#	ARTICLE	IF	CITATIONS
1	Effects of the Learning Together intervention on bullying and aggression in English secondary schools (INCLUSIVE): a cluster randomised controlled trial. <i>Lancet, The</i> , 2018, 392, 2452-2464.	13.7	190
2	Structured, intensive education maximising engagement, motivation and long-term change for children and young people with diabetes: a cluster randomised controlled trial with integral process and economic evaluation – the CASCADE study. <i>Health Technology Assessment</i> , 2014, 18, 1-202.	2.8	63
3	The role of family and school-level factors in bullying and cyberbullying: a cross-sectional study. <i>BMC Pediatrics</i> , 2017, 17, 160.	1.7	56
4	Health outcomes of youth development programme in England: prospective matched comparison study. <i>BMJ: British Medical Journal</i> , 2009, 339, b2534-b2534.	2.3	52
5	Initiating change locally in bullying and aggression through the school environment (INCLUSIVE): a pilot randomised controlled trial. <i>Health Technology Assessment</i> , 2015, 19, 1-110.	2.8	51
6	Initiating change locally in bullying and aggression through the school environment (INCLUSIVE): study protocol for a cluster randomised controlled trial. <i>Trials</i> , 2014, 15, 381.	1.6	36
7	Pilot Multimethod Trial of a School-Ethos Intervention to Reduce Substance Use: Building Hypotheses About Upstream Pathways to Prevention. <i>Journal of Adolescent Health</i> , 2010, 47, 555-563.	2.5	29
8	Timing of the initiation of antenatal care: An exploratory qualitative study of women and service providers in East London. <i>Midwifery</i> , 2016, 36, 1-7.	2.3	26
9	A pilot whole-school intervention to improve school ethos and reduce substance use. <i>Health Education</i> , 2010, 110, 252-272.	0.9	24
10	Effectiveness of a structured educational intervention using psychological delivery methods in children and adolescents with poorly controlled type 1 diabetes: a cluster-randomized controlled trial of the CASCADE intervention. <i>BMJ Open Diabetes Research and Care</i> , 2016, 4, e000165.	2.8	22
11	Better together: A qualitative exploration of women's perceptions and experiences of group antenatal care. <i>Women and Birth</i> , 2019, 32, 336-345.	2.0	21
12	Implementing a structured education program for children with diabetes: lessons learnt from an integrated process evaluation. <i>BMJ Open Diabetes Research and Care</i> , 2015, 3, e000065.	2.8	15
13	'It makes sense and it works': Maternity care providers' perspectives on the feasibility of a group antenatal care model (Pregnancy Circles). <i>Midwifery</i> , 2018, 66, 56-63.	2.3	13
14	Testing the effectiveness of REACH Pregnancy Circles group antenatal care: protocol for a randomised controlled pilot trial. <i>Pilot and Feasibility Studies</i> , 2018, 4, 169.	1.2	9
15	Initiating change locally in bullying and aggression through the school environment (INCLUSIVE) trial: update to cluster randomised controlled trial protocol. <i>Trials</i> , 2017, 18, 238.	1.6	8
16	Modifying the secondary school environment to reduce bullying and aggression: the INCLUSIVE cluster RCT. <i>Public Health Research</i> , 2019, 7, 1-164.	1.3	8
17	Group antenatal care (Pregnancy Circles) for diverse and disadvantaged women: study protocol for a randomised controlled trial with integral process and economic evaluations. <i>BMC Health Services Research</i> , 2020, 20, 919.	2.2	7
18	Evaluation of community-level interventions to increase early initiation of antenatal care in pregnancy: protocol for the Community REACH study, a cluster randomised controlled trial with integrated process and economic evaluations. <i>Trials</i> , 2018, 19, 163.	1.6	5

#	ARTICLE	IF	CITATIONS
19	Do family factors protect against sexual risk behaviour and teenage pregnancy among multiply disadvantaged young people? Findings from an English longitudinal study. <i>Sexual Health</i> , 2014, 11, 265.	0.9	3
