#	ARTICLE	IF	CITATIONS
1	Parenting and Lead Mitigation at Home: A Multifaceted Community Partnership Model Promoting Parent Engagement in Lead Exposure Prevention. <i>Health Promotion Practice</i> , 2023, 24, 911-920.	1.6	2
2	Infant Mental Health Home Visiting Mitigates Impact of Maternal Adverse Childhood Experiences on Toddler Language Competence: A Randomized Controlled Trial. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2022, 43, e227-e236.	1.1	10
3	The healthfulness of children's meals when multiple media and devices are present. <i>Appetite</i> , 2022, 169, 105800.	3.7	5
4	Racial differences in psychological stress and insulin sensitivity in non-Hispanic Black and White adolescents with overweight/obesity. <i>Physiology and Behavior</i> , 2022, 245, 113672.	2.1	1
5	A brief child-friendly reward task reliably activates the ventral striatum in two samples of socioeconomically diverse youth. <i>PLoS ONE</i> , 2022, 17, e0263368.	2.5	1
6	Children aged 3â€“4 years were more likely to be given mobile devices for calming purposes if they had weaker overall executive functioning. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2022, , .	1.5	3
7	Infant Distress in a Food Delay Task Changes With Development and Predicts Amount Consumed. <i>Frontiers in Nutrition</i> , 2022, 9, 786022.	3.7	2
8	Video-Sharing Platform Viewing Among Preschool-Aged Children: Differences by Child Characteristics and Contextual Factors.. <i>Cyberpsychology, Behavior, and Social Networking</i> , 2022, 25, 230-236.	3.9	0
9	Self-Regulation as a Protective Factor for Diabetes Distress and Adherence in Youth with Type 1 Diabetes During the COVID-19 Pandemic. <i>Journal of Pediatric Psychology</i> , 2022, 47, 873-882.	2.1	5
10	From zero to thrive: A model of crossâ€system and crossâ€sector relational health to promote early childhood development across the childâ€serving ecosystem. <i>Infant Mental Health Journal</i> , 2022, 43, 624-637.	1.8	9
11	Ruralâ€“urban differences in body mass index and obesity-related behaviors among low-income preschoolers. <i>Journal of Public Health</i> , 2021, 43, e637-e644.	1.8	15
12	Early life stress exposure associated with reduced polyunsaturated-containing lipids in low-income children. <i>Pediatric Research</i> , 2021, 89, 1310-1315.	2.3	5
13	Pathways from racial discrimination to cortisol/DHEA imbalance: protective role of religious involvement. <i>Ethnicity and Health</i> , 2021, 26, 413-430.	2.5	16
14	Emotion expression and regulation in three cultures: Chinese, Japanese, and American preschoolersâ€™™ reactions to disappointment. <i>Journal of Experimental Child Psychology</i> , 2021, 201, 104972.	1.4	24
15	Adolescent exposure to violence and intimate-partner violence mediated by mental distress. <i>Journal of Applied Developmental Psychology</i> , 2021, 72, 101215.	1.7	6
16	Parental perceptions of actual and ideal body weight in early childhood prospectively predict adolescent perceptions of actual and ideal body weight among a low-income population. <i>Eating and Weight Disorders</i> , 2021, 26, 2371-2379.	2.5	1
17	Temperament, socioeconomic adversity, and perinatal risk as related to preschoolersâ€™™ BMI.. <i>Health Psychology</i> , 2021, 40, 135-144.	1.6	6
18	Emerging Ideas. How Do <sc>Lowâ€Income</sc> Mothers Talk to Children About Weight and Body Shape?. <i>Family Relations</i> , 2021, 70, 1477-1484.	1.9	6

#	ARTICLE	IF	CITATIONS
19	Interpersonal Trauma Exposure and Interpersonal Problems in Adolescent Posttraumatic Stress Disorder. <i>Journal of Traumatic Stress</i> , 2021, 34, 733-743.	1.8	4
20	Are Preschoolers's Neurobiological Stress Systems Responsive to Culturally Relevant Contexts?. <i>Psychological Science</i> , 2021, 32, 998-1010.	3.3	3
21	Targeted self-regulation interventions in low-income children: Clinical trial results and implications for health behavior change. <i>Journal of Experimental Child Psychology</i> , 2021, 208, 105157.	1.4	1
22	Provider Perspectives on Screening for Social Determinants of Health in Pediatric Settings: A Qualitative Study. <i>Journal of Pediatric Health Care</i> , 2021, 35, 577-586.	1.2	19
23	Acute Daily Stress, Daily Food Consumption, and the Moderating Effect of Disordered Eating among Adolescents with Overweight/Obesity. <i>Childhood Obesity</i> , 2021, 17, 391-399.	1.5	1
24	Observed behavioral indicators of child satiation at mealtime: Associations with child characteristics and parent-reported child eating behaviors. <i>Appetite</i> , 2021, 166, 105480.	3.7	1
25	Motivations for firearm possession and storage practices among urban young adults: differences between parents and non-parents. <i>Injury Prevention</i> , 2021, 27, 409-412.	2.4	5
26	Cortisol in early childhood moderates the association between family routines and observed affective balance in children from low-income backgrounds. <i>Developmental Psychobiology</i> , 2021, 63, e22204.	1.6	1
27	The Feasibility and Challenges of Conducting Online Research to Examine Movement Behavior in Parents and Children During the COVID-19 Pandemic. <i>Frontiers in Public Health</i> , 2021, 9, 720083.	2.7	6
28	Coparenting in the feeding context: perspectives of fathers and mothers of preschoolers. <i>Eating and Weight Disorders</i> , 2020, 25, 1061-1070.	2.5	14
29	Parental substance use and child reward-driven eating behaviors. <i>Appetite</i> , 2020, 144, 104486.	3.7	9
30	Longitudinal associations between overweight/obesity and stress biology in low-income children. <i>International Journal of Obesity</i> , 2020, 44, 646-655.	3.4	20
31	Feeding styles among mothers of low-income children identified using a person-centered multi-method approach. <i>Appetite</i> , 2020, 146, 104509.	3.7	6
32	Mother's Child and Father's Child Connectedness in Adolescence and Disordered Eating Symptoms in Young Adulthood. <i>Journal of Adolescent Health</i> , 2020, 66, 366-371.	2.5	5
33	Adolescent stress: A predictor of dieting behaviors in youth with overweight/obesity. <i>Appetite</i> , 2020, 147, 104560.	3.7	5
34	Maternal prompting types and child vegetable intake: Exploring the moderating role of picky eating. <i>Appetite</i> , 2020, 146, 104518.	3.7	9
35	Observed restrictive feeding practices among low-income mothers of pre-adolescents. <i>Pediatric Obesity</i> , 2020, 15, e12666.	2.8	8
36	Within-Person Variability in Firearm Carriage Among High-Risk Youth. <i>American Journal of Preventive Medicine</i> , 2020, 59, 386-393.	3.0	10

#	ARTICLE	IF	CITATIONS
37	Sucking behavior in typical and challenging feedings in association with weight gain from birth to 4Months in full-term infants. <i>Appetite</i> , 2020, 153, 104745.	3.7	7
38	Economic hardship and child intake of foods high in saturated fats and added sugars: the mediating role of parenting stress among high-risk families. <i>Public Health Nutrition</i> , 2020, 23, 2781-2792.	2.2	11
39	Poverty and Food Insecurity Predict Mealtime Structure: Mediating Pathways of Parent Disciplinary Practices and Depressive Symptoms. <i>Journal of Child and Family Studies</i> , 2020, 29, 3169-3183.	1.3	6
40	Data Collection Practices of Mobile Applications Played by Preschool-Aged Children. <i>JAMA Pediatrics</i> , 2020, 174, e203345.	6.2	26
41	Social distancing in response to the novel coronavirus (COVID-19) in the United States. <i>PLoS ONE</i> , 2020, 15, e0239025.	2.5	94
42	Transitions into and out of post-traumatic stress among children involved in the child welfare system. <i>Children and Youth Services Review</i> , 2020, 118, 105384.	1.9	0
43	Crosslagged associations between behaviour problems and obesity in head start preschoolers. <i>Pediatric Obesity</i> , 2020, 15, e12627.	2.8	4
44	Phenotypes of controlling feeding behaviours in mothers of toddlers: A mixed methods study. <i>Pediatric Obesity</i> , 2020, 15, e12639.	2.8	3
45	Caregiver Influences on Eating Behaviors in Young Children. <i>Journal of the American Heart Association</i> , 2020, 9, e014520.	3.7	81
46	Behavioral Responses to Sucrose as an Indicator of Positive Hedonic Response Across the First Six Months of Infancy. <i>Physiology and Behavior</i> , 2020, 223, 112914.	2.1	5
47	Childhood emotional and behavioral characteristics are associated with soda intake: A prospective study in Mexico City. <i>Pediatric Obesity</i> , 2020, 15, e12682.	2.8	4
48	The Motor skills At Playtime intervention improves children's locomotor skills: A feasibility study. <i>Child: Care, Health and Development</i> , 2020, 46, 599-606.	1.7	12
49	Adolescent Interventions to Manage Self-Regulation in Type 1 Diabetes (AIMS-T1D): randomized control trial study protocol. <i>BMC Pediatrics</i> , 2020, 20, 112.	1.7	5
50	Sex Differences in the Association between Household Chaos and Body Mass Index z-Score in Low-Income Toddlers. <i>Childhood Obesity</i> , 2020, 16, 265-273.	1.5	3
51	The Role of Parent Self-Regulation in Youth Type 1 Diabetes Management. <i>Current Diabetes Reports</i> , 2020, 20, 37.	4.2	4
52	Developmentally informed behaviour change techniques to enhance self-regulation in a health promotion context: a conceptual review. <i>Health Psychology Review</i> , 2020, 14, 116-131.	8.6	19
53	Neighborhood poverty predicts altered neural and behavioral response inhibition. <i>NeuroImage</i> , 2020, 209, 116536.	4.2	45
54	Developmental Differences in the Association of Peer Relationships with Traumatic Stress Symptoms. <i>Prevention Science</i> , 2020, 21, 841-849.	2.6	4

#	ARTICLE	IF	CITATIONS
55	Examining childhood obesity through the lens of developmental psychopathology: Framing the issues to guide best practices in research and intervention.. American Psychologist, 2020, 75, 163-177.	4.2	19
56	Trajectories of Picky Eating in Low-Income US Children. Pediatrics, 2020, 145, .	2.1	26
57	Parent-Toddler Social Reciprocity During Reading From Electronic Tablets vs Print Books. JAMA Pediatrics, 2019, 173, 1076.	6.2	19
58	Associations between childhood maltreatment latent classes and eating disorder symptoms in a nationally representative sample of young adults in the United States. Child Abuse and Neglect, 2019, 98, 104171.	2.6	39
59	Parenting and toddler self-regulation in low-income families: What does sleep have to do with it?. Infant Mental Health Journal, 2019, 40, 479-495.	1.8	6
60	Prenatal predictors of objectively measured appetite regulation in low-income toddlers and preschool-age children. Pediatric Obesity, 2019, 14, e12554.	2.8	8
61	Maternal nicotine dependence is associated with longitudinal increases in child obesogenic eating behaviors. Pediatric Obesity, 2019, 14, e12541.	2.8	10
62	Development and preliminary validation of a feeding coparenting scale (FCS). Appetite, 2019, 139, 152-158.	3.7	13
63	Positive Parenting Moderates the Effect of Socioeconomic Status on Executive Functioning: A Three-Generation Approach. Journal of Child and Family Studies, 2019, 28, 1878-1885.	1.3	13
64	Associations between Sleep and Dietary Patterns among Low-Income Children Attending Preschool. Journal of the Academy of Nutrition and Dietetics, 2019, 119, 1176-1187.	0.8	19
65	Deconstructing the Family Meal: Are Characteristics of the Mealtime Environment Associated with the Healthfulness of Meals Served?. Journal of the Academy of Nutrition and Dietetics, 2019, 119, 1296-1304.	0.8	9
66	Promoting Cardiovascular Health in Early Childhood and Transitions in Childhood through Adolescence: A Workshop Report. Journal of Pediatrics, 2019, 209, 240-251.e1.	1.8	28
67	Maternal executive function and the family food environment. Appetite, 2019, 137, 21-26.	3.7	8
68	Weight status moderates stress-eating in the absence of hunger associations in children. Appetite, 2019, 136, 184-192.	3.7	20
69	Sleep duration and quality are associated with eating behavior in low-income toddlers. Appetite, 2019, 135, 100-107.	3.7	34
70	Do child gender and temperament moderate associations between Head Start classroom social-emotional climate and children's social-emotional competencies?. Early Childhood Research Quarterly, 2019, 47, 518-530.	2.7	5
71	Development and validation of the Problematic Media Use Measure: A parent report measure of screen media "addiction" in children.. Psychology of Popular Media Culture, 2019, 8, 2-11.	2.4	82
72	Development and preliminary validation of the Parenting around SNacking Questionnaire (P-SNAQ). Appetite, 2018, 125, 323-332.	3.7	11

#	ARTICLE	IF	CITATIONS
73	Family conflict, chaos, and negative life events predict cortisol activity in low-income children. <i>Developmental Psychobiology</i> , 2018, 60, 364-379.	1.6	33
74	Maternal Mental Representations of the Child and Mobile Phone Use During Parent-Child Mealtimes. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2018, 39, 310-317.	1.1	25
75	Pathways of Association from Stress to Obesity in Early Childhood. <i>Obesity</i> , 2018, 26, 1117-1124.	3.0	67
76	Do children with obesity have worse table manners? Associations between child table manners, weight status and weight gain. <i>Appetite</i> , 2018, 125, 57-62.	3.7	2
77	Early Childhood Stress and Child Age Predict Longitudinal Increases in Obesogenic Eating Among Low-Income Children. <i>Academic Pediatrics</i> , 2018, 18, 685-691.	2.0	33
78	Picky eating, pressuring feeding, and growth in toddlers. <i>Appetite</i> , 2018, 123, 299-305.	3.7	22
79	Characteristics Associated With Parent-Teacher Concordance on Child Behavior Problem Ratings in Low-Income Preschoolers. <i>Academic Pediatrics</i> , 2018, 18, 452-459.	2.0	9
80	Mothers of Obese Children Use More Direct Imperatives to Restrict Eating. <i>Journal of Nutrition Education and Behavior</i> , 2018, 50, 403-407.e1.	0.7	11
81	Familial psychosocial risk classes and preschooler body mass index: The moderating effect of caregiver feeding style. <i>Appetite</i> , 2018, 123, 216-224.	3.7	16
82	Media Exposure in Low-Income Preschool-Aged Children Is Associated with Multiple Measures of Self-Regulatory Behavior. <i>Journal of Developmental and Behavioral Pediatrics</i> , 2018, 39, 303-309.	1.1	32
83	Measuring the Implementation of Youth Empowerment Solutions. <i>Health Promotion Practice</i> , 2018, 19, 581-589.	1.6	5
84	Targeting self-regulation to promote health behaviors in children. <i>Behaviour Research and Therapy</i> , 2018, 101, 71-81.	3.1	39
85	Association of Picky Eating With Weight Status and Dietary Quality Among Low-Income Preschoolers. <i>Academic Pediatrics</i> , 2018, 18, 334-341.	2.0	36
86	Oxytocin and parenting behavior among impoverished mothers with low vs. high early life stress. <i>Archives of Women's Mental Health</i> , 2018, 21, 375-382.	2.6	22
87	Child, Caregiver, Family, and Social-Contextual Factors to Consider when Implementing Parent-Focused Child Feeding Interventions. <i>Current Nutrition Reports</i> , 2018, 7, 303-309.	4.3	19
88	Approaches to restrictive feeding: Associations with child weight and eating behavior. <i>Eating Behaviors</i> , 2018, 31, 74-79.	2.0	5
89	Selective eating behaviors in children: An observational validation of parental report measures. <i>Appetite</i> , 2018, 127, 163-170.	3.7	23
90	Maternal discouragement and child intake of a palatable dessert: A multilevel sequential analysis. <i>Appetite</i> , 2018, 129, 171-177.	3.7	4
