#	ARTICLE	IF	CITATIONS
1	Early environmental influences on the development of children's brain structure and function. <i>Developmental Medicine and Child Neurology</i> , 2019, 61, 1127-1133.	1.1	173
2	Environmental enrichment increases transcriptional and epigenetic differentiation between mouse dorsal and ventral dentate gyrus. <i>Nature Communications</i> , 2018, 9, 298.	5.8	106
3	Effects of Antenatal Maternal Depressive Symptoms and Socio-Economic Status on Neonatal Brain Development are Modulated by Genetic Risk. <i>Cerebral Cortex</i> , 2017, 27, 3080-3092.	1.6	90
4	Cumulative prenatal exposure to adversity reveals associations with a broad range of neurodevelopmental outcomes that are moderated by a novel, biologically informed polygenetic score based on the serotonin transporter solute carrier family C6, member 4 (<i>SLC6A4</i>) gene expression. <i>Development and Psychopathology</i> , 2017, 29, 1601-1617.	1.4	43
5	Positive maternal mental health during pregnancy associated with specific forms of adaptive development in early childhood: Evidence from a longitudinal study. <i>Development and Psychopathology</i> , 2017, 29, 1573-1587.	1.4	50
6	Fetal Origins of Mental Health: The Developmental Origins of Health and Disease Hypothesis. <i>American Journal of Psychiatry</i> , 2017, 174, 319-328.	4.0	419
7	The joint contribution of maternal history of early adversity and adulthood depression to socioeconomic status and potential relevance for offspring development. <i>Journal of Affective Disorders</i> , 2017, 207, 26-31.	2.0	16
8	Poor infant inhibitory control predicts food fussiness in childhood – A possible protective role of n-3 PUFAs for vulnerable children. <i>Prostaglandins Leukotrienes and Essential Fatty Acids</i> , 2015, 97, 21-25.	1.0	17
9	Brain-derived neurotrophic factor (<i>BDNF</i>) Val66Met polymorphism influences the association of the methylome with maternal anxiety and neonatal brain volumes. <i>Development and Psychopathology</i> , 2015, 27, 137-150.	1.4	68
10	COMT Haplotypes Modulate Associations of Antenatal Maternal Anxiety and Neonatal Cortical Morphology. <i>American Journal of Psychiatry</i> , 2015, 172, 163-172.	4.0	85
11	The effect of genotype and in utero environment on interindividual variation in neonate DNA methylomes. <i>Genome Research</i> , 2014, 24, 1064-1074.	2.4	317
12	Epigenetics and the Biological Definition of Gene-Environment Interactions. <i>Child Development</i> , 2010, 81, 41-79.	1.7	1,082
13	Epigenetic regulation of the glucocorticoid receptor in human brain associates with childhood abuse. <i>Nature Neuroscience</i> , 2009, 12, 342-348.	7.1	3,035
14	Epigenetic programming by maternal behavior. <i>Nature Neuroscience</i> , 2004, 7, 847-854.	7.1	5,564
