#	ARTICLE	IF	CITATIONS
1	Reporting transparency and completeness in Trials: Paper 2 - reporting of randomised trials using registries was often inadequate and hindered the interpretation of results. <i>Journal of Clinical Epidemiology</i> , 2022, 141, 175-186.	5.0	8
2	Reporting transparency and completeness in trials: Paper 4 - reporting of randomised controlled trials conducted using routinely collected electronic records “room for improvement. <i>Journal of Clinical Epidemiology</i> , 2022, 141, 198-209.	5.0	7
3	Reporting transparency and completeness in trials: Paper 3 “trials conducted using administrative databases do not adequately report elements related to use of databases. <i>Journal of Clinical Epidemiology</i> , 2022, 141, 187-197.	5.0	7
4	Optimizing responsiveness to feedback about antibiotic prescribing in primary care: protocol for two interrelated randomized implementation trials with embedded process evaluations. <i>Implementation Science</i> , 2022, 17, 17.	6.9	1
5	Tools for assessing the scalability of innovations in health: a systematic review. <i>Health Research Policy and Systems</i> , 2022, 20, 34.	2.8	16
6	The Alliance for Healthier Communities as a Learning Health System for primary care: A qualitative analysis in Ontario, Canada. <i>Journal of Evaluation in Clinical Practice</i> , 2022, 28, 1106-1112.	1.8	5
7	Achieving holistic, quality-of-life focused care: description of a Compassion Care Community initiative in Canada. <i>Health Promotion International</i> , 2022, 37, .	1.8	2
8	Blinding, pragmatism, and the PRECIS-2 tool for designing and assessing randomized trials. <i>European Journal of Clinical Pharmacology</i> , 2021, 77, 1069-1070.	1.9	2
9	MyTEMP: Statistical Analysis Plan of a Registry-Based, Cluster-Randomized Clinical Trial. <i>Canadian Journal of Kidney Health and Disease</i> , 2021, 8, 205435812110411.	1.1	2
10	Patient Partner Perspectives Regarding Ethically and Clinically Important Aspects of Trial Design in Pragmatic Cluster Randomized Trials for Hemodialysis. <i>Canadian Journal of Kidney Health and Disease</i> , 2021, 8, 205435812110328.	1.1	0
11	Designing provider-focused implementation trials with purpose and intent: introducing the PRECIS-2-PS tool. <i>Implementation Science</i> , 2021, 16, 7.	6.9	29
12	Scaling Up Patient-Centered Interdisciplinary Care for Multimorbidity: A Pragmatic Mixed-Methods Randomized Controlled Trial. <i>Annals of Family Medicine</i> , 2021, 19, 126-134.	1.9	16
13	CONSORT extension for the reporting of randomised controlled trials conducted using cohorts and routinely collected data (CONSORT-ROUTINE): checklist with explanation and elaboration. <i>BMJ</i> , The, 2021, 373, n857.	6.0	65
14	Methods and results used in the development of a consensus-driven extension to the Consolidated Standards of Reporting Trials (CONSORT) statement for trials conducted using cohorts and routinely collected data (CONSORT-ROUTINE). <i>BMJ Open</i> , 2021, 11, e049093.	1.9	9
15	Addressing the disconnect between trial intention and design. <i>The Lancet Global Health</i> , 2021, 9, e577-e578.	6.3	0
16	Learning health systems in primary care: a systematic scoping review. <i>BMC Family Practice</i> , 2021, 22, 126.	2.9	15
17	Process evaluation of an implementation strategy to support uptake of a tuberculosis treatment adherence intervention to improve TB care and outcomes in Malawi. <i>BMJ Open</i> , 2021, 11, e048499.	1.9	5
18	A review of pragmatic trials found a high degree of diversity in design and scope, deficiencies in reporting and trial registry data, and poor indexing. <i>Journal of Clinical Epidemiology</i> , 2021, 137, 45-57.	5.0	19

#	ARTICLE	IF	CITATIONS
19	Patient-centred innovation for multimorbidity care: a mixed-methods, randomised trial and qualitative study of the patientsâ€™ experience. <i>British Journal of General Practice</i> , 2021, 71, e320-e330.	1.4	6
20	Printed educational materials directed at Ontario family physicians do not improve adherence to guideline recommendations for diabetes management: a pragmatic, factorial, cluster randomized controlled trial [ISRCTN72772651]. <i>BMC Family Practice</i> , 2021, 22, 243.	2.9	0
21	Unpacking â€˜the cloudâ€™: a framework for implementing public health approaches to palliative care. <i>Health Promotion International</i> , 2020, 35, 160-170.	1.8	12
22	SIESTA - Home sleep study with BresDx for obstructive sleep apnea: a randomized controlled trial. <i>Sleep Medicine</i> , 2020, 65, 45-53.	1.6	7
23	Primary Care Practitioner Training in Child and Adolescent Psychiatry (PTCAP): A Cluster-Randomized Trial. <i>Canadian Journal of Psychiatry</i> , 2020, 65, 319-329.	1.9	4
24	The Importance of Describing as Well as Defining Usual Care. <i>American Journal of Bioethics</i> , 2020, 20, 56-58.	0.9	4
25	PRECIS-2 for retrospective assessment of RCTs in systematic reviews. <i>Journal of Clinical Epidemiology</i> , 2020, 126, 202-206.	5.0	16
26	Impact of a tuberculosis treatment adherence intervention versus usual care on treatment completion rates: results of a pragmatic cluster randomized controlled trial. <i>Implementation Science</i> , 2020, 15, 107.	6.9	4
27	The importance of decision intent within descriptions of pragmatic trials. <i>Journal of Clinical Epidemiology</i> , 2020, 125, 30-37.	5.0	9
28	A search filter to identify pragmatic trials in MEDLINE was highly specific but lacked sensitivity. <i>Journal of Clinical Epidemiology</i> , 2020, 124, 75-84.	5.0	22
29	Major Outcomes With Personalized Dialysate TEMPerature (MyTEMP): Rationale and Design of a Pragmatic, Registry-Based, Cluster Randomized Controlled Trial. <i>Canadian Journal of Kidney Health and Disease</i> , 2020, 7, 205435811988798.	1.1	14
30	Closing the indigenous health gap in Canada: Results from the TransFORMation of IndiGENous PrimAry HEALthcare delivery (FORGE AHEAD) program. <i>Diabetes Research and Clinical Practice</i> , 2020, 162, 108066.	2.8	9
31	Extrapolation Pitfalls and Methodology Flaws in Curing Anemia via Parental Education and Counselingâ€™Reply. <i>JAMA Pediatrics</i> , 2020, 174, 302.	6.2	0
32	WOMen's Action for Mums and Bubs (WOMB) Trial Protocol: A Non-randomized Stepped Wedge Implementation Trial of Participatory Women's Groups to Improve the Health of Aboriginal and Torres Strait Islander Mothers and Children in Australia. <i>Frontiers in Public Health</i> , 2020, 8, 73.	2.7	3
33	Caring Near and Far by Connecting Community-Based Clients and Family Member/Friend Caregivers Using Passive Remote Monitoring: Protocol for a Pragmatic Randomized Controlled Trial. <i>JMIR Research Protocols</i> , 2020, 9, e15027.	1.0	4
34	Effect of a Community Health Workerâ€™Delivered Parental Education and Counseling Intervention on Anemia Cure Rates in Rural Indian Children. <i>JAMA Pediatrics</i> , 2019, 173, 826.	6.2	9
35	Comparison of emergency department time performance between a Canadian and an Australian academic tertiary hospital. <i>EMA - Emergency Medicine Australasia</i> , 2019, 31, 605-611.	1.1	4
36	e-PC101: an electronic clinical decision support tool developed in South Africa for primary care in low-income and middle-income countries. <i>BMJ Global Health</i> , 2019, 3, e001093.	4.7	16

#	ARTICLE	IF	CITATIONS
37	The ethical challenges raised in the design and conduct of pragmatic trials: an interview study with key stakeholders. <i>Trials</i> , 2019, 20, 765.	1.6	30
38	Building internal capacity in pragmatic trials: a workshop for program scientists at the US National Cancer Institute. <i>Trials</i> , 2019, 20, 779.	1.6	3
39	Don't forget about the "in cmRCT: reply to Groenwold and van Smeden. <i>Journal of Clinical Epidemiology</i> , 2019, 106, 143-144.	5.0	1
40	Building research culture and capacity in academic family medicine departments: Insights from a simulation workshop. <i>Canadian Family Physician</i> , 2019, 65, e38-e44.	0.4	1
41	Interprofessional education: effects on professional practice and healthcare outcomes. <i>The Cochrane Library</i> , 2018, 2018, CD002213.	2.8	766
42	Interprofessional collaboration to improve professional practice and healthcare outcomes. <i>The Cochrane Library</i> , 2018, 2018, CD000072.	2.8	396
43	A realist evaluation of value-based care delivery in home care: The influence of actors, autonomy and accountability. <i>Social Science and Medicine</i> , 2018, 206, 100-109.	3.8	15
44	Factors associated with failure of emergency wait-time targets for high acuity discharges and intensive care unit admissions. <i>Canadian Journal of Emergency Medicine</i> , 2018, 20, 112-124.	1.1	14
45	Examining the nature of interprofessional practice: An initial framework validation and creation of the InterProfessional Activity Classification Tool (InterPACT). <i>Journal of Interprofessional Care</i> , 2018, 32, 416-425.	1.7	76
46	Teamwork, collaboration, coordination, and networking: Why we need to distinguish between different types of interprofessional practice. <i>Journal of Interprofessional Care</i> , 2018, 32, 1-3.	1.7	212
47	Stakeholder views regarding ethical issues in the design and conduct of pragmatic trials: study protocol. <i>BMC Medical Ethics</i> , 2018, 19, 90.	2.4	7
48	Crossing borders: the PACK experience of spreading a complex health system intervention across low-income and middle-income countries. <i>BMJ Global Health</i> , 2018, 3, e001088.	4.7	21
49	The Practical Approach to Care Kit (PACK) guide: developing a clinical decision support tool to simplify, standardise and strengthen primary healthcare delivery. <i>BMJ Global Health</i> , 2018, 3, e000962.	4.7	51
50	Protocol for the development of a CONSORT extension for RCTs using cohorts and routinely collected health data. <i>Research Integrity and Peer Review</i> , 2018, 3, 9.	5.2	28
51	National Survey of Indigenous primary healthcare capacity and delivery models in Canada: the TransFORMATION of IndiGENous PrimAry HEAlthcare delivery (FORGE AHEAD) community profile survey. <i>BMC Health Services Research</i> , 2018, 18, 828.	2.2	8
52	Assessment of Long-term Follow-up of Randomized Trial Participants by Linkage to Routinely Collected Data. <i>JAMA Network Open</i> , 2018, 1, e186019.	5.9	56
53	Developing a framework for the ethical design and conduct of pragmatic trials in healthcare: a mixed methods research protocol. <i>Trials</i> , 2018, 19, 525.	1.6	21
54	Beyond the grey tsunami: a cross-sectional population-based study of multimorbidity in Ontario. <i>Canadian Journal of Public Health</i> , 2018, 109, 845-854.	2.3	33

#	ARTICLE	IF	CITATIONS
55	Scott Reeves: 1967â€“2018. Journal of Interprofessional Care, 2018, 32, 403-403.	1.7	1
56	Protocol for a scoping review to support development of a CONSORT extension for randomised controlled trials using cohorts and routinely collected health data. BMJ Open, 2018, 8, e025266.	1.9	10
57	Evaluating a Serious Gaming Electronic Medication Administration Record System Among Nursing Students: Protocol for a Pragmatic Randomized Controlled Trial. JMIR Research Protocols, 2018, 7, e138.	1.0	9
58	A Study Protocol for the "Practitioner Training in Child and Adolescent Psychiatry" Cluster-randomized Pilot Study. Journal of the Canadian Academy of Child and Adolescent Psychiatry, 2018, 27, 236-244.	0.6	1
59	PRECIS-2 helps researchers design more applicable RCTs while CONSORT Extension for Pragmatic Trials helps knowledge users decide whether to apply them. Journal of Clinical Epidemiology, 2017, 84, 27-29.	5.0	32
60	Protocol for a scoping review of post-trial extensions of randomised controlled trials using individually linked administrative and registry data. BMJ Open, 2017, 7, e013770.	1.9	4
61	Rating of Included Trials on the Efficacyâ€“Effectiveness Spectrum: development of a new tool for systematic reviews. Journal of Clinical Epidemiology, 2017, 84, 95-104.	5.0	36
62	The PRECIS-2 tool has good interrater reliability and modest discriminant validity. Journal of Clinical Epidemiology, 2017, 88, 113-121.	5.0	48
63	â€“Pragmaticâ€™ and â€“explanatoryâ€™ attitudes to randomised trials. Journal of the Royal Society of Medicine, 2017, 110, 208-218.	2.0	21
64	Hockey Fans in Training. Medicine and Science in Sports and Exercise, 2017, 49, 2506-2516.	0.4	32
65	The TOronto ThromboProphylaxis Patient Safety Initiative (TOPPS): A cluster randomised trial. Research in Social and Administrative Pharmacy, 2017, 13, 997-1003.	3.0	3
66	Development and evaluation of a continuing pharmacy education (CPE) program in thrombosis management. Currents in Pharmacy Teaching and Learning, 2017, 9, 911-917.	1.0	8
67	Perspectives of health care professionals on the facilitators and barriers to the implementation of a stroke rehabilitation guidelines cluster randomized controlled trial. BMC Health Services Research, 2017, 17, 440.	2.2	51
68	Lay health workers perceptions of an anemia control intervention in Karnataka, India: a qualitative study. BMC Public Health, 2017, 17, 720.	2.9	5
69	Facilitated interprofessional implementation of a physical rehabilitation guideline for stroke in inpatient settings: process evaluation of a cluster randomized trial. Implementation Science, 2017, 12, 100.	6.9	30
70	A large cluster randomized trial of outcome-based pathways to improve home-based wound care. Trials, 2017, 18, 393.	1.6	0
71	â€“Research clinicsâ€™: online journal clubs between south and north for student mentoring. Global Health Action, 2016, 9, 30434.	1.9	9
72	Successes and challenges of northâ€“south partnerships â€“ key lessons from the African/Asian Regional Capacity Development projects. Global Health Action, 2016, 9, 30522.	1.9	23

#	ARTICLE	IF	CITATIONS
73	Educational Outreach with an Integrated Clinical Tool for Nurse-Led Non-communicable Chronic Disease Management in Primary Care in South Africa: A Pragmatic Cluster Randomised Controlled Trial. <i>PLoS Medicine</i> , 2016, 13, e1002178.	8.4	74
74	Cost-effectiveness of a physician-nurse supplementary triage assessment team at an academic tertiary care emergency department. <i>Canadian Journal of Emergency Medicine</i> , 2016, 18, 191-204.	1.1	14
75	A partial economic evaluation of blended learning in teaching health research methods: a three-university collaboration in South Africa, Sweden, and Uganda. <i>Global Health Action</i> , 2016, 9, 28058.	1.9	9
76	Student experiences of participating in five collaborative blended learning courses in Africa and Asia: a survey. <i>Global Health Action</i> , 2016, 9, 28145.	1.9	25
77	The impact of a knowledge translation intervention employing educational outreach and a point-of-care reminder tool vs standard lay health worker training on tuberculosis treatment completion rates: study protocol for a cluster randomized controlled trial. <i>Trials</i> , 2016, 17, 439.	1.6	9
78	Best Practices for the Prevention and Management of Diabetes and Obesity-Related Chronic Disease among Indigenous Peoples in Canada: A Review. <i>Canadian Journal of Diabetes</i> , 2016, 40, 216-225.	0.8	50
79	Blended learning across universities in a South-North-South collaboration: a case study. <i>Health Research Policy and Systems</i> , 2016, 14, 67.	2.8	26
80	Impact of Hockey Fans in Training Program on Steps and Self-rated Health in Overweight Men. <i>Medicine and Science in Sports and Exercise</i> , 2016, 48, 601.	0.4	0
81	Hockey Fans in Training (Hockey FIT) pilot study protocol: a gender-sensitized weight loss and healthy lifestyle program for overweight and obese male hockey fans. <i>BMC Public Health</i> , 2016, 16, 1096.	2.9	21
82	North-south collaboration and capacity development in global health research in low- and middle-income countries – the ARCADE projects. <i>Global Health Action</i> , 2016, 9, 30524.	1.9	47
83	Antibiotic prescribing of village doctors for children under 15 years with upper respiratory tract infections in rural China. <i>Medicine (United States)</i> , 2016, 95, e3803.	1.0	30
84	Lay Health Workers experience of a tailored knowledge translation intervention to improve job skills and knowledge: a qualitative study in Zomba district Malawi. <i>BMC Medical Education</i> , 2016, 16, 54.	2.4	14
85	The need for pragmatic clinical trials in low and middle income settings – taking essential neonatal interventions delivered as part of inpatient care as an illustrative example. <i>BMC Medicine</i> , 2016, 14, 5.	5.5	20
86	Can a Sports Team-based Lifestyle Program (Hockey Fans In Training) Improve Weight In Overweight Men?. <i>Medicine and Science in Sports and Exercise</i> , 2016, 48, 604.	0.4	2
87	Promoting development and uptake of health innovations: The Nose to Tail Tool. <i>F1000Research</i> , 2016, 5, 361.	1.6	22
88	Practice Doesn't Always Make Perfect: A Qualitative Study Explaining Why a Trial of an Educational Toolkit Did Not Improve Quality of Care. <i>PLoS ONE</i> , 2016, 11, e0167878.	2.5	7
89	Challenges, solutions and future directions in the evaluation of service innovations in health care and public health. <i>Health Services and Delivery Research</i> , 2016, 4, 1-136.	1.4	83
90	Ontario's Emergency Department Process Improvement Program: The Experience of Implementation. <i>Academic Emergency Medicine</i> , 2015, 22, 720-729.	1.8	21

#	ARTICLE	IF	CITATIONS
91	Printed educational messages fail to increase use of thiazides as first-line medication for hypertension in primary care: a cluster randomized controlled trial [ISRCTN72772651]. <i>Implementation Science</i> , 2015, 11, 124.	6.9	14
92	A theory-based process evaluation alongside a randomised controlled trial of printed educational messages to increase primary care physicians' prescription of thiazide diuretics for hypertension [ISRCTN72772651]. <i>Implementation Science</i> , 2015, 11, 121.	6.9	23
93	The PRECIS-2 tool: designing trials that are fit for purpose. <i>BMJ</i> , The, 2015, 350, h2147-h2147.	6.0	1,162
94	Cluster randomized controlled trial of Delayed Educational Reminders for Long-term Medication Adherence in ST-Elevation Myocardial Infarction (DERLA-STEMI). <i>American Heart Journal</i> , 2015, 170, 903-913.	2.7	36
95	A knowledge translation intervention to improve tuberculosis care and outcomes in Malawi: a pragmatic cluster randomized controlled trial. <i>Implementation Science</i> , 2015, 10, 38.	6.9	19
96	The Karnataka Anemia Project 2 " design and evaluation of a community-based parental intervention to improve childhood anemia cure rates: study protocol for a cluster randomized controlled trial. <i>Trials</i> , 2015, 16, 599.	1.6	14
97	Multimorbidity, control and treatment of non-communicable diseases among primary healthcare attenders in the Western Cape, South Africa. <i>South African Medical Journal</i> , 2015, 105, 642.	0.6	45
98	Do pragmatic trials trade-off internal validity for external validity?. <i>Trials</i> , 2015, 16, .	1.6	1
99	Matching trial design decisions to the needs of those you hope will use the results: the PRECIS-2 tool. <i>Trials</i> , 2015, 16, .	1.6	0
100	Failure to Cope. <i>Academic Medicine</i> , 2015, 90, 56-62.	1.6	46
101	Innovating to improve primary care in less developed countries: towards a global model: Table 1. <i>BMJ Innovations</i> , 2015, 1, 196-203.	1.7	58
102	Improving Use of Targeted Temperature Management After Out-of-Hospital Cardiac Arrest. <i>Critical Care Medicine</i> , 2015, 43, 954-964.	0.9	34
103	Guideline uptake is influenced by six implementability domains for creating and communicating guidelines: a realist review. <i>Journal of Clinical Epidemiology</i> , 2015, 68, 498-509.	5.0	135
104	Evaluation as evolution: a Darwinian proposal for health policy and systems research. <i>Health Research Policy and Systems</i> , 2015, 13, 15.	2.8	3
105	Responses and Recommendations: Proposals for an Initiative to Improve Healthcare by Evaluating Innovation. <i>HealthcarePapers</i> , 2015, 15, 52-61.	0.3	0
106	Why most randomized controlled trials are irrelevant: And why yours will not be. <i>Canadian Family Physician</i> , 2015, 61, 811-2.	0.4	3
107	Exploring the nature of interprofessional collaboration and family member involvement in an intensive care context. <i>Journal of Interprofessional Care</i> , 2014, 28, 74-75.	1.7	13
108	Effect of an Educational Toolkit on Quality of Care: A Pragmatic Cluster Randomized Trial. <i>PLoS Medicine</i> , 2014, 11, e1001588.	8.4	18

#	ARTICLE	IF	CITATIONS
109	Effectiveness of a group diabetes education programme in under-served communities in South Africa: a pragmatic cluster randomized controlled trial. <i>Diabetic Medicine</i> , 2014, 31, 987-993.	2.3	90
110	Evaluation of an Emergency Department Lean Process Improvement Program to Reduce Length of Stay. <i>Annals of Emergency Medicine</i> , 2014, 64, 427-438.	0.6	57
111	The CLOQS Trial Protocol: A Cluster-Randomized Trial Evaluating a Simple, Low-Cost Intervention to Reduce Treatment Times in Acute Stroke. <i>International Journal of Stroke</i> , 2014, 9, 525-528.	5.9	2
112	Impact of a chronic disease self-management program on health care utilization in rural communities: a retrospective cohort study using linked administrative data. <i>BMC Health Services Research</i> , 2014, 14, 198.	2.2	24
113	Pressure ulcer multidisciplinary teams via telemedicine: a pragmatic cluster randomized stepped wedge trial in long term care. <i>BMC Health Services Research</i> , 2014, 14, 83.	2.2	62
114	Survey of consent practices in cluster randomized trials: Improvements are needed in ethical conduct and reporting. <i>Clinical Trials</i> , 2014, 11, 60-69.	1.6	12
115	Looking inside the black box: results of a theory-based process evaluation exploring the results of a randomized controlled trial of printed educational messages to increase primary care physicians' diabetic retinopathy referrals [Trial registration number ISRCTN72772651]. <i>Implementation Science</i> , 2014, 9, 86.	6.9	34
116	Printed educational messages aimed at family practitioners fail to increase retinal screening among their patients with diabetes: a pragmatic cluster randomized controlled trial [ISRCTN72772651]. <i>Implementation Science</i> , 2014, 9, 87.	6.9	30
117	Variability in research ethics review of cluster randomized trials: a scenario-based survey in three countries. <i>Trials</i> , 2014, 15, 48.	1.6	15
118	Supporting middle-cadre health care workers in Malawi: lessons learned during implementation of the PALM PLUS package. <i>BMC Health Services Research</i> , 2014, 14, S8.	2.2	17
119	"My approach to this job is...one person at a time": Perceived discordance between population-level quality targets and patient-centred care. <i>Canadian Family Physician</i> , 2014, 60, 258-66.	0.4	33
120	Making clinical trials more relevant: improving and validating the PRECIS tool for matching trial design decisions to trial purpose. <i>Trials</i> , 2013, 14, 115.	1.6	48
121	Researchers' perceptions of ethical challenges in cluster randomized trials: a qualitative analysis. <i>Trials</i> , 2013, 14, 1.	1.6	60
122	Managing executive dysfunction following acquired brain injury and stroke using an ecologically valid rehabilitation approach: a study protocol for a randomized, controlled trial. <i>Trials</i> , 2013, 14, 306.	1.6	11
123	Training for health services and systems research in Sub-Saharan Africa - a case study at four East and Southern African Universities. <i>Human Resources for Health</i> , 2013, 11, 68.	3.1	12
124	Feedback GAP: pragmatic, cluster-randomized trial of goal setting and action plans to increase the effectiveness of audit and feedback interventions in primary care. <i>Implementation Science</i> , 2013, 8, 142.	6.9	31
125	Disengaged: a qualitative study of communication and collaboration between physicians and other professions on general internal medicine wards. <i>BMC Health Services Research</i> , 2013, 13, 494.	2.2	99
126	Implementing wait-time reductions under Ontario government benchmarks (Pay-for-Results): a Cluster Randomized Trial of the Effect of a Physician-Nurse Supplementary Triage Assistance team (MDRNSTAT) on emergency department patient wait times. <i>BMC Emergency Medicine</i> , 2013, 13, 17.	1.9	47

#	ARTICLE	IF	CITATIONS
127	PRECIS-2: a tool to improve the applicability of randomised controlled trials. <i>Trials</i> , 2013, 14, O28.	1.6	7
128	Competition in collaborative clothing: a qualitative case study of influences on collaborative quality improvement in the ICU. <i>BMJ Quality and Safety</i> , 2013, 22, 317-323.	3.7	27
129	Medicine and nursing: a social contract to improve collaboration and patient-centred care?. <i>Journal of Interprofessional Care</i> , 2013, 27, 441-442.	1.7	18
130	Challenges in the research ethics review of cluster randomized trials: International survey of investigators. <i>Clinical Trials</i> , 2013, 10, 257-268.	1.6	20
131	Cost-effectiveness of nurse-led versus doctor-led antiretroviral treatment in South Africa: pragmatic cluster randomised trial. <i>Tropical Medicine and International Health</i> , 2013, 18, 769-777.	2.3	25
