#	ARTICLE	IF	CITATIONS
1	Rates, Delays, and Completeness of General Practitioners' Responses to a Postal Versus Web-Based Survey: A Randomized Trial. <i>Journal of Medical Internet Research</i> , 2017, 19, e83.	4.3	83
2	Multimorbidity and patterns of chronic conditions in a primary care population in Switzerland: a cross-sectional study. <i>BMJ Open</i> , 2017, 7, e013664.	1.9	43
3	Primary care in Switzerland: evolution of physicians' profile and activities in twenty years (1993–2012). <i>BMC Family Practice</i> , 2015, 16, 107.	2.9	37
4	The Interaction of Public Health and Primary Care: Functional Roles and Organizational Models that Bridge Individual and Population Perspectives. <i>Public Health Reviews</i> , 2013, 35, .	3.2	32
5	From chronic conditions to relevance in multimorbidity: a four-step study in family medicine. <i>Family Practice</i> , 2016, 33, 439-444.	1.9	28
6	Procalcitonin and lung ultrasonography point-of-care testing to determine antibiotic prescription in patients with lower respiratory tract infection in primary care: pragmatic cluster randomised trial. <i>BMJ</i> , The, 2021, 374, n2132.	6.0	26
7	Development of a Comprehensive Approach for the Early Diagnosis of Geriatric Syndromes in General Practice. <i>Frontiers in Medicine</i> , 2015, 2, 78.	2.6	25
8	General practitioners referring patients to specialists in tertiary healthcare: a qualitative study. <i>BMC Family Practice</i> , 2019, 20, 165.	2.9	24
9	What is the carbon footprint of primary care practices? A retrospective life-cycle analysis in Switzerland. <i>Environmental Health</i> , 2022, 21, 3.	4.0	24
10	Establishment of a Representative Practice-based Research Network (PBRN) for the Monitoring of Primary Care in Switzerland. <i>Journal of the American Board of Family Medicine</i> , 2015, 28, 673-675.	1.5	21
11	How do Swiss general practitioners agree with and report adhering to a top-five list of unnecessary tests and treatments? Results of a cross-sectional survey. <i>European Journal of General Practice</i> , 2018, 24, 32-38.	2.0	21
12	A novel approach to the determination of clinical decision thresholds. <i>Evidence-Based Medicine</i> , 2015, 20, 41-47.	0.6	20
13	Job stress among GPs: associations with practice organisation in 11 high-income countries. <i>British Journal of General Practice</i> , 2020, 70, e657-e667.	1.4	18
14	Multimorbidity in primary care: protocol of a national cross-sectional study in Switzerland. <i>BMJ Open</i> , 2015, 5, e009165.	1.9	16
15	Targeted versus non-targeted HIV testing offered via electronic questionnaire in a Swiss emergency department: A randomized controlled study. <i>PLoS ONE</i> , 2018, 13, e0190767.	2.5	16
16	Communication, continuity and coordination of care are the most important patients' values for family medicine in a fee-for-services health system. <i>BMC Family Practice</i> , 2019, 20, 19.	2.9	16
17	Practice Organization Characteristics Related to Job Satisfaction Among General Practitioners in 11 Countries. <i>Annals of Family Medicine</i> , 2019, 17, 510-517.	1.9	15
18	Development of a monitoring instrument to assess the performance of the Swiss primary care system. <i>BMC Health Services Research</i> , 2017, 17, 789.	2.2	14

#	ARTICLE	IF	CITATIONS
19	Motivational brief intervention for the prevention of sexually transmitted infections in travelers: a randomized controlled trial. <i>BMC Infectious Diseases</i> , 2011, 11, 300.	2.9	13
20	Patterns of patient experience with primary care access in Australia, Canada, New Zealand and Switzerland: a comparative study. <i>International Journal for Quality in Health Care</i> , 2019, 31, G126-G132.	1.8	13
21	General Practitioners' Perceptions of the Use of Wearable Electronic Health Monitoring Devices: Qualitative Analysis of Risks and Benefits. <i>JMIR MHealth and UHealth</i> , 2021, 9, e23896.	3.7	13
22	Which strategy for using medical and community masks? A prospective analysis of their environmental impact. <i>BMJ Open</i> , 2021, 11, e049690.	1.9	11
23	Determining clinical decision thresholds for HIV-positive patients suspected of having tuberculosis. <i>Evidence-Based Medicine</i> , 2017, 22, 132-138.	0.6	10
24	Performance of a brief geriatric evaluation compared to a comprehensive geriatric assessment for detection of geriatric syndromes in family medicine: a prospective diagnostic study. <i>BMC Geriatrics</i> , 2018, 18, 72.	2.7	10
25	Diagnosis and treatment of community-acquired pneumonia in patients with acute cough: a quantitative study of decision thresholds in primary care. <i>British Journal of General Practice</i> , 2018, 68, e765-e774.	1.4	10
26	Procalcitonin and lung ultrasonography point-of-care testing to decide on antibiotic prescription in patients with lower respiratory tract infection in primary care: protocol of a pragmatic cluster randomized trial. <i>BMC Pulmonary Medicine</i> , 2019, 19, 143.	2.0	10
27	Talking about Climate Change and Environmental Degradation with Patients in Primary Care: A Cross-Sectional Survey on Knowledge, Potential Domains of Action and Points of View of General Practitioners. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4901.	2.6	10
28	The role of general practitioners in managing the COVID-19 pandemic in a private healthcare system. <i>Family Practice</i> , 2022, 39, 586-591.	1.9	9
29	Overview of preventive practices provided by primary care physicians: A cross-sectional study in Switzerland and France. <i>PLoS ONE</i> , 2017, 12, e0184032.	2.5	9
30	Observational study on the consumption of recreational drugs and alcohol by Swiss travelers. <i>BMC Public Health</i> , 2014, 14, 1199.	2.9	8
31	Retrospective study on the usefulness of pulse oximetry for the identification of young children with severe illnesses and severe pneumonia in a rural outpatient clinic of Papua New Guinea. <i>PLoS ONE</i> , 2019, 14, e0213937.	2.5	8
32	Patients' and General Practitioners' Views About Preventive Care in Family Medicine in Switzerland: A Cross-sectional Study. <i>Journal of Preventive Medicine and Public Health</i> , 2019, 52, 323-332.	1.9	8
33	How do general practitioners put preventive care recommendations into practice? A cross-sectional study in Switzerland and France. <i>BMJ Open</i> , 2017, 7, e017958.	1.9	7
34	A structural equation model of the family physicians attitude towards their role in prevention: a cross-sectional study in Switzerland. <i>Family Practice</i> , 2019, 36, 297-303.	1.9	7
35	Assessing primary care organization and performance: Literature synthesis and proposition of a consolidated framework. <i>Health Policy</i> , 2021, 125, 160-167.	3.0	7
36	Home visits made by general practitioners in the canton of Vaud between 2006 and 2015. <i>Swiss Medical Weekly</i> , 2019, 149, w20037.	1.6	7

#	ARTICLE	IF	CITATIONS
37	Acute Hepatitis A in a Young Returning Traveler From Kenya Despite Immunization Before Departure. <i>Journal of Travel Medicine</i> , 2009, 16, 72-73.	3.0	6
38	Multimorbidity: can general practitioners identify the health conditions most important to their patients? Results from a national cross-sectional study in Switzerland. <i>BMC Family Practice</i> , 2018, 19, 66.	2.9	6
39	Drug Prescription in Older Swiss Men and Women Followed in Family Medicine. <i>Drugs - Real World Outcomes</i> , 2020, 7, 87-95.	1.6	6
40	A prospective study assessing agreement and reliability of a geriatric evaluation. <i>BMC Geriatrics</i> , 2017, 17, 153.	2.7	5
41	Coping better with health problems after a visit to the family physician: associations with patients and physicians characteristics. <i>BMC Family Practice</i> , 2018, 19, 27.	2.9	5
42	Discussing age-related functional decline in family medicine: a qualitative study that explores both patient and physician perceptions. <i>Age and Ageing</i> , 2020, 49, 292-299.	1.6	5
43	Hemoglobin Levels and the Risk of Malaria in Papua New Guinean Infants: A Nested Cohort Study. <i>American Journal of Tropical Medicine and Hygiene</i> , 2017, 97, 1770-1776.	1.4	5
44	Patient experience in primary care: association with patient, physician and practice characteristics in a fee-for-service system. <i>Swiss Medical Weekly</i> , 2018, 148, w14601.	1.6	5
45	General practitioners' views and preferences about quality improvement feedback in preventive care: a cross-sectional study in Switzerland and France. <i>Implementation Science</i> , 2017, 12, 95.	6.9	4
46	Preventive and protective measures reducing influenza transmission in general practice: a systematic review. <i>BJGP Open</i> , 2019, 3, bjgpopen19X101657.	1.8	4
47	Are healthcare workers more likely than the general population to consult in primary care for an influenza-like illness? Results from a case-control study. <i>Influenza and Other Respiratory Viruses</i> , 2020, 14, 524-529.	3.4	4
48	How critical is timing for the diagnosis of influenza in general practice?. <i>Swiss Medical Weekly</i> , 2005, 135, 614-7.	1.6	4
49	La première vague de Covid-19 en Suisse et les soins primaires. <i>Revue Medicale Suisse</i> , 2020, 16, 2127-2130.	0.0	4
50	Defining a typology of primary care practices: a novel approach. <i>International Journal for Quality in Health Care</i> , 2016, 28, 734-741.	1.8	3
51	An Online Influenza Surveillance System for Primary Care Workers in Switzerland: Observational Prospective Pilot Study. <i>JMIR Public Health and Surveillance</i> , 2020, 6, e17242.	2.6	3
52	Translating Planetary Health Principles Into Sustainable Primary Care Services. <i>Frontiers in Public Health</i> , 0, 10, .	2.7	3
53	Primary prevention of sexually transmitted infections in Switzerland: practices of family physicians and their determinants—a national cross-sectional survey. <i>BMJ Open</i> , 2020, 10, e032950.	1.9	2
54	Swiss family physicians and home visits: a 10-year retrospective analysis and typology based on billing data. <i>Swiss Medical Weekly</i> , 2021, 151, w20396.	1.6	1

#	ARTICLE	IF	CITATIONS
55	Qualitative evaluation of primary care providers' experiences caring for frequent users of the emergency department. <i>BMJ Open</i> , 2021, 11, e044326.	1.9	1
56	Use of standardized brief geriatric evaluation compared with routine care in general practice for preventing functional decline: a pragmatic cluster-randomized trial. <i>Cmaj</i> , 2021, 193, E1289-E1299.	2.0	1
