#	ARTICLE	IF	CITATIONS
1	Generating best evidence from qualitative research: the role of data analysis. Australian and New Zealand Journal of Public Health, 2007, 31, 545-550.	1.8	562
2	A hierarchy of evidence for assessing qualitative health research. Journal of Clinical Epidemiology, 2007, 60, 43-49.	5.0	415
3	Migration to western industrialised countries and perinatal health: A systematic review. Social Science and Medicine, 2009, 69, 934-946.	3.8	268
4	Association between depression and abuse by partners of women attending general practice: descriptive, cross sectional survey. BMJ: British Medical Journal, 2004, 328, 621-624.	2.3	187
5	Birth events, birth experiences and social differences in postnatal depression. Australian Journal of Public Health, 1994, 18, 176-184.	0.2	177
6	Randomised controlled trial of midwife led debriefing to reduce maternal depression after operative childbirth. BMJ: British Medical Journal, 2000, 321, 1043-1047.	2.3	176
7	Stillbirths and infant deaths among migrants in industrialized countries. Acta Obstetrica Et Gynecologica Scandinavica, 2009, 88, 134-148.	2.8	167
8	Somali women and their pregnancy outcomes postmigration: data from six receiving countries. BJOG: an International Journal of Obstetrics and Gynaecology, 2008, 115, 1630-1640.	2.3	165
9	Immigrant and non-immigrant women's experiences of maternity care: a systematic and comparative review of studies in five countries. BMC Pregnancy and Childbirth, 2014, 14, 152.	2.4	157
10	Giving offspring a healthy start: parents' experiences of health promotion and lifestyle change during pregnancy and early parenthood. BMC Public Health, 2011, 11, 936.	2.9	119
11	Early postnatal discharge from hospital for healthy mothers and term infants. The Cochrane Library, 2002, , CD002958.	2.8	109
12	Cross-cultural experiences of maternal depression: associations and contributing factors for Vietnamese, Turkish and Filipino immigrant women in Victoria, Australia. Ethnicity and Health, 2003, 8, 189-206.	2.5	104
13	Mothers' AdvocateS In the Community (MOSAIC)- non-professional mentor support to reduce intimate partner violence and depression in mothers: a cluster randomised trial in primary care. BMC Public Health, 2011, 11, 178.	2.9	104
14	International migration and caesarean birth: a systematic review and meta-analysis. BMC Pregnancy and Childbirth, 2013, 13, 27.	2.4	100
15	Mothers in a New Country: The Role of Culture and Communication in Vietnamese, Turkish and Filipino Women's Experiences of Giving Birth in Australia. Women and Health, 1999, 28, 77-101.	1.0	95
16	Applying normalization process theory to understand implementation of a family violence screening and care model in maternal and child health nursing practice: a mixed method process evaluation of a randomised controlled trial. Implementation Science, 2015, 10, 39.	6.9	91
17	Immigrant Women's Views About Care During Labor and Birth: An Australian Study of Vietnamese, Turkish, and Filipino Women. Birth, 2002, 29, 266-277.	2.2	87
18	Lived experience of gestational diabetes mellitus among immigrant South Asian women in Australia. Australian and New Zealand Journal of Obstetrics and Gynaecology, 2011, 51, 360-364.	1.0	86

#	ARTICLE	IF	CITATIONS
19	Missing voices: What women say and do about depression after childbirth. <i>Journal of Reproductive and Infant Psychology</i> , 1994, 12, 89-103.	1.8	85
20	Debriefing interventions for the prevention of psychological trauma in women following childbirth. <i>The Cochrane Library</i> , 2015, , CD007194.	2.8	73
21	Severe maternal morbidity associated with maternal birthplace in three high-immigration settings. <i>European Journal of Public Health</i> , 2015, 25, 620-625.	0.3	66
22	Support, sensitivity, satisfaction: Filipino, Turkish and Vietnamese women's experiences of postnatal hospital stay. <i>Midwifery</i> , 1998, 14, 144-154.	2.3	62
23	The performance of the Edinburgh Postnatal Depression Scale in English speaking and non-English speaking populations in Australia. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2007, 42, 70-78.	3.1	61
24	PRISM (Program of Resources, Information and Support for Mothers): a community-randomised trial to reduce depression and improve women's physical health six months after birth [ISRCTN03464021]. <i>BMC Public Health</i> , 2006, 6, 37.	2.9	58
25	Maternal and child health nurse screening and care for mothers experiencing domestic violence (MOVE): a cluster randomised trial. <i>BMC Medicine</i> , 2015, 13, 150.	5.5	56
26	The power of social connection and support in improving health: lessons from social support interventions with childbearing women. <i>BMC Public Health</i> , 2011, 11, S4.	2.9	55
27	Women's experiences of labour pain and the role of the mind: An exploratory study. <i>Midwifery</i> , 2014, 30, 1029-1035.	2.3	55
28	Cross-cultural research: trying to do it better 2. Enhancing data quality. <i>Australian and New Zealand Journal of Public Health</i> , 1999, 23, 390-395.	1.8	52
29	Women's views and experiences of maternity care: A study of immigrant Afghan women in Melbourne, Australia. <i>Midwifery</i> , 2012, 28, 198-203.	2.3	52
30	Maternity services are not meeting the needs of immigrant women of non-English speaking background: Results of two consecutive Australian population based studies. <i>Midwifery</i> , 2015, 31, 664-670.	2.3	51
31	Depression after childbirth. <i>Medical Journal of Australia</i> , 1994, 161, 473-477.	1.7	50
32	The meaning of labour pain: how the social environment and other contextual factors shape women's experiences. <i>BMC Pregnancy and Childbirth</i> , 2017, 17, 157.	2.4	49
33	Life with a new baby: How do immigrant and Australian-born women's experiences compare?. <i>Australian and New Zealand Journal of Public Health</i> , 2010, 34, 412-421.	1.8	47
34	Reflections on maternal health care within the Victorian Maternal and Child Health Service. <i>Australian Journal of Primary Health</i> , 2016, 22, 77.	0.9	46
35	Early discharge: no evidence of adverse outcomes in three consecutive population-based Australian surveys of recent mothers, conducted in 1989, 1994 and 2000. <i>Paediatric and Perinatal Epidemiology</i> , 2004, 18, 202-213.	1.7	45
36	The essential role of social theory in qualitative public health research. <i>Australian and New Zealand Journal of Public Health</i> , 2007, 31, 438-443.	1.8	45
