citing authors

#	ARTICLE	IF	CITATIONS
1	Outcomes of honeybee pupae inoculated with deformed wing virus genotypes A and B. <i>Apidologie</i> , 2020, 51, 18-34.	2.0	22
2	Interactions Between Thiamethoxam and Deformed Wing Virus Can Drastically Impair Flight Behavior of Honey Bees. <i>Frontiers in Microbiology</i> , 2020, 11, 766.	3.5	27
3	Influence of chronic exposure to thiamethoxam and chronic bee paralysis virus on winter honey bees. <i>PLoS ONE</i> , 2019, 14, e0220703.	2.5	27
4	Validation of quantitative real-time RT-PCR assays for the detection of six honeybee viruses. <i>Journal of Virological Methods</i> , 2019, 270, 70-78.	2.1	28
5	Effect of pollen traps on the relapse of chronic bee paralysis virus in honeybee ( <i>Apis mellifera</i> ) colonies. <i>Apidologie</i> , 2018, 49, 235-242.	2.0	10
6	Metabolisation of thiamethoxam (a neonicotinoid pesticide) and interaction with the Chronic bee paralysis virus in honeybees. <i>Pesticide Biochemistry and Physiology</i> , 2018, 144, 10-18.	3.6	47
7	Trueness and precision of the real-time RT-PCR method for quantifying the chronic bee paralysis virus genome in bee homogenates evaluated by a comparative inter-laboratory study. <i>Journal of Virological Methods</i> , 2017, 248, 217-225.	2.1	9
8	RNA 1 and RNA 2 Genomic Segments of Chronic Bee Paralysis Virus Are Infectious and Induce Chronic Bee Paralysis Disease. <i>Journal of Immunology Research</i> , 2015, 2015, 1-8.	2.2	7
9	Pestiviruses infections at the wild and domestic ruminants interface in the French Southern Alps. <i>Veterinary Microbiology</i> , 2015, 175, 341-348.	1.9	20
10	Expression of VP7, a Bluetongue Virus Group Specific Antigen by Viral Vectors: Analysis of the Induced Immune Responses and Evaluation of Protective Potential in Sheep. <i>PLoS ONE</i> , 2014, 9, e111605.	2.5	15
11	EXPERIMENTAL INFECTION OF PREGNANT PYRENEAN CHAMOIS ( <i>RUPICAPRA PYRENAICA</i> ) WITH BORDER DISEASE VIRUS SUBTYPE 4. <i>Journal of Wildlife Diseases</i> , 2013, 49, 55-68.	0.8	11
12	Intra-laboratory validation of chronic bee paralysis virus quantitation using an accredited standardised real-time quantitative RT-PCR method. <i>Journal of Virological Methods</i> , 2012, 180, 26-31.	2.1	27
13	Canine adenoviruses elicit both humoral and cell-mediated immune responses against rabies following immunisation of sheep. <i>Vaccine</i> , 2011, 29, 1304-1310.	3.8	21
14	Generation of Replication-Defective Virus-Based Vaccines That Confer Full Protection in Sheep against Virulent Bluetongue Virus Challenge. <i>Journal of Virology</i> , 2011, 85, 10213-10221.	3.4	75
15	Genetic characterization of ovine pestiviruses isolated in France, between 1985 and 2006. <i>Veterinary Microbiology</i> , 2008, 130, 69-79.	1.9	54
16	Molecular characterisation and phylogenetic analysis of Chronic bee paralysis virus, a honey bee virus. <i>Virus Research</i> , 2008, 132, 59-68.	2.2	93
