#	ARTICLE	IF	CITATIONS
1	OUP accepted manuscript. Health Promotion International, 2022, , .	1.8	5
2	Maternal prenatal infection and anxiety predict neurodevelopmental outcomes in middle childhood.. , 2022, 131, 422-434.		13
3	A randomized, controlled pilot study of cognitive analytic therapy for stressed pregnant women with underlying anxiety and depression in a routine health service setting. Clinical Psychology and Psychotherapy, 2021, 28, 394-408.	2.7	3
4	Prenatal androgen exposure and children's gender-typed behavior and toy and playmate preferences. Hormones and Behavior, 2021, 127, 104889.	2.1	15
5	Breastfeeding, prenatal depression and children's IQ and behaviour: a test of a moderation model. BMC Pregnancy and Childbirth, 2021, 21, 62.	2.4	8
6	The Developmental Effects of Prenatal Maternal Stress: Evolutionary Explanations. , 2021, , 23-52.		2
7	How music may support perinatal mental health: an overview. Archives of Women's Mental Health, 2021, 24, 831-839.	2.6	11
8	Prenatal stress: Effects on fetal and child brain development. International Review of Neurobiology, 2020, 150, 17-40.	2.0	152
9	Effects of Maternal Prenatal Stress on the Fetal Brain and Hope for the Prevention of Psychopathology. Biological Psychiatry, 2020, 87, 487-488.	1.3	4
10	Prenatal mental health and the effects of stress on the foetus and the child. Should psychiatrists look beyond mental disorders?. World Psychiatry, 2020, 19, 331-332.	10.4	18
11	Community psychosocial music intervention (CHIME) to reduce antenatal common mental disorder symptoms in The Gambia: a feasibility trial. BMJ Open, 2020, 10, e040287.	1.9	13
12	Infant Temperament: Repercussions of Superstorm Sandy-Related Maternal Stress. Child Psychiatry and Human Development, 2019, 50, 150-162.	1.9	19
13	A study protocol for testing the feasibility of a randomised stepped wedge cluster design to investigate a Community Health Intervention through Musical Engagement (CHIME) for perinatal mental health in The Gambia. Pilot and Feasibility Studies, 2019, 5, 124.	1.2	4
14	High rates of maternal depression amongst Syrian refugees in Lebanon - a pilot study. Scientific Reports, 2019, 9, 11849.	3.3	17
15	Microbiota of newborn meconium is associated with maternal anxiety experienced during pregnancy. Developmental Psychobiology, 2019, 61, 640-649.	1.6	37
16	Influence of in utero exposure to maternal depression and natural disaster-related stress on infant temperament at 6 months: The children of Superstorm Sandy. Infant Mental Health Journal, 2019, 40, 204-216.	1.8	37
17	Maternal prenatal stress and placental gene expression of NR3C1 and HSD11B2: The effects of maternal ethnicity. Psychoneuroendocrinology, 2018, 87, 166-172.	2.7	53
18	Prenatal maternal stress, fetal programming, and mechanisms underlying later psychopathology: A global perspective. Development and Psychopathology, 2018, 30, 843-854.	2.3	155

#	ARTICLE	IF	CITATIONS
19	Associations between maternal psychological distress and salivary cortisol during pregnancy: A mixed-models approach. <i>Psychoneuroendocrinology</i> , 2018, 96, 52-60.	2.7	39
20	Prenatal Depression and Infant Temperament: The Moderating Role of Placental Gene Expression. <i>Infancy</i> , 2018, 23, 211-231.	1.6	17
21	Neurodevelopmental consequences in offspring of mothers with preeclampsia during pregnancy: underlying biological mechanism via imprinting genes. <i>Archives of Gynecology and Obstetrics</i> , 2017, 295, 1319-1329.	1.7	50
22	British Association for Psychopharmacology consensus guidance on the use of psychotropic medication preconception, in pregnancy and postpartum 2017. <i>Journal of Psychopharmacology</i> , 2017, 31, 519-552.	4.0	166
23	Associated symptoms of depression: patterns of change during pregnancy. <i>Archives of Women's Mental Health</i> , 2017, 20, 123-128.	2.6	30
24	Antenatal psychological and socioeconomic predictors of breastfeeding in a large community sample. <i>Early Human Development</i> , 2017, 110, 50-56.	1.8	28
25	Associated symptoms of depression: patterns of change during pregnancy. <i>Archives of Women's Mental Health</i> , 2017, 20, 593-594.	2.6	3
26	Prenatal parenting. <i>Current Opinion in Psychology</i> , 2017, 15, 66-70.	4.9	54
27	Maternal prenatal cortisol predicts infant negative emotionality in a sex-dependent manner. <i>Physiology and Behavior</i> , 2017, 175, 31-36.	2.1	66
28	Evening salivary cortisol and alpha-amylase at 14 months and neurodevelopment at 4 years: Sex differences. <i>Hormones and Behavior</i> , 2017, 94, 135-144.	2.1	12
29	Initial protocol for a national evaluation of an area-based intervention programme (A Better Start) on early-life outcomes: a longitudinal cohort study with comparison (control) cohort samples. <i>BMJ Open</i> , 2017, 7, e015086.	1.9	1
30	Prenatal androgen exposure and children's aggressive behavior and activity level. <i>Hormones and Behavior</i> , 2017, 96, 156-165.	2.1	28
31	Prenatal listening to songs composed for pregnancy and symptoms of anxiety and depression: a pilot study. <i>BMC Complementary and Alternative Medicine</i> , 2017, 17, 256.	3.7	28
32	Maternal prenatal anxiety and child COMT genotype predict working memory and symptoms of ADHD. <i>PLoS ONE</i> , 2017, 12, e0177506.	2.5	35
33	New Insights into Prenatal Stress: Immediate- and Long-Term Effects on the Fetus and Their Timing. , 2017, , 75-85.		1
34	Maternal Prenatal Stress and the Developmental Origins of Mental Health. , 2016, , 103-126.		4
35	Inter-individual differences in the effects of maternal prenatal anxiety on child neurodevelopment: Implications for personalized medicine in perinatal mental health. <i>Psychoneuroendocrinology</i> , 2016, 71, 6.	2.7	0
36	Maternal Anxiety, Depression, and Stress During Pregnancy: Effects on the Fetus and the Child, and Underlying Mechanisms. , 2016, , 213-227.		7

#	ARTICLE	IF	CITATIONS
37	No relationship between prenatal androgen exposure and autistic traits: convergent evidence from studies of children with congenital adrenal hyperplasia and of amniotic testosterone concentrations in typically developing children. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2016, 57, 1455-1462.	5.2	73
38	Maternal depression and mental health in early childhood: an examination of underlying mechanisms in low-income and middle-income countries. <i>Lancet Psychiatry</i> , 2016, 3, 983-992.	7.4	232
39	Stress: Effects on Neonatal and Child Development. , 2015, , 556-561.		0
40	Associations of maternal and paternal antenatal mood with offspring anxiety disorder at age 18 years. <i>Journal of Affective Disorders</i> , 2015, 187, 20-26.	4.1	121
41	Prenatal Stress and Its Effects on the Fetus and the Child: Possible Underlying Biological Mechanisms. <i>Advances in Neurobiology</i> , 2015, 10, 269-283.	1.8	258
42	Maternal Stress During Pregnancy and Infant and Child Outcome. , 2014, , .		0
43	Prenatal stress and limbic-prefrontal white matter microstructure in children aged 6â€“9 years: a preliminary diffusion tensor imaging study. <i>World Journal of Biological Psychiatry</i> , 2014, 15, 346-352.	2.6	58
44	The persisting effect of maternal mood in pregnancy on childhood psychopathology. <i>Development and Psychopathology</i> , 2014, 26, 393-403.	2.3	334
45	Maternal prenatal anxiety and child brain-derived neurotrophic factor (<i>BDNF</i>) genotype: Effects on internalizing symptoms from 4 to 15 years of age. <i>Development and Psychopathology</i> , 2014, 26, 1255-1266.	2.3	47
46	Evidence for sex differences in fetal programming of physiological stress reactivity in infancy. <i>Development and Psychopathology</i> , 2014, 26, 879-888.	2.3	40
47	Stressful events and psychological difficulties: testing alternative candidates for sensitivity. <i>European Child and Adolescent Psychiatry</i> , 2014, 23, 103-113.	4.7	17
48	Maternal depression, anxiety and stress during pregnancy and child outcome; what needs to be done. <i>Best Practice and Research in Clinical Obstetrics and Gynaecology</i> , 2014, 28, 25-35.	2.8	571
49	Childhood Attention-Deficit/Hyperactivity Disorder Symptoms Are Risk Factors for Obesity and Physical Inactivity in Adolescence. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2014, 53, 425-436.	0.5	128
50	Cortisol awakening response and subsequent depression: prospective longitudinal study. <i>British Journal of Psychiatry</i> , 2014, 204, 137-143.	2.8	49
51	Psychological adversity in pregnancy: what works to improve outcomes?. <i>Journal of Children's Services</i> , 2014, 9, 96-108.	0.7	13
52	Prenatal cortisol exposure predicts infant cortisol response to acute stress. <i>Developmental Psychobiology</i> , 2013, 55, 145-155.	1.6	132
53	Mother-child bonding at 1 year; associations with symptoms of postnatal depression and bonding in the first few weeks. <i>Archives of Women's Mental Health</i> , 2013, 16, 381-389.	2.6	134
54	Prenatal maternal mood is associated with altered diurnal cortisol in adolescence. <i>Psychoneuroendocrinology</i> , 2013, 38, 1630-1638.	2.7	126

#	ARTICLE	IF	CITATIONS
55	Maternal prenatal symptoms of depression and down regulation of placental monoamine oxidase A expression. <i>Journal of Psychosomatic Research</i> , 2013, 75, 341-345.	2.6	56
56	No Moderating Effect of 5-HTTLPR on Associations Between Antenatal Anxiety and Infant Behavior. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2013, 52, 519-526.	0.5	32
57	Prenatal maternal anxiety predicts reduced adaptive immunity in infants. <i>Brain, Behavior, and Immunity</i> , 2013, 32, 21-28.	4.1	100
58	Investigating the influence of maternal cortisol and emotional state during pregnancy on the DNA methylation status of the glucocorticoid receptor gene (NR3C1) promoter region in cord blood. <i>Journal of Psychiatric Research</i> , 2013, 47, 880-891.	3.1	233
59	Prenatal Glucocorticoid Treatment and Later Mental Health in Children and Adolescents. <i>PLoS ONE</i> , 2013, 8, e81394.	2.5	61
60	Support from the Start: effective programmes from birth to two years. <i>Journal of Children's Services</i> , 2012, 7, 18-28.	0.7	4
61	Support from the Start: effective programmes in pregnancy. <i>Journal of Children's Services</i> , 2012, 7, 8-17.	0.7	3
62	Maternal prenatal anxiety and downregulation of placental 11 β -HSD2. <i>Psychoneuroendocrinology</i> , 2012, 37, 818-826.	2.7	388
63	Sex differences in the programming effects of prenatal stress on psychopathology and stress responses: An evolutionary perspective. <i>Physiology and Behavior</i> , 2012, 106, 736-740.	2.1	174
64	Placental Size Is Associated with Mental Health in Children and Adolescents. <i>PLoS ONE</i> , 2012, 7, e40534.	2.5	25
65	Annual Research Review: Prenatal stress and the origins of psychopathology: an evolutionary perspective. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2011, 52, 356-367.	5.2	453
66	The DSM IV diagnoses of melancholic and atypical depression in pregnancy. <i>Archives of Women's Mental Health</i> , 2011, 14, 43-48.	2.6	5
67	Previous prenatal loss as a predictor of perinatal depression and anxiety. <i>British Journal of Psychiatry</i> , 2011, 198, 373-378.	2.8	186
68	Prenatal stress and the programming of the HPA axis. <i>Neuroscience and Biobehavioral Reviews</i> , 2010, 35, 17-22.	6.1	455
69	Isatin-binding proteins of rat and mouse brain: Proteomic identification and optical biosensor validation. <i>Proteomics</i> , 2010, 10, 23-37.	2.2	57
70	Maternal Prenatal Cortisol and Infant Cognitive Development: Moderation by Infant-Mother Attachment. <i>Biological Psychiatry</i> , 2010, 67, 1026-1032.	1.3	326
71	In utero cortisol and testosterone exposure and fear reactivity in infancy. <i>Hormones and Behavior</i> , 2010, 57, 306-312.	2.1	77
72	Association between maternal and amniotic fluid cortisol is moderated by maternal anxiety. <i>Psychoneuroendocrinology</i> , 2009, 34, 430-435.	2.7	156

#	ARTICLE	IF	CITATIONS
73	Diurnal pattern of cortisol output in postnatal depression. <i>Psychoneuroendocrinology</i> , 2009, 34, 1184-1188.	2.7	86
74	Isatin binding proteins in rat brain: In situ imaging, quantitative characterization of specific [³ H]isatin binding, and proteomic profiling. <i>Journal of Neuroscience Research</i> , 2009, 87, 2763-2772.	2.9	35
75	Symptoms associated with the DSM IV diagnosis of depression in pregnancy and post partum. <i>Archives of Women's Mental Health</i> , 2009, 12, 135-141.	2.6	58
76	The Effects of Maternal Anxiety or Stress During Pregnancy on The Fetus and The Long-Term Development of The Child. <i>Nutrition and Health</i> , 2007, 19, 61-62.	1.5	6
77	Maternal Stress During Pregnancy Predicts Cognitive Ability and Fearfulness in Infancy. <i>Journal of the American Academy of Child and Adolescent Psychiatry</i> , 2007, 46, 1454-1463.	0.5	365
78	Prenatal stress in the rat results in increased blood pressure responsiveness to stress and enhanced arterial reactivity to neuropeptide Y in adulthood. <i>Journal of Physiology</i> , 2007, 582, 665-674.	2.9	41
79	Antenatal maternal stress and long-term effects on child neurodevelopment: how and why?. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 2007, 48, 245-261.	5.2	1,156
80	Prenatal mood disturbance predicts sleep problems in infancy and toddlerhood. <i>Early Human Development</i> , 2007, 83, 451-458.	1.8	187
81	Biological targets for isatin and its analogues: Implications for therapy. <i>Biologics: Targets and Therapy</i> , 2007, 1, 151-62.	3.2	74
82	Maternal anxiety: its effect on the fetus and the child. <i>British Journal of Midwifery</i> , 2006, 14, 663-667.	0.4	15
83	A controlled trial of skin-to-skin contact in extremely preterm infants. <i>Early Human Development</i> , 2006, 82, 447-455.	1.8	59
84	Antenatal maternal anxiety and stress and the neurobehavioural development of the fetus and child: links and possible mechanisms. A review. <i>Neuroscience and Biobehavioral Reviews</i> , 2005, 29, 237-258.	6.1	930
85	Natriuretic peptide interaction with [³ H]isatin binding sites in rat brain. <i>Brain Research</i> , 2005, 1042, 119-124.	2.2	33
86	Alternative Treatment Strategies for Perinatal Depression and Anxiety. , 2005, 173, 182-193.		3
87	Glucocorticoid Exposure in Preterm Babies Predicts Saliva Cortisol Response to Immunization at 4 Months. <i>Pediatric Research</i> , 2005, 58, 1233-1237.	2.3	39
88	In vivo effects of isatin on rat platelet eicosanoids. <i>Platelets</i> , 2005, 16, 39-43.	2.3	2
89	Isatin: Role in stress and anxiety. <i>Stress</i> , 2005, 8, 175-183.	1.8	107
90	Prenatal Anxiety Predicts Individual Differences in Cortisol in Pre-Adolescent Children. <i>Biological Psychiatry</i> , 2005, 58, 211-217.	1.3	405

#	ARTICLE	IF	CITATIONS
91	Antenatal programming of child behavior and neurodevelopment. , 2005, , 253-265.		0
92	The course of anxiety and depression through pregnancy and the postpartum in a community sample. Journal of Affective Disorders, 2004, 80, 65-73.	4.1	964
93	Antenatal maternal anxiety is linked with atypical handedness in the child. Early Human Development, 2004, 79, 107-118.	1.8	95
94	Cardiovascular and endocrine responses to cutaneous electrical stimulation after fentanyl in the ovine fetus. American Journal of Obstetrics and Gynecology, 2004, 190, 836-842.	1.3	12
95	Effect of acute stress and gender on isatin in rat tissues and serum. Physiology and Behavior, 2004, 80, 665-668.	2.1	31
96	Tribulin and Endogenous MAO-Inhibitory Regulation In Vivo. NeuroToxicology, 2004, 25, 185-192.	3.0	37
97	In situ imaging of specific binding of [3H]isatin in rat brain. Journal of Neurochemistry, 2003, 84, 618-620.	3.9	26
98	Acute increase in femoral artery resistance in response to direct physical stimuli in the human fetus. BJOG: an International Journal of Obstetrics and Gynaecology, 2003, 110, 916-921.	2.3	6
99	Maternal antenatal anxiety and behavioural/emotional problems in children: a test of a programming hypothesis. Journal of Child Psychology and Psychiatry and Allied Disciplines, 2003, 44, 1025-1036.	5.2	587
100	Maternal antenatal anxiety and children's behavioural/emotional problems at 4 years. British Journal of Psychiatry, 2002, 180, 502-508.	2.8	898
101	Effects of antenatal stress and anxiety. British Journal of Psychiatry, 2002, 180, 389-391.	2.8	175
102	Antenatal Anxiety Predicts Child Behavioral/Emotional Problems Independently of Postnatal Depression. Journal of the American Academy of Child and Adolescent Psychiatry, 2002, 41, 1470-1477.	0.5	510
103	Benefits of infant massage for mothers with postnatal depression. Seminars in Fetal and Neonatal Medicine, 2002, 7, 495-500.	2.7	55
104	Pregnant women become insensitive to cold stress. BMC Pregnancy and Childbirth, 2002, 2, 8.	2.4	160
105	The effects of isatin (indole-2, 3-dione) on pituitary adenylate cyclase-activating polypeptide-induced hyperthermia in rats. BMC Neuroscience, 2002, 3, 2.	1.9	5
106	Effect of isatin on nitric oxide-stimulated soluble guanylate cyclase from human platelets. Biochemical Pharmacology, 2002, 63, 763-766.	4.4	37
107	Effects of short- and long-term (α)-deprenyl administration on mRNA for copper, zinc- and manganese-superoxide dismutase and glutathione peroxidase in rat brain. Brain Research, 2002, 953, 1-11.	2.2	5
108	Umbilical cortisol levels as an indicator of the fetal stress response to assisted vaginal delivery. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2001, 98, 14-17.	1.1	94
