KARI RO

#	Article	IF	CITATIONS
1	Urinary and anal incontinence among female gymnasts and cheerleaders—bother and associated factors. A cross-sectional study. International Urogynecology Journal, 2022, 33, 955-964.	1.4	10
2	Diagnostic Tests for Female Bladder Outlet Obstruction: A Systematic Review from the European Association of Urology Non-neurogenic Female LUTS Guidelines Panel. European Urology Focus, 2022, 8, 1015-1030.	3.1	8
3	Benefits and Harms of Conservative, Pharmacological, and Surgical Management Options for Women with Bladder Outlet Obstruction: A Systematic Review from the European Association of Urology Non-neurogenic Female LUTS Guidelines Panel. European Urology Focus, 2022, 8, 1340-1361.	3.1	2
4	Mobile health technologies for the monitoring of menstrual cycle: A systematic review of online stores in Brazil. Journal of Obstetrics and Gynaecology Research, 2022, 48, 5-14.	1.3	5
5	Prevalence of Pelvic Floor Dysfunction, Bother, and Risk Factors and Knowledge of the Pelvic Floor Muscles in Norwegian Male and Female Powerlifters and Olympic Weightlifters. Journal of Strength and Conditioning Research, 2022, 36, 2800-2807.	2.1	16
6	Intravaginal electrical stimulation increases voluntarily pelvic floor muscle contractions in women who are unable to voluntarily contract their pelvic floor muscles: a randomised trial. Journal of Physiotherapy, 2022, 68, 37-42.	1.7	4
7	European Association of Urology Guidelines on the Diagnosis and Management of Female Non-neurogenic Lower Urinary Tract Symptoms. Part 1: Diagnostics, Overactive Bladder, Stress Urinary Incontinence, and Mixed Urinary Incontinence. European Urology, 2022, 82, 49-59.	1.9	87
8	European Association of Urology Guidelines on the Management of Female Non-neurogenic Lower Urinary Tract Symptoms. Part 2: Underactive Bladder, Bladder Outlet Obstruction, and Nocturia. European Urology, 2022, 82, 60-70.	1.9	12
9	Injuries and illnesses among competitive Norwegian rhythmic gymnasts during preseason: a prospective cohort study of prevalence, incidence and risk factors. British Journal of Sports Medicine, 2021, 55, 231-236.	6.7	18
10	Long-term effects of participation in a prenatal exercise intervention on body weight, body mass index, and physical activity level: a 6-year follow-up study of a randomized controlled trial. Journal of Maternal-Fetal and Neonatal Medicine, 2021, 34, 1347-1355.	1.5	3
11	Are visual inspection and digital palpation reliable methods to assess ability to perform a pelvic floor muscle contraction? An intraâ€rater study. Neurourology and Urodynamics, 2021, 40, 680-687.	1.5	4
12	The weight of motherhood: Identifying obesity, gestational weight gain and physical activity level of Italian pregnant women. Women's Health, 2021, 17, 174550652110161.	1.5	7
13	ACOG Committee Opinion No. 804: Physical Activity and Exercise During Pregnancy and the Postpartum Period. Obstetrics and Gynecology, 2021, 137, 376-376.	2.4	17
14	Does regular strength training cause urinary incontinence in overweight inactive women? A randomized controlled trial. International Urogynecology Journal, 2021, 32, 2827-2834.	1.4	3
15	An International Continence Society (ICS) report on the terminology for pelvic floor muscle assessment. Neurourology and Urodynamics, 2021, 40, 1217-1260.	1.5	98
16	Reliability, validity and responsiveness of pelvic floor muscle surface electromyography and manometry. International Urogynecology Journal, 2021, 32, 3267-3274.	1.4	16
17	Mobile health technologies for the management of urinary incontinence: A systematic review of online stores in Brazil. Brazilian Journal of Physical Therapy, 2021, 25, 387-395.	2.5	13
18	What is the evidence for abdominal and pelvic floor muscle training to treat diastasis recti abdominis postpartum? A systematic review with meta-analysis. Brazilian Journal of Physical Therapy, 2021, 25, 664-675.	2.5	30

#	Article	IF	CITATIONS
19	i-CONTENT tool for assessing therapeutic quality of exercise programs employed in randomised clinical trials. British Journal of Sports Medicine, 2021, 55, 1153-1160.	6.7	29
20	Can postpartum pelvic floor muscle training reduce urinary and anal incontinence?. American Journal of Obstetrics and Gynecology, 2020, 222, 247.e1-247.e8.	1.3	46
21	High level rhythmic gymnasts and urinary incontinence: Prevalence, risk factors, and influence on performance. Scandinavian Journal of Medicine and Science in Sports, 2020, 30, 159-165.	2.9	42
22	Do women have an accurate perception of their pelvic floor muscle contraction? A crossâ€sectional study. Neurourology and Urodynamics, 2020, 39, 361-366.	1.5	10
23	Is Physical Activity Good or Bad for the Female Pelvic Floor? A Narrative Review. Sports Medicine, 2020, 50, 471-484.	6.5	92
24	Physiotherapy management of urinary incontinence in females. Journal of Physiotherapy, 2020, 66, 147-154.	1.7	26
25	The Influence of Early Exercise Postpartum on Pelvic Floor Muscle Function and Prevalence of Pelvic Floor Dysfunction 12ÂMonths Postpartum. Physical Therapy, 2020, 100, 1681-1689.	2.4	22
26	The marathon of labour—Does regular exercise training influence course of labour and mode of delivery?. European Journal of Obstetrics, Gynecology and Reproductive Biology, 2020, 251, 8-13.	1.1	9
27	Similar Energy Expenditure During BodyPump and Heavy Load Resistance Exercise in Overweight Women. Frontiers in Physiology, 2020, 11, 570.	2.8	1
28	Urinary incontinence in a fitness club setting—is it a workout problem?. International Urogynecology Journal, 2020, 31, 1795-1802.	1.4	7
29	Change in prevalence of major levator ani muscle defects from 6 weeks to 1 year postpartum, and maternal and obstetric risk factors: A longitudinal ultrasound study. Acta Obstetricia Et Gynecologica Scandinavica, 2020, 99, 1403-1410.	2.8	7
30	Urinary incontinence and disordered eating in female elite athletes. Journal of Science and Medicine in Sport, 2019, 22, 140-144.	1.3	27
31	Is there any association between abdominal strength training before and during pregnancy and delivery outcome? The Norwegian Mother and Child Cohort Study. Brazilian Journal of Physical Therapy, 2019, 23, 108-115.	2.5	2
32	Motor Function and Perception of Health in Women with Provoked Vestibulodynia. Journal of Sexual Medicine, 2019, 16, 1060-1067.	0.6	3
33	Correspondence: Author response to Ariie. Journal of Physiotherapy, 2019, 65, 117.	1.7	0
34	Comment and Questions to Mottola et al. (2018): 2018 Canadian Guideline for Physical Activity Throughout Pregnancy. Journal of Obstetrics and Gynaecology Canada, 2019, 41, 1404-1405.	0.7	0
35	Can you train the pelvic floor muscles by contracting other related muscles?. Neurourology and Urodynamics, 2019, 38, 677-683.	1.5	16
36	Pelvic floor muscle knowledge and relationship with muscle strength in Brazilian women: a cross-sectional study. International Urogynecology Journal, 2019, 30, 1903-1909.	1.4	14

#	Article	IF	CITATIONS
37	Normal width of the inter-recti distance in pregnant and postpartum primiparous women. Musculoskeletal Science and Practice, 2018, 35, 34-37.	1.3	54
38	Effect of a Postpartum Training Program on the Prevalence of Diastasis Recti Abdominis in Postpartum Primiparous Women: A Randomized Controlled Trial. Physical Therapy, 2018, 98, 260-268.	2.4	71
39	Regular exercisers have stronger pelvic floor muscles than nonregular exercisers at midpregnancy. American Journal of Obstetrics and Gynecology, 2018, 218, 427.e1-427.e5.	1.3	19
40	Can maximal voluntary pelvic floor muscle contraction reduce vaginal resting pressure and resting EMG activity?. International Urogynecology Journal, 2018, 29, 1623-1627.	1.4	21
41	An education program about pelvic floor muscles improved women's knowledge but not pelvic floor muscle function, urinary incontinence or sexual function: a randomised trial. Journal of Physiotherapy, 2018, 64, 91-96.	1.7	39
42	Performing high-level sport is strongly associated with urinary incontinence in elite athletes: a comparative study of 372 elite female athletes and 372 controls. British Journal of Sports Medicine, 2018, 52, 1586-1590.	6.7	48
43	Association between vaginal bulge and anatomical pelvic organ prolapse during pregnancy and postpartum: an observational study. International Urogynecology Journal, 2018, 29, 441-448.	1.4	5
44	Response to comment on the <scp>IUGA/ICS</scp> joint report on the terminology for the conservative and nonpharmacological management of female pelvic floor dysfunction. Neurourology and Urodynamics, 2018, 37, 877-878.	1.5	1
45	Association Between Physical Activity Level and Pelvic Floor Muscle Variables in Women. International Journal of Sports Medicine, 2018, 39, 995-1000.	1.7	15
46	Pelvic floor muscle training increases pelvic floor muscle strength more in post-menopausal women who are not using hormone therapy than in women who are using hormone therapy: a randomised trial. Journal of Physiotherapy, 2018, 64, 166-171.	1.7	10
47	Exercise and pregnancy in recreational and elite athletes: 2016/2017 evidence summary from the IOC expert group meeting, Lausanne. Part 5. Recommendations for health professionals and active women. British Journal of Sports Medicine, 2018, 52, 1080-1085.	6.7	68
48	Does episiotomy influence vaginal resting pressure, pelvic floor muscle strength and endurance, and prevalence of urinary incontinence 6 weeks postpartum?. Neurourology and Urodynamics, 2017, 36, 683-686.	1.5	9
49	Pelvic floor muscle function, pelvic floor dysfunction and diastasis recti abdominis: Prospective cohort study. Neurourology and Urodynamics, 2017, 36, 716-721.	1.5	58
50	Effects of BodyPump and resistance training with and without a personal trainer on muscle strength and body composition in overweight and obese women—A randomised controlled trial. Obesity Research and Clinical Practice, 2017, 11, 728-739.	1.8	26
51	An International Urogynecological Association (IUGA)/International Continence Society (ICS) joint report on the terminology for the conservative and nonpharmacological management of female pelvic floor dysfunction. International Urogynecology Journal, 2017, 28, 191-213.	1.4	233
52	Response to comment on the IUGA/ICS joint report on the terminology for the conservative and nonpharmacological management of female pelvic floor dysfunction. International Urogynecology Journal, 2017, 28, 1269-1270.	1.4	1
53	An intra- and interrater reliability and agreement study of vaginal resting pressure, pelvic floor muscle strength, and muscular endurance using a manometer. International Urogynecology Journal, 2017, 28, 1507-1514.	1.4	29
54	Relationship between pelvic floor muscle strength and sexual dysfunction in postmenopausal women: a cross-sectional study. International Urogynecology Journal, 2017, 28, 931-936.	1.4	29

#	Article	IF	CITATIONS
55	An International Urogynecological Association (IUGA)/International Continence Society (ICS) joint report on the terminology for the conservative and nonpharmacological management of female pelvic floor dysfunction. Neurourology and Urodynamics, 2017, 36, 221-244.	1.5	190
56	Exercise and pregnancy in recreational and elite athletes: 2016/17 evidence summary from the IOC Expert Group Meeting, Lausanne. Part 3—exercise in the postpartum period. British Journal of Sports Medicine, 2017, 51, 1516-1525.	6.7	85
57	Exercise in pregnancy: an association with placentalÂweight?. American Journal of Obstetrics and Gynecology, 2017, 216, 168.e1-168.e9.	1.3	9
58	Exercise and pregnancy in recreational and elite athletes: 2016 evidence summary from the IOC expert group meeting, Lausanne. Part 2—the effect of exercise on the fetus, labour and birth: TableÂ1. British Journal of Sports Medicine, 2016, 50, 1297-1305.	6.7	68
59	Surface electromyography and ultrasound evaluation of pelvic floor muscles in hyperandrogenic women. International Urogynecology Journal, 2016, 27, 587-591.	1.4	4
60	Exercise during pregnancy and risk of cesarean delivery in nulliparous women: a large population-based cohort study. American Journal of Obstetrics and Gynecology, 2016, 215, 791.e1-791.e13.	1.3	32
61	Electrical stimulation with non-implanted devices for stress urinary incontinence in women. The Cochrane Library, 2016, , .	2.8	3
62	Reply to the Editor. International Urogynecology Journal, 2016, 27, 1945-1945.	1.4	0
63	What is the effect of regular group exercise on maternal psychological outcomes and common pregnancy complaints? An assessor blinded RCT. Midwifery, 2016, 32, 81-86.	2.3	51
64	Influence of voluntary pelvic floor muscle contraction and pelvic floor muscle training on urethral closure pressures: a systematic literature review. International Urogynecology Journal, 2016, 27, 687-696.	1.4	26
65	Pelvicâ€Floorâ€Muscle Training Adherence: Tools, Measurements and Strategies— <i>2011 ICS Stateâ€ofâ€theâ€Science Seminar Research Paper II of IV</i> . Neurourology and Urodynamics, 2015, 34, 615-621	.1.5	44
66	2014 consensus statement on improving pelvic floor muscle training adherence: International Continence Society 2011 Stateâ€ofâ€the‣cience Seminar. Neurourology and Urodynamics, 2015, 34, 600-605.	. 1.5	85
67	Pelvic floor dysfunction, prevention and treatment in elite athletes. , 2015, , 397-407.		3
68	The Pad Test for urinary incontinence in women. Journal of Physiotherapy, 2015, 61, 98.	1.7	23
69	Pelvic floor muscle function in women with provoked vestibulodynia and asymptomatic controls. International Urogynecology Journal, 2015, 26, 1467-1473.	1.4	30
70	Does general exercise training before and during pregnancy influence the pelvic floor "opening―and delivery outcome? A 3D/4D ultrasound study following nulliparous pregnant women from mid-pregnancy to childbirth. British Journal of Sports Medicine, 2015, 49, 196-199.	6.7	16
71	Postpartum pelvic floor muscle training and pelvic organ prolapse—a randomized trial of primiparous women. American Journal of Obstetrics and Gynecology, 2015, 212, 38.e1-38.e7.	1.3	53
72	Levator hiatus dimensions in late pregnancy and the process of labor: a 3-Âand 4-dimensional transperineal ultrasound study. American Journal of Obstetrics and Gynecology, 2014, 210, 484.e1-484.e7.	1.3	36

#	Article	IF	CITATIONS
73	Pelvic floor muscle variables and levator hiatus dimensions: a 3/4D transperineal ultrasound cross-sectional study on 300 nulliparous pregnant women. International Urogynecology Journal, 2014, 25, 1357-1361.	1.4	13
74	Does it work in the long term?—A systematic review on pelvic floor muscle training for female stress urinary incontinence. Neurourology and Urodynamics, 2013, 32, 215-223.	1.5	93
75	Too tight to give birth? Assessment of pelvic floor muscle function in 277 nulliparous pregnant women. International Urogynecology Journal, 2013, 24, 2065-2070.	1.4	15
76	There is not yet strong evidence that exercise regimens other than pelvic floor muscle training can reduce stress urinary incontinence in women: a systematic review. Journal of Physiotherapy, 2013, 59, 159-168.	1.7	106
77	Ultrasonographic Evaluation of Pelvic Organ Support During Pregnancy. Obstetrics and Gynecology, 2013, 122, 329-336.	2.4	31
78	Pelvic floor muscle training in treatment of female stress urinary incontinence, pelvic organ prolapse and sexual dysfunction. World Journal of Urology, 2012, 30, 437-443.	2.2	158
79	Does a ring pessary in situ influence the pelvic floor muscle function of women with pelvic organ prolapse when tested in supine?. International Urogynecology Journal, 2012, 23, 573-577.	1.4	4
80	Pelvic floor muscle training to improve urinary incontinence in young, nulliparous sport students: a pilot study. International Urogynecology Journal, 2012, 23, 1069-1073.	1.4	58
81	ls pelvic floor muscle training effective when taught in a general fitness class in pregnancy? A randomised controlled trial. Physiotherapy, 2011, 97, 190-195.	0.4	68
82	Can the Paula method facilitate co-contraction of the pelvic floor muscles? A 4D ultrasound study. International Urogynecology Journal, 2011, 22, 671-676.	1.4	11
83	The Paula method and the pelvic floor: reply by the authors 1. International Urogynecology Journal, 2011, 22, 683-684.	1.4	1
84	Reflex contraction of pelvic floor muscles during cough cannot be measured with vaginal pressure devices. Neurourology and Urodynamics, 2011, 30, 1404-1404.	1.5	5
85	Urinary incontinence among group fitness instructors including yoga and pilates teachers. Neurourology and Urodynamics, 2011, 30, 370-373.	1.5	44
86	Morphological Changes After Pelvic Floor Muscle Training Measured by 3-Dimensional Ultrasonography. Obstetrics and Gynecology, 2010, 115, 317-324.	2.4	133
87	Does pelvic floor muscle training prevent and treat urinary and fecal incontinence in pregnancy?. Nature Reviews Urology, 2009, 6, 122-123.	3.8	4
88	When and how should new therapies become routine clinical practice?. Physiotherapy, 2009, 95, 51-57.	0.4	36
89	Evidence for benefit of transversus abdominis training alone or in combination with pelvic floor muscle training to treat female urinary incontinence: A systematic review. Neurourology and Urodynamics, 2009, 28, 368-373.	1.5	86
90	Constriction of the levator hiatus during instruction of pelvic floor or transversus abdominis contraction: a 4D ultrasound study. International Urogynecology Journal, 2009, 20, 27-32.	1.4	37

#	Article	IF	CITATIONS
91	Comment on SchiÃ,tz et al.: Ten-year follow-up after conservative treatment of stress urinary incontinence. International Urogynecology Journal, 2009, 20, 265-265.	1.4	3
92	Effect of Antenatal Pelvic Floor Muscle Training on Labor and Birth. Obstetrics and Gynecology, 2009, 113, 1279-1284.	2.4	47
93	Fitness and physical activity in Norwegian adults. Advances in Physiotherapy, 2007, 9, 89-96.	0.2	4
94	Which women do pelvic floor muscle exercises six months' postpartum?. American Journal of Obstetrics and Gynecology, 2007, 197, 49.e1-49.e5.	1.3	21
95	Muscular fatigue in the pelvic floor muscles after strenuous physical activity. Acta Obstetricia Et Gynecologica Scandinavica, 2007, 86, 870-876.	2.8	81
96	Do pregnant women exercise their pelvic floor muscles?. International Urogynecology Journal, 2007, 18, 733-736.	1.4	21
97	Can pelvic floor muscle training prevent and treat pelvic organ prolapse?. Acta Obstetricia Et Gynecologica Scandinavica, 2006, 85, 263-268.	2.8	65
98	Reliability of pelvic floor muscle strength assessment using different test positions and tools. Neurourology and Urodynamics, 2006, 25, 236-242.	1.5	179
99	Evaluation of Female Pelvic-Floor Muscle Function and Strength. Physical Therapy, 2005, 85, 269-282.	2.4	417
100	Lower Urinary Tract Symptoms and Pelvic Floor Muscle Exercise Adherence After 15 Years. Obstetrics and Gynecology, 2005, 105, 999-1005.	2.4	129
101	Does the size of the vaginal probe affect measurement of pelvic floor muscle strength?. Acta Obstetricia Et Gynecologica Scandinavica, 2005, 84, 129-133.	2.8	24
102	Standardization of terminology of pelvic floor muscle function and dysfunction: Report from the pelvic floor clinical assessment group of the International Continence Society. Neurourology and Urodynamics, 2005, 24, 374-380.	1.5	433
103	Analysis of quality of interventions in systematic reviews. BMJ: British Medical Journal, 2005, 331, 507-509.	2.3	139
104	Evaluation of female pelvic-floor muscle function and strength. Physical Therapy, 2005, 85, 269-82.	2.4	135
105	Pelvic floor muscle training is effective in treatment of female stress urinary incontinence, but how does it work?. International Urogynecology Journal, 2004, 15, 76-84.	1.4	363
106	Musculoskeletal fitness in a norwegian population. Advances in Physiotherapy, 2004, 6, 182-190.	0.2	2
107	Urinary Incontinence, Pelvic Floor Dysfunction, Exercise and Sport. Sports Medicine, 2004, 34, 451-464.	6.5	262
108	Transabdominal ultrasound measurement of pelvic floor muscle activity when activated directly or via a transversus abdominis muscle contraction. Neurourology and Urodynamics, 2003, 22, 582-588.	1.5	127

#	Article	IF	CITATIONS
109	Pelvic floor muscle strength and response to pelvic floor muscle training for stress urinary incontinence. Neurourology and Urodynamics, 2003, 22, 654-658.	1.5	119
110	Is there any difference in measurement of pelvic floor muscle strength in supine and standing position?. Acta Obstetricia Et Gynecologica Scandinavica, 2003, 82, 1120-1124.	2.8	74
111	Vaginal palpation of pelvic floor muscle strength: inter-test reproducibility and comparison between palpation and vaginal squeeze pressure. Acta Obstetricia Et Gynecologica Scandinavica, 2001, 80, 883-887.	2.8	182
