#	ARTICLE	IF	CITATIONS
1	Posttraumatic growth in people affected by an occupational accident: A longitudinal multilevel model of change. <i>Applied Psychology: Health and Well-Being</i> , 2023, 15, 409-424.	3.0	3
2	Design, content, and fieldwork procedures of the COVID-19 Psychological Research Consortium (C19PRC) Study â€“ Wave 4. <i>International Journal of Methods in Psychiatric Research</i> , 2022, 31, e1899.	2.1	9
3	Measurement invariance of the Patient Health Questionnaire (PHQ-9) and Generalized Anxiety Disorder scale (GAD-7) across four European countries during the COVID-19 pandemic. <i>BMC Psychiatry</i> , 2022, 22, 154.	2.6	41
4	Relations between emotion regulation strategies and affect in daily life: A systematic review and meta-analysis of studies using ecological momentary assessments. <i>Neuroscience and Biobehavioral Reviews</i> , 2022, 139, 104747.	6.1	24
5	The network structure of paranoia dimensions and its mental health correlates in the general population: The core role of loneliness. <i>Schizophrenia Research</i> , 2022, 246, 65-73.	2.0	10
6	Integrative Well-Being Leads Our Attentional System: An Eye-Tracking Study. <i>Journal of Happiness Studies</i> , 2021, 22, 787-801.	3.2	9
7	The Impact of Compassion Meditation Training on Psychological Variables: a Network Perspective. <i>Mindfulness</i> , 2021, 12, 873-888.	2.8	16
8	Monitoring the psychological, social, and economic impact of the COVID-19 pandemic in the population: Context, design and conduct of the longitudinal COVID-19 psychological research consortium (C19PRC) study. <i>International Journal of Methods in Psychiatric Research</i> , 2021, 30, e1861.	2.1	97
9	Mental health responses to COVID-19 around the world. <i>HÅƒgre Utbildning</i> , 2021, 12, 1929754.	3.0	58
10	Psychological Adjustment in Spain during the COVID-19 Pandemic: Positive and Negative Mental Health Outcomes in the General Population. <i>Spanish Journal of Psychology</i> , 2021, 24, e8.	2.1	48
11	Not all types of meditation are the same: Mediators of change in mindfulness and compassion meditation interventions. <i>Journal of Affective Disorders</i> , 2021, 283, 354-362.	4.1	26
12	Cognitive Control, Cognitive Biases and Emotion Regulation in Depression: A New Proposal for an Integrative Interplay Model. <i>Frontiers in Psychology</i> , 2021, 12, 628416.	2.1	20
13	Context, design and conduct of the longitudinal COVID-19 psychological research consortium studyâ€“wave 3. <i>International Journal of Methods in Psychiatric Research</i> , 2021, 30, e1880.	2.1	14
14	â€“Relearning how to thinkâ€™: A brief online intervention to modify biased interpretations in emotional disordersâ€”study protocol for a randomised controlled trial. <i>Trials</i> , 2021, 22, 510.	1.6	0
15	Disentangling the mediating role of modifying interpretation bias on emotional distress using a novel cognitive bias modification program. <i>Journal of Anxiety Disorders</i> , 2021, 83, 102459.	3.2	6
16	Post-Traumatic Growth and Stress-Related Responses During the COVID-19 Pandemic in a National Representative Sample: The Role of Positive Core Beliefs About the World and Others. <i>Journal of Happiness Studies</i> , 2021, 22, 2915-2935.	3.2	105
17	A symptom-based definition of resilience in times of pandemics: patterns of psychological responses over time and their predictors. <i>HÅƒgre Utbildning</i> , 2021, 12, 1871555.	3.0	22
18	The Effects of a 1-Month Meditation Retreat on Selective Attention Towards Emotional Faces: an Eye-Tracking Study. <i>Mindfulness</i> , 2020, 11, 219-229.	2.8	13

#	ARTICLE	IF	CITATIONS
19	Why we need to integrate mental health into pandemic planning. <i>Perspectives in Public Health</i> , 2020, 140, 309-310.	1.6	14
20	Self-reported cognitive biases in depression: A meta-analysis. <i>Clinical Psychology Review</i> , 2020, 82, 101934.	11.4	22
21	The quality of research on mental health related to the COVID-19 pandemic: A note of caution after a systematic review. <i>Brain, Behavior, & Immunity - Health</i> , 2020, 7, 100123.	2.5	33
22	Attentional patterns as emotion regulation strategies during the anticipation of repetitive emotional scenes: an eye-tracker study. <i>Psychological Research</i> , 2020, 85, 2970-2979.	1.7	0
23	Brief Meditation Trainings Improve Performance in the Emotional Attentional Blink. <i>Mindfulness</i> , 2020, 11, 1613-1622.	2.8	12
24	Positive interventions in depression change the structure of well-being and psychological symptoms: A network analysis. <i>Journal of Positive Psychology</i> , 2020, 15, 623-628.	4.0	19
25	Emotional SNARC: emotional faces affect the impact of number magnitude on gaze patterns. <i>Psychological Research</i> , 2020, 85, 1885-1893.	1.7	3
26	Sharing data to better understand one of the world's most significant shared experiences: data resource profile of the longitudinal COVID-19 psychological research consortium (C19PRC) study. <i>International Journal of Population Data Science</i> , 2020, 5, 1704.	0.1	10
27	Does mindfulness change the mind? A novel psychonectome perspective based on Network Analysis. <i>PLoS ONE</i> , 2019, 14, e0219793.	2.5	22
28	Predicting optimal interventions for clinical depression: Moderators of outcomes in a positive psychological intervention vs. cognitive-behavioral therapy. <i>General Hospital Psychiatry</i> , 2019, 61, 104-110.	2.4	13
29	Attentional biases in dysphoria when happy and sad faces are simultaneously presented. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2019, 65, 101499.	1.2	11
30	The Study of Psychopathology from the Network Analysis Perspective: A Systematic Review. <i>Psychotherapy and Psychosomatics</i> , 2019, 88, 71-83.	8.8	220
31	The Integrative Positive Psychological Intervention for Depression (IPPI-D). <i>Journal of Contemporary Psychotherapy</i> , 2019, 49, 177-185.	1.2	11
32	Predictors of post-traumatic stress symptoms following occupational accidents: A longitudinal study. <i>Anxiety, Stress and Coping</i> , 2019, 32, 168-178.	2.9	3
33	CBT and positive psychology interventions for clinical depression promote healthy attentional biases: An eye-tracking study. <i>Depression and Anxiety</i> , 2018, 35, 966-973.	4.1	20
34	Methodological Recommendations for Trials of Psychological Interventions. <i>Psychotherapy and Psychosomatics</i> , 2018, 87, 276-284.	8.8	146
35	The impact of economic recessions on depression and individual and social well-being: the case of Spain (2006-2013). <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2018, 53, 977-986.	3.1	49
36	A failure to show the efficacy of a dot-probe attentional training in dysphoria: Evidence from an eye-tracking study. <i>Journal of Clinical Psychology</i> , 2018, 74, 2145-2160.	1.9	7

#	ARTICLE	IF	CITATIONS
37	Trauma and posttraumatic stress disorder in Spanish public mental health system clients with severe psychiatric conditions: Clinical and demographic correlates.. <i>Psychiatric Rehabilitation Journal</i> , 2018, 41, 234-242.	1.1	4
38	A Comparative Study on the Efficacy of a Positive Psychology Intervention and a Cognitive Behavioral Therapy for Clinical Depression. <i>Cognitive Therapy and Research</i> , 2017, 41, 417-433.	1.9	103
39	Don't look at my teeth when I smile: Teeth visibility in smiling faces affects emotionality ratings and gaze patterns.. <i>Emotion</i> , 2017, 17, 640-647.	1.8	14
40	Disentangling the Interplay Among Cognitive Biases: Evidence of Combined Effects of Attention, Interpretation and Autobiographical Memory in Depression. <i>Cognitive Therapy and Research</i> , 2017, 41, 829-841.	1.9	20
41	What does Positivity Add to Psychopathology? An Introduction to the Special Issue on "Positive Emotions and Cognitions in Clinical Psychology". <i>Cognitive Therapy and Research</i> , 2017, 41, 325-334.	1.9	35
42	Pattern of Changes during Treatment: A Comparison between a Positive Psychology Intervention and a Cognitive Behavioral Treatment for Clinical Depression. <i>Spanish Journal of Psychology</i> , 2017, 20, E52.	2.1	4
43	Comparing the acceptability of a positive psychology intervention versus a cognitive behavioural therapy for clinical depression. <i>Clinical Psychology and Psychotherapy</i> , 2017, 24, 1029-1039.	2.7	25
44	El análisis de las fortalezas psicológicas en la adolescencia: Más allá de los modelos de vulnerabilidad. <i>Psychology, Society and Education</i> , 2017, 2, 97.	0.5	26
45	Psychological Effects of a 1-Month Meditation Retreat on Experienced Meditators: The Role of Non-attachment. <i>Frontiers in Psychology</i> , 2016, 7, 1935.	2.1	38
46	Attentional bias modification in depression through gaze contingencies and regulatory control using a new eye-tracking intervention paradigm: study protocol for a placebo-controlled trial. <i>BMC Psychiatry</i> , 2016, 16, 439.	2.6	28
47	The Pemberton Happiness Index. <i>Medicine (United States)</i> , 2016, 95, e4915.	1.0	15
48	Explicit self-esteem mediates the relationship between implicit self-esteem and memory biases in major depression. <i>Psychiatry Research</i> , 2016, 242, 336-344.	3.3	20
49	Positive interventions in seriously-ill children: Effects on well-being after granting a wish. <i>Journal of Health Psychology</i> , 2016, 21, 1870-1883.	2.3	16
50	Granting wishes of seriously ill children: Effects on parents' well-being. <i>Journal of Health Psychology</i> , 2016, 21, 2314-2327.	2.3	7
51	Building Life Satisfaction Through Well-Being Dimensions: A Longitudinal Study in Children with a Life-Threatening Illness. <i>Journal of Happiness Studies</i> , 2016, 17, 1051-1067.	3.2	14
52	Coping, rumination and posttraumatic growth in people affected by an earthquake. <i>Psicothema</i> , 2016, 28, 59-65.	0.9	31
53	Beyond resilience: Positive mental health and the nature of cognitive processes involved in positive appraisals. <i>Behavioral and Brain Sciences</i> , 2015, 38, e125.	0.7	2
54	Trauma or growth after a natural disaster? The mediating role of rumination processes. <i>Högskoleutbildning</i> , 2015, 6, 26557.	3.0	43

#	ARTICLE	IF	CITATIONS
55	Modificaci3n de Sesgos Cognitivos (MSC) en depresi3n: Una revisi3n cr3tica de nuevos procedimientos para el cambio de sesgos cognitivos. <i>Terapia Psicol3gica</i> , 2015, 33, 103-116.	0.3	6
56	A National Representative Study of the Relative Impact of Physical and Psychological Problems on Life Satisfaction. <i>Journal of Happiness Studies</i> , 2015, 16, 135-148.	3.2	34
57	Double attention bias for positive and negative emotional faces in clinical depression: Evidence from an eye-tracking study. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2015, 46, 107-114.	1.2	244
58	Gaze-fixation and pupil dilation in the processing of emotional faces: The role of rumination. <i>Cognition and Emotion</i> , 2014, 28, 1347-1366.	2.0	65
59	Gaze-fixation to happy faces predicts mood repair after a negative mood induction.. <i>Emotion</i> , 2014, 14, 85-94.	1.8	113
60	Rumination and specificity of autobiographical memory in dysphoria. <i>Memory</i> , 2014, 22, 646-654.	1.7	23
61	Overt head movements moderate the effect of depressive symptoms on mood regulation. <i>Cognition and Emotion</i> , 2014, 28, 1328-1337.	2.0	5
62	Looking at the eyes of happiness: Positive emotions mediate the influence of life satisfaction on attention to happy faces. <i>Journal of Positive Psychology</i> , 2014, 9, 435-448.	4.0	50
63	Memory biases in remitted depression: The role of negative cognitions at explicit and automatic processing levels. <i>Journal of Behavior Therapy and Experimental Psychiatry</i> , 2014, 45, 128-135.	1.2	49
64	Posttraumatic Growth: Challenges from a Cross-Cultural Viewpoint. <i>Cross-cultural Advancements in Positive Psychology</i> , 2014, , 57-74.	0.2	23
65	Construction and validation of a measure of integrative well-being in seven languages: The Pemberton Happiness Index. <i>Health and Quality of Life Outcomes</i> , 2013, 11, 66.	2.4	167
