#	ARTICLE	IF	CITATIONS
1	Frequent attendance at the emergency department shows typical features of complex systems: analysis of multicentre linked data. <i>Emergency Medicine Journal</i> , 2022, 39, 3-9.	1.0	8
2	Heterogeneity of reasons for attendance in frequent attenders of emergency departments and its relationship to future attendance. <i>Emergency Medicine Journal</i> , 2022, 39, 10-15.	1.0	5
3	Power Dynamics Among Health Professionals in Nigeria: A Case Study of the Global Fund Policy Process. <i>International Journal of Health Policy and Management</i> , 2022, , .	0.9	2
4	Learning from COVID-19 related trial adaptations to inform efficient trial design—a sequential mixed methods study. <i>BMC Medical Research Methodology</i> , 2022, 22, 128.	3.1	3
5	Can-Pain-a digital intervention to optimise cancer pain control in the community: development and feasibility testing. <i>Supportive Care in Cancer</i> , 2021, 29, 759-769.	2.2	15
6	Extended use or reuse of single-use surgical masks and filtering face-piece respirators during the coronavirus disease 2019 (COVID-19) pandemic: A rapid systematic review. <i>Infection Control and Hospital Epidemiology</i> , 2021, 42, 75-83.	1.8	42
7	Performance and impact of disposable and reusable respirators for healthcare workers during pandemic respiratory disease: a rapid evidence review. <i>Occupational and Environmental Medicine</i> , 2021, 78, 679-690.	2.8	3
8	Antibiotic prescribing for respiratory tract infection: exploring drivers of cognitive effort and factors associated with inappropriate prescribing. <i>Family Practice</i> , 2021, 38, 740-750.	1.9	3
9	Recognising and explaining functional neurological disorder. <i>BMJ, The</i> , 2020, 371, m3745.	6.0	38
10	The efficacy of PPE for COVID-19-type respiratory illnesses in primary and community care staff. <i>British Journal of General Practice</i> , 2020, 70, 413-416.	1.4	11
11	Clinical features in primary care electronic records before diagnosis of ankylosing spondylitis: a nested case-control study. <i>BMC Family Practice</i> , 2020, 21, 78.	2.9	3
12	The social life of self-harm in general practice. <i>Social Theory and Health</i> , 2020, 18, 240-256.	1.8	4
13	Functional somatic disorders: discussion paper for a new common classification for research and clinical use. <i>BMC Medicine</i> , 2020, 18, 34.	5.5	122
14	Steps to benefit from social prescription: a qualitative interview study. <i>British Journal of General Practice</i> , 2020, 70, e36-e44.	1.4	26
15	Patients'™ descriptions of the relation between physical symptoms and negative emotions: a qualitative analysis of primary care consultations. <i>British Journal of General Practice</i> , 2020, 70, e78-e85.	1.4	9
16	Contribution of primary care organisation and specialist care provider to variation in GP referrals for suspected cancer: ecological analysis of national data. <i>BMJ Quality and Safety</i> , 2020, 29, 296-303.	3.7	16
17	Statistical complexity of reasons for encounter in high users of out of hours primary care: analysis of a national service. <i>BMC Health Services Research</i> , 2019, 19, 108.	2.2	3
18	The use, quality and effectiveness of pelvic examination in primary care for the detection of gynaecological cancer: a systematic review. <i>Family Practice</i> , 2019, 36, 378-386.	1.9	1

#	ARTICLE	IF	CITATIONS
19	Epigenetics and primary care. <i>British Journal of General Practice</i> , 2018, 68, 8-9.	1.4	1
20	Bayesian hierarchical vector autoregressive models for patient-level predictive modeling. <i>PLoS ONE</i> , 2018, 13, e0208082.	2.5	5
21	Professional resilience in GPs working in areas of socioeconomic deprivation: a qualitative study in primary care. <i>British Journal of General Practice</i> , 2018, 68, e819-e825.	1.4	22
22	Do healthcare services behave as complex systems? Analysis of patterns of attendance and implications for service delivery. <i>BMC Medicine</i> , 2018, 16, 138.	5.5	21
23	Improving Prediction of Risk of Hospital Admission in Chronic Obstructive Pulmonary Disease: Application of Machine Learning to Telemonitoring Data. <i>Journal of Medical Internet Research</i> , 2018, 20, e263.	4.3	40
24	Can patient-reported measurements of pain be used to improve cancer pain management? A systematic review and meta-analysis. <i>BMJ Supportive and Palliative Care</i> , 2017, 7, 00.1-00.	1.6	21
25	Do patients have worse outcomes in heart failure than in cancer? A primary care-based cohort study with 10-year follow-up in Scotland. <i>European Journal of Heart Failure</i> , 2017, 19, 1095-1104.	7.1	213
26	A taxonomy of explanations in a general practitioner clinic for patients with persistent "medically unexplained" physical symptoms. <i>Patient Education and Counseling</i> , 2017, 100, 224-230.	2.2	24
27	Associations of treatment effects between follow-up times and between outcome domains in interventions for somatoform disorders: Review of three Cochrane reviews. <i>Journal of Psychosomatic Research</i> , 2017, 98, 10-18.	2.6	9
28	Negotiating explanations: doctor-patient communication with patients with medically unexplained symptoms—a qualitative analysis. <i>Family Practice</i> , 2017, 34, 107-113.	1.9	17
29	Distinguishing variation in referral accuracy from referral threshold: analysis of a national dataset of referrals for suspected cancer. <i>BMJ Open</i> , 2017, 7, e016439.	1.9	12
30	Pointers to earlier diagnosis of endometriosis: a nested case-control study using primary care electronic health records. <i>British Journal of General Practice</i> , 2017, 67, e816-e823.	1.4	16
31	Core Outcome Domains for Clinical Trials on Somatic Symptom Disorder, Bodily Distress Disorder, and Functional Somatic Syndromes: European Network on Somatic Symptom Disorders Recommendations. <i>Psychosomatic Medicine</i> , 2017, 79, 1008-1015.	2.0	82
32	The value of different aspects of person-centred care: a series of discrete choice experiments in people with long-term conditions. <i>BMJ Open</i> , 2017, 7, e015689.	1.9	36
33	"Medically unexplained" symptoms and symptom disorders in primary care: prognosis-based recognition and classification. <i>BMC Family Practice</i> , 2017, 18, 18.	2.9	75
34	Developmental study of treatment fidelity, safety and acceptability of a Symptoms Clinic intervention delivered by General Practitioners to patients with multiple medically unexplained symptoms. <i>Journal of Psychosomatic Research</i> , 2016, 84, 37-43.	2.6	13
35	Resilience of primary healthcare professionals: a systematic review. <i>British Journal of General Practice</i> , 2016, 66, e423-e433.	1.4	136
36	Pilot randomised controlled trial of Help4Mood, an embodied virtual agent-based system to support treatment of depression. <i>Journal of Telemedicine and Telecare</i> , 2016, 22, 348-355.	2.7	94

#	ARTICLE	IF	CITATIONS
37	General Practitioners'™ Accounts of Patients Who Have Self-Harmed. <i>Crisis</i> , 2016, 37, 42-50.	1.2	16
38	Engaging the citizenship of the homeless'™ a qualitative study of specialist primary care providers: Table 1.. <i>Family Practice</i> , 2015, 32, cmv036.	1.9	19
39	Restarting antidepressant treatment following early discontinuation'™ a primary care database study. <i>Family Practice</i> , 2015, 32, 520-524.	1.9	10
40	Is self-monitoring an effective option for people receiving long-term vitamin K antagonist therapy? A systematic review and economic evaluation. <i>BMJ Open</i> , 2015, 5, e007758.	1.9	23
41	Changes in telemonitored physiological variables and symptoms prior to exacerbations of chronic obstructive pulmonary disease. <i>Journal of Telemedicine and Telecare</i> , 2015, 21, 29-36.	2.7	52
42	General practice performance in referral for suspected cancer: influence of number of cases and case-mix on publicly reported data. <i>British Journal of Cancer</i> , 2015, 112, 1791-1798.	6.4	16
43	Explaining the variation between practices in the duration of new antidepressant treatment: a database cohort study in primary care. <i>British Journal of General Practice</i> , 2015, 65, e114-e120.	1.4	6
44	Physical Disease and Resilient Outcomes: A Systematic Review of Resilience Definitions and Study Methods. <i>Psychosomatics</i> , 2015, 56, 168-180.	2.5	73
45	Explaining symptoms after negative tests: towards a rational explanation. <i>Journal of the Royal Society of Medicine</i> , 2015, 108, 84-88.	2.0	30
46	The clinical effectiveness and cost-effectiveness of point-of-care tests (CoaguChek system, INRatio2) Tj ETQq0 0 0 rgBT /Overlock 10 Tf status of people receiving long-term vitamin K antagonist therapy, compared with standard UK practice: systematic review and economic evaluation. <i>Health Technology Assessment</i> , 2015, 19, 1-172.	2.8	31
47	Resilience does matter: evidence from a 10-year cohort record linkage study. <i>BMJ Open</i> , 2014, 4, e003917.	1.9	21
48	Can we explain medically unexplained symptoms?. <i>Family Practice</i> , 2014, 31, 623-624.	1.9	9
49	Individual variation in temporal relationships between stress and functional somatic symptoms. <i>Journal of Psychosomatic Research</i> , 2014, 77, 34-39.	2.6	32
50	A qualitative study of primary care professionals'™ views of case finding for depression in patients with diabetes or coronary heart disease in the UK. <i>BMC Family Practice</i> , 2013, 14, 46.	2.9	37
51	Activity monitoring in patients with depression: A systematic review. <i>Journal of Affective Disorders</i> , 2013, 145, 21-28.	4.1	193
52	Reassurance After Diagnostic Testing With a Low Pretest Probability of Serious Disease. <i>JAMA Internal Medicine</i> , 2013, 173, 407.	5.1	139
53	Diagnosis and treatment of depression following routine screening in patients with coronary heart disease or diabetes: a database cohort study. <i>Psychological Medicine</i> , 2013, 43, 529-537.	4.5	44
54	Enhanced care by generalists for functional somatic symptoms and disorders in primary care. <i>The Cochrane Library</i> , 2013, , CD008142.	2.8	40

#	ARTICLE	IF	CITATIONS
55	A primary care Symptoms Clinic for patients with medically unexplained symptoms: pilot randomised trial. <i>BMJ Open</i> , 2012, 2, e000513.	1.9	37
56	Clinical implications of the Royal College of Physicians three questions in routine asthma care: a real-life validation study. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2012, 21, 288-294.	2.3	41
57	Healthcare costs incurred by patients repeatedly referred to secondary medical care with medically unexplained symptoms: A cost of illness study. <i>Journal of Psychosomatic Research</i> , 2012, 72, 242-247.	2.6	42
58	Is co-morbid depression adequately treated in patients repeatedly referred to specialist medical services with symptoms of a medical condition?. <i>Journal of Psychosomatic Research</i> , 2012, 72, 419-421.	2.6	5
59	Factors associated with duration of new antidepressant treatment: analysis of a large primary care database. <i>British Journal of General Practice</i> , 2012, 62, e104-e112.	1.4	41
60	Heavy Tailed Distributions of Effect Sizes in Systematic Reviews of Complex Interventions. <i>PLoS ONE</i> , 2012, 7, e34222.	2.5	17
61	Psychosocial implications of avatar use in supporting therapy for depression. <i>Studies in Health Technology and Informatics</i> , 2012, 181, 329-33.	0.3	11
62	Current state of management and organisation of care. , 2011, , 97-123.		6
63	The interpretation of low mood and worry by high users of secondary care with medically unexplained symptoms. <i>BMC Family Practice</i> , 2011, 12, 107.	2.9	7
64	Depression and anxiety in patients repeatedly referred to secondary care with medically unexplained symptoms: a case-control study. <i>Psychological Medicine</i> , 2011, 41, 555-563.	4.5	31
65	Patients repeatedly referred to secondary care with symptoms unexplained by organic disease: prevalence, characteristics and referral pattern. <i>Family Practice</i> , 2010, 27, 479-486.	1.9	35
66	Understanding the experiences of allergy testing: a qualitative study of people with perceived serious allergic disorders. <i>Postgraduate Medical Journal</i> , 2010, 86, 591-596.	1.8	4
67	Reduced complexity of activity patterns in patients with Chronic Fatigue Syndrome: a case control study. <i>BioPsychoSocial Medicine</i> , 2009, 3, 7.	2.1	10
68	The identification in primary care of patients who have been repeatedly referred to hospital for medically unexplained symptoms: A pilot study. <i>Journal of Psychosomatic Research</i> , 2009, 67, 207-211.	2.6	18
69	Functional Somatic Symptoms and Psychological States: An Electronic Diary Study. <i>Psychosomatic Medicine</i> , 2009, 71, 77-83.	2.0	27
70	UK Resuscitation Council guidelines on emergency treatment of anaphylactic reactions: a primary care perspective. <i>Primary Care Respiratory Journal: Journal of the General Practice Airways Group</i> , 2008, 17, 60-61.	2.3	3
71	Are electronic diaries useful for symptoms research? A systematic review. <i>Journal of Psychosomatic Research</i> , 2007, 62, 553-561.	2.6	81
72	The safety and adequacy of antithrombotic therapy for atrial fibrillation: a regional cohort study. <i>British Journal of General Practice</i> , 2006, 56, 697-702.	1.4	24

#	ARTICLE	IF	CITATIONS
73	General practice as a complex system: a novel analysis of consultation data. <i>Family Practice</i> , 2005, 22, 347-352.	1.9	17
74	Beyond somatisation: a review of the understanding and treatment of medically unexplained physical symptoms (MUPS). <i>British Journal of General Practice</i> , 2003, 53, 231-9.	1.4	164
75	Title is missing!. <i>European Journal of Cardiovascular Prevention and Rehabilitation</i> , 2001, 8, 307-309.	1.5	0
