#	Article	IF	CITATIONS
1	A network approach to understanding social distancing behaviour during the first UK lockdown of the COVID-19 pandemic. Psychology and Health, 2024, 39, 109-127.	2.2	4
2	Psychological responses to the COVID-19 pandemic are heterogeneous but have stabilised over time: 1 year longitudinal follow-up of the COVID-19 Psychological Research Consortium (C19PRC) study. Psychological Medicine, 2023, 53, 3245-3247.	4.5	14
3	Mental health of adults in Ireland during the first year of the COVID-19 pandemic: results from a nationally representative, longitudinal study. Psychological Medicine, 2023, 53, 3766-3768.	4.5	14
4	Predicting risk along the suicidality continuum: A longitudinal, nationally representative study of the Irish population during the COVIDâ€19 pandemic. Suicide and Life-Threatening Behavior, 2022, 52, 83-98.	1.9	21
5	The latent structure of ICD-11 posttraumatic stress disorder (PTSD) and complex PTSD in a general population sample from USA: A factor mixture modelling approach. Journal of Anxiety Disorders, 2022, 85, 102497.	3.2	8
6	Design, content, and fieldwork procedures of the COVIDâ€19ÂPsychological Research Consortium (C19PRC) Study – Wave 4. International Journal of Methods in Psychiatric Research, 2022, 31, e1899.	2.1	9
7	Testing both affordability-availability and psychological-coping mechanisms underlying changes in alcohol use during the COVID-19 pandemic. PLoS ONE, 2022, 17, e0265145.	2.5	3
8	The Prevalence, Patterns and Correlates of Childhood Trauma Exposure in a Nationally Representative Sample of Young People in Northern Ireland. Journal of Child and Adolescent Trauma, 2022, , 1-14.	1.9	2
9	How is loneliness related to anxiety and depression: AÂpopulationâ€based network analysis in the early lockdown period. International Journal of Psychology, 2022, 57, 585-596.	2.8	19
10	Prevalence and predictors of <scp>ICD</scp> â€11 posttraumatic stress disorder and complex <scp>PTSD</scp> in young people. Acta Psychiatrica Scandinavica, 2022, 146, 110-125.	4.5	16
11	State of Ireland's mental health: findings from a nationally representative survey. Epidemiology and Psychiatric Sciences, 2022, 31, .	3.9	4
12	On top or underneath: where does the general factor of psychopathology fit within a dimensional model of psychopathology?. Psychological Medicine, 2021, 51, 2422-2432.	4.5	12
13	Trauma, PTSD, and complex PTSD in the Republic of Ireland: prevalence, service use, comorbidity, and risk factors. Social Psychiatry and Psychiatric Epidemiology, 2021, 56, 649-658.	3.1	44
14	Monitoring the psychological, social, and economic impact of the COVIDâ€19 pandemic in the population: Context, design and conduct of the longitudinal COVIDâ€19 psychological research consortium (C19PRC) study. International Journal of Methods in Psychiatric Research, 2021, 30, e1861.	2.1	97
15	Navigating the who, where, what, when, how and why of trauma exposure and response. Högre Utbildning, 2021, 12, 1855903.	3.0	1
16	Pandemic buying: Testing a psychological model of over-purchasing and panic buying using data from the United Kingdom and the Republic of Ireland during the early phase of the COVID-19 pandemic. PLoS ONE, 2021, 16, e0246339.	2.5	77
17	Externalizing the threat from within: A new direction for researching associations between suicide and psychotic experiences. Development and Psychopathology, 2021, , 1-11.	2.3	6
18	The Role of Emotional Regulation in Anxiety and Depression Symptom Interplay and Expression among Adolescent Females. Journal of Psychopathology and Behavioral Assessment, 2021, 43, 854-868.	1.2	3

#	Article	IF	CITATIONS
19	Refuting the myth of a  tsunami' of mental ill-health in populations affected by COVID-19: evidence that response to the pandemic is heterogeneous, not homogeneous. Psychological Medicine, 2021, , 1-9.	4.5	95
20	A systematic literature review of factor analytic and mixture models of ICD-11 PTSD and CPTSD using the International Trauma Questionnaire. Journal of Anxiety Disorders, 2021, 79, 102381.	3.2	56
21	Context, design and conduct of the longitudinal COVIDâ€19 psychological research consortium study–wave 3. International Journal of Methods in Psychiatric Research, 2021, 30, e1880.	2.1	14
22	Resistance to COVID-19 vaccination has increased in Ireland and the United Kingdom during the pandemic. Public Health, 2021, 195, 54-56.	2.9	30
23	A longitudinal assessment of depression and anxiety in the Republic of Ireland before and during the COVID-19 pandemic. Psychiatry Research, 2021, 300, 113905.	3.3	65
24	Delay discounting and under-valuing of recent information predict poorer adherence to social distancing measures during the COVID-19 pandemic. Scientific Reports, 2021, 11, 19237.	3.3	10
25	Trajectories of change in internalizing symptoms during the COVID-19 pandemic: A longitudinal population-based study. Journal of Affective Disorders, 2021, 295, 1024-1031.	4.1	18
26	Psychological characteristics associated with COVID-19 vaccine hesitancy and resistance in Ireland and the United Kingdom. Nature Communications, 2021, 12, 29.	12.8	849
27	Detecting and describing stability and change in COVID-19 vaccine receptibility in the United Kingdom and Ireland. PLoS ONE, 2021, 16, e0258871.	2.5	12
28	Modelling the complexity of pandemic-related lifestyle quality change and mental health: an analysis of a nationally representative UK general population sample. Social Psychiatry and Psychiatric Epidemiology, 2021, , 1.	3.1	3
29	Distinguishing Complex PTSD from Borderline Personality Disorder among individuals with a history of sexual trauma: A latent class analysis. European Journal of Trauma and Dissociation, 2020, 4, 100080.	1.3	39
30	Rates and predictors of anti-depressant prescribing in Northern Ireland 2011–2015: a data linkage study using the Administrative Data Research Centre (NI). Irish Journal of Psychological Medicine, 2020, 37, 32-38.	1.0	4
31	Network Analysis of Posttraumatic Stress Experiences of Adults Seeking Psychological Treatment for Childhood Sexual Abuse. Journal of Traumatic Stress, 2020, 33, 10-18.	1.8	19
32	Predictors of antidepressant use in the English population: analysis of the Adult Psychiatric Morbidity Survey. Irish Journal of Psychological Medicine, 2020, 37, 15-23.	1.0	7
33	Anxiety, depression, traumatic stress and COVID-19-related anxiety in the UK general population during the COVID-19 pandemic. BJPsych Open, 2020, 6, e125.	0.7	483
34	Risk factors associated with general and specific dimensions of psychosis in a nationally representative sample of adults from the United States. Psychosis, 2020, 12, 303-313.	0.8	5
35	Posttraumatic Stress Symptoms and Associated Comorbidity During the COVIDâ€19 Pandemic in Ireland: A Populationâ€Based Study. Journal of Traumatic Stress, 2020, 33, 365-370.	1.8	114
36	Anxiety and depression in the Republic of Ireland during the COVIDâ€19 pandemic. Acta Psychiatrica Scandinavica, 2020, 142, 249-256.	4.5	397

#	Article	IF	CITATIONS
37	Sexual Violence and Its Associated Psychosocial Effects in Ireland. Journal of Interpersonal Violence, 2020, , 088626052097819.	2.0	3
38	Post-migration factors and mental health outcomes in asylum-seeking and refugee populations: a systematic review. Högre Utbildning, 2020, 11, 1793567.	3.0	80
39	COVIDâ€19â€related anxiety predicts somatic symptoms in the UK population. British Journal of Health Psychology, 2020, 25, 875-882.	3.5	142
40	Profiling and predicting help-seeking behaviour among trauma-exposed UK firefighters. H \tilde{A} ¶gre Utbildning, 2020, 11, 1721144.	3.0	11
41	Revealing what is distinct by recognising what is common: distinguishing between complex PTSD and Borderline Personality Disorder symptoms using bifactor modelling. HA¶gre Utbildning, 2020, 11, 1836864.	3.0	15
42	Sharing data to better understand one of the world's most significant shared experiences: data resource profile of the longitudinal COVID-19 psychological research consortium (C19PRC) study. International Journal of Population Data Science, 2020, 5, 1704.	0.1	10
43	Can the REBT theory explain loneliness? Theoretical and clinical applications. Cognitive Behaviour Therapy, 2019, 48, 39-51.	3.5	6
44	Identifying the Key Risk Factors for Adverse Psychological Outcomes Among Police Officers: A Systematic Literature Review. Journal of Traumatic Stress, 2019, 32, 688-700.	1.8	49
45	Where are all the males? Gender-specific typologies of childhood adversity based on a large community sample. Child Abuse and Neglect, 2019, 90, 149-159.	2.6	23
46	Recognising autism: a latent transition analysis of parental reports of child autistic spectrum disorder †red flag' traits before and after age 3. Social Psychiatry and Psychiatric Epidemiology, 2019, 54, 703-713.	3.1	5
47	Caring for the mental health of humanitarian volunteers in traumatic contexts: the importance of organisational support. H $ ilde{A}$ gre Utbildning, 2019, 10, 1694811.	3.0	37
48	Negative self-evaluation and the genesis of internal threat: beyond a continuum of suicidal thought and behaviour. Psychological Medicine, 2019, 49, 2591-2599.	4.5	11
49	Social, Familial and Psychological Risk Factors for Endocrine, Nutritional and Metabolic Disorders in Childhood and Early Adulthood: a Birth Cohort Study Using the Danish Registry System. Current Psychology, 2019, 38, 1297-1303.	2.8	0
50	The complexity of trauma exposure and response: Profiling PTSD and CPTSD among a refugee sample Psychological Trauma: Theory, Research, Practice, and Policy, 2019, 11, 165-175.	2.1	30
51	â€~Something wasn't quite right': a novel phenomenological analysis of internet discussion posts detailing initial awareness of psychosis. Clinical Schizophrenia and Related Psychoses, 2019, , .	1.4	3
52	Correlates of a general psychopathology factor in a clinical sample of childhood sexual abuse survivors. Journal of Affective Disorders, 2018, 232, 109-115.	4.1	10
53	Validating Childhood Maltreatment Typologies Using Data Linkage. Journal of Loss and Trauma, 2018, 23, 99-112.	1.5	3
54	Distress, Impairment and the Extended Psychosis Phenotype: A Network Analysis of Psychotic Experiences in an US General Population Sample. Schizophrenia Bulletin, 2018, 44, 768-777.	4.3	26

#	Article	IF	Citations
55	Co-occurring internalizing and externalizing psychopathology in childhood and adolescence: a network approach. European Child and Adolescent Psychiatry, 2018, 27, 1449-1457.	4.7	43
56	Typologies of child sexual abuse: An analysis of multiple abuse acts among a large sample of Danish treatment-seeking survivors of childhood sexual abuse Psychological Trauma: Theory, Research, Practice, and Policy, 2018, 10, 263-269.	2.1	13
57	Reconsidering the association between psychosis and suicide: a suicidal drive hypothesis. Psychosis, 2018, 10, 286-297.	0.8	18
58	Prevalence of psychotic-like experiences and associated distress in adolescent community, sexual-trauma and clinical samples. Psychosis, 2018, 10, 251-262.	0.8	4
59	<scp>ICD</scp> â€11 <scp>PTSD</scp> and complex <scp>PTSD</scp> amongst Syrian refugees in Lebanon: the factor structure and the clinical utility of the International Trauma Questionnaire. Acta Psychiatrica Scandinavica, 2018, 138, 547-557.	4.5	92
60	Are posttraumatic stress disorder (PTSD) and complex-PTSD distinguishable within a treatment-seeking sample of Syrian refugees living in Lebanon?. Global Mental Health (Cambridge, England), 2018, 5, e14.	2.5	58
61	Comparative effectiveness of physical activity interventions and anti-hypertensive pharmacological interventions in reducing blood pressure in people with hypertension: protocol for a systematic review and network meta-analysis. Systematic Reviews, 2018, 7, 128.	5.3	13
62	The Psychosis Continuum: Testing a Bifactor Model of Psychosis in a General Population Sample. Schizophrenia Bulletin, 2017, 43, 133-141.	4.3	54
63	Variation in post-traumatic response: the role of trauma type in predicting ICD-11 PTSD and CPTSD symptoms. Social Psychiatry and Psychiatric Epidemiology, 2017, 52, 727-736.	3.1	127
64	Homotypic and heterotypic psychopathological continuity: a child cohort study. Social Psychiatry and Psychiatric Epidemiology, 2017, 52, 1135-1145.	3.1	55
65	Internalizing and externalizing disorders in childhood and adolescence: A latent transition analysis using ALSPAC data. Comprehensive Psychiatry, 2017, 75, 75-84.	3.1	48
66	Social isolation and psychosis-like experiences: a UK general population analysis. Psychosis, 2017, 9, 291-300.	0.8	22
67	An assessment of the construct validity of the ICD-11 proposal for complex posttraumatic stress disorder Psychological Trauma: Theory, Research, Practice, and Policy, 2017, 9, 1-9.	2.1	85
68	The Flexible Psychological Concept of Normality. , 2017, , 451-466.		0
69	Training the next generation of psychotraumatologists: COllaborative Network for Training and EXcellence in psychoTraumatology (CONTEXT). HA¶gre Utbildning, 2017, 8, 1421001.	3.0	4
70	The Temporal Relations of PTSD Symptoms Among Treatment-Seeking Victims of Sexual Assault: A Longitudinal Study. Journal of Loss and Trauma, 2016, 21, 492-506.	1.5	10
71	Social, familial and psychological risk factors for mood and anxiety disorders in childhood and early adulthood: a birth cohort study using the Danish Registry System. Social Psychiatry and Psychiatric Epidemiology, 2016, 51, 331-338.	3.1	30
72	Prevalence and predictors of Axis I disorders in a large sample of treatment-seeking victims of sexual abuse and incest. Högre Utbildning, 2016, 7, 30686.	3.0	20

#	Article	IF	CITATIONS
73	The need to contextualise psychotraumatology research. The Lancet Global Health, 2016, 4, e87-e88.	6.3	5
74	Social, familial and psychological risk factors for psychosis: A birth cohort study using the Danish Registry System. Psychosis, 2016, 8, 95-105.	0.8	5
75	Competing Factor Models of Child and Adolescent Psychopathology. Journal of Abnormal Child Psychology, 2016, 44, 1559-1571.	3.5	11
76	Exploring differences between the ICD-11 and DSM-5 models of PTSD: Does it matter which model is used?. Journal of Anxiety Disorders, 2016, 37, 48-53.	3.2	51
77	Psychometric properties of the <scp>P</scp> osttraumatic <scp>C</scp> ognition <scp>I</scp> nventory within a <scp>N</scp> orthern <scp>I</scp> reland adolescent sample. British Journal of Clinical Psychology, 2015, 54, 435-449.	3.5	14
78	Negative evaluations of self and others, and peer victimization as mediators of the relationship between childhood adversity and psychotic experiences in adolescence: The moderating role of loneliness. British Journal of Clinical Psychology, 2015, 54, 326-344.	3.5	29
79	Measurement of the psychosis continuum: Modelling the frequency and distress of subclinical psychotic experiences. Psychosis, 2015, 7, 108-118.	0.8	9
80	The Latent Structure of Loneliness. Assessment, 2015, 22, 208-215.	3.1	56
81	Loneliness mediates the relationship between childhood trauma and adult psychopathology: evidence from the adult psychiatric morbidity survey. Social Psychiatry and Psychiatric Epidemiology, 2015, 50, 591-601.	3.1	88
82	Specificity of association between adversities and the occurrence and co-occurrence paranoia and hallucinations: Evaluating the stability of childhood risk in an adverse adult environment. Psychosis, 2015, 7, 206-216.	0.8	23
83	Psychosis within dimensional and categorical models of mental illness. Psychosis, 2014, 6, 4-15.	0.8	11
84	Modelling the co-occurrence of psychosis-like experiences and childhood sexual abuse. Social Psychiatry and Psychiatric Epidemiology, 2014, 49, 1037-1044.	3.1	13
85	Jumping to conclusions: the association between delusional ideation and reasoning biases in a healthy student population. Psychosis, 2014, 6, 206-214.	0.8	7
86	Childhood sexual trauma, cannabis use and psychosis: statistically controlling for pre-trauma psychosis and psychopathology. Social Psychiatry and Psychiatric Epidemiology, 2013, 48, 853-861.	3.1	23
87	Patterns of lifetime female victimisation and psychotic experiences: a study based on the UK Adult Psychiatric Morbidity Survey 2007. Social Psychiatry and Psychiatric Epidemiology, 2013, 48, 15-24.	3.1	34
88	Confirmatory factor analysis of the Schizotypal Personality Questionnaire – brief: An alternative models approach. Psychosis, 2013, 5, 187-196.	0.8	5
89	From sexual abuse to psychosis: A pilot study exploring the social deafferentation hypothesis and the mediating role of avoidance. Psychosis, 2013, 5, 36-47.	0.8	8
90	Traumatic experience, cannabis use, life satisfaction, and schizotypy. Psychosis, 2012, 4, 126-136.	0.8	1

#	Article	IF	CITATIONS
91	A Population Based Analysis of Subclinical Psychosis and Help-Seeking Behavior. Schizophrenia Bulletin, 2012, 38, 360-367.	4.3	71
92	Memories of Childhood Threat, Fear of Disclosure and Paranoid Ideation: A Mediation Analysis Using a Nonclinical Sample. Journal of Aggression, Maltreatment and Trauma, 2012, 21, 459-476.	1.4	10
93	A person-centred approach to modelling population experiences of trauma and mental illness. Social Psychiatry and Psychiatric Epidemiology, 2011, 46, 149-157.	3.1	32
94	Evidence for a psychotic posttraumatic stress disorder subtype based on the National Comorbidity Survey. Social Psychiatry and Psychiatric Epidemiology, 2011, 46, 1069-1078.	3.1	28
95	Childhood adversity and hallucinations: a community-based study using the National Comorbidity Survey Replication. Social Psychiatry and Psychiatric Epidemiology, 2011, 46, 1203-1210.	3.1	58
96	Cannabis use and psychosis: re-visiting the role of childhood trauma. Psychological Medicine, 2011, 41, 2339-2348.	4.5	59
97	Positive psychosis symptom structure in the general population: Assessing dimensional consistency and continuity from "pathology―to "normality― Psychosis, 2010, 2, 199-209.	0.8	14
98	Childhood sexual abuse, early cannabis use, and psychosis: Testing the effects of different temporal orderings based on the National Comorbidity Survey. Psychosis, 2009, 1, 19-28.	0.8	19
99	Childhood Sexual Abuse, Early Cannabis Use, and Psychosis: Testing an Interaction Model Based on the National Comorbidity Survey. Schizophrenia Bulletin, 2007, 34, 580-585.	4.3	125
100	The distribution of positive psychosis-like symptoms in the population: A latent class analysis of the National Comorbidity Survey. Schizophrenia Research, 2007, 89, 101-109.	2.0	103
101	A latent class analysis of positive psychosis symptoms based on the British Psychiatric Morbidity Survey. Personality and Individual Differences, 2007, 42, 1491-1502.	2.9	26
102	Psychological Factors Influencing Protective Behaviours during the COVID-19 Pandemic: Capability, Opportunity and Motivation., 0,,.		0
