#	ARTICLE	IF	CITATIONS
1	The functional vascular anatomy of the swine for research. <i>Vascular</i> , 2022, 30, 392-402.	0.4	22
2	Selective Prehospital Advanced Resuscitative Care – Developing a Strategy to Prevent Prehospital Deaths From Noncompressible Torso Hemorrhage. <i>Shock</i> , 2022, 57, 7-14.	1.0	10
3	Epidemiology of Vascular Trauma. , 2022, , 23-33.		0
4	Open chest selective aortic arch perfusion vs open cardiac massage as a means of perfusion during in exsanguination cardiac arrest: a comparison of coronary hemodynamics in swine. <i>European Journal of Trauma and Emergency Surgery</i> , 2022, , 1.	0.8	1
5	Real World Experience with the Human Acellular Vessel: A Bioengineered Implant for Arterial Repair that Expands Limb Salvage Options. <i>Annals of Vascular Surgery</i> , 2022, 79, 390-391.	0.4	0
6	A contemporary assessment of resuscitative endovascular balloon occlusion of the aorta (REBOA). <i>Journal of Trauma and Acute Care Surgery</i> , 2022, Publish Ahead of Print, .	1.1	2
7	Targeted Regional Optimization in Action: Dose-dependent End-organ Ischemic Injury with Partial Aortic Occlusion in the Setting of Ongoing Liver Hemorrhage. <i>Shock</i> , 2022, 57, 732-739.	1.0	2
8	Preliminary Experience With the Human Acellular Vessel: A Descriptive Case Series Detailing Early Use of a Bioengineered Blood Vessel for Arterial Repair. <i>Annals of Vascular Surgery</i> , 2022, 87, 100-112.	0.4	8
9	Incidence and Predictors of Gastrointestinal Bleeding Following Mesenteric Revascularization. <i>Journal of Vascular Surgery</i> , 2022, 75, e293-e294.	0.6	0
10	The Human Acellular Vessel for Vascular Reconstruction or Bypass. <i>JAMA Surgery</i> , 2022, 157, 731.	2.2	11
11	Whole Blood Selective Aortic Arch Perfusion for Exsanguination Cardiac Arrest: Assessing Myocardial Tolerance to the Duration of Cardiac Arrest. <i>Shock</i> , 2022, 57, 243-250.	1.0	5
12	Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA). <i>Annals of Surgery</i> , 2021, 274, e54-e61.	2.1	17
13	A contemporary assessment of devices for Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA): resource-specific options per level of care. <i>European Journal of Trauma and Emergency Surgery</i> , 2021, 47, 57-69.	0.8	10
14	Timing of repair of blunt thoracic aortic injuries in the thoracic endovascular aortic repair era. <i>Journal of Vascular Surgery</i> , 2021, 73, 896-902.	0.6	24
15	Temporary intravascular shunt use improves early limb salvage after extremity vascular injury. <i>Journal of Vascular Surgery</i> , 2021, 73, 1304-1313.	0.6	27
16	Developing a tool to assess competence in resuscitative endovascular balloon occlusion of the aorta: An international Delphi consensus study. <i>Journal of Trauma and Acute Care Surgery</i> , 2021, 91, 310-317.	1.1	5
17	Development of a computed tomography perfusion protocol to support large animal resuscitation research. <i>Journal of Trauma and Acute Care Surgery</i> , 2021, 91, 879-885.	1.1	12
18	The polytrauma patient: Current concepts and evolving care. <i>OTA International the Open Access Journal of Orthopaedic Trauma</i> , 2021, 4, e108.	0.4	4

#	ARTICLE	IF	CITATIONS
19	Targeted Regional Optimization: Increasing the Therapeutic Window for Endovascular Aortic Occlusion In Traumatic Hemorrhage. <i>Shock</i> , 2021, 56, 493-506.	1.0	5
20	A multi-registry analysis of military and civilian penetrating cervical carotid artery injury. <i>Journal of Trauma and Acute Care Surgery</i> , 2021, 91, S226-S232.	1.1	0
21	Measuring Cardiac Output in a Swine Model. <i>Journal of Visualized Experiments</i> , 2021, , .	0.2	4
22	Selective aortic arch perfusion versus open cardiac massage in exsanguination cardiac arrest: A comparison of coronary pressure dynamics in swine. <i>Resuscitation</i> , 2021, 163, 1-5.	1.3	3
23	Blunt cerebrovascular injuries: Outcomes from the American Association for the Surgery of Trauma PROspective Observational Vascular Injury Treatment (PROOVIT) multicenter registry. <i>Journal of Trauma and Acute Care Surgery</i> , 2021, 90, 987-995.	1.1	17
24	Invited Comment on "Precision Medicine or One Size Does Not Fit All." <i>Annals of Surgery</i> , 2021, Publish Ahead of Print, .	2.1	0
25	Vascular Reconstruction for Traumatic Injuries. <i>Advances in Surgery</i> , 2021, 55, 251-271.	0.6	1
26	A New Quality Measure Defines Performance After Elective Endovascular Abdominal Aortic Aneurysm Repair. <i>Journal of Vascular Surgery</i> , 2021, 74, e110-e111.	0.6	0
27	Five-Year Mortality and Freedom From Intervention After Medical Management of Type B Aortic Intramural Hematoma. <i>Journal of Vascular Surgery</i> , 2021, 74, e205-e206.	0.6	0
28	Open Surgical Revascularization for Aortoiliac Occlusive Disease Across Surgical Eras and Surgeon Experience. <i>Journal of Vascular Surgery</i> , 2021, 74, e373-e374.	0.6	0
29	Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA): update and insights into current practices and future directions for research and implementation. <i>Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine</i> , 2021, 29, 8.	1.1	26
30	Delta Systolic Blood Pressure (SBP) Can be a Stronger Predictor of Mortality Than Pre-Aortic Occlusion SBP in Non-Compressible Torso Hemorrhage: An Abotrauma and Aorta Analysis. <i>Shock</i> , 2021, 56, 30-36.	1.0	5
31	Injury Patterns and Outcomes in Civilian and Military Abdominal Gunshot Wounds. <i>Journal of the American College of Surgeons</i> , 2021, 233, S158-S159.	0.2	0
32	Infraclavicular Thoracic Outlet Decompression Compared to Supraclavicular Thoracic Outlet Decompression for the Management of Venous Thoracic Outlet Syndrome. <i>Annals of Vascular Surgery</i> , 2020, 65, 90-99.	0.4	9
33	Getting Our Money's Worth From Clinical Care Studies of Prehospital Trauma Care. <i>JAMA Surgery</i> , 2020, 155, e195086.	2.2	0
34	Epidemiology of Upper Extremity Vascular Injury in Contemporary Combat. <i>Annals of Vascular Surgery</i> , 2020, 62, 98-103.	0.4	20
35	Management and outcomes of wartime cervical carotid artery injury. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, S225-S230.	1.1	11
36	Flattening the curve: From pandemics to the peacetime effect. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, S1-S3.	1.1	3

#	ARTICLE	IF	CITATIONS
37	Prehospital Detection of Life-Threatening Intracranial Pathology: An Unmet Need for Severe TBI in Austere, Rural, and Remote Areas. <i>Frontiers in Neurology</i> , 2020, 11, 599268.	1.1	6
38	A New Pressure-Regulated, Partial Resuscitative Endovascular Balloon Occlusion of the Aorta Device Achieves Targeted Distal Perfusion. <i>Journal of Surgical Research</i> , 2020, 256, 171-179.	0.8	15
39	A standardized trauma-specific endovascular inventory. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, S83-S87.	1.1	2
40	Potentially survivable fatal vascular access hemorrhage with tourniquet use: A post-mortem analysis. <i>Journal of the American College of Emergency Physicians Open</i> , 2020, 1, 1224-1229.	0.4	7
41	Emerging hemorrhage control and resuscitation strategies in trauma: Endovascular to extracorporeal. <i>Journal of Trauma and Acute Care Surgery</i> , 2020, 89, S50-S58.	1.1	13
42	Predicting the Outcome of Limb Revascularization in Patients With Lower-extremity Arterial Trauma. <i>Annals of Surgery</i> , 2020, 272, 564-572.	2.1	28
43	Defining a Research Agenda for Layperson Prehospital Hemorrhage Control. <i>JAMA Network Open</i> , 2020, 3, e209393.	2.8	19
44	Beyond the Crossroads. <i>Annals of Surgery</i> , 2020, 272, 236-237.	2.1	13
45	A military perspective on the vascular surgeon's response to the COVID-19 pandemic. <i>Journal of Vascular Surgery</i> , 2020, 71, 1821-1822.	0.6	10
46	A Primer on the Military Health System's Approach to Medical Research and Development. <i>Academic Medicine</i> , 2020, 95, 1652-1657.	0.8	4
47	Damage control resuscitation: REBOA as the new fourth pillar. , 2020, 51, e4014353.		13
48	Development of a Selective Aortic Arch Perfusion System in a Porcine Model of Exsanguination Cardiac Arrest. <i>Journal of Visualized Experiments</i> , 2020, , .	0.2	3
49	Vascular Injuries. , 2020, , 429-451.		0
50	Military Trauma System Response to Blast MCI. , 2020, , 85-98.		0
51	Addressing Limitations in Case-Control Study of Patients Undergoing Resuscitative Endovascular Balloon Occlusion of the Aorta. <i>JAMA Surgery</i> , 2019, 154, 1166.	2.2	3
52	Vascular Trauma—Open or Endovascular. <i>Current Trauma Reports</i> , 2019, 5, 137-145.	0.6	6
53	Who Would Have Benefited from the Prehospital Use of Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA)? An Autopsy Study. <i>Journal of the American College of Surgeons</i> , 2019, 229, 383-388e1.	0.2	22
54	Prehospital Interventions Performed in Afghanistan Between November 2009 and March 2014. <i>Military Medicine</i> , 2019, 184, 133-137.	0.4	8

#	ARTICLE	IF	CITATIONS
55	Management and outcome of 597 wartime penetrating lower extremity arterial injuries from an international military cohort. <i>Journal of Vascular Surgery</i> , 2019, 70, 224-232.	0.6	30
56	Too fast, or not fast enough? The FAST exam in patients with non-compressible torso hemorrhage. <i>American Journal of Surgery</i> , 2019, 217, 882-886.	0.9	10
57	A contemporary report on US military guidelines for the use of whole blood and resuscitative endovascular balloon occlusion of the aorta. <i>Journal of Trauma and Acute Care Surgery</i> , 2019, 87, S22-S27.	1.1	5
58	Clinical implementation of the Humacyte human acellular vessel: Implications for military and civilian trauma care. <i>Journal of Trauma and Acute Care Surgery</i> , 2019, 87, S44-S47.	1.1	17
59	The Effects of Balloon Occlusion of the Aorta on Cerebral Blood Flow, Intracranial Pressure, and Brain Tissue Oxygen Tension in a Rodent Model of Penetrating Ballistic-Like Brain Injury. <i>Frontiers in Neurology</i> , 2019, 10, 1309.	1.1	12
60	Winds of change in military medicine and combat casualty care. <i>Journal of Trauma and Acute Care Surgery</i> , 2019, 87, S1-S2.	1.1	4
61	Carrying the torch: The life, work, and values of Basil A. Pruitt, Jr., MD, FACS, COL (ret), MC, USA. <i>Journal of Trauma and Acute Care Surgery</i> , 2019, 87, S3-S9.	1.1	0
62	Migration of Aortic Occlusion Balloons in an in vitro model of the human circulation. <i>Injury</i> , 2019, 50, 286-291.	0.7	8
63	Impact of time to repair on outcomes in patients with lower extremity arterial injuries. <i>Journal of Vascular Surgery</i> , 2019, 69, 1519-1523.	0.6	49
64	Implementation of a National Trauma Research Action Plan (NTRAP). <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 84, 1012-1016.	1.1	10
65	The pitfalls of resuscitative endovascular balloon occlusion of the aorta: Risk factors and mitigation strategies. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 84, 192-202.	1.1	131
66	Resuscitative Endovascular Balloon Occlusion of the Aorta and Resuscitative Thoracotomy in Select Patients with Hemorrhagic Shock: Early Results from the American Association for the Surgery of Trauma's Aortic Occlusion in Resuscitation for Trauma and Acute Care Surgery Registry. <i>Journal of the American College of Surgeons</i> , 2018, 226, 730-740.	0.2	191
67	Prophylactic use of resuscitative endovascular balloon occlusion of the aorta in women with abnormal placentation: A systematic review, meta-analysis, and case series. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 84, 809-818.	1.1	72
68	Use of open and endovascular surgical techniques to manage vascular injuries in the trauma setting: A review of the American Association for the Surgery of Trauma PROspective Observational Vascular Injury Trial registry. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 84, 411-417.	1.1	45
69	Contemporary Utilization of Resuscitative Thoracotomy: Results From the AAST Aortic Occlusion for Resuscitation in Trauma and Acute Care Surgery (AORTA) Multicenter Registry. <i>Shock</i> , 2018, 50, 414-420.	1.0	15
70	Letter to the editor regarding the joint statement from the American College of Surgeons' Committee on Trauma (ACS-COT) and the American College of Emergency Physicians (ACEP) regarding the clinical use of resuscitative endovascular balloon occlusion of the aorta (REBOA). <i>Trauma Surgery and Acute Care Open</i> , 2018, 3, e000167.	0.8	1
71	Heeding the call: Military-civilian partnerships as a foundation for enhanced mass casualty care in the United States. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 85, 1123-1126.	1.1	8
72	Launch of the National Trauma Research Repository coincides with new data sharing requirements. <i>Trauma Surgery and Acute Care Open</i> , 2018, 3, e000193.	0.8	4

#	ARTICLE	IF	CITATIONS
73	2. Preclinical large-animal models of cardiovascular regeneration. , 2018, , 20-33.		0
74	The new reckoning: The Combat Casualty Care Research Program responds to real and present challenges in military operational projections. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 85, S1-S3.	1.1	4
75	Wartime Vascular Injury. <i>Military Medicine</i> , 2018, 183, 101-104.	0.4	7
76	Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA) for Hemorrhagic Shock. <i>Military Medicine</i> , 2018, 183, 55-59.	0.4	53
77	Long-term, patient-centered outcomes of lower-extremity vascular trauma. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 85, S104-S111.	1.1	22
78	Recent advances in austere combat surgery: Use of aortic balloon occlusion as well as blood challenges by special operations medical forces in recent combat operations. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 85, S98-S103.	1.1	57
79	Unrealized potential of the US military battlefield trauma system: DOW rate is higher in Iraq and Afghanistan than in Vietnam, but CFR and KIA rate are lower. <i>Journal of Trauma and Acute Care Surgery</i> , 2018, 85, S4-S12.	1.1	17
80	Actionable Information to Reduce the Burden of Nonbattle Injury in Deployed US Service Personnel. <i>JAMA Surgery</i> , 2018, 153, 808.	2.2	0
81	Open Damage Control Vascular Surgery. , 2018, , 123-138.		0
82	Endovascular Techniques in Hemorrhage Control and Resuscitation. , 2018, , 139-151.		0
83	A contemporary, 7-year analysis of vascular injury from the war in Afghanistan. <i>Journal of Vascular Surgery</i> , 2018, 68, 1872-1879.	0.6	46
84	Breaking Down Silos: The Joint Statement About the Clinical Use of Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA) Warrants Revision. <i>Annals of Emergency Medicine</i> , 2018, 72, 225-226.	0.3	3
85	Management and Outcome of 597 Wartime Lower Extremity Arterial Injuries: Results From an International Military Cohort. <i>Journal of Vascular Surgery</i> , 2018, 68, e6.	0.6	0
86	SS34. A Contemporary, 7-Year Analysis of Vascular Injury From the War in Afghanistan. <i>Journal of Vascular Surgery</i> , 2018, 67, e242-e243.	0.6	1
87	Infraclavicular Thoracic Outlet Decompression Is Superior to Supraclavicular Thoracic Outlet Decompression for the Management of Venous Thoracic Outlet Syndrome. <i>Journal of Vascular Surgery</i> , 2018, 68, e5-e6.	0.6	2
88	Resuscitative Endovascular Balloon Occlusion of the Aorta Consensus: The Panamerican Experience. <i>Panamerican Journal of Trauma Critical Care & Emergency Surgery</i> , 2018, 7, 171-182.	0.0	2
89	The interagency strategic plan for research and development of blood products and related technologies for trauma care and emergency preparedness 2015-2020. <i>American Journal of Disaster Medicine</i> , 2018, 13, 181-194.	0.1	4
90	Advanced Resuscitative Care in Tactical Combat Casualty Care: TCCC Guidelines Change 18-01:14 October 2018. <i>Journal of Special Operations Medicine: A Peer Reviewed Journal for SOF Medical Professionals</i> , 2018, 18, 37-55.	0.1	17

#	ARTICLE	IF	CITATIONS
91	C1 esterase inhibitor ameliorates ischemia reperfusion injury in a swine musculocutaneous flap model. <i>Microsurgery</i> , 2017, 37, 142-147.	0.6	13
92	The mangled extremity score and amputation. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 82, 518-523.	1.1	77
93	Combat casualty care research for the multidomain battlefield. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 83, S1-S3.	1.1	9
94	Incremental balloon deflation following complete resuscitative endovascular balloon occlusion of the aorta results in steep inflection of flow and rapid reperfusion in a large animal model of hemorrhagic shock. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 83, 139-143.	1.1	46
95	The Vietnam Vascular Registry at 50 years. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 83, S4-S8.	1.1	4
96	Systemic anticoagulation in the setting of vascular extremity trauma. <i>Injury</i> , 2017, 48, 1911-1916.	0.7	13
97	Resuscitative Endovascular Balloon Occlusion of the Aorta for Hemorrhagic Shock. <i>JAMA Surgery</i> , 2017, 152, 1072.	2.2	9
98	The Biological Basis of Chronic Traumatic Encephalopathy following Blast Injury: A Literature Review. <i>Journal of Neurotrauma</i> , 2017, 34, S-26-S-43.	1.7	26
99	Military-civilian partnership in device innovation. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 83, 732-735.	1.1	23
100	Automated variable aortic control versus complete aortic occlusion in a swine model of hemorrhage. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 82, 694-703.	1.1	23
101	Small changes, big effects. <i>Journal of Trauma and Acute Care Surgery</i> , 2017, 82, 1106-1111.	1.1	36
102	Traumatic brain injury: integrated approaches to improve prevention, clinical care, and research. <i>Lancet Neurology</i> , The, 2017, 16, 987-1048.	4.9	1,571
103	Cellular therapies in trauma and critical care medicine: Looking towards the future. <i>PLoS Medicine</i> , 2017, 14, e1002343.	3.9	10
104	Vascular Injury. , 2017, , 189-194.		0
105	In Patients with Limb-Threatening Vascular Injuries, Is There a Role of Prophylactic Fasciotomy to Reduce Ischemic Injury?. <i>Difficult Decisions in Surgery: an Evidence-based Approach</i> , 2017, , 199-206.	0.0	1
106	A Modern Case Series of Resuscitative Endovascular Balloon Occlusion of the Aorta (REBOA) in an Out-of-Hospital, Combat Casualty Care Setting. <i>Journal of Special Operations Medicine: A Peer Reviewed Journal for SOF Medical Professionals</i> , 2017, 17, 1-8.	0.1	24
107	The Role I Resuscitation Team and Resuscitative Endovascular Balloon Occlusion of the Aorta. <i>Journal of Special Operations Medicine: A Peer Reviewed Journal for SOF Medical Professionals</i> , 2017, 17, 65-73.	0.1	2
108	Quality of Life in United States Veterans With Combat-Related Ostomies From Iraq and Afghanistan. <i>Military Medicine</i> , 2016, 181, e1569-e1574.	0.4	2

#	ARTICLE	IF	CITATIONS
109	U.S. Military Experience From 2001 to 2010 With Extremity Fasciotomy in War Surgery. <i>Military Medicine</i> , 2016, 181, 463-468.	0.4	6
110	Extending resuscitative endovascular balloon occlusion of the aorta. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 81, 294-301.	1.1	49
111	Emergent non-“image-guided resuscitative endovascular balloon occlusion of the aorta (REBOA) catheter placement. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 81, 453-457.	1.1	55
112	The giving back. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 80, 166-167.	1.1	30
113	Contributions of the surgeon Nikolai Korotkov (1874-1920) to the management of extremity vascular injury. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 80, 341-346.	1.1	1
114	Synergy in Science and Resources. <i>Journal of Neurotrauma</i> , 2016, 33, 511-512.	1.7	4
115	Invited Commentary. <i>Journal of the American College of Surgeons</i> , 2016, 222, 1255-1257.	0.2	1
116	Dismounted Complex Blast Injuries: A Comprehensive Review of the Modern Combat Experience. <i>Journal of the American College of Surgeons</i> , 2016, 223, 652-664e8.	0.2	72
117	Wartime Lessons “ Shaping a National Trauma Action Plan. <i>New England Journal of Medicine</i> , 2016, 375, 1612-1615.	13.9	43
118	Combat casualty care. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 81, S69-S71.	1.1	2
119	A national trauma care system. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 81, 813-815.	1.1	7
120	Epidemiology of Vascular Injury. , 2016, , 13-20.		0
121	Surgical Damage Control and Temporary Vascular Shunts. , 2016, , 198-205.		2
122	The Power of Advanced Capability and Informed Policy. <i>JAMA Surgery</i> , 2016, 151, 25.	2.2	1
123	A systematic review of the use of resuscitative endovascular balloon occlusion of the aorta in the management of hemorrhagic shock. <i>Journal of Trauma and Acute Care Surgery</i> , 2016, 80, 324-334.	1.1	237
124	Combat related vascular injuries: Dutch experiences from a role 2 MTF in Afghanistan. <i>Injury</i> , 2016, 47, 94-98.	0.7	16
125	Quality of Life (QOL) in United States Veterans with Combat-Related Ostomies from Iraq and Afghanistan. <i>Journal of the American College of Surgeons</i> , 2015, 221, S35.	0.2	0
126	The vital civilian-military link in combat casualty care research. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 79, S221-S226.	1.1	6

#	ARTICLE	IF	CITATIONS
127	A formula for success in military medical research. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 79, S64-S69.	1.1	1
128	Central pressurized cadaver model (CPCM) for resuscitative endovascular balloon occlusion of the aorta (REBOA) training and device testing. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 78, 197-200.	1.1	19
129	Cellular Therapies in Trauma and Critical Care Medicine. <i>Shock</i> , 2015, 44, 505-523.	1.0	35
130	Resuscitative endovascular balloon occlusion of the aorta for hemorrhage control. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 79, S236-S242.	1.1	39
131	Military-to-civilian translation of battlefield innovations in operative trauma care. <i>Surgery</i> , 2015, 158, 1686-1695.	1.0	44
132	VA Vascular Injury Study (VAVIS): VA-DoD extremity injury outcomes collaboration. <i>BMC Surgery</i> , 2015, 15, 13.	0.6	6
133	The American Association for the Surgery of Trauma PROspective Observational Vascular Injury Treatment (PROOVIT) registry. <i>Journal of Trauma and Acute Care Surgery</i> , 2015, 78, 215-223.	1.1	115
134	U.S. Military Use of Tourniquets from 2001 to 2010. <i>Prehospital Emergency Care</i> , 2015, 19, 184-190.	1.0	51
