#	ARTICLE	IF	CITATIONS
1	Regaining control of your emotions? Investigating the mechanisms underlying effects of cognitive control training for remitted depressed patients.. <i>Emotion</i> , 2023, 23, 194-213.	1.8	7
2	Cognitive control training for children with anxiety and depression: A systematic review. <i>Journal of Affective Disorders</i> , 2022, 300, 158-171.	4.1	17
3	Articulatory Suppression Effects on Induced Rumination. <i>Collabra: Psychology</i> , 2022, 8, .	1.8	0
4	Individual differences associated with treatment adherence and transfer effects following gamified web-based cognitive control training for repetitive negative thinking. <i>Internet Interventions</i> , 2022, 27, 100507.	2.7	4
5	Associations between borderline personality disorder features, early maladaptive schemas, and schema modes: A network analysis in a nonclinical sample. <i>Personality and Individual Differences</i> , 2022, 195, 111674.	2.9	0
6	Neuroplastic changes in anterior cingulate cortex gray matter volume and functional connectivity following attention bias modification in high trait anxious individuals. <i>Biological Psychology</i> , 2022, 172, 108353.	2.2	8
7	Social media use and well-being: A prospective experience-sampling study. <i>Computers in Human Behavior</i> , 2021, 114, 106510.	8.5	57
8	Combined effects of tDCS over the left DLPFC and gaze-contingent training on attention mechanisms of emotion regulation in low-resilient individuals. <i>Progress in Neuro-Psychopharmacology and Biological Psychiatry</i> , 2021, 108, 110177.	4.8	10
9	The Architecture of Cognitive Vulnerability to Depressive Symptoms in Adolescence: A Longitudinal Network Analysis Study. <i>Research on Child and Adolescent Psychopathology</i> , 2021, 49, 267-281.	2.3	7
10	Dissociating facial electromyographic correlates of visual and verbal induced rumination. <i>International Journal of Psychophysiology</i> , 2021, 159, 23-36.	1.0	3
11	Bridges over Troubled Waters: Mapping the Interplay Between Anxiety, Depression and Stress Through Network Analysis of the DASS-21. <i>Cognitive Therapy and Research</i> , 2021, 45, 46-60.	1.9	13
12	Connecting the dots: A network approach to post-traumatic stress symptoms in Chinese healthcare workers during the peak of the Coronavirus Disease 2019 outbreak. <i>Stress and Health</i> , 2021, 37, 692-705.	2.6	9
13	The Role of Emotional Memory in Reappraising Negative Self-referent Thoughts. <i>Cognitive Therapy and Research</i> , 2021, 45, 1141-1149.	1.9	0
14	A Pictorial Dot Probe Task to Assess Food-Related Attentional Bias in Youth With and Without Obesity: Overview of Indices and Evaluation of Their Reliability. <i>Frontiers in Psychology</i> , 2021, 12, 644512.	2.1	10
15	Preventing Recurrence of Depression: Long-Term Effects of a Randomized Controlled Trial on Cognitive Control Training for Remitted Depressed Patients. <i>Clinical Psychological Science</i> , 2021, 9, 615-633.	4.0	20
16	Online Cognitive Control Training for Remitted Depressed Individuals: A Replication and Extension Study. <i>Cognitive Therapy and Research</i> , 2021, 45, 944-958.	1.9	7
17	Personalized cognitive training: Protocol for individual-level meta-analysis implementing machine learning methods. <i>Journal of Psychiatric Research</i> , 2021, 138, 342-348.	3.1	9
18	Emotional working memory updating in individuals with borderline personality features. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2021, 71, 101636.	1.2	2

#	ARTICLE	IF	CITATIONS
19	Dynamic Interplay between Reward and Voluntary Attention Determines Stimulus Processing in Visual Cortex. <i>Journal of Cognitive Neuroscience</i> , 2021, 33, 2357-2371.	2.3	5
20	Emotional Memory: Concluding Remarks to the Special Issue on Memory Training for Emotional Disorders. <i>Cognitive Therapy and Research</i> , 2021, 45, 1000-1003.	1.9	0
21	A multi-method assessment of attentional processes in chronic, treatment-resistant depression. <i>Journal of Psychiatric Research</i> , 2021, 140, 68-76.	3.1	1
22	The relationship between Instagram use and indicators of mental health: A systematic review. <i>Computers in Human Behavior Reports</i> , 2021, 4, 100121.	4.0	47
23	A randomized controlled trial of cognitive control training (CCT) as an add-on treatment for late-life depression: a study protocol. <i>BMC Psychiatry</i> , 2021, 21, 596.	2.6	0
24	Transfer and Motivation After Cognitive Control Training for Remitted Depression in Healthy Sample. <i>Journal of Cognitive Enhancement: Towards the Integration of Theory and Practice</i> , 2020, 4, 49-61.	1.6	10
25	Neural correlates of emotion-attention interactions: From perception, learning, and memory to social cognition, individual differences, and training interventions. <i>Neuroscience and Biobehavioral Reviews</i> , 2020, 108, 559-601.	6.1	117
26	Predictors of Long-Term Improvement Following Cognitive Remediation in a Sample With Elevated Depressive Symptoms. <i>Frontiers in Psychology</i> , 2020, 11, 2232.	2.1	1
27	Cognitive Control Training as an Augmentation Strategy to CBT in the Treatment of Fear of Failure in Undergraduates. <i>Cognitive Therapy and Research</i> , 2020, 44, 1199-1212.	1.9	9
28	Cognitive remediation following electroconvulsive therapy in patients with treatment resistant depression: randomized controlled trial of an intervention for relapse prevention " study protocol. <i>BMC Psychiatry</i> , 2020, 20, 453.	2.6	0
29	Can we decode phonetic features in inner speech using surface electromyography?. <i>PLoS ONE</i> , 2020, 15, e0233282.	2.5	9
30	The interplay among attention, interpretation, and memory biases in depression: Revisiting the combined cognitive bias hypothesis. , 2020, , 193-213.		17
31	Mapping Dynamic Interactions Among Cognitive Biases in Depression. <i>Emotion Review</i> , 2020, 12, 93-110.	3.4	21
32	The International Affective Picture System a Flemish Validation Study. <i>Psychologica Belgica</i> , 2020, 41, 205.	1.9	48
33	Finding patterns in emotional information: Enhanced sensitivity to statistical regularities within negative information.. <i>Emotion</i> , 2020, 20, 426-435.	1.8	2
34	Can we decode phonetic features in inner speech using surface electromyography?. , 2020, 15, e0233282.		0
35	Can we decode phonetic features in inner speech using surface electromyography?. , 2020, 15, e0233282.		0
36	Can we decode phonetic features in inner speech using surface electromyography?. , 2020, 15, e0233282.		0

#	ARTICLE	IF	CITATIONS
37	Can we decode phonetic features in inner speech using surface electromyography?. , 2020, 15, e0233282.		0
38	Study what makes games addictive. Nature, 2019, 573, 346-346.	27.8	46
39	Predictive value of attentional bias for the recurrence of depression: A 4-year prospective study in remitted depressed individuals. Behaviour Research and Therapy, 2019, 114, 25-34.	3.1	11
40	Between vulnerability and resilience: A network analysis of fluctuations in cognitive risk and protective factors following remission from depression. Behaviour Research and Therapy, 2019, 116, 1-9.	3.1	48
41	Motivation and cognitive control in depression. Neuroscience and Biobehavioral Reviews, 2019, 102, 371-381.	6.1	158
42	A novel process-based approach to improve resilience: Effects of computerized mouse-based (gaze)contingent attention training (MCAT) on reappraisal and rumination. Behaviour Research and Therapy, 2019, 118, 110-120.	3.1	30
43	Eye-gaze contingent attention training (ECAT): Examining the causal role of attention regulation in reappraisal and rumination. Biological Psychology, 2019, 142, 116-125.	2.2	33
44	Attentional disengagement from emotional information predicts future depression via changes in ruminative brooding: A five-month longitudinal eye-tracking study. Behaviour Research and Therapy, 2019, 118, 30-42.	3.1	28
45	Negative influences of Facebook use through the lens of network analysis. Computers in Human Behavior, 2019, 96, 13-22.	8.5	36
46	Early maladaptive schemas and borderline personality disorder features in a nonclinical sample: A network analysis. Clinical Psychology and Psychotherapy, 2019, 26, 388-398.	2.7	17
47	Do daily dynamics in rumination and affect predict depressive symptoms and trait rumination? An experience sampling study. Journal of Behavior Therapy and Experimental Psychiatry, 2019, 63, 66-72.	1.2	10
48	Does Modification of Implicit Associations Regarding Contamination Affect Approach Behavior and Attentional Bias?. Cognitive Therapy and Research, 2019, 43, 693-704.	1.9	0
49	Attentional scope, rumination, and processing of emotional information: An eye-tracking study.. Emotion, 2019, 19, 1259-1267.	1.8	3
50	The Brief State Rumination Inventory (BSRI): Validation and Psychometric Evaluation. Cognitive Therapy and Research, 2018, 42, 447-460.	1.9	51
51	Temperamental factors in remitted depression: The role of effortful control and attentional mechanisms. Journal of Affective Disorders, 2018, 235, 499-505.	4.1	16
52	Spontaneous Thought and Goal Pursuit. , 2018, , .		8
53	Cognitive Control in Depression: Toward Clinical Models Informed by Cognitive Neuroscience. Clinical Psychological Science, 2018, 6, 464-480.	4.0	56
54	Can training change attentional breadth? Failure to find transfer effects. Psychological Research, 2018, 82, 520-534.	1.7	2

#	ARTICLE	IF	CITATIONS
55	Children's attentional breadth around their mother: Comparing stimulus-driven vs. cognitively controlled processes. <i>Social Development</i> , 2018, 27, 95-108.	1.3	4
56	Do obsessive-compulsive symptoms and contamination-related stimuli affect inhibition capacity?. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2018, 18, 73-80.	1.5	2
57	Specificity and overlap of attention and memory biases in depression. <i>Journal of Affective Disorders</i> , 2018, 225, 404-412.	4.1	63
58	Attentional Bias and the Anxiety Disorders. , 2018, , 41-58.		0
59	Attentional bias for negative, positive, and threat words in current and remitted depression. <i>PLoS ONE</i> , 2018, 13, e0205154.	2.5	26
60	Remediation of depression-related cognitive impairment: cognitive control training as treatment augmentation. <i>Expert Review of Neurotherapeutics</i> , 2018, 18, 907-913.	2.8	18
61	Can selective attention and inhibition (interactively) predict future obsessive compulsive symptoms? A prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2018, 61, 150-157.	1.2	1
62	Gamified Cognitive Control Training for Remitted Depressed Individuals: User Requirements Analysis. <i>JMIR Serious Games</i> , 2018, 6, e6.	3.1	14
63	Mapping the interplay among cognitive biases, emotion regulation, and depressive symptoms. <i>Cognition and Emotion</i> , 2017, 31, 726-735.	2.0	59
64	Individual differences in cognitive control over emotional material modulate cognitive biases linked to depressive symptoms. <i>Cognition and Emotion</i> , 2017, 31, 736-746.	2.0	83
65	The effects of active worrying on working memory capacity. <i>Cognition and Emotion</i> , 2017, 31, 995-1003.	2.0	28
66	Testing the attentional scope model of rumination: An eye-tracking study using the moving window paradigm. <i>Biological Psychology</i> , 2017, 123, 278-285.	2.2	7
67	Obsessions and compulsions in the lab: A meta-analysis of procedures to induce symptoms of obsessive-compulsive disorder. <i>Clinical Psychology Review</i> , 2017, 52, 137-147.	11.4	40
68	Examining a Novel Gamified Approach to Attentional Retraining: Effects of Single and Multiple Session Training. <i>Cognitive Therapy and Research</i> , 2017, 41, 89-105.	1.9	12
69	Cognitive control interventions for depression: A systematic review of findings from training studies. <i>Clinical Psychology Review</i> , 2017, 53, 79-92.	11.4	183
70	Orofacial electromyographic correlates of induced verbal rumination. <i>Biological Psychology</i> , 2017, 127, 53-63.	2.2	16
71	Safety first: Instrumentality for reaching safety determines attention allocation under threat.. <i>Emotion</i> , 2017, 17, 528-537.	1.8	21
72	Internet-delivered cognitive control training as a preventive intervention for remitted depressed patients: Evidence from a double-blind randomized controlled trial study.. <i>Journal of Consulting and Clinical Psychology</i> , 2017, 85, 135-146.	2.0	76

#	ARTICLE	IF	CITATIONS
73	A comprehensive meta-analysis of interpretation biases in depression. <i>Clinical Psychology Review</i> , 2017, 58, 33-48.	11.4	226
74	Increased left prefrontal brain perfusion after MRI compatible tDCS attenuates momentary ruminative self-referential thoughts. <i>Brain Stimulation</i> , 2017, 10, 1088-1095.	1.6	29
75	The effects of obsessive-compulsive symptoms and disorder-relevant stimuli on the dynamics of selective attention. <i>Journal of Obsessive-Compulsive and Related Disorders</i> , 2017, 15, 74-84.	1.5	9
76	Happy heart, smiling eyes: A systematic review of positive mood effects on broadening of visuospatial attention. <i>Neuroscience and Biobehavioral Reviews</i> , 2016, 68, 816-837.	6.1	54
77	Effects of cognitive control training on the dynamics of (mal)adaptive emotion regulation in daily life.. <i>Emotion</i> , 2016, 16, 945-956.	1.8	79
78	Attentional bias temporal dynamics in remitted depression.. <i>Journal of Abnormal Psychology</i> , 2016, 125, 768-776.	1.9	57
79	Attention bias dynamics and symptom severity during and following CBT for social anxiety disorder.. <i>Journal of Consulting and Clinical Psychology</i> , 2016, 84, 795-802.	2.0	37
80	Co-variation between stressful events and rumination predicts depressive symptoms: An eighteen months prospective design in undergraduates. <i>Behaviour Research and Therapy</i> , 2016, 87, 128-133.	3.1	18
81	A novel attention training paradigm based on operant conditioning of eye gaze: Preliminary findings.. <i>Emotion</i> , 2016, 16, 110-116.	1.8	30
82	Attention training through gaze-contingent feedback: Effects on reappraisal and negative emotions.. <i>Emotion</i> , 2016, 16, 1074-1085.	1.8	53
83	Spontaneous Thought and Vulnerability to Mood Disorders. <i>Clinical Psychological Science</i> , 2016, 4, 835-857.	4.0	103
84	The interplay between cognitive risk and resilience factors in remitted depression: A network analysis. <i>Journal of Affective Disorders</i> , 2016, 195, 96-104.	4.1	65
85	Training working memory to improve attentional control in anxiety: A proof-of-principle study using behavioral and electrophysiological measures. <i>Biological Psychology</i> , 2016, 121, 203-212.	2.2	144
86	Unveiling the Structure of Cognitive Vulnerability for Depression: Specificity and Overlap. <i>PLoS ONE</i> , 2016, 11, e0168612.	2.5	25
87	Interactions among emotional attention, encoding, and retrieval of ambiguous information: An eye-tracking study.. <i>Emotion</i> , 2015, 15, 539-543.	1.8	15
88	Emotionally Biased Cognitive Processes: The Weakest Link Predicts Prospective Changes in Depressive Symptom Severity. <i>PLoS ONE</i> , 2015, 10, e0124457.	2.5	23
89	Introduction to the special issue on Cognitive bias modification: Taking a step back to move forward?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 1-4.	1.2	43
90	Internet-delivered cognitive control training as a preventive intervention for remitted depressed patients: Protocol for a randomized controlled trial. <i>BMC Psychiatry</i> , 2015, 15, 125.	2.6	13

#	ARTICLE	IF	CITATIONS
91	Cognitive bias modification for depression. <i>Current Opinion in Psychology</i> , 2015, 4, 119-123.	4.9	24
92	Impact of the temporal stability of preexistent attentional bias for threat on its alteration through attention bias modification. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 69-75.	1.2	20
93	Combining tDCS and Working Memory Training to Down Regulate State Rumination: A Single-Session Double Blind Sham-Controlled Trial. <i>Cognitive Therapy and Research</i> , 2015, 39, 754-765.	1.9	20
94	Temporal Dynamics of Attentional Bias. <i>Clinical Psychological Science</i> , 2015, 3, 772-788.	4.0	179
95	The influence of cognitive control training on stress reactivity and rumination in response to a lab stressor and naturalistic stress. <i>Behaviour Research and Therapy</i> , 2015, 69, 1-10.	3.1	80
96	Self-Regulation Through Rumination: Consequences and Mechanisms. , 2015, , 371-383.		2
97	Life is â€¦ great! Emotional attention during instructed and uninstructed ambiguity resolution in relation to depressive symptoms. <i>Biological Psychology</i> , 2015, 109, 67-72.	2.2	35
98	The Effects of Rumination Induction on Attentional Breadth for Self-Related Information. <i>Clinical Psychological Science</i> , 2015, 3, 607-618.	4.0	30
99	Examining the Relation Between Mood and Rumination in Remitted Depressed Individuals. <i>Clinical Psychological Science</i> , 2015, 3, 619-627.	4.0	13
100	Editorial to the Special issue: Psychological interventions for depression: A roadmap to stable remission. <i>Clinical Psychology Review</i> , 2015, 41, 1-2.	11.4	1
101	Attention bias modification via single-session dot-probe training: Failures to replicate. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 49, 5-12.	1.2	25
102	A resilience framework for promoting stable remission from depression. <i>Clinical Psychology Review</i> , 2015, 41, 49-60.	11.4	137
103	Dynamics of Attentional Bias to Threat in Anxious Adults: Bias towards and/or Away?. <i>PLoS ONE</i> , 2014, 9, e104025.	2.5	69
104	Brain and intersubjectivity: a Hegelian hypothesis on the self-other neurodynamics. <i>Frontiers in Human Neuroscience</i> , 2014, 8, 11.	2.0	10
105	Self-generated thoughts and depression: from daydreaming to depressive symptoms. <i>Frontiers in Human Neuroscience</i> , 2014, 8, 131.	2.0	42
106	A review of current evidence for the causal impact of attentional bias on fear and anxiety.. <i>Psychological Bulletin</i> , 2014, 140, 682-721.	6.1	368
107	The influence of working memory on visual search for emotional facial expressions.. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2014, 40, 1874-1890.	0.9	8
108	Training Working Memory to Reduce Rumination. <i>PLoS ONE</i> , 2014, 9, e90632.	2.5	52

#	ARTICLE	IF	CITATIONS
109	Distinct temporal processing of task-irrelevant emotional facial expressions.. <i>Emotion</i> , 2014, 14, 12-16.	1.8	5
110	Adaptive cognitive emotion regulation moderates the relationship between dysfunctional attitudes and depressive symptoms during a stressful life period: A prospective study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014, 45, 291-296.	1.2	38
111	Attentional breadth and proximity seeking in romantic attachment relationships. <i>British Journal of Social Psychology</i> , 2014, 53, 74-92.	2.8	8
112	The influence of working memory on the anger superiority effect. <i>Cognition and Emotion</i> , 2014, 28, 1449-1464.	2.0	9
113	Worrying and rumination are both associated with reduced cognitive control. <i>Psychological Research</i> , 2014, 78, 651-660.	1.7	95
114	Attentional modulation by reward and punishment cues in relation to depressive symptoms. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014, 45, 351-359.	1.2	18
115	Clinical Efficacy of Attentional Bias Modification Procedures: An Updated Meta-Analysis. <i>Journal of Clinical Psychology</i> , 2014, 70, 1133-1157.	1.9	270
116	Attention, interpretation, and memory biases in subclinical depression: A proof-of-principle test of the combined cognitive biases hypothesis.. <i>Emotion</i> , 2014, 14, 331-340.	1.8	141
117	Happy but still focused: failures to find evidence for a mood-induced widening of visual attention. <i>Psychological Research</i> , 2013, 77, 320-332.	1.7	54
118	Young Adolescent's Confidence in Maternal Support: Attentional Bias Moderates the Link Between Attachment-Related Expectations and Behavioral Problems. <i>Cognitive Therapy and Research</i> , 2013, 37, 829-839.	1.9	15
119	Rumination is characterized by valence-specific impairments in switching of attention. <i>Acta Psychologica</i> , 2013, 144, 563-570.	1.5	57
120	Optimal attentional focus during exposure in specific phobia: A meta-analysis. <i>Clinical Psychology Review</i> , 2013, 33, 1172-1183.	11.4	26
121	The indirect effect of attention bias on memory via interpretation bias: Evidence for the combined cognitive bias hypothesis in subclinical depression. <i>Cognition and Emotion</i> , 2013, 27, 1450-1459.	2.0	61
122	Are attentional bias and memory bias for negative words causally related?. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2013, 44, 293-299.	1.2	33
123	Specificity, methodology and psychopathology of emotional attention: An introduction to the special issue. <i>Biological Psychology</i> , 2013, 92, 431-432.	2.2	1
124	Effects of positive mood on attention broadening for self-related information. <i>Psychological Research</i> , 2013, 78, 566-73.	1.7	25
125	Aging and Attentional Bias for Death related and General Threat-related Information: Less Avoidance in Older as Compared With Middle-Aged Adults. <i>Journals of Gerontology - Series B Psychological Sciences and Social Sciences</i> , 2013, 68, 41-48.	3.9	17
126	Rest-Related Dynamics of Risk and Protective Factors for Depression. <i>Clinical Psychological Science</i> , 2013, 1, 443-451.	4.0	20
