#	ARTICLE	IF	CITATIONS
1	PICO, PICOS and SPIDER: a comparison study of specificity and sensitivity in three search tools for qualitative systematic reviews. BMC Health Services Research, 2014, 14, 579.	2.2	1,163
2	Controlled Interventions to Reduce Burnout in Physicians. JAMA Internal Medicine, 2017, 177, 195.	5.1	898
3	Association Between Physician Burnout and Patient Safety, Professionalism, and Patient Satisfaction. JAMA Internal Medicine, 2018, 178, 1317.	5.1	705
4	Preeclampsia and Future Cardiovascular Health. Circulation: Cardiovascular Quality and Outcomes, 2017, 10, .	2.2	663
5	'I wouldn't want it on my CV or their records': medical students' experiences of help-seeking for mental health problems. Medical Education, 2003, 37, 873-880.	2.1	395
6	Self-Reported Sleep Duration and Quality and Cardiovascular Disease and Mortality: A Dose-Response Meta-Analysis. Journal of the American Heart Association, 2018, 7, e008552.	3.7	260
7	The effectiveness of collaborative care for people with memory problems in primary care: results of the CAREDEM case management modelling and feasibility study. Health Technology Assessment, 2014, 18, 1-148.	2.8	244
8	Incidence, clinical management, and mortality risk following self harm among children and adolescents: cohort study in primary care. BMJ: British Medical Journal, 2017, 359, j4351.	2.3	240
9	Effects of the COVID-19 pandemic on primary care-recorded mental illness and self-harm episodes in the UK: a population-based cohort study. Lancet Public Health, The, 2021, 6, e124-e135.	10.0	201
10	Integrated primary care for patients with mental and physical multimorbidity: cluster randomised controlled trial of collaborative care for patients with depression comorbid with diabetes or cardiovascular disease. BMJ, The, 2015, 350, h638-h638.	6.0	200
11	Implementation of self management support for long term conditions in routine primary care settings: cluster randomised controlled trial. BMJ, The, 2013, 346, f2882-f2882.	6.0	195
12	Finding the 'right' GP: a qualitative study of the experiences of people with long-COVID. BJGP Open, 2020, 4, bjgpopen20X101143.	1.8	183
13	'Justifiable depression': how primary care professionals and patients view late-life depression? a qualitative study. Family Practice, 2006, 23, 369-377.	1.9	177
14	The epidemiology of multiple somatic symptoms. Journal of Psychosomatic Research, 2012, 72, 311-317.	2.6	173
15	Clinical effectiveness of collaborative care for depression in UK primary care (CADET): cluster randomised controlled trial. BMJ, The, 2013, 347, f4913-f4913.	6.0	173
16	Social networks, social capital and chronic illness self-management: a realist review. Chronic Illness, 2011, 7, 60-86.	1.5	167
17	Framing the doctor-patient relationship in chronic illness: a comparative study of general practitioners' accounts. Sociology of Health and Illness, 2004, 26, 135-158.	2.1	163
18	Medically unexplained symptoms and the problem of power in the primary care consultation: a qualitative study. Family Practice, 2002, 19, 178-182.	1.9	152

#	ARTICLE	IF	CITATIONS
19	The comorbidity burden of type 2 diabetes mellitus: patterns, clusters and predictions from a large English primary care cohort. <i>BMC Medicine</i> , 2019, 17, 145.	5.5	151
20	Effects of befriending on depressive symptoms and distress: systematic review and meta-analysis. <i>British Journal of Psychiatry</i> , 2010, 196, 96-101.	2.8	145
21	Qualitative research and the problem of judgement: lessons from interviewing fellow professionals. <i>Family Practice</i> , 2002, 19, 285-289.	1.9	140
22	Talking about depression: a qualitative study of barriers to managing depression in people with long term conditions in primary care. <i>BMC Family Practice</i> , 2011, 12, 10.	2.9	124
23	Preterm Delivery and Future Risk of Maternal Cardiovascular Disease: A Systematic Review and Meta-Analysis. <i>Journal of the American Heart Association</i> , 2018, 7, .	3.7	122
24	A qualitative study of GPs' attitudes to self-management of chronic disease. <i>British Journal of General Practice</i> , 2006, 56, 407-14.	1.4	121
25	Access to primary mental health care for hard-to-reach groups: From "silent suffering" to "making it work". <i>Social Science and Medicine</i> , 2011, 72, 763-772.	3.8	118
26	Social networks, work and network-based resources for the management of long-term conditions: a framework and study protocol for developing self-care support. <i>Implementation Science</i> , 2011, 6, 56.	6.9	106
27	Case identification of depression in patients with chronic physical health problems: a diagnostic accuracy meta-analysis of 113 studies. <i>British Journal of General Practice</i> , 2011, 61, e808-e820.	1.4	100
28	Patterns of Access to Community Palliative Care Services: A Literature Review. <i>Journal of Pain and Symptom Management</i> , 2009, 37, 884-912.	1.2	99
29	Nurse led, home based self help treatment for patients in primary care with chronic fatigue syndrome: randomised controlled trial. <i>BMJ: British Medical Journal</i> , 2010, 340, c1777-c1777.	2.3	98
30	Self-harm in older adults: systematic review. <i>British Journal of Psychiatry</i> , 2019, 214, 186-200.	2.8	92
31	Disclosure of symptoms of postnatal depression, the perspectives of health professionals and women: a qualitative study. <i>BMC Family Practice</i> , 2009, 10, 7.	2.9	91
32	Clinical assessment and management of multimorbidity: NICE guideline. <i>British Journal of General Practice</i> , 2017, 67, 235-236.	1.4	77
33	Implementing, embedding and integrating self-management support tools for people with long-term conditions in primary care nursing: A qualitative study. <i>International Journal of Nursing Studies</i> , 2014, 51, 1103-1113.	5.6	75
34	Managing depression in primary care: another example of the inverse care law?. <i>Family Practice</i> , 2002, 19, 632-637.	1.9	74
35	South Asian women, psychological distress and self-harm: lessons for primary care trusts. <i>Health and Social Care in the Community</i> , 2002, 10, 339-347.	1.6	74
36	Implementation of a self-management support approach (WISE) across a health system: a process evaluation explaining what did and did not work for organisations, clinicians and patients. <i>Implementation Science</i> , 2014, 9, 129.	6.9	73

#	ARTICLE	IF	CITATIONS
37	Understanding the management of early-stage chronic kidney disease in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2012, 62, e233-e242.	1.4	70
38	How QOF is shaping primary care review consultations: a longitudinal qualitative study. <i>BMC Family Practice</i> , 2013, 14, 103.	2.9	69
39	The epidemiology of self-harm in a UK-wide primary care patient cohort, 2001–2013. <i>BMC Psychiatry</i> , 2016, 16, 53.	2.6	69
40	Making the diagnosis of Chronic Fatigue Syndrome/Myalgic Encephalitis in primary care: a qualitative study. <i>BMC Family Practice</i> , 2010, 11, 16.	2.9	68
41	Why may older people with depression not present to primary care? Messages from secondary analysis of qualitative data. <i>Health and Social Care in the Community</i> , 2012, 20, 52-60.	1.6	68
42	“Permission to participate?” A qualitative study of participation in patients from differing socio-economic backgrounds. <i>Journal of Health Psychology</i> , 2013, 18, 1046-1055.	2.3	68
43	A randomised controlled trial to test the feasibility of a collaborative care model for the management of depression in older people. <i>British Journal of General Practice</i> , 2007, 57, 364-70.	1.4	67
44	Better together? a naturalistic qualitative study of inter-professional working in collaborative care for co-morbid depression and physical health problems. <i>Implementation Science</i> , 2013, 8, 110.	6.9	66
45	Case studies: A research strategy appropriate for palliative care?. <i>Palliative Medicine</i> , 2004, 18, 677-684.	3.1	65
46	“How do you explain a pain that can't be seen?”: The narratives of women with chronic pelvic pain and their disengagement with the diagnostic cycle. <i>British Journal of Health Psychology</i> , 2007, 12, 261-274.	3.5	64
47	Touch in primary care consultations: qualitative investigation of doctors’ and patients’ perceptions. <i>British Journal of General Practice</i> , 2013, 63, e283-e290.	1.4	64
48	A qualitative study of patient choices in using emergency health care for long-term conditions: The importance of candidacy and recursivity. <i>Patient Education and Counseling</i> , 2013, 93, 335-341.	2.2	61
49	Women's views and experiences of antidepressants as a treatment for postnatal depression: a qualitative study. <i>Family Practice</i> , 2008, 25, 450-455.	1.9	60
50	GPs' and health visitors' views on the diagnosis and management of postnatal depression: a qualitative study. <i>British Journal of General Practice</i> , 2008, 58, 169-176.	1.4	60
51	Managing depression in people with multimorbidity: a qualitative evaluation of an integrated collaborative care model. <i>BMC Family Practice</i> , 2015, 16, 32.	2.9	58
52	Self-harm in a primary care cohort of older people: incidence, clinical management, and risk of suicide and other causes of death. <i>Lancet Psychiatry</i> , 2018, 5, 905-912.	7.4	57
53	Collaborative care for Screen-Positive Elders with major depression (CASPER plus): a multicentred randomised controlled trial of clinical effectiveness and cost-effectiveness. <i>Health Technology Assessment</i> , 2017, 21, 1-252.	2.8	56
54	Bringing self-management into clinical view: a qualitative study of long-term condition management in primary care consultations. <i>Chronic Illness</i> , 2010, 6, 136-150.	1.5	55

#	ARTICLE	IF	CITATIONS
55	“On the surface”: a qualitative study of GPs’ and patients’ perspectives on psoriasis. <i>BMC Family Practice</i> , 2013, 14, 158.	2.9	55
56	Facilitating professional liaison in collaborative care for depression in UK primary care; a qualitative study utilising normalisation process theory. <i>BMC Family Practice</i> , 2014, 15, 78.	2.9	54
57	What do older people experiencing loneliness think about primary care or community based interventions to reduce loneliness? A qualitative study in England. <i>Health and Social Care in the Community</i> , 2017, 25, 1733-1742.	1.6	54
58	'Reluctant pioneer': A qualitative study of doctors' experiences as patients with long COVID. <i>Health Expectations</i> , 2021, 24, 833-842.	2.6	54
59	Temporal trends in annual incidence rates for psychiatric disorders and self-harm among children and adolescents in the UK, 2003–2018. <i>BMC Psychiatry</i> , 2021, 21, 229.	2.6	54
60	Effect of Information and Telephone-Guided Access to Community Support for People with Chronic Kidney Disease: Randomised Controlled Trial. <i>PLoS ONE</i> , 2014, 9, e109135.	2.5	54
61	A cluster randomised controlled trial of the clinical and cost-effectiveness of a 'whole systems' model of self-management support for the management of long-term conditions in primary care: trial protocol. <i>Implementation Science</i> , 2012, 7, 7.	6.9	51
62	The harmful consequences of elevating the doctor-patient relationship to be a primary goal of the general practice consultation. <i>Family Practice</i> , 2004, 21, 229-231.	1.9	49
63	Delivering the WISE (Whole Systems Informing Self-Management Engagement) training package in primary care: learning from formative evaluation. <i>Implementation Science</i> , 2010, 5, 7.	6.9	49
64	Pain assessment and pain treatment for community-dwelling people with dementia: A systematic review and narrative synthesis. <i>International Journal of Geriatric Psychiatry</i> , 2019, 34, 807-821.	2.7	49
65	Prison staff and women prisoner's views on self-harm; their implications for service delivery and development: A qualitative study. <i>Criminal Behaviour and Mental Health</i> , 2010, 20, 274-284.	0.8	48
66	Medically unexplained symptoms: continuing challenges for primary care. <i>British Journal of General Practice</i> , 2017, 67, 106-107.	1.4	48
67	Barriers, facilitators, and survival strategies for GPs seeking treatment for distress: a qualitative study. <i>British Journal of General Practice</i> , 2017, 67, e700-e708.	1.4	48
68	Treating depression in later life. <i>BMJ: British Medical Journal</i> , 2004, 329, 181-182.	2.3	47
69	Effectiveness of a Computerized Decision Aid in Primary Care on Decision Making and Quality of Life in Menorrhagia: Results of the MENTIP Randomized Controlled Trial. <i>Medical Decision Making</i> , 2007, 27, 575-584.	2.4	47
70	Pre-eclampsia is associated with a twofold increase in diabetes: a systematic review and meta-analysis. <i>Diabetologia</i> , 2016, 59, 2518-2526.	6.3	47
71	Custody vs care: attitudes of prison staff to self-harm in women prisoners—a qualitative study. <i>Journal of Forensic Psychiatry and Psychology</i> , 2009, 20, 408-426.	1.0	46
72	Sleep Disturbance and Chronic Widespread Pain. <i>Current Rheumatology Reports</i> , 2015, 17, 469.	4.7	46

#	ARTICLE	IF	CITATIONS
73	Using Multiple Sources of Knowledge to Reach Clinical Understanding of Chronic Fatigue Syndrome. <i>Annals of Family Medicine</i> , 2008, 6, 340-348.	1.9	45
74	Mirtazapine added to SSRIs or SNRIs for treatment resistant depression in primary care: phase III randomised placebo controlled trial (MIR). <i>BMJ: British Medical Journal</i> , 2018, 363, k4218.	2.3	44
75	Long-term clinical and cost-effectiveness of collaborative care (versus usual care) for people with mental and physical multimorbidity: cluster-randomised trial. <i>British Journal of Psychiatry</i> , 2018, 213, 456-463.	2.8	44
76	Women's experiences of health visitor delivered listening visits as a treatment for postnatal depression: A qualitative study. <i>Patient Education and Counseling</i> , 2010, 78, 234-239.	2.2	43
77	Managing self-limiting respiratory tract infections: a qualitative study of the usefulness of the delayed prescribing strategy. <i>British Journal of General Practice</i> , 2011, 61, e579-e589.	1.4	43
78	Illness beliefs and the sociocultural context of diabetes self-management in British South Asians: a mixed methods study. <i>BMC Family Practice</i> , 2015, 16, 58.	2.9	43
79	Judgements about fellow professionals and the management of patients receiving palliative care in primary care: a qualitative study. <i>British Journal of General Practice</i> , 2008, 58, 264-272.	1.4	41
80	Researching the mental health needs of hard-to-reach groups: managing multiple sources of evidence. <i>BMC Health Services Research</i> , 2009, 9, 226.	2.2	41
81	Slaying the dragon myth: an ethnographic study of receptionists in UK general practice. <i>British Journal of General Practice</i> , 2013, 63, e177-e184.	1.4	41
82	Clinical effectiveness and cost-effectiveness of collaborative care for depression in UK primary care (CADET): a cluster randomised controlled trial. <i>Health Technology Assessment</i> , 2016, 20, 1-192.	2.8	41
83	Somatization and Health Anxiety as Predictors of Health Care Use. <i>Psychosomatic Medicine</i> , 2012, 74, 656-664.	2.0	40
84	Having diabetes and having to fast: a qualitative study of British Muslims with diabetes. <i>Health Expectations</i> , 2015, 18, 1698-1708.	2.6	40
85	Symptom perceptions and help-seeking behaviour prior to lung and colorectal cancer diagnoses: a qualitative study. <i>Family Practice</i> , 2015, 32, 568-577.	1.9	40
86	Depression predicts future emergency hospital admissions in primary care patients with chronic physical illness. <i>Journal of Psychosomatic Research</i> , 2016, 82, 54-61.	2.6	40
87	Improving access to psychosocial interventions for common mental health problems in the United Kingdom: narrative review and development of a conceptual model for complex interventions. <i>BMC Health Services Research</i> , 2012, 12, 249.	2.2	39
88	Association of SARS-CoV-2 Infection With Psychological Distress, Psychotropic Prescribing, Fatigue, and Sleep Problems Among UK Primary Care Patients. <i>JAMA Network Open</i> , 2021, 4, e2134803.	5.9	39
89	Understanding the challenges to implementing case management for people with dementia in primary care in England: a qualitative study using Normalization Process Theory. <i>BMC Health Services Research</i> , 2014, 14, 549.	2.2	38
90	The association between anxiety and disease activity and quality of life in rheumatoid arthritis: a systematic review and meta-analysis. <i>Clinical Rheumatology</i> , 2020, 39, 1471-1482.	2.2	38

#	ARTICLE	IF	CITATIONS
91	Cost-Effectiveness of Collaborative Care for Depression in UK Primary Care: Economic Evaluation of a Randomised Controlled Trial (CADET). PLoS ONE, 2014, 9, e104225.	2.5	38
92	Challenges to nurse prescribers of a no-antibiotic prescribing strategy for managing self-limiting respiratory tract infections. Journal of Advanced Nursing, 2012, 68, 2622-2632.	3.3	36
93	Suicide risk in primary care patients diagnosed with a personality disorder: a nested case control study. BMC Family Practice, 2016, 17, 106.	2.9	36
94	Validating screening instruments for cognitive impairment in older South Asians in the United Kingdom. , 2000, 15, 54-62.		35
95	The use of mixed methodology in evaluating complex interventions: identifying patient factors that moderate the effects of a decision aid. Family Practice, 2007, 24, 594-600.	1.9	35
96	Why do patients with long-term conditions use unscheduled care? A qualitative literature review. Health and Social Care in the Community, 2013, 21, 339-351.	1.6	35
97	Role of the GP in the management of patients with self-harm behaviour: a systematic review. British Journal of General Practice, 2020, 70, e364-e373.	1.4	35
98	'I never realised that doctors were into feelings too': changing student perceptions through interprofessional education. Learning in Health and Social Care, 2003, 2, 137-146.	0.6	34
99	The implications of living with heart failure; the impact on everyday life, family support, co-morbidities and access to healthcare: a secondary qualitative analysis. BMC Family Practice, 2016, 17, 139.	2.9	33
100	GPs' experiences of dealing with parents bereaved by suicide: a qualitative study. British Journal of General Practice, 2016, 66, e737-e746.	1.4	32
101	Developing resources to support the diagnosis and management of Chronic Fatigue Syndrome/Myalgic Encephalitis (CFS/ME) in primary care: a qualitative study. BMC Family Practice, 2012, 13, 93.	2.9	31
102	Behavioural activation to prevent depression and loneliness among socially isolated older people with long-term conditions: The BASIL COVID-19 pilot randomised controlled trial. PLoS Medicine, 2021, 18, e1003779.	8.4	31
