#	ARTICLE	IF	CITATIONS
1	Healthcare professionals's perspectives on implementation of universal tumor DNA testing in ovarian cancer patients: multidisciplinary focus groups. <i>Familial Cancer</i> , 2023, 22, 1-11.	1.9	3
2	Minimally Invasive Intervention for Primary Caries Lesions: Are Dentists Implementing This Concept?. <i>Caries Research</i> , 2019, 53, 204-216.	2.0	20
3	The differences between three performance measures on dental restorations, clinical success, survival and failure: A matter of perspective. <i>Dental Materials</i> , 2019, 35, 1506-1513.	3.5	11
4	Development of a framework with tools to support the selection and implementation of patient-reported outcome measures. <i>Journal of Patient-Reported Outcomes</i> , 2019, 3, 75.	1.9	47
5	Local and national effects of a quality system in Dutch general practitioner specialty training: a qualitative study. <i>Quality in Higher Education</i> , 2018, 24, 43-54.	1.1	4
6	Variation in Integrated Head and Neck Cancer Care: Impact of Patient and Hospital Characteristics. <i>Journal of the National Comprehensive Cancer Network: JNCCN</i> , 2018, 16, 1491-1498.	4.9	10
7	Feedback preferences of patients, professionals and health insurers in integrated head and neck cancer care. <i>Health Expectations</i> , 2017, 20, 1275-1288.	2.6	9
8	The development of a collective quality system: challenges and lessons learned; a qualitative study. <i>BMC Medical Education</i> , 2017, 17, 126.	2.4	4
9	The implementation of a quality system in the Dutch GP specialty training: barriers and facilitators; a qualitative study. <i>BMC Medical Education</i> , 2017, 17, 127.	2.4	4
10	Patient experiences with family medicine: a longitudinal study after the Dutch health care reforms in 2006. <i>BMC Family Practice</i> , 2016, 17, 118.	2.9	9
11	Quality of chronic kidney disease management in primary care: a retrospective study. <i>Scandinavian Journal of Primary Health Care</i> , 2016, 34, 73-80.	1.5	27
12	Data extraction from electronic health records (EHRs) for quality measurement of the physical therapy process: comparison between EHR data and survey data. <i>BMC Medical Informatics and Decision Making</i> , 2016, 16, 141.	3.0	18
13	Longevity of direct restorations in Dutch dental practices. Descriptive study out of a practice based research network. <i>Journal of Dentistry</i> , 2016, 46, 12-17.	4.1	85
14	The Reasons behind the (Non)Use of Feedback Reports for Quality Improvement in Physical Therapy: A Mixed-Method Study. <i>PLoS ONE</i> , 2016, 11, e0161056.	2.5	5
15	Implementation strategies to enhance management of heavy alcohol consumption in primary health care: a meta-analysis. <i>Addiction</i> , 2015, 110, 1877-1900.	3.3	44
16	Dutch influenza vaccination rate drops for fifth consecutive year. <i>Vaccine</i> , 2015, 33, 4886-4891.	3.8	20
17	Patient Characteristics Associated with Measurement of Routine Diabetes Care: An Observational Study. <i>PLoS ONE</i> , 2015, 10, e0121845.	2.5	6
18	Effectiveness of Improvement Plans in Primary Care Practice Accreditation: A Clustered Randomized Trial. <i>PLoS ONE</i> , 2014, 9, e114045.	2.5	13

#	ARTICLE	IF	CITATIONS
19	Organizational determinants of high-quality routine diabetes care. <i>Scandinavian Journal of Primary Health Care</i> , 2014, 32, 124-131.	1.5	11
20	Evaluating quality indicators for physical therapy in primary care. <i>International Journal for Quality in Health Care</i> , 2014, 26, 261-270.	1.8	15
21	Effect of accreditation on the quality of chronic disease management: a comparative observational study. <i>BMC Family Practice</i> , 2014, 15, 179.	2.9	20
22	Quality of physical therapy from a patient's perspective; factor analysis on web-based survey data revealed three dimensions on patient experiences with physical therapy. <i>BMC Health Services Research</i> , 2014, 14, 266.	2.2	7
23	Patient reported outcome measures (PROMs) in primary care: an observational pilot study of seven generic instruments. <i>BMC Family Practice</i> , 2014, 15, 88.	2.9	34
24	Minimal improvement of nurses' motivational interviewing skills in routine diabetes care one year after training: a cluster randomized trial. <i>BMC Family Practice</i> , 2013, 14, 44.	2.9	31
25	Are family practice trainers and their host practices any better? comparing practice trainers and non-trainers and their practices. <i>BMC Family Practice</i> , 2013, 14, 23.	2.9	16
26	Performance measurements in diabetes care: the complex task of selecting quality indicators. <i>International Journal for Quality in Health Care</i> , 2013, 25, 704-709.	1.8	28
27	Pandemic influenza A(H1N1)pdm09 improves vaccination routine in subsequent years: A cohort study from 2009 to 2011. <i>Vaccine</i> , 2013, 31, 900-905.	3.8	7
28	No identifiable Hb1Ac or lifestyle change after a comprehensive diabetes programme including motivational interviewing: A cluster randomised trial. <i>Scandinavian Journal of Primary Health Care</i> , 2013, 31, 119-127.	1.5	69
29	A systematic approach towards the development of a set of quality indicators for public reporting in community-based maternity care. <i>Midwifery</i> , 2013, 29, 316-324.	2.3	5
30	Assessment of a pay-for-performance program in primary care designed by target users. <i>Family Practice</i> , 2013, 30, 161-171.	1.9	39
31	Impact of remuneration on guideline adherence: Empirical evidence in general practice. <i>Scandinavian Journal of Primary Health Care</i> , 2013, 31, 56-63.	1.5	21
32	Response to the Letter to the Editor. <i>Scandinavian Journal of Primary Health Care</i> , 2013, 31, 256-256.	1.5	0
33	The Prevalence of Disease Clusters in Older Adults with Multiple Chronic Diseases – A Systematic Literature Review. <i>PLoS ONE</i> , 2013, 8, e79641.	2.5	125
34	Precision of Individual and Composite Performance Scores. <i>Medical Care</i> , 2013, 51, 115-121.	2.4	15
35	Experiences of general practices with a participatory pay-for-performance program: a qualitative study in primary care. <i>Australian Journal of Primary Health</i> , 2013, 19, 102.	0.9	7
36	Effect of shared care on blood pressure in patients with chronic kidney disease: a cluster randomised controlled trial. <i>British Journal of General Practice</i> , 2013, 63, e798-e806.	1.4	30

#	ARTICLE	IF	CITATIONS
37	Misperception of patients with type 2 diabetes about diet and physical activity, and its effects on readiness to change*. Journal of Diabetes, 2012, 4, 417-423.	1.8	8
38	Design choices made by target users for a pay-for-performance program in primary care: an action research approach. BMC Family Practice, 2012, 13, 25.	2.9	25
39	A pilot qualitative study to explore stakeholder opinions regarding prescribing quality indicators. BMC Health Services Research, 2012, 12, 191.	2.2	7
40	Effectiveness and efficiency of a practice accreditation program on cardiovascular risk management in primary care: study protocol of a clustered randomized trial. Implementation Science, 2012, 7, 94.	6.9	8
41	Development of a minimal set of prescribing quality indicators for diabetes management on a general practice level. Pharmacoepidemiology and Drug Safety, 2012, 21, 1053-1059.	1.9	3
42	The usefulness of antiplatelet prescriptions for the identification of patients with atherothrombosis in primary care: a Dutch cross-sectional study. Journal of Evaluation in Clinical Practice, 2012, 18, 866-871.	1.8	2
43	Seasonal flu vaccination in Dutch at-risk populations was not affected by A(H1N1) 2009 pandemic vaccination. Preventive Medicine, 2011, 52, 184-185.	3.4	1
44	Methods to identify the target population: implications for prescribing quality indicators. BMC Health Services Research, 2010, 10, 137.	2.2	17
45	Primary care nurses struggle with lifestyle counseling in diabetes care: a qualitative analysis. BMC Family Practice, 2010, 11, 41.	2.9	113
46	A systematic literature review: prescribing indicators related to type 2 diabetes mellitus and cardiovascular risk management. Pharmacoepidemiology and Drug Safety, 2010, 19, 319-334.	1.9	21
47	Facilitating organisational development using a group-based formative assessment and benchmarking method: design and implementation of the International Family Practice Maturity Matrix. BMJ Quality and Safety, 2010, 19, e48-e48.	3.7	11
48	Nurse-led motivational interviewing to change the lifestyle of patients with type 2 diabetes (MILD-project): protocol for a cluster, randomized, controlled trial on implementing lifestyle recommendations. BMC Health Services Research, 2009, 9, 19.	2.2	33
49	Labour intensity of guidelines may have a greater effect on adherence than GPs' workload. BMC Family Practice, 2009, 10, 74.	2.9	17
50	An overview of patients' preference for, and satisfaction with, care provided by general practitioners and nurse practitioners. Journal of Clinical Nursing, 2008, 17, 2690-2698.	3.0	98
51	Developing Organisational Maturity: Considering the Role of Culture Typologies for Primary Care Practices. Education for Primary Care, 2008, 19, 1-12.	0.6	3
52	Implementing diabetes passports to focus practice reorganization on improving diabetes care. International Journal for Quality in Health Care, 2007, 20, 72-77.	1.8	18
53	Uptake of cervical cancer screening in The Netherlands is mainly influenced by women's beliefs about the screening and by the inviting organization. European Journal of Public Health, 2007, 17, 178-185.	0.3	65
54	The impact of co-morbidity on GPs' pharmacological treatment decisions for patients with an anxiety disorder. Family Practice, 2007, 24, 538-546.	1.9	12

#	ARTICLE	IF	CITATIONS
55	Out-of-hours primary care: development of indicators for prescribing and referring. <i>International Journal for Quality in Health Care</i> , 2007, 19, 289-295.	1.8	19
56	Management of children's urinary tract infections in Dutch family practice: a cohort study. <i>BMC Family Practice</i> , 2007, 8, 9.	2.9	13
57	The relationship between organisational characteristics and the effects of clinical guidelines on medical performance in hospitals, a meta-analysis. <i>BMC Health Services Research</i> , 2006, 6, 53.	2.2	100
58	Logistic support service improves processes and outcomes of diabetes care in general practice. <i>Family Practice</i> , 2006, 24, 20-25.	1.9	20
59	Follow-up of abnormal or inadequate cervical smears using two guidance systems: RCT on effectiveness. <i>Preventive Medicine</i> , 2005, 41, 809-814.	3.4	5
60	Impact of nurse practitioners on workload of general practitioners: randomised controlled trial. <i>BMJ: British Medical Journal</i> , 2004, 328, 927.	2.3	96
61	Multifaceted support to improve preventive cardiovascular care: a nationwide, controlled trial in general practice. <i>British Journal of General Practice</i> , 2003, 53, 934-41.	1.4	18
62	Preconception Care: A Screening Tool for Health Assessment and Risk Detection. <i>Preventive Medicine</i> , 2002, 34, 505-511.	3.4	27
63	Patient Characteristics Determine Differences in the Influenza Vaccination Rate More so Than Practice Features. <i>Preventive Medicine</i> , 2002, 35, 401-406.	3.4	26
64	Empowering patients: how to implement a diabetes passport in hospital care. <i>Patient Education and Counseling</i> , 2002, 47, 173-177.	2.2	32
65	Provision of information and advice in cardiovascular care: clinical performance of general practitioners. <i>Patient Education and Counseling</i> , 2002, 48, 131-137.	2.2	22
66	General practitioners' decision making for mental health problems: Outcomes and ecological validity. <i>Journal of Clinical Epidemiology</i> , 1994, 47, 1365-1372.	5.0	30
67	Reciprocity: Choice shift in a social trap. <i>European Journal of Social Psychology</i> , 1989, 19, 317-326.	2.4	17
