#	ARTICLE	IF	CITATIONS
1	Patient and practitioner priorities and concerns about primary healthcare interactions for osteoarthritis: A meta-ethnography. Patient Education and Counseling, 2022, , .	2.2	5
2	Primary care service utilisation and outcomes in type 2 diabetes: a longitudinal cohort analysis. BMJ Open, 2022, 12, e054654.	1.9	5
3	Clinician views on optimism and empathy in primary care consultations. BJGP Open, 2022, , BJGPO.2021.0221.	1.8	1
4	Mortality in COVID-19 among women on hormone replacement therapy: a retrospective cohort study. Family Practice, 2022, 39, 1049-1055.	1.9	10
5	Development and Validation of Population Clusters for Integrating Health and Social Care: Protocol for a Mixed Methods Study in Multiple Long-Term Conditions (Cluster-Artificial Intelligence for) Tj ETQq1 1 0.7843140gBT /Overlock 10	1.9	0
6	Primary care experience and remission of type 2 diabetes: a population-based prospective cohort study. Family Practice, 2021, 38, 140-145.	1.9	8
7	Social inequality and the syndemic of chronic disease and COVID-19: county-level analysis in the USA. Journal of Epidemiology and Community Health, 2021, 75, 496-500.	3.7	76
8	The association between self-efficacy and self-care in essential hypertension: a systematic review. BMC Family Practice, 2021, 22, 44.	2.9	38
9	Exploring patient views of empathic optimistic communication for osteoarthritis in primary care: a qualitative interview study using vignettes. BJGP Open, 2021, 5, BJGPO.2021.0014.	1.8	8
10	The Use of Primary Care Big Data in Understanding the Pharmacoepidemiology of COVID-19: A Consensus Statement From the COVID-19 Primary Care Database Consortium. Annals of Family Medicine, 2021, 19, 135-140.	1.9	7
11	Association between influenza vaccination and hospitalisation or all-cause mortality in people with COVID-19: a retrospective cohort study. BMJ Open Respiratory Research, 2021, 8, e000857.	3.0	39
12	Quantifying the association between ethnicity and COVID-19 mortality: a national cohort study protocol. BMJ Open, 2021, 11, e045286.	1.9	0
13	Integrating primary care and social services for older adults with multimorbidity: a qualitative study. British Journal of General Practice, 2021, 71, e753-e761.	1.4	22
14	Using Primary Care Data to Report Real-World Pancreatic Cancer Survival and Symptomatology. Studies in Health Technology and Informatics, 2021, 281, 168-172.	0.3	0
15	Association of type 2 diabetes remission and risk of cardiovascular disease in preâ€defined subgroups. Endocrinology, Diabetes and Metabolism, 2021, 4, e00280.	2.4	11
16	Is rapid scientific publication also high quality? Bibliometric analysis of highly disseminated <scp>COVID</scp>â€19 research papers. Learned Publishing, 2021, 34, 568-577.	1.7	27
17	Integrating primary care and social services for older adults with multimorbidity: policy implications. BJGP Open, 2021, 5, BJGPO.2021.0035.	1.8	0
18	Experiences of out-of-hours task-shifting from GPs: a systematic review of qualitative studies. BJGP Open, 2021, 5, BJGPO.2021.0043.	1.8	1

#	ARTICLE	IF	CITATIONS
19	Sickle Cell Disorders and Severe COVID-19 Outcomes: A Cohort Study. <i>Annals of Internal Medicine</i> , 2021, 174, 1483-1487.	3.9	26
20	Harnessing Placebo Effects in Primary Care: Using the Person-Based Approach to Develop an Online Intervention to Enhance Practitioners' Communication of Clinical Empathy and Realistic Optimism During Consultations. <i>Frontiers in Pain Research</i> , 2021, 2, 721222.	2.0	4
21	Association Between Race and COVID-19 Outcomes Among 2.6 Million Children in England. <i>JAMA Pediatrics</i> , 2021, 175, 928.	6.2	69
22	Population stratification in type 2 diabetes mellitus: a systematic review. <i>Diabetic Medicine</i> , 2021, , e14688.	2.3	5
23	OUP accepted manuscript. <i>Family Practice</i> , 2021, , .	1.9	2
24	Change in treatment burden among people with multimorbidity: Protocol of a follow up survey and development of efficient measurement tools for primary care. <i>PLoS ONE</i> , 2021, 16, e0260228.	2.5	3
25	Behaviour change, weight loss and remission of Type 2 diabetes: a community-based prospective cohort study. <i>Diabetic Medicine</i> , 2020, 37, 681-688.	2.3	49
26	Provision of services in primary care for type 2 diabetes: a qualitative study with patients, GPs, and nurses in the East of England. <i>British Journal of General Practice</i> , 2020, 70, e668-e675.	1.4	6
27	COVID-19 mortality: a complex interplay of sex, gender and ethnicity. <i>European Journal of Public Health</i> , 2020, 30, 847-848.	0.3	47
28	Improving Empathy in Healthcare Consultations—a Secondary Analysis of Interventions. <i>Journal of General Internal Medicine</i> , 2020, 35, 3007-3014.	2.6	20
29	Currently prescribed drugs in the UK that could upregulate or downregulate ACE2 in COVID-19 disease: a systematic review. <i>BMJ Open</i> , 2020, 10, e040644.	1.9	26
30	Loneliness, social isolation, cardiovascular disease and mortality: a synthesis of the literature and conceptual framework. <i>Journal of the Royal Society of Medicine</i> , 2020, 113, 185-192.	2.0	63
31	Clinical scores in primary care. <i>British Journal of General Practice</i> , 2020, 70, 163-163.	1.4	6
32	Drug treatments affecting ACE2 in COVID-19 infection: a systematic review protocol. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101115.	1.8	4
33	COVID-19 and international primary care systems: Rebuilding a stronger primary care. <i>BJGP Open</i> , 2020, 4, bjgpopen20X101130.	1.8	7
34	OP17—Examining inequality in trials of smoking cessation interventions delivered in primary care: critique and reanalysis of cochrane reviews. , 2020, , .		0
35	Race and Racism in Primary Care: A special collection from <i>BJGP Open</i> . <i>BJGP Open</i> , 2020, 4, BJGPO.2020.0175.	1.8	0
36	Association Between Primary Care Practitioner Empathy and Risk of Cardiovascular Events and All-Cause Mortality Among Patients With Type 2 Diabetes: A Population-Based Prospective Cohort Study. <i>Annals of Family Medicine</i> , 2019, 17, 311-318.	1.9	54

#	ARTICLE	IF	CITATIONS
37	Empathy, transference and compassion. <i>Journal of the Royal Society of Medicine</i> , 2019, 112, 420-423.	2.0	5
38	Defining therapeutic empathy: the philosopher's view. <i>Journal of the Royal Society of Medicine</i> , 2019, 112, 91-95.	2.0	7
39	Competing interests in peer review. <i>BMJ, The</i> , 2019, 367, l6704.	6.0	0
40	Empathy as a state beyond feeling: a patient and clinician perspective. <i>Journal of the Royal Society of Medicine</i> , 2019, 112, 57-60.	2.0	6
41	Patients' views on interactions with practitioners for type 2 diabetes: a longitudinal qualitative study in primary care over 10 years. <i>British Journal of General Practice</i> , 2018, 68, e36-e43.	1.4	13
42	Therapeutic empathy: what it is and what it isn't. <i>Journal of the Royal Society of Medicine</i> , 2018, 111, 233-236.	2.0	30
43	Effect on cardiovascular disease risk factors of interventions to alter consultations between practitioners and patients with type 2 diabetes: A systematic review and meta-analysis of trials in primary care. <i>Health Expectations</i> , 2017, 20, 1218-1227.	2.6	12
44	An appealing prospect? A survey into the numbers, outcomes, and editorial policies for appeals of rejected biomedical manuscripts. <i>Learned Publishing</i> , 2017, 30, 227-231.	1.7	2
45	International variations in primary care physician consultation time: a systematic review of 67 countries. <i>BMJ Open</i> , 2017, 7, e017902.	1.9	456
46	Books: <i>The 10-Minute Clinical Assessment</i> . <i>British Journal of General Practice</i> , 2017, 67, 224.1-224.	1.4	0
47	Patient-centred care, health behaviours and cardiovascular risk factor levels in people with recently diagnosed type 2 diabetes: 5-year follow-up of the ADDITION-Plus trial cohort. <i>BMJ Open</i> , 2016, 6, e008931.	1.9	5
48	Influenza, Shingles and Pneumococcal Vaccine Uptake, Offer and Refusal in Adult Populations at High-Risk for COVID-19: A UK Population-Based Cohort Study. <i>SSRN Electronic Journal</i> , 0, , .	0.4	5
