospital obstetric volume on maternal outcomes in term, non-“low-birthweight pregnancies. <i>American Journal of Obstetrics and Gynecology</i> , 2015, 212, 380.e1-380.e9.	1.3	49
84	The risk of stillbirth and infant death by each additional week of expectant management in twin pregnancies. <i>American Journal of Obstetrics and Gynecology</i> , 2015, 212, 630.e1-630.e7.	1.3	18
85	Litigation in obstetrics: does defensive medicine contribute to increases in cesarean delivery?. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2014, 27, 1668-1675.	1.5	31
86	Clinicians’s™ practice environment is associated with a higher likelihood of recommending cesarean deliveries. <i>Journal of Maternal-Fetal and Neonatal Medicine</i> , 2014, 27, 1220-1227.	1.5	19
87	Prevalence, correlates and trends in seroadaptive behaviours among men who have sex with men from serial cross-sectional surveillance in San Francisco, 2004-2011. <i>Sexually Transmitted Infections</i> , 2014, 90, 498-504.	1.9	57
88	Reply. <i>American Journal of Obstetrics and Gynecology</i> , 2014, 210, 488.	1.3	2
89	Reply. <i>American Journal of Obstetrics and Gynecology</i> , 2014, 210, 489-490.	1.3	0
90	The mortality risk of expectant management compared with delivery stratified by gestational age and race and ethnicity. <i>American Journal of Obstetrics and Gynecology</i> , 2014, 211, 660.e1-660.e8.	1.3	19

#	ARTICLE	IF	CITATIONS
91	Elective Induction of Labor at Term Compared With Expectant Management. <i>Obstetrics and Gynecology</i> , 2013, 122, 761-769.	2.4	199
92	The Association Between Hospital Obstetric Volume and Perinatal Outcomes in California. <i>Obstetrical and Gynecological Survey</i> , 2013, 68, 185-186.	0.4	0
93	Systems Factors in Obstetric Care. <i>Obstetrics and Gynecology</i> , 2013, 122, 851-857.	2.4	23
94	The Role of Ambient Ozone in Epidemiologic Studies of Heat-Related Mortality. <i>Environmental Health Perspectives</i> , 2012, 120, 1627-1630.	6.0	64
95	Risk of Stillbirth and Infant Death Stratified by Gestational Age. <i>Obstetrics and Gynecology</i> , 2012, 120, 76-82.	2.4	117
96	Induction of labor compared to expectant management in low-risk women and associated perinatal outcomes. <i>American Journal of Obstetrics and Gynecology</i> , 2012, 207, 502.e1-502.e8.	1.3	93
97	The association between hospital obstetric volume and perinatal outcomes in California. <i>American Journal of Obstetrics and Gynecology</i> , 2012, 207, 478.e1-478.e7.	1.3	48
98	Racial/Ethnic Differences in Seroadaptive and Serodisclosure Behaviors Among Men Who Have Sex with Men. <i>AIDS and Behavior</i> , 2011, 15, 22-29.	2.7	59
99	Seroadaptive behaviours among men who have sex with men in San Francisco: the situation in 2008. <i>Sexually Transmitted Infections</i> , 2011, 87, 162-164.	1.9	50
100	Implementation of G-Computation on a Simulated Data Set: Demonstration of a Causal Inference Technique. <i>American Journal of Epidemiology</i> , 2011, 173, 731-738.	3.4	276
101	Rose et al. Respond to "G-Computation and Standardization in Epidemiology". <i>American Journal of Epidemiology</i> , 2011, 173, 743-744.	3.4	1
102	Recent Syphilis Infection Prevalence and Risk Factors Among Male Low-Income Populations in Coastal Peruvian Cities. <i>Sexually Transmitted Diseases</i> , 2010, 37, 75-80.	1.7	23
