1	Social Participation and the Prevention of Functional Disability in Older Japanese: The JAGES Cohort Study. PLoS ONE, 2014, 9, e99638.	1.1	231
2	Association Between Self-Reported Dental Health Status and Onset of Dementia. Psychosomatic Medicine, 2012, 74, 241-248.	1.3	183
3	Social participation and mental health: moderating effects of gender, social role and rurality. BMC Public Health, 2013, 13, 701.	1.2	161
4	Progress in Aging Epidemiology in Japan: The JAGES Project. Journal of Epidemiology, 2016, 26, 331-336.	1.1	157
5	Effect of a community intervention programme promoting social interactions on functional disability prevention for older adults: propensity score matching and instrumental variable analyses, JAGES Taketoyo study. Journal of Epidemiology and Community Health, 2015, 69, 905-910.	2.0	146
6	Association between depression and socio-economic status among community-dwelling elderly in Japan: The Aichi Gerontological Evaluation Study (AGES). Health and Place, 2008, 14, 406-414.	1.5	120
7	Can Community Social Cohesion Prevent Posttraumatic Stress Disorder in the Aftermath of a Disaster? A Natural Experiment From the 2011 Tohoku Earthquake and Tsunami. American Journal of Epidemiology, 2016, 183, 902-910.	1.6	120
8	Neighborhood built environment and physical activity of Japanese older adults: results from the Aichi Gerontological Evaluation Study (AGES). BMC Public Health, 2011, 11, 657.	1.2	114
9	The different effects of vertical social capital and horizontal social capital on dental status: A multilevel analysis. Social Science and Medicine, 2009, 69, 512-518.	1.8	112
10	Combined effects of eating alone and living alone on unhealthy dietary behaviors, obesity and underweight in older Japanese adults: Results of the JAGES. Appetite, 2015, 95, 1-8.	1.8	106
11	Social interaction and cognitive decline: Results of a 7â€year community intervention. Alzheimer's and Dementia: Translational Research and Clinical Interventions, 2017, 3, 23-32.	1.8	105
12	Development of an instrument for community-level health related social capital among Japanese older people: The JAGES Project. Journal of Epidemiology, 2017, 27, 221-227.	1.1	102
13	Income inequality, social capital and self-rated health and dental status in older Japanese. Social Science and Medicine, 2011, 73, 1561-1568.	1.8	98
14	Eating alone and depression in older men and women by cohabitation status: The JAGES longitudinal survey. Age and Ageing, 2015, 44, 1019-1026.	0.7	95
15	Does social capital affect the incidence of functional disability in older Japanese? A prospective population-based cohort study. Journal of Epidemiology and Community Health, 2013, 67, 42-47.	2.0	76
16	Social capital and cognitive decline in the aftermath of a natural disaster: a natural experiment from the 2011 Great East Japan Earthquake and Tsunami. Lancet Planetary Health, The, 2017, 1, e105-e113.	5.1	76
17	Barriers to Health Care among the Elderly in Japan. International Journal of Environmental Research and Public Health, 2010, 7, 1330-1341.	1.2	75
18	Influence of social relationship domains and their combinations on incident dementia: a prospective cohort study. Journal of Epidemiology and Community Health, 2018, 72, 7-12.	2.0	75

#	Article	IF	Citations
19	Association Between Adverse Childhood Experiences and Dementia in Older Japanese Adults. JAMA Network Open, 2020, 3, e1920740.	2.8	73
20	Childhood Socioeconomic Status and Onset of Depression among Japanese Older Adults: The JAGES Prospective Cohort Study. American Journal of Geriatric Psychiatry, 2016, 24, 717-726.	0.6	72
21	Residential relocation and change in social capital: A natural experiment from the 2011 Great East Japan Earthquake and Tsunami. Science Advances, 2017, 3, e1700426.	4.7	72
22	Increased risk of dementia in the aftermath of the 2011 Great East Japan Earthquake and Tsunami. Proceedings of the National Academy of Sciences of the United States of America, 2016, 113, E6911-E6918.	3.3	69
23	Predictors of depressive symptoms following the Great East Japan earthquake: A prospective study. Social Science and Medicine, 2016, 161, 47-54.	1.8	69
24	Social participation and the onset of functional disability by socioeconomic status and activity type: The JAGES cohort study. Preventive Medicine, 2016, 89, 121-128.	1.6	66
25	Social Participation and Dental Health Status among Older Japanese Adults: A Population-Based Cross-Sectional Study. PLoS ONE, 2013, 8, e61741.	1.1	60
26	Community-level social capital and cognitive decline after a natural disaster: A natural experiment from the 2011 Great East Japan Earthquake and Tsunami. Social Science and Medicine, 2020, 257, 111981.	1.8	60
27	Retirement and mental health: does social participation mitigate the association? A fixed-effects longitudinal analysis. BMC Public Health, 2017, 17, 526.	1.2	59
28	Relative Deprivation, Poverty, and Subjective Health: JAGES Cross-Sectional Study. PLoS ONE, 2014, 9, e111169.	1.1	58
29	Gender differences on the impacts of social exclusion on mortality among older Japanese: AGES cohort study. Social Science and Medicine, 2012, 75, 940-945.	1.8	57
30	Dental status and incident falls among older Japanese: a prospective cohort study. BMJ Open, 2012, 2, e001262.	0.8	54
31	Participation in Sports Organizations and the Prevention of Functional Disability in Older Japanese: The AGES Cohort Study. PLoS ONE, 2012, 7, e51061.	1.1	53
32	Access Disparity and Health Inequality of the Elderly: Unmet Needs and Delayed Healthcare. International Journal of Environmental Research and Public Health, 2015, 12, 1745-1772.	1.2	53
33	Exercising alone versus with others and associations with subjective health status in older Japanese: The JAGES Cohort Study. Scientific Reports, 2016, 6, 39151.	1.6	53
34	Oral Health and Incident Depressive Symptoms: <scp>JAGES</scp> Project Longitudinal Study in Older Japanese. Journal of the American Geriatrics Society, 2017, 65, 1079-1084.	1.3	52
35	Associations of relative deprivation and income rank with depressive symptoms among older adults in Japan. Social Science and Medicine, 2017, 189, 138-144.	1.8	50
36	Frequency and pattern of exercise and depression after two years in older Japanese adults: the JAGES longitudinal study. Scientific Reports, 2018, 8, 11224.	1.6	50

#	Article	IF	Citations
37	Living Alone or With Others and Depressive Symptoms, and Effect Modification by Residential Social Cohesion Among Older Adults in Japan: The JAGES Longitudinal Study. Journal of Epidemiology, 2018, 28, 315-322.	1.1	50
38	Association between social isolation and depression onset among older adults: a cross-national longitudinal study in England and Japan. BMJ Open, 2021, 11, e045834.	0.8	50
39	Socioeconomic inequalities in low back pain among older people: the JAGES cross-sectional study. International Journal for Equity in Health, 2019, 18, 15.	1.5	48
40	Neighborhood food environment and body mass index among Japanese older adults: results from the Aichi Gerontological Evaluation Study (AGES). International Journal of Health Geographics, 2011, 10, 43.	1.2	47
41	Cohort Profile: The AGES 2003 Cohort Study in Aichi, Japan. Journal of Epidemiology, 2011, 21, 151-157.	1.1	45
42	Associations of Childhood Socioeconomic Status and Adulthood Height With Functional Limitations Among Japanese Older People: Results From the JAGES 2010 Project. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2014, 69, 852-859.	1.7	42
43	Does poor dental health predict becoming homebound among older Japanese?. BMC Oral Health, 2016, 16, 51.	0.8	41
44	Community Social Capital and Depressive Symptoms Among Older People in Japan: A Multilevel Longitudinal Study. Journal of Epidemiology, 2019, 29, 363-369.	1.1	41
45	Social disorganization/social fragmentation and risk of depression among older people in Japan: Multilevel investigation of indices of social distance. Social Science and Medicine, 2013, 83, 81-89.	1.8	40
46	Experience of childhood abuse and later number of remaining teeth in older Japanese: a lifeâ€course study from Japan Gerontological Evaluation Study project. Community Dentistry and Oral Epidemiology, 2016, 44, 531-539.	0.9	40
47	Correlates of Regular Participation in Sports Groups among Japanese Older Adults: JAGES Crossâ€“Sectional Study. PLoS ONE, 2015, 10, e0141638.	1.1	39
48	An additive effect of leading role in the organization between social participation and dementia onset among Japanese older adults: the AGES cohort study. BMC Geriatrics, 2017, 17, 297.	1.1	39
49	Adverse Childhood Experiences and Higher-Level Functional Limitations Among Older Japanese People: Results From the JAGES Study. Journals of Gerontology - Series A Biological Sciences and Medical Sciences, 2018, 73, 261-266.	1.7	39
50	Neighborhood Food Environment and Dementia Incidence: the Japan Gerontological Evaluation Study Cohort Survey. American Journal of Preventive Medicine, 2019, 56, 383-392.	1.6	39
51	Cohort study on living arrangements of older men and women and risk for basic activities of daily living disability: findings from the AGES project. BMC Geriatrics, 2017, 17, 183.	1.1	38
52	Social Participation and Functional Decline: A Comparative Study of Rural and Urban Older People, Using Japan Gerontological Evaluation Study Longitudinal Data. International Journal of Environmental Research and Public Health, 2020, 17, 617.	1.2	38
53	Community-based care for healthy ageing: lessons from Japan. Bulletin of the World Health Organization, 2019, 97, 570-574.	1.5	38
54	Inequalities of dental prosthesis use under universal healthcare insurance. Community Dentistry and Oral Epidemiology, 2014, 42, 122-128.	0.9	37

#	Article	IF	Citations
55	Association between social participation and hypertension among older people in Japan: the JAGES Study. Hypertension Research, 2016, 39, 818-824.	1.5	37
56	Community social capital and tooth loss in Japanese older people: a longitudinal cohort study. BMJ Open, 2016, 6, e010768.	0.8	36
57	Is a hilly neighborhood environment associated with diabetes mellitus among older people? Results from the JAGES 2010 study. Social Science and Medicine, 2017, 182, 45-51.	1.8	36
58	Community Social Capital, Built Environment, and Income-Based Inequality in Depressive Symptoms Among Older People in Japan: An Ecological Study From the JAGES Project. Journal of Epidemiology, 2018, 28, 108-116.	1.1	36
59	The Association between Social Support and Incident Dementia: A 10-Year Follow-Up Study in Japan. International Journal of Environmental Research and Public Health, 2019, 16, 239.	1.2	36
60	Cooking skills related to potential benefits for dietary behaviors and weight status among older Japanese men and women: a cross-sectional study from the JAGES. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 82.	2.0	36
61	Childhood socioeconomic disadvantage is associated with lower mortality in older Japanese men: the JAGES cohort study. International Journal of Epidemiology, 2016, 45, 1226-1235.	0.9	35
62	Social factors relating to depression among older people in Japan: analysis of longitudinal panel data from the AGES project. Aging and Mental Health, 2019, 23, 1423-1432.	1.5	35
63	Relative deprivation in income and mortality by leading causes among older Japanese men and women: AGES cohort study. Journal of Epidemiology and Community Health, 2015, 69, 680-685.	2.0	34
64	Association of food access and neighbor relationships with diet and underweight among community-dwelling older Japanese. Journal of Epidemiology, 2017, 27, 546-551.	1.1	34
65	Association between adverse childhood experiences and adult diseases in older adults: a comparative cross-sectional study in Japan and Finland. BMJ Open, 2019, 9, e024609.	0.8	33
66	Poor Oral Health and Diet in Relation to Weight Loss, Stable Underweight, and Obesity in Community-Dwelling Older Adults: A Cross-Sectional Study From the JAGES 2010 Project. Journal of Epidemiology, 2016, 26, 322-329.	1.1	32
67	Reducing depressive symptoms after the Great East Japan Earthquake in older survivors through group exercise participation and regular walking: a prospective observational study. BMJ Open, 2017, 7, e013706.	0.8	32
68	Tooth Loss and Decline in Functional Capacity: A Prospective Cohort Study from the Japan Gerontological Evaluation Study. Journal of the American Geriatrics Society, 2016, 64, 2336-2342.	1.3	31
69	Neighborhood food environment and mortality among older Japanese adults: results from the JAGES cohort study. International Journal of Behavioral Nutrition and Physical Activity, 2018, 15, 101.	2.0	31
70	Long-Term Associations Between Disaster Experiences and Cardiometabolic Risk: A Natural Experiment From the 2011 Great East Japan Earthquake and Tsunami. American Journal of Epidemiology, 2019, 188, 1109-1119.	1.6	31
71	Pre-disaster social support is protective for onset of post-disaster depression: Prospective study from the Great East Japan Earthquake & Tsunami. Scientific Reports, 2019, 9, 19427.	1.6	31
72	Are Japanese Older Adults Rejuvenating? Changes in Health-Related Measures Among Older Community Dwellers in the Last Decade. Rejuvenation Research, 2021, 24, 37-48.	0.9	31

#	Article	IF	Citations
73	Risk of mortality during and after the 2011 Great East Japan Earthquake and Tsunami among older coastal residents. Scientific Reports, 2017, 7, 16591.	1.6	30
74	Predictors of decline in IADL functioning among older survivors following the Great East Japan earthquake: A prospective study. Social Science and Medicine, 2017, 176, 34-41.	1.8	29
75	Does the Type of Residential Housing Matter for Depressive Symptoms in the Aftermath of a Disaster? Insights from the Great East Japan Earthquake and Tsunami. American Journal of Epidemiology, 2017, 187, 455-464.	1.6	29
76	Predictors of persistent sleep problems among older disaster survivors: a natural experiment from the 2011 Great East Japan earthquake and tsunami. Sleep, 2018, 41, .	0.6	29
77	Does Community-Level Social Capital Predict Decline in Instrumental Activities of Daily Living? A JAGES Prospective Cohort Study. International Journal of Environmental Research and Public Health, 2019, 16, 828.	1.2	29
78	Change in the prevalence of social isolation among the older population from 2010 to 2016: A repeated cross-sectional comparative study of Japan and England. Archives of Gerontology and Geriatrics, 2020, 91, 104237.	1.4	29
79	Income-based inequalities in caregiving time and depressive symptoms among older family caregivers under the Japanese long-term care insurance system: A cross-sectional analysis. PLoS ONE, 2018, 13, e0194919.	1.1	28
80	Does community-level social capital mitigate the impact of widowhood & living alone on depressive symptoms?: A prospective, multi-level study. Social Science and Medicine, 2020, 259, 113140.	1.8	28
81	Community-level Sports Group Participation and Older Individualsâ€™ Depressive Symptoms. Medicine and Science in Sports and Exercise, 2018, 50, 1199-1205.	0.2	27
82	Reduced long-term care cost by social participation among older Japanese adults: a prospective follow-up study in JAGES. BMJ Open, 2019, 9, e024439.	0.8	27
83	Examining the associations between oral health and social isolation: A cross-national comparative study between Japan and England. Social Science and Medicine, 2021, 277, 113895.	1.8	27
84	Crossâ€national comparison of social isolation and mortality among older adults: A 10â€year followâ€up study in Japan and England. Geriatrics and Gerontology International, 2021, 21, 209-214.	0.7	27
85	Association between the longest job and oral health: Japan Gerontological Evaluation Study project cross-sectional study. BMC Oral Health, 2014, 14, 130.	0.8	26
86	Social participation and mortality: does social position in civic groups matter?. BMC Public Health, 2016, 16, 394.	1.2	26
87	Community social capital and inequality in depressive symptoms among older Japanese adults: A multilevel study. Health and Place, 2018, 52, 8-17.	1.5	26
88	Infrequent Denture Cleaning Increased the Risk of Pneumonia among Community-dwelling Older Adults: A Population-based Cross-sectional Study. Scientific Reports, 2019, 9, 13734.	1.6	26
89	Community-Level Sports Group Participation and the Risk of Cognitive Impairment. Medicine and Science in Sports and Exercise, 2019, 51, 2217-2223.	0.2	26
90	Does poor oral health status increase the risk of falls?: The JAGES Project Longitudinal Study. PLoS ONE, 2018, 13, e0192251.	1.1	26

#	Article	IF	Citations
91	Individual- and community-level social gradients of edentulousness. BMC Oral Health, 2015, 15, 34.	0.8	25
92	The association between social participation and cognitive function in community-dwelling older populations: Japan Gerontological Evaluation Study at Taisetsu community Hokkaido. International Journal of Geriatric Psychiatry, 2017, 32, 1131-1140.	1.3	25
93	Eating Alone Yet Living With Others Is Associated With Mortality in Older Men: The JAGES Cohort Survey. Journals of Gerontology - Series B Psychological Sciences and Social Sciences, 2018, 73, gbw211.	2.4	25
94	What Types of Greenspaces Are Associated with Depression in Urban and Rural Older Adults? A Multilevel Cross-Sectional Study from JAGES. International Journal of Environmental Research and Public Health, 2020, 17, 9276.	1.2	25
95	Social Determinants of Active Aging: Differences in Mortality and the Loss of Healthy Life between Different Income Levels among Older Japanese in the AGES Cohort Study. Current Gerontology and Geriatrics Research, 2012, 2012, 1-9.	1.6	22
96	Is Social Network Diversity Associated with Tooth Loss among Older Japanese Adults?. PLoS ONE, 2016, 11, e0159970.	1.1	22
97	Participation in Community Group Activities Among Older Adults: Is Diversity of Group Membership Associated With Better Self-rated Health?. Journal of Epidemiology, 2018, 28, 452-457.	1.1	22
98	Serum Albumin Levels and Economic Status in Japanese Older Adults. PLoS ONE, 2016, 11, e0155022.	1.1	21
99	Generalized and particularized trust for health between urban and rural residents in Japan: A cohort study from the JAGES project. Social Science and Medicine, 2018, 202, 43-53.	1.8	21
100	Socioeconomic Disparity in the Prevalence of Objectively Evaluated Diabetes Among Older Japanese Adults: JAGES Cross-Sectional Data in 2010. Journal of Epidemiology, 2019, 29, 295-301.	1.1	21
101	Association of Postdisaster Depression and Posttraumatic Stress Disorder With Mortality Among Older Disaster Survivors of the 2011 Great East Japan Earthquake and Tsunami. JAMA Network Open, 2019, 2, e1917550.	2.8	21
102	Caregiver Burden and Work Productivity Among Japanese Working Family Caregivers of People with Dementia. International Journal of Behavioral Medicine, 2019, 26, 125-135.	0.8	21
103	The Risk of Functional Limitations After Driving Cessation Among Older Japanese Adults: The JAGES Cohort Study. Journal of Epidemiology, 2020, 30, 332-337.	1.1	21
104	Intensity of community-based programs by long-term care insurers and the likelihood of frailty: Multilevel analysis of older Japanese adults. Social Science and Medicine, 2020, 245, 112701.	1.8	21
105	Associations between Healthcare Resources and Healthy Life Expectancy: A Descriptive Study across Secondary Medical Areas in Japan. International Journal of Environmental Research and Public Health, 2020, 17, 6301.	1.2	21
106	The deterioration of oral function and orofacial appearance mediated the relationship between tooth loss and depression among community-dwelling older adults: A JAGES cohort study using causal mediation analysis. Journal of Affective Disorders, 2021, 286, 174-179.	2.0	21
107	Factors Associated with Falls in Community-Dwelling Older People with Focus on Participation in Sport Organizations: The Japan Gerontological Evaluation Study Project. BioMed Research International, 2014, 2014, 1-10.	0.9	20
108	Social determinants of denture/bridge use: Japan gerontological evaluation study project cross-sectional study in older Japanese. BMC Oral Health, 2014, 14, 63.	0.8	20

#	Article	IF	Citations
109	Giving social support to outside family may be a desirable buffer against depressive symptoms in community-dwelling older adults: Japan gerontological evaluation study. BioPsychoSocial Medicine, 2016, 10, 18.	0.9	20
110	Differences in Falls between Older Adult Participants in Group Exercise and Those Who Exercise Alone: A Cross-Sectional Study Using Japan Gerontological Evaluation Study (JAGES) Data. International Journal of Environmental Research and Public Health, 2018, 15, 1413.	1.2	20
111	Elder Abuse and Social Capital in Older Adults: The Japan Gerontological Evaluation Study. Gerontology, 2020, 66, 149-159.	1.4	20
112	Does Laughter Predict Onset of Functional Disability and Mortality Among Older Japanese Adults? The JAGES Prospective Cohort Study. Journal of Epidemiology, 2021, 31, 301-307.	1.1	20
113	Persistent mental health impacts of disaster. Five-year follow-up after the 2011 great east Japan earthquake and tsunami: Iwanuma Study. Journal of Psychiatric Research, 2021, 136, 452-459.	1.5	20
114	Estimating the Impact of Sustained Social Participation on Depressive Symptoms in Older Adults. Epidemiology, 2021, 32, 886-895.	1.2	20
115	Importance of socioeconomic factors in predicting tooth loss among older adults in Japan: Evidence from a machine learning analysis. Social Science and Medicine, 2021, 291, 114486.	1.8	20
116	Exploring 2.5-Year Trajectories of Functional Decline in Older Adults by Applying a Growth Mixture Model and Frequency of Outings as a Predictor: A 2010â€“2013 JAGES Longitudinal Study. Journal of Epidemiology, 2019, 29, 65-72.	1.1	19
117	A prospective study of knee pain, low back pain, and risk of dementia: the JAGES project. Scientific Reports, 2019, 9, 10690.	1.6	19
118	Social participation patterns and the incidence of functional disability: The Japan Gerontological Evaluation Study. Geriatrics and Gerontology International, 2020, 20, 765-772.	0.7	19
119	Disaster resilience in aging populations: lessons from the 2011 Great East Japan earthquake and tsunami. Journal of the Royal Society of New Zealand, 2020, 50, 263-278.	1.0	18
