#	ARTICLE	IF	CITATIONS
1	On Dimensionality, Measurement Invariance, and Suitability of Sum Scores for the PHQ-9 and the GAD-7. <i>Assessment</i> , 2022, 29, 355-366.	3.1	38
2	Determinants of patient-reported outcome trajectories and symptomatic recovery in Improving Access to Psychological Therapies (IAPT) services. <i>Psychological Medicine</i> , 2022, 52, 3231-3240.	4.5	4
3	Developing a Web-Based App to Assess Mental Health Difficulties in Secondary School Pupils: Qualitative User-Centered Design Study. <i>JMIR Formative Research</i> , 2022, 6, e30565.	1.4	4
4	Association between circulating levels of C-reactive protein and positive and negative symptoms of psychosis in adolescents in a general population birth cohort. <i>Journal of Psychiatric Research</i> , 2021, 143, 534-542.	3.1	12
5	Effectiveness of providing university students with a mindfulness-based intervention to increase resilience to stress: 1-year follow-up of a pragmatic randomised controlled trial. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, jech-2020-214390.	3.7	24
6	Feeding the addiction: Narrowing of goals to habits. <i>European Neuropsychopharmacology</i> , 2021, 42, 110-114.	0.7	3
7	Identifying subtypes of trichotillomania (hair pulling disorder) and excoriation (skin picking) disorder using mixture modeling in a multicenter sample. <i>Journal of Psychiatric Research</i> , 2021, 137, 603-612.	3.1	25
8	Longitudinal Trends in Childhood Insulin Levels and Body Mass Index and Associations With Risks of Psychosis and Depression in Young Adults. <i>JAMA Psychiatry</i> , 2021, 78, 416.	11.0	42
9	Modernising measurement in psychiatry: item banks and computerised adaptive testing. <i>Lancet Psychiatry</i> , 2021, 8, 354-356.	7.4	8
10	Longitudinal association between CRP levels and risk of psychosis: a meta-analysis of population-based cohort studies. <i>NPJ Schizophrenia</i> , 2021, 7, 31.	3.6	19
11	Tracking Stress, Mental Health, and Resilience Factors in Medical Students Before, During, and After a Stress-Inducing Exam Period: Protocol and Proof-of-Principle Analyses for the RESIST Cohort Study. <i>JMIR Formative Research</i> , 2021, 5, e20128.	1.4	6
12	Development and external validation of the Psychosis Metabolic Risk Calculator (PsyMetRiC): a cardiometabolic risk prediction algorithm for young people with psychosis. <i>Lancet Psychiatry</i> , 2021, 8, 589-598.	7.4	24
13	Polygenic risk for immuno-metabolic markers and specific depressive symptoms: A multi-sample network analysis study. <i>Brain, Behavior, and Immunity</i> , 2021, 95, 256-268.	4.1	31
14	Stratification of adolescents across mental phenomena emphasizes the importance of transdiagnostic distress: a replication in two general population cohorts. <i>European Child and Adolescent Psychiatry</i> , 2021, , 1.	4.7	1
15	Drug Use in Night Owls May Increase the Risk for Mental Health Problems. <i>Frontiers in Neuroscience</i> , 2021, 15, 819566.	2.8	5
16	Early Intervention in Psychosis Treatment Components Utilization in Patients Aged Over 35. <i>Community Mental Health Journal</i> , 2020, 56, 206-210.	2.0	5
17	Longitudinal subtypes of disordered gambling in young adults identified using mixed modeling. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2020, 97, 109799.	4.8	8
18	Longitudinal population subgroups of CRP and risk of depression in the ALSPAC birth cohort. <i>Comprehensive Psychiatry</i> , 2020, 96, 152143.	3.1	13

#	ARTICLE	IF	CITATIONS
19	Revisiting CAPE-P15 cut-off values to increase sensitivity for detecting psychotic experiences in primary care. <i>Schizophrenia Research</i> , 2020, 216, 507-510.	2.0	3
20	Associations of early adulthood life transitions with changes in fast food intake: a latent trajectory analysis. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020, 17, 130.	4.6	9
21	Early warning systems in inpatient anorexia nervosa: A validation of the MARSIPAN -based modified early warning system. <i>European Eating Disorders Review</i> , 2020, 28, 551-558.	4.1	9
22	Embracing the positive: an examination of how well resilience factors at age 14 can predict distress at age 17. <i>Translational Psychiatry</i> , 2020, 10, 272.	4.8	9
23	How do the prevalence and relative risk of non-suicidal self-injury and suicidal thoughts vary across the population distribution of common mental distress (the p factor)? Observational analyses replicated in two independent UK cohorts of young people. <i>BMJ Open</i> , 2020, 10, e032494.	1.9	12
24	Prevalence of and recovery from common mental disorder including psychotic experiences in the UK Primary Care Improving Access to Psychological Therapies (IAPT) Programme. <i>Journal of Affective Disorders</i> , 2020, 272, 84-90.	4.1	27
25	Psychological interventions for people with psychotic experiences: A systematic review and meta-analysis of controlled and uncontrolled effectiveness and economic studies. <i>Australian and New Zealand Journal of Psychiatry</i> , 2020, 54, 673-695.	2.3	12
26	Brain networks underlying vulnerability and resilience to drug addiction. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2020, 117, 15253-15261.	7.1	86
27	Immune dysregulation among students exposed to exam stress and its mitigation by mindfulness training: findings from an exploratory randomised trial. <i>Scientific Reports</i> , 2020, 10, 5812.	3.3	19
28	More sensitive identification of psychotic experiences in common mental disorder by primary mental healthcare services - effect on prevalence and recovery: casting the net wider. <i>BJPsych Open</i> , 2020, 6, e136.	0.7	6
29	P13...Associations between the life transitions of early adulthood and changes in fast food intake. , 2020, , .		0
30	Impulsivity and compulsivity are differentially associated with automaticity and routine on the Creature of Habit Scale. <i>Personality and Individual Differences</i> , 2019, 150, 109493.	2.9	30
31	Unravelling the complex nature of resilience factors and their changes between early and later adolescence. <i>BMC Medicine</i> , 2019, 17, 203.	5.5	29
32	104. Association Between Serum C-Reactive Protein, Positive and Negative Symptoms of Psychosis in a General Population-Based Birth Cohort. <i>Biological Psychiatry</i> , 2019, 85, S43-S44.	1.3	0
33	F133INVESTIGATING THE PHENOTYPIC MANIFESTATION OF SCHIZOPHRENIA WITH REGARDS TO GENERAL AND SPECIFIC PSYCHOPATHOLOGY IN ADOLESCENCE USING A BIFACTOR MODELLING APPROACH. <i>European Neuropsychopharmacology</i> , 2019, 29, S1182-S1183.	0.7	0
34	Psychological interventions for people with psychotic experiences: protocol for a systematic review and meta-analysis. <i>Systematic Reviews</i> , 2019, 8, 124.	5.3	2
35	Association between developmental milestones and age of schizophrenia onset: Results from the Northern Finland Birth Cohort 1966. <i>Schizophrenia Research</i> , 2019, 208, 228-234.	2.0	7
36	O6.1. CHILDHOOD INFECTION, IQ AND RISK OF NON-AFFECTIVE PSYCHOSIS IN ADULTHOOD: A SWEDISH POPULATION-BASED LONGITUDINAL COHORT AND CO-RELATIVE STUDY. <i>Schizophrenia Bulletin</i> , 2019, 45, S175-S176.	4.3	0

#	ARTICLE	IF	CITATIONS
37	F87. Longitudinal Association Between Low-Grade Inflammation and Specific Symptoms of Depression. <i>Biological Psychiatry</i> , 2019, 85, S246.	1.3	0
38	Longitudinal association between inflammatory markers and specific symptoms of depression in a prospective birth cohort. <i>Brain, Behavior, and Immunity</i> , 2019, 76, 74-81.	4.1	81
39	Identifying key targets for interventions to improve psychological wellbeing: replicable results from four UK cohorts. <i>Psychological Medicine</i> , 2019, 49, 2389-2396.	4.5	26
40	Systemic inflammation and intelligence in early adulthood and subsequent risk of schizophrenia and other non-affective psychoses: a longitudinal cohort and co-relative study. <i>Psychological Medicine</i> , 2019, 49, 295-302.	4.5	22
41	Association of Childhood Infection With IQ and Adult Nonaffective Psychosis in Swedish Men. <i>JAMA Psychiatry</i> , 2018, 75, 356.	11.0	40
42	A mindfulness-based intervention to increase resilience to stress in university students (the Mindful) Tj ETQq0 0 0 rgBT/Overlock 10 Tf 5	10.0	268
43	Attachment styles and clinical correlates in people at ultra high risk for psychosis. <i>British Journal of Psychology</i> , 2018, 109, 45-62.	2.3	11
44	Common mental disorder including psychotic experiences: Trailblazing a new recovery pathway within the Improving Access to Psychological Therapies programme in England. <i>Microbial Biotechnology</i> , 2018, 12, 497-504.	1.7	21
45	Childhood inflammatory markers and intelligence as predictors of subsequent persistent depressive symptoms: a longitudinal cohort study. <i>Psychological Medicine</i> , 2018, 48, 1514-1522.	4.5	52
46	Latent traits of impulsivity and compulsivity: toward dimensional psychiatry. <i>Psychological Medicine</i> , 2018, 48, 810-821.	4.5	71
47	34.3 IMPROVING THE DETECTION OF INDIVIDUALS AT RISK OF DEVELOPING PSYCHOSIS IN PRIMARY MENTAL HEALTH CARE. <i>Schizophrenia Bulletin</i> , 2018, 44, S57-S57.	4.3	0
48	Acceptability of screening for mental health difficulties in primary schools: a survey of UK parents. <i>BMC Public Health</i> , 2018, 18, 1404.	2.9	21
49	The association between pubertal status and depressive symptoms and diagnoses in adolescent females: A population-based cohort study. <i>PLoS ONE</i> , 2018, 13, e0198804.	2.5	37
50	Investigating the genetic architecture of general and specific psychopathology in adolescence. <i>Translational Psychiatry</i> , 2018, 8, 145.	4.8	49
51	Usefulness of the CAPE-P15 for detecting people at ultra-high risk for psychosis: Psychometric properties and cut-off values. <i>Schizophrenia Research</i> , 2017, 189, 69-74.	2.0	54
52	Creature of Habit: A self-report measure of habitual routines and automatic tendencies in everyday life. <i>Personality and Individual Differences</i> , 2017, 116, 73-85.	2.9	89
53	Latent class analysis of gambling subtypes and impulsive/compulsive associations: Time to rethink diagnostic boundaries for gambling disorder?. <i>Addictive Behaviors</i> , 2017, 72, 79-85.	3.0	64
54	Serum C-reactive protein in adolescence and risk of schizophrenia in adulthood: A prospective birth cohort study. <i>Brain, Behavior, and Immunity</i> , 2017, 59, 253-259.	4.1	100

#	ARTICLE	IF	CITATIONS
55	Effects of ignoring clustered data structure in confirmatory factor analysis of ordered polytomous items: a simulation study based on PANSS. <i>International Journal of Methods in Psychiatric Research</i> , 2016, 25, 205-219.	2.1	6
56	Protocol for the Mindful Student Study: a randomised controlled trial of the provision of a mindfulness intervention to support university students' well-being and resilience to stress. <i>BMJ Open</i> , 2016, 6, e012300.	1.9	27
57	An evaluation of computerized adaptive testing for general psychological distress: combining GHQ-12 and Affectometer-2 in an item bank for public mental health research. <i>BMC Medical Research Methodology</i> , 2016, 16, 58.	3.1	17
58	Physical activity, self-efficacy, and quality of life in older Czech adults. <i>European Journal of Ageing</i> , 2016, 13, 5-14.	2.8	23
59	Computerized adaptive testing of population psychological distress: simulation-based evaluation of GHQ-30. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2016, 51, 895-906.	3.1	8
60	Understanding causes of and developing effective interventions for schizophrenia and other psychoses. <i>Programme Grants for Applied Research</i> , 2016, 4, 1-184.	1.0	3
61	Social and spatial heterogeneity in psychosis proneness in a multilevel case-“prodrome” control study. <i>Acta Psychiatrica Scandinavica</i> , 2015, 132, 283-292.	4.5	22
62	Use of the Theory of Planned Behaviour to assess factors influencing the identification of students at clinical high-risk for psychosis in 16+ Education. <i>BMC Health Services Research</i> , 2015, 15, 411.	2.2	10
63	First-Rank Symptoms and Premorbid Adjustment in Young Individuals at Increased Risk of Developing Psychosis. <i>Psychopathology</i> , 2015, 48, 120-126.	1.5	20
64	Clinical effectiveness and cost-effectiveness of tailored intensive liaison between primary and secondary care to identify individuals at risk of a first psychotic illness (the LEGs study): a cluster-randomised controlled trial. <i>Lancet Psychiatry</i> , 2015, 2, 984-993.	7.4	47
65	Mood, anxiety and psychotic phenomena measure a common psychopathological factor. <i>Psychological Medicine</i> , 2015, 45, 1483-1493.	4.5	128
66	A population-based prospective birth cohort study of childhood neurocognitive and psychological functioning in healthy survivors of early life meningitis. <i>Annals of Epidemiology</i> , 2015, 25, 236-242.	1.9	23
67	Predicting Falls in Parkinson Disease: What Is the Value of Instrumented Testing in OFF Medication State?. <i>PLoS ONE</i> , 2015, 10, e0139849.	2.5	34
68	E08 Iron Content in Brain Increases with Progression of Huntington's Disease: Longitudinal Study. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2014, 85, A38-A38.	1.9	0
69	Substance use in people at clinical high-risk for psychosis. <i>BMC Psychiatry</i> , 2014, 14, 361.	2.6	8
70	Trauma history characteristics associated with mental states at clinical high risk for psychosis. <i>Psychiatry Research</i> , 2014, 220, 237-244.	3.3	36
71	Multilevel ordinal factor analysis of the Positive and Negative Syndrome Scale (PANSS). <i>International Journal of Methods in Psychiatric Research</i> , 2014, 23, 25-35.	2.1	12
72	Grooved Pegboard Predicts More of Cognitive Than Motor Involvement in Parkinson's Disease. <i>Assessment</i> , 2014, 21, 723-730.	3.1	35

#	ARTICLE	IF	CITATIONS
73	Common <i>versus</i> psychopathology-specific risk factors for psychotic experiences and depression during adolescence. <i>Psychological Medicine</i> , 2014, 44, 2557-2566.	4.5	30
74	A population-based longitudinal study of childhood neurodevelopmental disorders, IQ and subsequent risk of psychotic experiences in adolescence. <i>Psychological Medicine</i> , 2014, 44, 3229-3238.	4.5	38
75	Postwar environment and long-term mental health problems in former child soldiers in Northern Uganda: the WAYS study. <i>Journal of Epidemiology and Community Health</i> , 2014, 68, 425-430.	3.7	28
76	Childhood Epstein-Barr Virus infection and subsequent risk of psychotic experiences in adolescence: A population-based prospective serological study. <i>Schizophrenia Research</i> , 2014, 158, 19-24.	2.0	61
77	Longitudinal Associations between Adolescent Psychotic Experiences and Depressive Symptoms. <i>PLoS ONE</i> , 2014, 9, e105758.	2.5	30
78	Comparison of high and low intensity contact between secondary and primary care to detect people at ultra-high risk for psychosis: study protocol for a theory-based, cluster randomized controlled trial. <i>Trials</i> , 2013, 14, 222.	1.6	10
79	Usefulness of EQ-5D for evaluation of health-related quality of life in young adults with first-episode psychosis. <i>Quality of Life Research</i> , 2013, 22, 1055-1063.	3.1	12
80	Predictors of human rotation. <i>Laterality</i> , 2013, 18, 265-281.	1.0	10
81	Psychiatric morbidity, functioning and quality of life in young people at clinical high risk for psychosis. <i>Schizophrenia Research</i> , 2013, 148, 175-180.	2.0	83
82	The skinny on cocaine: Insights into eating behavior and body weight in cocaine-dependent men. <i>Appetite</i> , 2013, 71, 75-80.	3.7	75
83	Clinical and sociodemographic comparison of people at high-risk for psychosis and with first-episode psychosis. <i>Acta Psychiatrica Scandinavica</i> , 2013, 127, 210-216.	4.5	20
84	Who Do You Think Is in Control in Addiction? A Pilot Study on Drug-related Locus of Control Beliefs. <i>Addictive Disorders and Their Treatment</i> , 2012, 11, 195-205.	0.5	16
85	Mokken scale analysis of mental health and well-being questionnaire item responses: a non-parametric IRT method in empirical research for applied health researchers. <i>BMC Medical Research Methodology</i> , 2012, 12, 74.	3.1	175
86	Changes of hand preference in Parkinson's disease. <i>Journal of Neural Transmission</i> , 2012, 119, 693-696.	2.8	6
87	Use of the theory of planned behaviour to assess factors influencing the identification of individuals at ultra-high risk for psychosis in primary care. <i>Microbial Biotechnology</i> , 2012, 6, 265-275.	1.7	7
88	No effect of physiotherapy on the serum levels of adipocytokines in patients with ankylosing spondylitis. <i>Clinical Rheumatology</i> , 2012, 31, 67-71.	2.2	18
89	A sensitivity comparison of clinical tests for postural instability in patients with Huntington's disease. <i>Gait and Posture</i> , 2011, 34, 245-247.	1.4	8
90	P.6.d.007 Measuring control beliefs in drug addiction. <i>European Neuropsychopharmacology</i> , 2011, 21, S586.	0.7	0

#	ARTICLE	IF	CITATIONS
91	The number of CAG repeats within the normal allele does not influence the age of onset in Huntington's disease. <i>Movement Disorders</i> , 2011, 26, 125-129.	3.9	16
92	Reply: CAG repeat size in the normal HTT allele and age of onset in Huntington's disease. <i>Movement Disorders</i> , 2011, 26, 2451-2451.	3.9	1
93	Lithium in drinking water and suicide rates across the East of England. <i>British Journal of Psychiatry</i> , 2011, 198, 406-407.	2.8	88
94	Handedness does not predict side of onset of motor symptoms in Parkinson's disease. <i>Movement Disorders</i> , 2009, 24, 1836-1839.	3.9	21
95	The relationship between impairment of voluntary movements and cognitive impairment in Huntington's disease. <i>Journal of Neurology</i> , 2009, 256, 1629-1633.	3.6	14
96	On the structure of motor symptoms of Parkinson's disease. <i>Movement Disorders</i> , 2008, 23, 1307-1312.	3.9	38
