#	ARTICLE	IF	CITATIONS
1	Long-term effect of asthma on the development of obesity among adults: an international cohort study, ECRHS. Thorax, 2023, 78, 128-135.	5.6	18
2	The impact of the Hazelwood coal mine fire smoke exposure on asthma. Journal of Asthma, 2022, 59, 213-222.	1.7	7
3	The association between outdoor allergens “ pollen, fungal spore season and high asthma admission days in children and adolescents. International Journal of Environmental Health Research, 2022, 32, 1393-1402.	2.7	20
4	Breathlessness across generations: results from the RHINESSA generation study. Thorax, 2022, 77, 172-177.	5.6	4
5	Chronic Obstructive Pulmonary Disease in Adults Exposed to Fine Particles from a Coal Mine Fire. Annals of the American Thoracic Society, 2022, 19, 186-195.	3.2	7
6	Long-term impact of exposure to coalmine fire emitted PM2.5 on emergency ambulance attendances. Chemosphere, 2022, 288, 132339.	8.2	3
7	Associations between self-reported respiratory symptoms and non-specific psychological distress following exposure to a prolonged landscape fire. Stress and Health, 2022, 38, 364-374.	2.6	1
8	Laryngeal hypersensitivity and abnormal cough response during mannitol bronchoprovocation challenge. Respirology, 2022, 27, 48-55.	2.3	3
9	Risk factors for chronic cough in adults: A systematic review and meta-analysis. Respirology, 2022, 27, 36-47.	2.3	15
10	The psychological impacts of a smoke event on young adults compared to other aged adults in Victoria, Australia. International Journal of Disaster Risk Reduction, 2022, 70, 102727.	3.9	1
11	Parental preconception BMI trajectories from childhood to adolescence and asthma in the future offspring. Journal of Allergy and Clinical Immunology, 2022, , .	2.9	5
12	The effect of long-term radiofrequency exposure on cognition in human observational studies: A protocol for a systematic review. Environment International, 2022, 159, 106972.	10.0	6
13	Association between very to moderate preterm births, lung function deficits, and COPD at age 53 years: analysis of a prospective cohort study. Lancet Respiratory Medicine, the, 2022, 10, 478-484.	10.7	42
14	Impact of lifetime body mass index trajectories on the incidence and persistence of adult asthma. European Respiratory Journal, 2022, 60, 2102286.	6.7	6
15	Associations between Body Mass Index Trajectories in the first two years of life and Allergic Rhinitis, Eczema and Food Allergy outcomes up to early adulthood. Pediatric Allergy and Immunology, 2022, 33, e13765.	2.6	3
16	An exploration of the trajectory of psychological distress associated with exposure to smoke during the 2014 Hazelwood coal mine fire. International Journal of Hygiene and Environmental Health, 2022, 241, 113946.	4.3	7
17	Parental Prepuberty Overweight and Offspring Lung Function. Nutrients, 2022, 14, 1506.	4.1	4
18	Establishing subclasses of childhood eczema, their risk factors and prognosis. Clinical and Experimental Allergy, 2022, 52, 1079-1090.	2.9	7

#	ARTICLE	IF	CITATIONS
19	Impacts of coal mine fire-related PM2.5 on the utilisation of ambulance and hospital services for mental health conditions. <i>Atmospheric Pollution Research</i> , 2022, 13, 101415.	3.8	3
20	Associations between long-term exposure to PM2.5 and site-specific cancer mortality: A nationwide study in Brazil between 2010 and 2018. <i>Environmental Pollution</i> , 2022, 302, 119070.	7.5	24
21	Long-term impacts of coal mine fire-emitted PM2.5 on hospitalisation: a longitudinal analysis of the Hazelwood Health Study. <i>International Journal of Epidemiology</i> , 2022, 51, 179-190.	1.9	2
22	Reply to: "Respiratory harms from vaping: Questions for debate and discussion". <i>Respirology</i> , 2022, 27, 96-98.	2.3	0
23	Vascular Responses Among Adults Four Years Post Exposure to 6 Weeks of Smoke from the Hazelwood Coal Mine Fire. <i>Vascular Health and Risk Management</i> , 2022, Volume 18, 253-265.	2.3	0
24	Educational interventions for health professionals managing chronic obstructive pulmonary disease in primary care. <i>The Cochrane Library</i> , 2022, 2022, CD012652.	2.8	5
25	Effectiveness of Interventions Targeting Treatable Traits for the Management of Obstructive Airway Diseases: A Systematic Review and Meta-Analysis. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , 2022, 10, 2333-2345.e21.	3.8	13
26	Childhood "bronchitis" and respiratory outcomes in middle-age: a prospective cohort study from age 7 to 53 years. <i>BMJ Open Respiratory Research</i> , 2022, 9, e001212.	3.0	3
27	Loss of life expectancy from PM2.5 in Brazil: A national study from 2010 to 2018. <i>Environment International</i> , 2022, 166, 107350.	10.0	7
28	Human milk oligosaccharide profiles and allergic disease up to 18 years. <i>Journal of Allergy and Clinical Immunology</i> , 2021, 147, 1041-1048.	2.9	29
29	Cohort Profile: The Hazelwood Health Study Latrobe Early Life Follow-Up (ELF) Study. <i>International Journal of Epidemiology</i> , 2021, 49, 1779-1780.	1.9	11
30	Cohort Profile: The Hazelwood Health Study Adult Cohort. <i>International Journal of Epidemiology</i> , 2021, 49, 1777-1778.	1.9	27
31	Trajectories of asthma and allergies from 7 years to 53 years and associations with lung function and extrapulmonary comorbidity profiles: a prospective cohort study. <i>Lancet Respiratory Medicine</i> , 2021, 9, 387-396.	10.7	42
32	Impact of exposure to mine fire emitted PM2.5 on ambulance attendances: A time series analysis from the Hazelwood Health Study. <i>Environmental Research</i> , 2021, 196, 110402.	7.5	5
33	Exposure to household air pollution over 10...years is related to asthma and lung function decline. <i>European Respiratory Journal</i> , 2021, 57, 2000602.	6.7	18
34	Is short-term exposure to grass pollen adversely associated with lung function and airway inflammation in the community?. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2021, 76, 1136-1146.	5.7	11
35	Radiofrequency electromagnetic field exposure assessment: a pilot study on mobile phone signal strength and transmitted power levels. <i>Journal of Exposure Science and Environmental Epidemiology</i> , 2021, 31, 62-69.	3.9	7
36	Does the use of inhaled corticosteroids in asthma benefit lung function in the long-term? A systematic review and meta-analysis. <i>European Respiratory Review</i> , 2021, 30, 200185.	7.1	8

#	ARTICLE	IF	CITATIONS
37	Sub-Clinical Effects of Outdoor Smoke in Affected Communities. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1131.	2.6	1
38	Mapping air pollution and idiopathic pulmonary fibrosis. <i>Respirology</i> , 2021, 26, 292-293.	2.3	5
39	The effect of physical activity on asthma incidence over 10 years: population-based study. <i>ERJ Open Research</i> , 2021, 7, 00970-2020.	2.6	1
40	Smoking cessation intervention in Australian general practice: a secondary analysis of a cluster randomised controlled trial. <i>British Journal of General Practice</i> , 2021, 71, e458-e464.	1.4	2
41	Treatable traits in an English cohort: prevalence and predictors of future decline in lung function and quality of life in COPD. <i>ERJ Open Research</i> , 2021, 7, 00934-2020.	2.6	13
42	Undiagnosed and Misdiagnosed Chronic Obstructive Pulmonary Disease: Data from the BOLD Australia Study. <i>International Journal of COPD</i> , 2021, Volume 16, 467-475.	2.3	13
43	Application of the Modified Incremental Step Test for Pulmonary Rehabilitation. <i>Physical Therapy</i> , 2021, 101, .	2.4	7
44	Markers of Cardiovascular Disease among Adults Exposed to Smoke from the Hazelwood Coal Mine Fire. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 1587.	2.6	2
45	Current pet ownership modifies the adverse association between long-term ambient air pollution exposure and childhood asthma. <i>Clinical and Translational Allergy</i> , 2021, 11, e12005.	3.2	3
46	Caustic Mist Exposure and Respiratory Outcomes in a Cohort Study of Alumina Refinery Workers. <i>Annals of Work Exposures and Health</i> , 2021, 65, 703-714.	1.4	0
47	Wi-fi related radiofrequency electromagnetic fields (RF-EMF): a pilot experimental study of personal exposure and risk perception. <i>Journal of Environmental Health Science & Engineering</i> , 2021, 19, 671-680.	3.0	6
48	Association between ambient air pollution and development and persistence of atopic and non-atopic eczema in a cohort of adults. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2021, 76, 2524-2534.	5.7	23
49	The mediating role of lung function on air pollution-induced cardiopulmonary mortality in elderly women: The SALIA cohort study with 22-year mortality follow-up. <i>International Journal of Hygiene and Environmental Health</i> , 2021, 233, 113705.	4.3	6
50	Comment on Choi et al. Cellular Phone Use and Risk of Tumors: Systematic Review and Meta-Analysis. <i>Int. J. Environ. Res. Public Health</i> 2020, 17, 8079. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 5459.	2.6	2
51	Prevalence of chronic obstructive pulmonary disease with breathlessness in Australia: weighted using the 2016 Australian census. <i>Internal Medicine Journal</i> , 2021, 51, 784-787.	0.8	3
52	Long-term impact of coal mine fire smoke on lung mechanics in exposed adults. <i>Respirology</i> , 2021, 26, 861-868.	2.3	13
53	Lung function trajectory and biomarkers in the Tasmanian Longitudinal Health Study. <i>ERJ Open Research</i> , 2021, 7, 00020-2021.	2.6	11
54	Association between ambient temperature and sex offense: A case-crossover study in seven large US cities, 2007–2017. <i>Sustainable Cities and Society</i> , 2021, 69, 102828.	10.4	14

#	ARTICLE	IF	CITATIONS
55	Are e-cigarette use and vaping associated with increased respiratory symptoms and poorer lung function in a population exposed to smoke from a coal mine fire?. <i>Respirology</i> , 2021, 26, 974-981.	2.3	6
56	Dynamics of inhaled corticosteroid use are associated with asthma attacks. <i>Scientific Reports</i> , 2021, 11, 14715.	3.3	4
57	Surrounding Greenness and Biological Aging Based on DNA Methylation: A Twin and Family Study in Australia. <i>Environmental Health Perspectives</i> , 2021, 129, 87007.	6.0	14
58	Residential surrounding greenness and DNA methylation: an epigenome-wide association study. <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
59	Socioeconomic inequality in vulnerability to all-cause and cause-specific hospitalisation associated with temperature variability: a time-series study in 1814 Brazilian cities. <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
60	Cohort studies of long-term exposure to outdoor particulate matter and risks of cancer: A systematic review and meta-analysis. <i>Innovation(China)</i> , 2021, 2, 100143.	9.1	22
61	Associations between respiratory and vascular function in early childhood. <i>Respirology</i> , 2021, 26, 1060-1066.	2.3	2
62	Association between ambient temperature and sex offense: A case-crossover study in seven large US cities, 2007-2017. <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
63	Socioeconomic level and associations between heat exposure and all-cause and cause-specific hospitalization in 1,814 Brazilian cities: A nationwide case-crossover study. <i>ISEE Conference Abstracts</i> , 2021, 2021, .	0.0	0
64	Surrounding greenness is associated with slower biological ageing based on epigenetics. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	0
65	Ambient temperature and genome-wide DNA methylation: A twin and family study in Australia. <i>Environmental Pollution</i> , 2021, 285, 117700.	7.5	9
66	WHO Air Quality Guidelines 2021 - Aiming for Healthier Air for all: A Joint Statement by Medical, Public Health, Scientific Societies and Patient Representative Organisations. <i>International Journal of Public Health</i> , 2021, 66, 1604465.	2.3	77
67	Grass pollen exposure and children's asthma repeat admissions in Victoria, Australia. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	0
68	Mortality risk attributable to wildfire-related PM _{2.5} pollution: a global time series study in 749 locations. <i>Lancet Planetary Health</i> , The, 2021, 5, e579-e587.	11.4	109
69	Residential surrounding greenness and DNA methylation: An epigenome-wide association study. <i>Environment International</i> , 2021, 154, 106556.	10.0	23
70	Predictors of lung function trajectories in population-based studies: A systematic review. <i>Respirology</i> , 2021, 26, 938-959.	2.3	25
71	The impacts of long-term exposure to PM _{2.5} on cancer hospitalizations in Brazil. <i>Environment International</i> , 2021, 154, 106671.	10.0	18
72	Risk factors for chronic cough in adults: A systematic review and meta-analysis. <i>International Journal of Epidemiology</i> , 2021, 50, .	1.9	0

#	ARTICLE	IF	CITATIONS
73	Infant body mass index trajectories and asthma and lung function. <i>Journal of Allergy and Clinical Immunology</i> , 2021, 148, 763-770.	2.9	19
74	Normal limits for oscillometric bronchodilator responses and relationships with clinical factors. <i>ERJ Open Research</i> , 2021, 7, 00439-2021.	2.6	7
75	Health and related economic benefits associated with reduction in air pollution during COVID-19 outbreak in 367 cities in China. <i>Ecotoxicology and Environmental Safety</i> , 2021, 222, 112481.	6.0	17
76	Air pollution control efficacy and health impacts: A global observational study from 2000 to 2016. <i>Environmental Pollution</i> , 2021, 287, 117211.	7.5	20
77	Childhood lung function as a determinant of menopause-dependent lung function decline. <i>Maturitas</i> , 2021, 153, 41-47.	2.4	2
78	Exposure to mine fire related particulate matter and mortality: A time series analysis from the Hazelwood Health Study. <i>Chemosphere</i> , 2021, 285, 131351.	8.2	7
79	Bronchodilator reversibility as a diagnostic test for adult asthma: findings from the population-based Tasmanian Longitudinal Health Study. <i>ERJ Open Research</i> , 2021, 7, 00042-2020.	2.6	2
80	Protein levels, air pollution and vitamin D deficiency: links with allergy. <i>ERJ Open Research</i> , 2021, 7, 00237-2021.	2.6	0
81	Ten-year prediction model for post-bronchodilator airflow obstruction and early detection of COPD: development and validation in two middle-aged population-based cohorts. <i>BMJ Open Respiratory Research</i> , 2021, 8, e001138.	3.0	4
82	Impacts of High Concentration, Medium Duration Coal Mine Fire Related PM _{2.5} on Cancer Incidence: 5-Year Follow-Up of the Hazelwood Health Study. <i>Environmental Health Insights</i> , 2021, 15, 117863022110597.	1.7	1
83	Non-pharmacological management of adult asthma in Australia: cross-sectional analysis of a population-based cohort study. <i>Journal of Asthma</i> , 2020, 57, 105-112.	1.7	10
84	Coal-mine fire-related fine particulate matter and medical-service utilization in Australia: a time-series analysis from the Hazelwood Health Study. <i>International Journal of Epidemiology</i> , 2020, 49, 80-93.	1.9	18
85	Asthma, atopy and serious psychological distress: prevalence and risk factors among young people in the Melbourne atopy cohort study. <i>Journal of Asthma</i> , 2020, 57, 1323-1331.	1.7	4
86	Home-based pulmonary rehabilitation for COPD using minimal resources: An economic analysis. <i>Respirology</i> , 2020, 25, 183-190.	2.3	39
87	Early life exposure to coal mine fire smoke emissions and altered lung function in young children. <i>Respirology</i> , 2020, 25, 198-205.	2.3	32
88	Early menarche is associated with lower adult lung function: A longitudinal cohort study from the first to sixth decade of life. <i>Respirology</i> , 2020, 25, 289-297.	2.3	10
89	Predicting life expectancy of older people using respiratory symptoms and smoking status: Data from the Australian Longitudinal Study of Ageing. <i>Respirology</i> , 2020, 25, 267-274.	2.3	8
90	Early-Life Exposure to Oral Antibiotics and Lung Function Into Early Adulthood. <i>Chest</i> , 2020, 157, 334-341.	0.8	1

#	ARTICLE	IF	CITATIONS
91	Childhood pneumonia, pleurisy and lung function: a cohort study from the first to sixth decade of life. <i>Thorax</i> , 2020, 75, 28-37.	5.6	21
92	A systematic review of the role of grass pollen and fungi in thunderstorm asthma. <i>Environmental Research</i> , 2020, 181, 108911.	7.5	41
93	Particulate matter modelling techniques for epidemiological studies of open biomass fire smoke exposure: a review. <i>Air Quality, Atmosphere and Health</i> , 2020, 13, 35-75.	3.3	16
94	Multi-city study on air pollution and hospital outpatient visits for asthma in China. <i>Environmental Pollution</i> , 2020, 257, 113638.	7.5	47
95	Environmental temperature and human epigenetic modifications: A systematic review. <i>Environmental Pollution</i> , 2020, 259, 113840.	7.5	31
96	Wildfires, Global Climate Change, and Human Health. <i>New England Journal of Medicine</i> , 2020, 383, 2173-2181.	27.0	279
97	Ambient temperature and intentional homicide: A multi-city case-crossover study in the US. <i>Environment International</i> , 2020, 143, 105992.	10.0	38
98	Socioeconomic level and associations between heat exposure and all-cause and cause-specific hospitalization in 1,814 Brazilian cities: A nationwide case-crossover study. <i>PLoS Medicine</i> , 2020, 17, e1003369.	8.4	39
99	Occupational and environmental risk factors for idiopathic pulmonary fibrosis in Australia: case-control study. <i>Thorax</i> , 2020, 75, 864-869.	5.6	48
100	The factors associated with distress following exposure to smoke from an extended coal mine fire. <i>Environmental Pollution</i> , 2020, 266, 115131.	7.5	11
101	Impact of allergic rhinitis on the day-to-day lives of children: insights from an Australian cross-sectional study. <i>BMJ Open</i> , 2020, 10, e038870.	1.9	5
102	Respiratory surveillance for coal mine dust and artificial stone exposed workers in Australia and New Zealand: A position statement from the Thoracic Society of Australia and New Zealand*. <i>Respirology</i> , 2020, 25, 1193-1202.	2.3	22
103	Respiratory outcomes among refinery workers exposed to inspirable alumina dust: A longitudinal study in Western Australia. <i>American Journal of Industrial Medicine</i> , 2020, 63, 1116-1123.	2.1	2
104	The efficacy and safety of varenicline alone versus in combination with nicotine lozenges for smoking cessation among hospitalised smokers (VANISH): study protocol for a randomised, placebo-controlled trial. <i>BMJ Open</i> , 2020, 10, e038184.	1.9	4
105	Ambient air pollution is associated with airway inflammation in older women: a nested cross-sectional analysis. <i>BMJ Open Respiratory Research</i> , 2020, 7, e000549.	3.0	21
106	Predictive value of non-specific bronchial challenge testing for respiratory symptoms and lung function in aluminium smelter workers. <i>Occupational and Environmental Medicine</i> , 2020, 77, 535-539.	2.8	3
107	Factors associated with hypertension and its management among older rural Australians. <i>Australian Journal of Rural Health</i> , 2020, 28, 399-407.	1.5	0
108	Prediction models in respiratory medicine. <i>Respirology</i> , 2020, 25, 666-667.	2.3	2

#	ARTICLE	IF	CITATIONS
109	Serum cytokine concentrations and asthma persistence to middle age. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2020, 75, 2985-2988.	5.7	5
110	Is self-reported history of eczema and hay fever a valid measure of atopy in those who report current asthma?. <i>Allergy: European Journal of Allergy and Clinical Immunology</i> , 2020, 75, 2981-2984.	5.7	2
111	Transient childhood wheeze is associated with less atopy in adolescence. <i>Pediatric Allergy and Immunology</i> , 2020, 31, 913-919.	2.6	2
112	Recommended Intake of Key Food Groups and Cardiovascular Risk Factors in Australian Older, Rural-Dwelling Adults. <i>Nutrients</i> , 2020, 12, 860.	4.1	6
113	Parents' smoking onset before conception as related to body mass index and fat mass in adult offspring: Findings from the RHINESSA generation study. <i>PLoS ONE</i> , 2020, 15, e0235632.	2.5	12
114	Paradoxical Vocal Fold Motion in Difficult Asthma Is Associated with Dysfunctional Breathing and Preserved Lung Function. <i>Journal of Allergy and Clinical Immunology: in Practice</i> , 2020, 8, 2256-2262.	3.8	14
115	Lessons Learned from the Australian Bushfires. <i>JAMA Internal Medicine</i> , 2020, 180, 635.	5.1	42
116	Body mass index and weight change are associated with adult lung function trajectories: the prospective ECRHS study. <i>Thorax</i> , 2020, 75, 313-320.	5.6	49
117	Non-infectious rhinitis is more strongly associated with early rather than late onset of COPD: data from the European Community Respiratory Health Survey (ECRHS). <i>European Archives of Oto-Rhino-Laryngology</i> , 2020, 277, 1353-1359.	1.6	4
118	Palm reading and water divining: A cross-sectional study of the accuracy of palmar hyperlinearity and transepidermal water loss to identify individuals with a filaggrin gene null mutation. <i>Journal of the American Academy of Dermatology</i> , 2020, 83, 1186-1188.	1.2	2
119	Lifetime Risk Factors for Pre- and Post-Bronchodilator Lung Function Decline. A Population-based Study. <i>Annals of the American Thoracic Society</i> , 2020, 17, 302-312.	3.2	24
