| #  | ARTICLE                                                                                                                                                                                                                    | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Antibiotic prescribing for respiratory infections: a cross-sectional analysis of the ReCEnT study exploring the habits of early-career doctors in primary care. <i>Family Practice</i> , 2015, 32, 49-55.                  | 1.9 | 41        |
| 2  | Reducing early career general practitioners' antibiotic prescribing for respiratory tract infections: a pragmatic prospective non-randomised controlled trial. <i>Family Practice</i> , 2018, 35, 53-60.                   | 1.9 | 22        |
| 3  | Responses to clinical uncertainty in Australian general practice trainees: a cross-sectional analysis. <i>Medical Education</i> , 2017, 51, 1277-1288.                                                                     | 2.1 | 21        |
| 4  | Antibiotic prescribing for sore throat: a cross-sectional analysis of the ReCEnT study exploring the habits of early-career doctors in family practice. <i>Family Practice</i> , 2016, 33, 302-308.                        | 1.9 | 20        |
| 5  | The Pattern of Opioid Management by Australian General Practice Trainees. <i>Pain Medicine</i> , 2015, 16, 1720-1731.                                                                                                      | 1.9 | 18        |
| 6  | Family medicine trainees' clinical experience of chronic disease during training: a cross-sectional analysis from the registrars' clinical encounters in training study. <i>BMC Medical Education</i> , 2014, 14, 260.     | 2.4 | 16        |
| 7  | GP trainees' in-consultation information-seeking: associations with human, paper and electronic sources. <i>Family Practice</i> , 2015, 32, 525-532.                                                                       | 1.9 | 16        |
| 8  | In-consultation information and advice-seeking by Australian GP trainees from GP trainers – a cross-sectional analysis. <i>Education for Primary Care</i> , 2015, 26, 155-165.                                             | 0.6 | 10        |
| 9  | Children referred for specialty care: Parental perspectives and preferences on referral, follow-up and primary care. <i>Journal of Paediatrics and Child Health</i> , 2017, 53, 18-25.                                     | 0.8 | 9         |
| 10 | Antibiotic prescribing patterns of general practice registrars for infective conjunctivitis: a cross-sectional analysis. <i>Journal of Primary Health Care</i> , 2021, 13, 5-14.                                           | 0.6 | 9         |
| 11 | Test ordering in an evidence free zone: Rates and associations of Australian general practice trainees' vitamin D test ordering. <i>Journal of Evaluation in Clinical Practice</i> , 2015, 21, 1151-1156.                  | 1.8 | 8         |
| 12 | Older patients' consultations in an apprenticeship model-based general practice training program: A cross-sectional study. <i>Australasian Journal on Ageing</i> , 2017, 36, E1-E7.                                        | 0.9 | 8         |
| 13 | General practitioner trainees' in-consultation generation of clinical questions for later answering: prevalence and associations. <i>Family Practice</i> , 2017, 34, 599-605.                                              | 1.9 | 7         |
| 14 | Prevalence and associations of prescribing of long-acting reversible contraception by general practitioner registrars: a secondary analysis of ReCEnT data. <i>BMJ Sexual and Reproductive Health</i> , 2020, 46, 218-225. | 1.7 | 6         |
| 15 | Are we preparing Victorian general practice registrars to be confident in all aspects of primary care paediatrics?. <i>Australian Journal of General Practice</i> , 2020, 49, 759-766.                                     | 0.8 | 5         |
| 16 | Transitions in general practice training: quantifying epidemiological variation in trainees' experiences and clinical behaviours. <i>BMC Medical Education</i> , 2022, 22, 124.                                            | 2.4 | 5         |
| 17 | The recording of Aboriginal and Torres Strait Islander status in general practice clinical records: a cross-sectional study. <i>Australian and New Zealand Journal of Public Health</i> , 2016, 40, S70-S74.               | 1.8 | 4         |
| 18 | Perspectives of Australian general practitioners on shared care for paediatric patients. <i>Australian Journal of Primary Health</i> , 2017, 23, 147.                                                                      | 0.9 | 4         |

| #  | ARTICLE                                                                                                                                                                                                                                                                        | IF  | CITATIONS |
|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | General practice registrars' use of dermoscopy: Prevalence, associations and influence on diagnosis and confidence. Australian Journal of General Practice, 2019, 48, 547-553.                                                                                                 | 0.8 | 4         |
| 20 | Antibiotic prescribing for upper respiratory tract infections and acute bronchitis: a longitudinal analysis of general practitioner trainees. Family Practice, 2022, 39, 1063-1069.                                                                                            | 1.9 | 4         |
| 21 | Acne in primary care: A cross-sectional analysis. , 2019, 48, 781-788.                                                                                                                                                                                                         |     | 3         |
| 22 | Influence of rurality on general practitioner registrars' participation in their practice's after-hours roster: A cross-sectional study. Australian Journal of Rural Health, 2022, 30, 343-351.                                                                                | 1.5 | 3         |
| 23 | Clinical encounters of Australian general practice registrars with Aboriginal and Torres Strait Islander patients. Australian and New Zealand Journal of Public Health, 2016, 40, S75-S80.                                                                                     | 1.8 | 2         |
| 24 | Prevalence and Associations of General Practice Registrars' Management of Impetigo: A Cross-Sectional Analysis From the Registrar Clinical Encounters in Training (ReCEnT) Study. Dermatology Practical and Conceptual, 2020, 10, e2020043.                                    | 0.9 | 2         |
| 25 | Prescribing of long-acting reversible contraception by general practice registrars across different rural regions of australia: A cross-sectional analysis of the Registrar Clinical Encounters in Training Study data. Australian Journal of Rural Health, 2021, 29, 473-476. | 1.5 | 1         |
