#	ARTICLE	IF	CITATIONS
1	The Prevalence of Disease Clusters in Older Adults with Multiple Chronic Diseases – A Systematic Literature Review. PLoS ONE, 2013, 8, e79641.	2.5	125
2	Primary care nurses struggle with lifestyle counseling in diabetes care: a qualitative analysis. BMC Family Practice, 2010, 11, 41.	2.9	113
3	The relationship between organisational characteristics and the effects of clinical guidelines on medical performance in hospitals, a meta-analysis. BMC Health Services Research, 2006, 6, 53.	2.2	100
4	An overview of patients' preference for, and satisfaction with, care provided by general practitioners and nurse practitioners. Journal of Clinical Nursing, 2008, 17, 2690-2698.	3.0	98
5	Impact of nurse practitioners on workload of general practitioners: randomised controlled trial. BMJ: British Medical Journal, 2004, 328, 927.	2.3	96
6	Longevity of direct restorations in Dutch dental practices. Descriptive study out of a practice based research network. Journal of Dentistry, 2016, 46, 12-17.	4.1	85
7	No identifiable Hb1Ac or lifestyle change after a comprehensive diabetes programme including motivational interviewing: A cluster randomised trial. Scandinavian Journal of Primary Health Care, 2013, 31, 119-127.	1.5	69
8	Uptake of cervical cancer screening in The Netherlands is mainly influenced by women's beliefs about the screening and by the inviting organization. European Journal of Public Health, 2007, 17, 178-185.	0.3	65
9	Development of a framework with tools to support the selection and implementation of patient-reported outcome measures. Journal of Patient-Reported Outcomes, 2019, 3, 75.	1.9	47
10	Implementation strategies to enhance management of heavy alcohol consumption in primary health care: a meta-analysis. Addiction, 2015, 110, 1877-1900.	3.3	44
11	Assessment of a pay-for-performance program in primary care designed by target users. Family Practice, 2013, 30, 161-171.	1.9	39
12	Patient reported outcome measures (PROMs) in primary care: an observational pilot study of seven generic instruments. BMC Family Practice, 2014, 15, 88.	2.9	34
13	Nurse-led motivational interviewing to change the lifestyle of patients with type 2 diabetes (MILD-project): protocol for a cluster, randomized, controlled trial on implementing lifestyle recommendations. BMC Health Services Research, 2009, 9, 19.	2.2	33
14	Empowering patients: how to implement a diabetes passport in hospital care. Patient Education and Counseling, 2002, 47, 173-177.	2.2	32
15	Minimal improvement of nurses' motivational interviewing skills in routine diabetes care one year after training: a cluster randomized trial. BMC Family Practice, 2013, 14, 44.	2.9	31
16	General practitioners' decision making for mental health problems: Outcomes and ecological validity. Journal of Clinical Epidemiology, 1994, 47, 1365-1372.	5.0	30
17	Effect of shared care on blood pressure in patients with chronic kidney disease: a cluster randomised controlled trial. British Journal of General Practice, 2013, 63, e798-e806.	1.4	30
18	Performance measurements in diabetes care: the complex task of selecting quality indicators. International Journal for Quality in Health Care, 2013, 25, 704-709.	1.8	28

#	ARTICLE	IF	CITATIONS
19	Preconception Care: A Screening Tool for Health Assessment and Risk Detection. <i>Preventive Medicine</i> , 2002, 34, 505-511.	3.4	27
20	Quality of chronic kidney disease management in primary care: a retrospective study. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 73-80.	1.5	27
21	Patient Characteristics Determine Differences in the Influenza Vaccination Rate More so Than Practice Features. <i>Preventive Medicine</i> , 2002, 35, 401-406.	3.4	26
22	Design choices made by target users for a pay-for-performance program in primary care: an action research approach. <i>BMC Family Practice</i> , 2012, 13, 25.	2.9	25
23	Provision of information and advice in cardiovascular care: clinical performance of general practitioners. <i>Patient Education and Counseling</i> , 2002, 48, 131-137.	2.2	22
24	A systematic literature review: prescribing indicators related to type 2 diabetes mellitus and cardiovascular risk management. <i>Pharmacoepidemiology and Drug Safety</i> , 2010, 19, 319-334.	1.9	21
25	Impact of remuneration on guideline adherence: Empirical evidence in general practice. <i>Scandinavian Journal of Primary Health Care</i> , 2013, 31, 56-63.	1.5	21
26	Logistic support service improves processes and outcomes of diabetes care in general practice. <i>Family Practice</i> , 2006, 24, 20-25.	1.9	20
27	Effect of accreditation on the quality of chronic disease management: a comparative observational study. <i>BMC Family Practice</i> , 2014, 15, 179.	2.9	20
28	Dutch influenza vaccination rate drops for fifth consecutive year. <i>Vaccine</i> , 2015, 33, 4886-4891.	3.8	20
29	Minimally Invasive Intervention for Primary Caries Lesions: Are Dentists Implementing This Concept?. <i>Caries Research</i> , 2019, 53, 204-216.	2.0	20
30	Out-of-hours primary care: development of indicators for prescribing and referring. <i>International Journal for Quality in Health Care</i> , 2007, 19, 289-295.	1.8	19
31	Implementing diabetes passports to focus practice reorganization on improving diabetes care. <i>International Journal for Quality in Health Care</i> , 2007, 20, 72-77.	1.8	18
32	Data extraction from electronic health records (EHRs) for quality measurement of the physical therapy process: comparison between EHR data and survey data. <i>BMC Medical Informatics and Decision Making</i> , 2016, 16, 141.	3.0	18
33	Multifaceted support to improve preventive cardiovascular care: a nationwide, controlled trial in general practice. <i>British Journal of General Practice</i> , 2003, 53, 934-41.	1.4	18
34	Reciprocity: Choice shift in a social trap. <i>European Journal of Social Psychology</i> , 1989, 19, 317-326.	2.4	17
35	Labour intensity of guidelines may have a greater effect on adherence than GPs' workload. <i>BMC Family Practice</i> , 2009, 10, 74.	2.9	17
36	Methods to identify the target population: implications for prescribing quality indicators. <i>BMC Health Services Research</i> , 2010, 10, 137.	2.2	17

#	ARTICLE	IF	CITATIONS
37	Are family practice trainers and their host practices any better? comparing practice trainers and non-trainers and their practices. BMC Family Practice, 2013, 14, 23.	2.9	16
38	Precision of Individual and Composite Performance Scores. Medical Care, 2013, 51, 115-121.	2.4	15
39	Evaluating quality indicators for physical therapy in primary care. International Journal for Quality in Health Care, 2014, 26, 261-270.	1.8	15
40	Management of children's urinary tract infections in Dutch family practice: a cohort study. BMC Family Practice, 2007, 8, 9.	2.9	13
41	Effectiveness of Improvement Plans in Primary Care Practice Accreditation: A Clustered Randomized Trial. PLoS ONE, 2014, 9, e114045.	2.5	13
42	The impact of co-morbidity on GPs' pharmacological treatment decisions for patients with an anxiety disorder. Family Practice, 2007, 24, 538-546.	1.9	12
43	Facilitating organisational development using a group-based formative assessment and benchmarking method: design and implementation of the International Family Practice Maturity Matrix. BMJ Quality and Safety, 2010, 19, e48-e48.	3.7	11
44	Organizational determinants of high-quality routine diabetes care. Scandinavian Journal of Primary Health Care, 2014, 32, 124-131.	1.5	11
45	The differences between three performance measures on dental restorations, clinical success, survival and failure: A matter of perspective. Dental Materials, 2019, 35, 1506-1513.	3.5	11
46	Variation in Integrated Head and Neck Cancer Care: Impact of Patient and Hospital Characteristics. Journal of the National Comprehensive Cancer Network: JNCCN, 2018, 16, 1491-1498.	4.9	10
47	Patient experiences with family medicine: a longitudinal study after the Dutch health care reforms in 2006. BMC Family Practice, 2016, 17, 118.	2.9	9
48	Feedback preferences of patients, professionals and health insurers in integrated head and neck cancer care. Health Expectations, 2017, 20, 1275-1288.	2.6	9
49	Misperception of patients with type 2 diabetes about diet and physical activity, and its effects on readiness to change*. Journal of Diabetes, 2012, 4, 417-423.	1.8	8
50	Effectiveness and efficiency of a practice accreditation program on cardiovascular risk management in primary care: study protocol of a clustered randomized trial. Implementation Science, 2012, 7, 94.	6.9	8
51	A pilot qualitative study to explore stakeholder opinions regarding prescribing quality indicators. BMC Health Services Research, 2012, 12, 191.	2.2	7
52	Pandemic influenza A(H1N1)pdm09 improves vaccination routine in subsequent years: A cohort study from 2009 to 2011. Vaccine, 2013, 31, 900-905.	3.8	7
53	Experiences of general practices with a participatory pay-for-performance program: a qualitative study in primary care. Australian Journal of Primary Health, 2013, 19, 102.	0.9	7
54	Quality of physical therapy from a patient's perspective; factor analysis on web-based survey data revealed three dimensions on patient experiences with physical therapy. BMC Health Services Research, 2014, 14, 266.	2.2	7

#	ARTICLE	IF	CITATIONS
55	Patient Characteristics Associated with Measurement of Routine Diabetes Care: An Observational Study. PLoS ONE, 2015, 10, e0121845.	2.5	6
56	Follow-up of abnormal or inadequate cervical smears using two guidance systems: RCT on effectiveness. Preventive Medicine, 2005, 41, 809-814.	3.4	5
57	A systematic approach towards the development of a set of quality indicators for public reporting in community-based maternity care. Midwifery, 2013, 29, 316-324.	2.3	5
58	The Reasons behind the (Non)Use of Feedback Reports for Quality Improvement in Physical Therapy: A Mixed-Method Study. PLoS ONE, 2016, 11, e0161056.	2.5	5
59	The development of a collective quality system: challenges and lessons learned; a qualitative study. BMC Medical Education, 2017, 17, 126.	2.4	4
60	The implementation of a quality system in the Dutch GP specialty training: barriers and facilitators; a qualitative study. BMC Medical Education, 2017, 17, 127.	2.4	4
61	Local and national effects of a quality system in Dutch general practitioner specialty training: a qualitative study. Quality in Higher Education, 2018, 24, 43-54.	1.1	4
62	Developing Organisational Maturity: Considering the Role of Culture Typologies for Primary Care Practices. Education for Primary Care, 2008, 19, 1-12.	0.6	3
63	Development of a minimal set of prescribing quality indicators for diabetes management on a general practice level. Pharmacoepidemiology and Drug Safety, 2012, 21, 1053-1059.	1.9	3
64	Healthcare professionalsâ€™ perspectives on implementation of universal tumor DNA testing in ovarian cancer patients: multidisciplinary focus groups. Familial Cancer, 2023, 22, 1-11.	1.9	3
65	The usefulness of antiplatelet prescriptions for the identification of patients with atherothrombosis in primary care: a Dutch cross-sectional study. Journal of Evaluation in Clinical Practice, 2012, 18, 866-871.	1.8	2
66	Seasonal flu vaccination in Dutch at-risk populations was not affected by A(H1N1) 2009 pandemic vaccination. Preventive Medicine, 2011, 52, 184-185.	3.4	1
67	Response to the Letter to the Editor. Scandinavian Journal of Primary Health Care, 2013, 31, 256-256.	1.5	0
