#	ARTICLE	IF	CITATIONS
1	Oral status and homebound status: A 6-year bidirectional exploratory prospective cohort study. <i>Oral Diseases</i> , 2023, 29, 1291-1298.	1.5	5
2	Large Contribution of Oral Status for Death Among Modifiable Risk Factors in Older Adults: The Japan Gerontological Evaluation Study (JAGES) Prospective Cohort Study. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2023, 78, 167-173.	1.7	9
3	Does remaining teeth and dental prosthesis associate with social isolation? A six-year longitudinal study from the Japan Gerontological Evaluation Study (JAGES). <i>Community Dentistry and Oral Epidemiology</i> , 2023, 51, 345-354.	0.9	10
4	Difference of income inequalities of denture use by co-payment rates: A JAGES cross-sectional study. <i>Community Dentistry and Oral Epidemiology</i> , 2023, 51, 557-564.	0.9	6
5	Longitudinal Association Between Oral Status and Cognitive Decline Using Fixed-effects Analysis. <i>Journal of Epidemiology</i> , 2022, 32, 330-336.	1.1	14
6	Association of Pneumococcal and Influenza Vaccination With Patient-Physician Communication in Older Adults: A Nationwide Cross-sectional Study From the JAGES 2016. <i>Journal of Epidemiology</i> , 2022, 32, 401-407.	1.1	6
7	Prospective Study of Engagement in Leisure Activities and All-Cause Mortality Among Older Japanese Adults. <i>Journal of Epidemiology</i> , 2022, 32, 245-253.	1.1	10
8	Association between community-level social capital and frailty onset among older adults: a multilevel longitudinal study from the Japan Gerontological Evaluation Study (JAGES). <i>Journal of Epidemiology and Community Health</i> , 2022, 76, 182-189.	2.0	13
9	Gender differences in risk of posttraumatic stress symptoms after disaster among older people: Differential exposure or differential vulnerability?. <i>Journal of Affective Disorders</i> , 2022, 297, 447-454.	2.0	6
10	Association of poor dental status with eating alone: A cross-sectional Japan gerontological evaluation study among independent older adults. <i>Appetite</i> , 2022, 168, 105732.	1.8	6
11	The effects of patient cost-sharing on health expenditure and health among older people: Heterogeneity across income groups. <i>European Journal of Health Economics</i> , 2022, 23, 847-861.	1.4	8
12	The lack of opportunity to eat together is associated with an increased risk of weight loss among independent older adults: a prospective cohort study based on the JAGES. <i>Age and Ageing</i> , 2022, 51, .	0.7	2
13	Art and cultural activity engagement and depressive symptom onset among older adults: A longitudinal study from the Japanese Gerontological Evaluation Study. <i>International Journal of Geriatric Psychiatry</i> , 2022, 37, .	1.3	8
14	Achievements and Challenges of Social Epidemiology Research Aiming to Reduce Health Inequality: A Revised English Version of Japanese in the <i>Journal of the Japan Medical Association</i> 2020;149 (9):1626-30. <i>JMA Journal</i> , 2022, 5, 9-16.	0.6	0
15	Uncovering heterogeneous associations of disaster-related traumatic experiences with subsequent mental health problems: A machine learning approach. <i>Psychiatry and Clinical Neurosciences</i> , 2022, 76, 97-105.	1.0	3
16	Does laughing with others lower the risk of functional disability among older Japanese adults? The JAGES prospective cohort study. <i>Preventive Medicine</i> , 2022, 155, 106945.	1.6	6
17	An Interpretable Machine Learning Approach to Predict Fall Risk Among Community-Dwelling Older Adults: a Three-Year Longitudinal Study. <i>Journal of General Internal Medicine</i> , 2022, 37, 2727-2735.	1.3	6
18	Comparison of three indices of relative income deprivation in predicting health status. <i>Social Science and Medicine</i> , 2022, 294, 114722.	1.8	6

#	ARTICLE	IF	CITATIONS
19	Community-level social participation and functional disability among older adults: A JAGES multilevel longitudinal study. <i>Archives of Gerontology and Geriatrics</i> , 2022, 100, 104632.	1.4	4
20	Types of Elder Abuse and Dementia Onset among Older Adults in Japan: A 6-year Longitudinal Study from the Japan Gerontological Evaluation Study. <i>Archives of Gerontology and Geriatrics</i> , 2022, 100, 104656.	1.4	2
21	Effectiveness of a community organizing intervention on mortality and its equity among older residents in Japan: A JAGES quasi-experimental study. <i>Health and Place</i> , 2022, 74, 102764.	1.5	3
22	Social participation and change in walking time among older adults: a 3-year longitudinal study from the JAGES. <i>BMC Geriatrics</i> , 2022, 22, 238.	1.1	12
23	Occasions for laughter and dementia risk: Findings from a six-year cohort study. <i>Geriatrics and Gerontology International</i> , 2022, 22, 392-398.	0.7	3
24	Pre-pandemic individual- and community-level social capital and depressive symptoms during COVID-19: A longitudinal study of Japanese older adults in 2019-21. <i>Health and Place</i> , 2022, 74, 102772.	1.5	17
25	Correlates of engaging in sports and exercise volunteering among older adults in Japan. <i>Scientific Reports</i> , 2022, 12, 3791.	1.6	3
26	The number of leisure-time activities and risk of functional disability among Japanese older population: the JAGES cohort. <i>Preventive Medicine Reports</i> , 2022, 26, 101741.	0.8	0
27	Association between Increasing Social Capital and Decreasing Prevalence of Smoking at the Municipality Level: Repeated Cross-Sectional Study from the JAGES. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 4472.	1.2	1
28	Childhood socioeconomic status and social integration in later life: Results of the Japan Gerontological Evaluation Study. <i>SSM - Population Health</i> , 2022, 18, 101090.	1.3	3
29	Association among the number of teeth, dental prosthesis use, and subjective happiness: A cross-sectional study from the Japan Gerontological Evaluation study (JAGES). <i>Journal of Prosthetic Dentistry</i> , 2022, , .	1.1	3
30	Parks/sports facilities in local communities and the onset of functional disability among older adults in Japan: The J-shaped spatial spillover effects. <i>Health and Place</i> , 2022, 75, 102801.	1.5	2
31	Community intervention programs prolong the onset of functional disability among older Japanese. <i>Geriatrics and Gerontology International</i> , 2022, 22, 465-470.	0.7	2
32	Association between visual status and the frequency of laughter in older Japanese individuals: the JAGES cross-sectional study. <i>BMJ Open Ophthalmology</i> , 2022, 7, e000908.	0.8	2
33	Suggesting Indicators of Age-Friendly City: Social Participation and Happiness, an Ecological Study from the JAGES. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 5096.	1.2	10
34	Association between Social Activity and Development of Dementia in Hearing Impairment: A Cohort Study in Japan from Japan Gerontological Evaluation Study. <i>Gerontology and Geriatric Medicine</i> , 2022, 8, 233372142211006.	0.8	1
35	Long-Term Associations between Disaster-Related Home Loss and Health and Well-Being of Older Survivors: Nine Years after the 2011 Great East Japan Earthquake and Tsunami. <i>Environmental Health Perspectives</i> , 2022, 130, .	2.8	9
36	Built environments and frailty in older adults: A three-year longitudinal JAGES study. <i>Archives of Gerontology and Geriatrics</i> , 2022, 103, 104773.	1.4	6

#	ARTICLE	IF	CITATIONS
37	Can social capital moderate the impact of widowhood on depressive symptoms? A fixed-effects longitudinal analysis. <i>Aging and Mental Health</i> , 2021, 25, 1811-1820.	1.5	4
38	Associations between vision, hearing and tooth loss and social interactions: the JAGES cross-sectional study. <i>Journal of Epidemiology and Community Health</i> , 2021, 75, jech-2020-214545.	2.0	14
39	Does Laughter Predict Onset of Functional Disability and Mortality Among Older Japanese Adults? The JAGES Prospective Cohort Study. <i>Journal of Epidemiology</i> , 2021, 31, 301-307.	1.1	20
40	Are Japanese Older Adults Rejuvenating? Changes in Health-Related Measures Among Older Community Dwellers in the Last Decade. <i>Rejuvenation Research</i> , 2021, 24, 37-48.	0.9	31
41	Association between accelerometer-measured physical activity and falls among community-dwelling older people living in cold, snowy areas. <i>European Geriatric Medicine</i> , 2021, 12, 91-98.	1.2	1
42	Factors Associated With Discussions Regarding Place of Death Preferences Among Older Japanese: A JAGES Cross-Sectional Study. <i>American Journal of Hospice and Palliative Medicine</i> , 2021, 38, 54-61.	0.8	3
43	Persistent mental health impacts of disaster. Five-year follow-up after the 2011 great east Japan earthquake and tsunami: Iwanuma Study. <i>Journal of Psychiatric Research</i> , 2021, 136, 452-459.	1.5	20
44	Community-Level Sports Group Participation and Health Behaviors Among Older Non-Participants in a Sports Group: A Multilevel Cross-Sectional Study. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 531.	1.2	4
45	Social participation and mortality according to company size of the longest-held job among older men in Japan: A 6-year follow-up study from the JAGES. <i>Journal of Occupational Health</i> , 2021, 63, e12216.	1.0	5
46	Association between Proximity of the Elementary School and Depression in Japanese Older Adults: A Cross-Sectional Study from the JAGES 2016 Survey. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 500.	1.2	8
47	Six-year follow-up study of residential displacement and health outcomes following the 2011 Japan Earthquake and Tsunami. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021, 118, .	3.3	9
48	Does variety of social interactions associate with frequency of laughter among older people? The JAGES cross-sectional study. <i>BMJ Open</i> , 2021, 11, e039363.	0.8	2
49	Predictors of home being the preferred place of death among Japanese older people: JAGES cross-sectional study. <i>Geriatrics and Gerontology International</i> , 2021, 21, 345-352.	0.7	8
50	Neighborhood Sidewalk Environment and Incidence of Dementia in Older Japanese Adults. <i>American Journal of Epidemiology</i> , 2021, 190, 1270-1280.	1.6	17
51	Neighborhood farm density, types of agriculture, and depressive symptoms among older farmers: a cross-sectional study. <i>BMC Public Health</i> , 2021, 21, 440.	1.2	4
52	Causal Inference in Studying the Long-Term Health Effects of Disasters: Challenges and Potential Solutions. <i>American Journal of Epidemiology</i> , 2021, 190, 1867-1881.	1.6	13
53	Association between social isolation and depression onset among older adults: a cross-national longitudinal study in England and Japan. <i>BMJ Open</i> , 2021, 11, e045834.	0.8	50
54	Dispositional Optimism and Disaster Resilience: A natural experiment from the 2011 Great East Japan Earthquake and Tsunami. <i>Social Science and Medicine</i> , 2021, 273, 113777.	1.8	9

#	ARTICLE	IF	CITATIONS
55	Frailty is associated with susceptibility and severity of pneumonia in older adults (A JAGES multilevel) Tj ETQq1 1 0.784314 rgBT /Over	1.6	18
56	Engaging in musical activities and the risk of dementia in older adults: A longitudinal study from the Japan gerontological evaluation study. <i>Geriatrics and Gerontology International</i> , 2021, 21, 451-457.	0.7	6
57	Watching sports and depressive symptoms among older adults: a cross-sectional study from the JAGES 2019 survey. <i>Scientific Reports</i> , 2021, 11, 10612.	1.6	4
58	The deterioration of oral function and orofacial appearance mediated the relationship between tooth loss and depression among community-dwelling older adults: A JAGES cohort study using causal mediation analysis. <i>Journal of Affective Disorders</i> , 2021, 286, 174-179.	2.0	21
59	Differences in Cumulative Long-Term Care Costs by Community Activities and Employment: A Prospective Follow-Up Study of Older Japanese Adults. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 5414.	1.2	7
60	Examining the associations between oral health and social isolation: A cross-national comparative study between Japan and England. <i>Social Science and Medicine</i> , 2021, 277, 113895.	1.8	27
61	Increased frequency of participation in civic associations and reduced depressive symptoms: Prospective study of older Japanese survivors of the Great Eastern Japan Earthquake. <i>Social Science and Medicine</i> , 2021, 276, 113827.	1.8	2
62	Community social support and onset of dementia in older Japanese individuals: a multilevel analysis using the JAGES cohort data. <i>BMJ Open</i> , 2021, 11, e044631.	0.8	6
63	Estimating the Impact of Sustained Social Participation on Depressive Symptoms in Older Adults. <i>Epidemiology</i> , 2021, 32, 886-895.	1.2	20
64	Social capital and pneumococcal vaccination (PPSV23) in community-dwelling older Japanese: a JAGES multilevel cross-sectional study. <i>BMJ Open</i> , 2021, 11, e043723.	0.8	7
65	Dental prosthetic treatment reduced the risk of weight loss among older adults with tooth loss. <i>Journal of the American Geriatrics Society</i> , 2021, 69, 2498-2506.	1.3	14
66	Types of social networks and starting leisure activities in later life: A longitudinal Japan Gerontological Evaluation Study (JAGES). <i>PLoS ONE</i> , 2021, 16, e0254828.	1.1	4
67	Community-Level Participation in Volunteer Groups and Individual Depressive Symptoms in Japanese Older People: A Three-Year Longitudinal Multilevel Analysis Using JAGES Data. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 7502.	1.2	6
68	Adverse Childhood Experiences and Dementia: Interactions With Social Capital in the Japan Gerontological Evaluation Study Cohort. <i>American Journal of Preventive Medicine</i> , 2021, 61, 225-234.	1.6	16
69	936 Descriptive study of healthy life expectancy in all secondary medical areas in Japan. <i>International Journal of Epidemiology</i> , 2021, 50, .	0.9	0
70	Comparison of frailty associated factors between older adult patients with rheumatoid arthritis and community dwellers. <i>Archives of Gerontology and Geriatrics</i> , 2021, 96, 104455.	1.4	5
71	P94â€¦Examining the associations between oral health and social isolation: a cross-national comparative study between Japan and England. , 2021, , .		0
72	Differences in depressive symptoms by rurality in Japan: a cross-sectional multilevel study using different aggregation units of municipalities and neighborhoods (JAGES). <i>International Journal of Health Geographics</i> , 2021, 20, 42.	1.2	9

#	ARTICLE	IF	CITATIONS
73	Heterogeneity in cognitive disability after a major disaster: A natural experiment study. <i>Science Advances</i> , 2021, 7, eabj2610.	4.7	10
74	General health checks and incident dementia: A six-year follow-up study of community-dwelling older adults in Japan. <i>Preventive Medicine</i> , 2021, 153, 106757.	1.6	2
75	Association between frequency of laughter and oral health among community-dwelling older adults: a population-based cross-sectional study in Japan. <i>Quality of Life Research</i> , 2021, 30, 1561-1569.	1.5	6
76	Do Community Social Capital and Built Environment Associate With Homebound in Older Adults? The JAGES Niigata Study. <i>Journal of Epidemiology</i> , 2021, , .	1.1	3
77	Cross-national comparison of social isolation and mortality among older adults: A 10-year follow-up study in Japan and England. <i>Geriatrics and Gerontology International</i> , 2021, 21, 209-214.	0.7	27
78	Cultural Engagement and Incidence of Cognitive Impairment: A 6-year Longitudinal Follow-up of the Japan Gerontological Evaluation Study (JAGES). <i>Journal of Epidemiology</i> , 2021, 31, 545-553.	1.1	11
79	Association Between Social Isolation and Smoking in Japan and England. <i>Journal of Epidemiology</i> , 2021, 31, 523-529.	1.1	16
80	Is social participation associated with good self-rated health among visually impaired older adults?: the JAGES cross-sectional study. <i>BMC Geriatrics</i> , 2021, 21, 592.	1.1	4
81	Association of gait with global cognitive function and cognitive domains detected by MoCA-J among community-dwelling older adults: a cross-sectional study. <i>BMC Geriatrics</i> , 2021, 21, 523.	1.1	8
82	Importance of socioeconomic factors in predicting tooth loss among older adults in Japan: Evidence from a machine learning analysis. <i>Social Science and Medicine</i> , 2021, 291, 114486.	1.8	20
83	Potential causal effect of physical activity on reducing the risk of dementia: a 6-year cohort study from the Japan Gerontological Evaluation Study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021, 18, 140.	2.0	9
84	Community-level educational attainment and dementia: a 6-year longitudinal multilevel study in Japan. <i>BMC Geriatrics</i> , 2021, 21, 661.	1.1	10
85	Community-level social capital and cognitive decline after a natural disaster: A natural experiment from the 2011 Great East Japan Earthquake and Tsunami. <i>Social Science and Medicine</i> , 2020, 257, 111981.	1.8	60
86	Interpersonal Diffusion of Health Information: Health Information Mavenism among People Age 65 and over in Japan. <i>Health Communication</i> , 2020, 35, 804-814.	1.8	4
87	Elder Abuse and Social Capital in Older Adults: The Japan Gerontological Evaluation Study. <i>Gerontology</i> , 2020, 66, 149-159.	1.4	20
88	The Risk of Functional Limitations After Driving Cessation Among Older Japanese Adults: The JAGES Cohort Study. <i>Journal of Epidemiology</i> , 2020, 30, 332-337.	1.1	21
89	Dementia risk by combinations of metabolic diseases and body mass index: Japan Gerontological Evaluation Study Cohort Study. <i>Journal of Diabetes Investigation</i> , 2020, 11, 206-215.	1.1	15
90	Does public transportation reduce inequalities in access to dental care among older adults? Japan Gerontological Evaluation Study. <i>Community Dentistry and Oral Epidemiology</i> , 2020, 48, 109-118.	0.9	8

#	ARTICLE	IF	CITATIONS
91	Gender Difference in the Association Between Subjective Socioeconomic Mobility Across Life Course and Mortality at Older Ages: Results From the JAGES Longitudinal Study. <i>Journal of Epidemiology</i> , 2020, 30, 497-502.	1.1	8
92	Assessment of Additional Medical Costs Among Older Adults in Japan With a History of Childhood Maltreatment. <i>JAMA Network Open</i> , 2020, 3, e1918681.	2.8	11
93	Specific types of sports and exercise group participation and socio-psychological health in older people. <i>Journal of Sports Sciences</i> , 2020, 38, 422-429.	1.0	15
94	Intensity of community-based programs by long-term care insurers and the likelihood of frailty: Multilevel analysis of older Japanese adults. <i>Social Science and Medicine</i> , 2020, 245, 112701.	1.8	21
95	Change in the prevalence of social isolation among the older population from 2010 to 2016: A repeated cross-sectional comparative study of Japan and England. <i>Archives of Gerontology and Geriatrics</i> , 2020, 91, 104237.	1.4	29
96	Mediation of the relationship between home loss and worsened cardiometabolic profiles of older disaster survivors by post-disaster relocation: A natural experiment from the Great East Japan earthquake and tsunami. <i>Health and Place</i> , 2020, 66, 102456.	1.5	7
97	Accuracy of self-reported weight, height and body mass index among older people in Japan. <i>Geriatrics and Gerontology International</i> , 2020, 20, 803-810.	0.7	16
98	Social participation patterns and the incidence of functional disability: The Japan Gerontological Evaluation Study. <i>Geriatrics and Gerontology International</i> , 2020, 20, 765-772.	0.7	19
99	Long-term Trends in Mental Health Disorders After the 2011 Great East Japan Earthquake and Tsunami. <i>JAMA Network Open</i> , 2020, 3, e2013437.	2.8	17
100	Effect of Care Capacity on Stroke Patients' Recovery in Activities of Daily Living: A Multi-Hospital Study. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2020, 29, 105187.	0.7	1
101	Associations between Healthcare Resources and Healthy Life Expectancy: A Descriptive Study across Secondary Medical Areas in Japan. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 6301.	1.2	21
102	Allaying Post-COVID 19 Negative Health Impacts Among Older People: The "Need To Do Something With Others" Lessons From the Japan Gerontological Evaluation Study. <i>Asia-Pacific Journal of Public Health</i> , 2020, 32, 479-484.	0.4	10
103	Wider Dental Care Coverage Associated with Lower Oral Health Inequalities: A Comparison Study between Japan and England. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 5539.	1.2	10
104	What Types of Greenspaces Are Associated with Depression in Urban and Rural Older Adults? A Multilevel Cross-Sectional Study from JAGES. <i>International Journal of Environmental Research and Public Health</i> , 2020, 17, 9276.	1.2	25
105	Causal effect of deteriorating socioeconomic circumstances on new-onset arthritis and the moderating role of access to medical care: A natural experiment from the 2011 great east Japan earthquake and tsunami. <i>Social Science and Medicine</i> , 2020, 264, 113385.	1.8	5
