#	ARTICLE	IF	CITATIONS
1	Burnout, coping strategies and help-seeking in general practitioners: a two-wave survey study in Denmark. <i>BMJ Open</i> , 2022, 12, e051867.	1.9	3
2	Patient's worry about cancer and the general practitioner's suspicion of cancer or serious illness: A population-based study in Denmark. <i>European Journal of Cancer Care</i> , 2021, 30, e13411.	1.5	3
3	Alignment between the patient's cancer worry and the GP's cancer suspicion and the association with the interval between first symptom presentation and referral: a cross-sectional study in Denmark. <i>BMC Family Practice</i> , 2021, 22, 129.	2.9	6
4	Influence of patient multimorbidity on GP burnout: a survey and register-based study in Danish general practice. <i>British Journal of General Practice</i> , 2020, 70, e95-e101.	1.4	29
5	Communication quality in telephone triage conducted by general practitioners, nurses or physicians: a quasi-experimental study using the AQT to assess audio-recorded telephone calls to out-of-hours primary care in Denmark. <i>BMJ Open</i> , 2020, 10, e033528.	1.9	5
6	Cancer beliefs and participation in screening for colorectal cancer: A Danish cohort study based on data from the International Cancer Benchmarking Partnership and national registers. <i>Preventive Medicine</i> , 2019, 121, 11-17.	3.4	2
7	Communicative characteristics of general practitioner-led and nurse-led telephone triage at two Danish out-of-hours services: an observational study of 200 recorded calls. <i>BMJ Open</i> , 2019, 9, e028434.	1.9	6
8	Patient-physician relationship and use of gut feeling in cancer diagnosis in primary care: a cross-sectional survey of patients and their general practitioners. <i>BMJ Open</i> , 2019, 9, e027288.	1.9	8
9	Mental well-being and job satisfaction in general practitioners in Denmark and their patients' change of general practitioner: a cohort study combining survey data and register data. <i>BMJ Open</i> , 2019, 9, e030142.	1.9	8
10	Mental well-being, job satisfaction and self-rated workability in general practitioners and hospitalisations for ambulatory care sensitive conditions among listed patients: a cohort study combining survey data on GPs and register data on patients. <i>BMJ Quality and Safety</i> , 2019, 28, bmjqs-2018-009039.	3.7	11
11	Cancer beliefs in cancer survivors, cancer relatives and persons with no cancer experience. <i>Scandinavian Journal of Public Health</i> , 2019, 47, 497-503.	2.3	5
12	Empathy, burn-out and the use of gut feeling: a cross-sectional survey of Danish general practitioners. <i>BMJ Open</i> , 2018, 8, e020007.	1.9	21
13	Mental well-being and job satisfaction among general practitioners: a nationwide cross-sectional survey in Denmark. <i>BMC Family Practice</i> , 2018, 19, 130.	2.9	45
14	Negative cancer beliefs, recognition of cancer symptoms and anticipated time to help-seeking: an international cancer benchmarking partnership (ICBP) study. <i>BMC Cancer</i> , 2018, 18, 363.	2.6	40
15	Non-participation in breast cancer screening among previous cancer patients. <i>Journal of Cancer Research and Clinical Oncology</i> , 2018, 144, 1959-1966.	2.5	3
16	Measurement properties of the Danish version of the Awareness and Beliefs about Cancer (ABC) measure. <i>BMC Medical Research Methodology</i> , 2017, 17, 74.	3.1	3
17	Activation of professional and personal network relations when experiencing a symptom: a population-based cross-sectional study. <i>BMJ Open</i> , 2017, 7, e017620.	1.9	4
18	Data quality and factor analysis of the Danish version of the Relationship Scale Questionnaire. <i>PLoS ONE</i> , 2017, 12, e0176810.	2.5	5

#	ARTICLE	IF	CITATIONS
19	What triggers healthcare-seeking behaviour when experiencing a symptom? Results from a population-based survey. <i>BJGP Open</i> , 2017, 1, bjgpopen17X100761.	1.8	20
20	Time from first symptom experience to help seeking for colorectal cancer patients: Associations with cognitive and emotional symptom representations. <i>Patient Education and Counseling</i> , 2016, 99, 807-813.	2.2	7
21	Substance Use Disorders Among Danish Physicians. <i>Journal of Addiction Medicine</i> , 2016, 10, 248-254.	2.6	11
22	Awareness of cancer symptoms and anticipated patient interval for healthcare seeking. A comparative study of Denmark and Sweden. <i>Acta Oncologica</i> , 2016, 55, 917-924.	1.8	3
23	Psychiatric morbidity and non-participation in breast cancer screening. <i>Breast</i> , 2016, 25, 38-44.	2.2	33
24	Social support and non-participation in breast cancer screening: a Danish cohort study. <i>Journal of Public Health</i> , 2016, 38, 335-342.	1.8	26
25	Risky alcohol use in Danish physicians: Associated with alexithymia and burnout?. <i>Drug and Alcohol Dependence</i> , 2016, 160, 119-126.	3.2	64
