citing authors

#	ARTICLE	IF	CITATIONS
1	Mindfulness-Based Interventions and Body Awareness. <i>Brain Sciences</i> , 2022, 12, 285.	2.3	7
2	Accompagner les Étudiant·es universitaires dans la régulation des Émotions vécues dans l'apprentissage: pistes d'intervention. <i>Orientation Scolaire Et Professionnelle</i> , 2022, , .	0.1	0
3	The Influence of Facial Asymmetry on Genuineness Judgment. <i>Frontiers in Psychology</i> , 2021, 12, 727446.	2.1	2
4	A Mindfulness-Based Program among Adolescent Boys with Behavior Disorders: A Quasi-Experimental Study. <i>Journal of Child and Family Studies</i> , 2020, 29, 2186-2200.	1.3	7
5	Case conceptualization from a process-based and modular perspective: Rationale and application to mood and anxiety disorders. <i>Clinical Psychology and Psychotherapy</i> , 2019, 26, 175-190.	2.7	25
6	Introduction. <i>Neuropsychologie, psychopathologie et psychothérapie</i> , 2019, , 11-27.		0
7	Validation of the Self-Discrepancies Scale (S-DS). A tool to investigate the self in clinical and research settings. <i>Revue Européenne De Psychologie Appliquée</i> , 2018, 68, 69-77.	0.8	7
8	Involuntary processing of social dominance cues from bimodal face-voice displays. <i>Cognition and Emotion</i> , 2018, 32, 13-23.	2.0	4
9	Pre-frontal-insular-cerebellar modifications correlate with disgust feeling blunting after subthalamic stimulation: A positron emission tomography study in Parkinson's disease. <i>Journal of Neuropsychology</i> , 2017, 11, 378-395.	1.4	10
10	Attentional focus during exposure in spider phobia: The effect of valence and schematicity of a partial distractor. <i>Behaviour Research and Therapy</i> , 2017, 93, 104-115.	3.1	1
11	Selective attention to emotional prosody in social anxiety: a dichotic listening study. <i>Cognition and Emotion</i> , 2017, 31, 1749-1756.	2.0	10
12	Overestimation of threat from neutral faces and voices in social anxiety. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2017, 57, 206-211.	1.2	33
13	Imbalance between abstract and concrete repetitive thinking modes in schizophrenia. <i>Comprehensive Psychiatry</i> , 2017, 78, 61-66.	3.1	9
14	Correlates of Social Exclusion in Social Anxiety Disorder: An fMRI study. <i>Scientific Reports</i> , 2017, 7, 260.	3.3	32
15	Impact of transcranial direct current stimulation on attentional bias for threat: a proof-of-concept study among individuals with social anxiety disorder. <i>Social Cognitive and Affective Neuroscience</i> , 2017, 12, 251-260.	3.0	80
16	Repetitive thinking, executive functioning, and depressive mood in the elderly. <i>Aging and Mental Health</i> , 2017, 21, 1192-1196.	2.8	19
17	Embracing the Structure of Metacognitive Beliefs: Validation of the French Short Version of the Metacognitions Questionnaire. <i>International Journal of Cognitive Therapy</i> , 2017, 10, 219-233.	2.2	10
18	A Mindfulness-Based Group Intervention for Enhancing Self-Regulation of Emotion in Late Childhood and Adolescence: A Pilot Study. <i>International Journal of Mental Health and Addiction</i> , 2016, 14, 775-790.	7.4	43

#	ARTICLE	IF	CITATIONS
19	Abstract and concrete repetitive thinking modes in alcohol-dependence. <i>Journal of Addictive Diseases</i> , 2016, 35, 238-243.	1.3	15
20	Social anxiety and information processing biases: An integrated theoretical perspective. <i>Cognition and Emotion</i> , 2016, 30, 762-777.	2.0	24
21	Chapitre 2. D'Aler l'cheveau des processus psychologiques en psychopathologie. , 2016, , 33-60.		3
22	Commentary on: Are we overpathologizing everyday life? A tenable blueprint for behavioral addiction research. <i>Journal of Behavioral Addictions</i> , 2015, 4, 148-150.	3.7	3
23	Impact of Anodal and Cathodal Transcranial Direct Current Stimulation over the Left Dorsolateral Prefrontal Cortex during Attention Bias Modification: An Eye-Tracking Study. <i>PLoS ONE</i> , 2015, 10, e0124182.	2.5	71
24	Looking under the hood of executive function impairments in psychopathology: A commentary on "Advancing understanding of executive function impairments and psychopathology: bridging the gap between clinical and cognitive approaches". <i>Frontiers in Psychology</i> , 2015, 6, 1170.	2.1	10
25	Is Dysfunctional Use of the Mobile Phone a Behavioural Addiction? Confronting Symptom-Based Versus Process-Based Approaches. <i>Clinical Psychology and Psychotherapy</i> , 2015, 22, 460-468.	2.7	232
26	Attentional focus during exposure in spider phobia: The role of schematic versus non-schematic imagery. <i>Behaviour Research and Therapy</i> , 2015, 65, 86-92.	3.1	7
27	Attention bias modification for social anxiety: A systematic review and meta-analysis. <i>Clinical Psychology Review</i> , 2015, 40, 76-90.	11.4	237
28	Revisiting attentional processing of non-emotional cues in social anxiety: A specific impairment for the orienting network of attention. <i>Psychiatry Research</i> , 2015, 228, 136-142.	3.3	36
29	Disease recognition is related to specific autobiographical memory deficits in alcohol-dependence. <i>Psychiatry Research</i> , 2015, 230, 157-164.	3.3	14
30	Does attention bias modification improve attentional control? A double-blind randomized experiment with individuals with social anxiety disorder. <i>Journal of Anxiety Disorders</i> , 2015, 29, 35-42.	3.2	102
31	Depression: from psychopathology to pathophysiology. <i>Current Opinion in Neurobiology</i> , 2015, 30, 24-30.	4.2	142
32	Does Change in Self-reported Mindfulness Mediate the Clinical Benefits of Mindfulness Training? A Controlled Study Using the French Translation of the Five Facet Mindfulness Questionnaire. <i>Mindfulness</i> , 2015, 6, 553-559.	2.8	21
33	Mindfulness-Based Cognitive Therapy for Trichotillomania: A Bayesian Case-Control Study. <i>Psychologica Belgica</i> , 2015, 55, 118-133.	1.9	4
34	Below and beyond the recognition of emotional facial expressions in alcohol dependence: from&nbsp;basic perception to social cognition. <i>Neuropsychiatric Disease and Treatment</i> , 2014, 10, 2177.	2.2	28
35	Biased cognitions and social anxiety: building a global framework for integrating cognitive, behavioral, and neural processes. <i>Frontiers in Human Neuroscience</i> , 2014, 8, 538.	2.0	3
36	Probing smoking craving with a multidimensional approach: validation of the 12-item French-language version of the Questionnaire on Smoking Urges. <i>Neuropsychiatric Disease and Treatment</i> , 2014, 10, 1459.	2.2	4

#	ARTICLE	IF	CITATIONS
37	Validation de la version française d'un questionnaire évaluant les pensées répressives constructives et non constructives.. Canadian Journal of Behavioural Science, 2014, 46, 185-192.	0.6	42
38	Tinnitus specifically alters the top-down executive control sub-component of attention: Evidence from the Attention Network Task. Behavioural Brain Research, 2014, 269, 147-154.	2.2	86
39	Towards a cross-modal perspective of emotional perception in social anxiety: review and future directions. Frontiers in Human Neuroscience, 2014, 8, 322.	2.0	16
40	Why are Depressive Individuals Indecisive? Different Modes of Rumination Account for Indecision in Non-clinical Depression. Cognitive Therapy and Research, 2013, 37, 713-724.	1.9	56
41	Optimal attentional focus during exposure in specific phobia: A meta-analysis. Clinical Psychology Review, 2013, 33, 1172-1183.	11.4	26
42	A Bayesian Case-Controls Exploration of the Malleability of Attentional Bias for Threat in Social Phobia. International Journal of Cognitive Therapy, 2013, 6, 24-39.	2.2	5
43	The (neuro)cognitive mechanisms behind attention bias modification in anxiety: proposals based on theoretical accounts of attentional bias. Frontiers in Human Neuroscience, 2013, 7, 119.	2.0	122
44	Assessing public speaking fear with the short form of the Personal Report of Confidence as a Speaker scale: confirmatory factor analyses among a French-speaking community sample. Neuropsychiatric Disease and Treatment, 2013, 9, 609.	2.2	13
45	The Causal Role of Attentional Bias for Threat Cues in Social Anxiety: A Test on a Cyber-Ostracism Task. Cognitive Therapy and Research, 2012, 36, 512-521.	1.9	55
46	Attention training toward and away from threat in social phobia: Effects on subjective, behavioral, and physiological measures of anxiety. Behaviour Research and Therapy, 2012, 50, 30-39.	3.1	164
47	Adaptive and maladaptive perfectionism in depression: Preliminary evidence on the role of adaptive and maladaptive rumination. Personality and Individual Differences, 2012, 53, 774-778.	2.9	49
48	A Randomized Controlled Trial of Mindfulness-Based Cognitive Therapy for Treating Tinnitus. Clinical Psychology and Psychotherapy, 2012, 19, 411-419.	2.7	73
49	Chemosensory event-related potentials in alcoholism: A specific impairment for olfactory function. Biological Psychology, 2011, 88, 28-36.	2.2	15
50	How does attention training work in social phobia: Disengagement from threat or re-engagement to non-threat?. Journal of Anxiety Disorders, 2011, 25, 1108-1115.	3.2	79
51	Adaptive and maladaptive rumination in alexithymia and their relation with depressive symptoms. Personality and Individual Differences, 2011, 50, 10-14.	2.9	34
52	Changes in Ruminative Thinking Mediate the Clinical Benefits of Mindfulness: Preliminary Findings. Mindfulness, 2011, 2, 8-13.	2.8	105
53	Cognitive Processing Specificity of Anxious Apprehension: Impact on Distress and Performance During Speech Exposure. Behavior Therapy, 2010, 41, 575-586.	2.4	1
54	Level of processing modulates benefits of writing about stressful events: Comparing generic and specific recall. Cognition and Emotion, 2010, 24, 1117-1132.	2.0	13

#	ARTICLE	IF	CITATIONS
55	The effects of mindfulness on executive processes and autobiographical memory specificity. <i>Behaviour Research and Therapy</i> , 2009, 47, 403-409.	3.1	249
56	Regulating emotion during imaginal exposure to social anxiety: Impact of the specificity of information processing. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2009, 40, 274-282.	1.2	11
57	Induced rumination dampens executive processes in dysphoric young adults. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2008, 39, 219-227.	1.2	122
58	Specifying what makes a personal memory unique enhances emotion regulation.. <i>Emotion</i> , 2007, 7, 566-578.	1.8	28
59	Specifying emotional information: Regulation of emotional intensity via executive processes.. <i>Emotion</i> , 2006, 6, 560-571.	1.8	41
60	Improving patients' compliance with the treatment of periodontitis: a controlled study of behavioural intervention. <i>Journal of Clinical Periodontology</i> , 2005, 32, 653-658.	4.9	49
61	Selective Attention to Angry Faces in Clinical Social Phobia.. <i>Journal of Abnormal Psychology</i> , 2004, 113, 160-165.	1.9	478
62	Neural correlates of "hot" and "cold" emotional processing: a multilevel approach to the functional anatomy of emotion. <i>NeuroImage</i> , 2003, 18, 938-949.	4.2	80
63	Consequences of specific processing of emotional information: Impact of general versus specific autobiographical memory priming on emotion elicitation.. <i>Emotion</i> , 2003, 3, 270-283.	1.8	92
64	IMPAIRED EMOTIONAL FACIAL EXPRESSION RECOGNITION IS ASSOCIATED WITH INTERPERSONAL PROBLEMS IN ALCOHOLISM. <i>Alcohol and Alcoholism</i> , 2002, 37, 394-400.	1.6	188
65	Respiratory feedback in the generation of emotion. <i>Cognition and Emotion</i> , 2002, 16, 605-627.	2.0	167
66	Alcoholics' Deficits in the Decoding of Emotional Facial Expression. <i>Alcoholism: Clinical and Experimental Research</i> , 1999, 23, 1031-1038.	2.4	102
67	Inducing and assessing differentiated emotion-feeling states in the laboratory. <i>Cognition and Emotion</i> , 1993, 7, 171-193.	2.0	311
68	Emotion Information Processing and Affect Regulation: Specificity Matters!. , 0, , 189-209.		5
69	I am not the parent I should be: Cross-sectional and prospective associations between parental self-discrepancies and parental burnout. <i>Self and Identity</i> , 0, , 1-26.	1.6	7
70	A Mindfulness-Based Intervention for Adolescents with Behavior Disorders: Controlled Trial with Partial Randomization. <i>Mindfulness</i> , 0, , 1.	2.8	1
