#	Article	IF	CITATIONS
1	Short-term and long-term effects of caesarean section on the health of women and children. Lancet, The, 2018, 392, 1349-1357.	13.7	682
2	Perinatal and maternal outcomes by planned place of birth for healthy women with low risk pregnancies: the Birthplace in England national prospective cohort study. BMJ: British Medical Journal, 2011, 343, d7400-d7400.	2.3	598
3	Effect of a behavioural intervention in obese pregnant women (the UPBEAT study): a multicentre, randomised controlled trial. Lancet Diabetes and Endocrinology, the, 2015, 3, 767-777.	11.4	535
4	Midwife-led continuity models versus other models of care for childbearing women. The Cochrane Library, 2016, 2016, CD004667.	2.8	494
5	Midwife-led continuity models versus other models of care for childbearing women. , 2013, , CD004667.		445
6	Midwife-led versus other models of care for childbearing women. , 2008, , CD004667.		282
7	Individual or group antenatal education for childbirth or parenthood, or both. The Cochrane Library, 2007, , CD002869.	2.8	234
8	The projected effect of scaling up midwifery. Lancet, The, 2014, 384, 1146-1157.	13.7	234
9	One stop clinic for assessment of risk for fetal anomalies: a report of the first year of prospective screening for chromosomal anomalies in the first trimester. BJOG: an International Journal of Obstetrics and Gynaecology, 2000, 107, 1271-1275.	2.3	161
10	Journey to Confidence: Women's Experiences of Pain in Labour and Relational Continuity of Care. Journal of Midwifery and Women's Health, 2010, 55, 234-242.	1.3	152
11	Mental health and wellbeing during the transition to fatherhood: a systematic review of first time fathers' experiences. JBI Database of Systematic Reviews and Implementation Reports, 2018, 16, 2118-2191.	1.7	139
12	The impact of perceived stigma and mediating social factors on infertility-related stress among women seeking infertility treatment in Southern Ghana. Social Science and Medicine, 2007, 65, 1683-1694.	3.8	124
13	Midwives' burnout and continuity of care. British Journal of Midwifery, 1997, 5, 106-111.	0.4	119
14	To what extent are women free to choose where to give birth? How discourses of risk, blame and responsibility influence birth place decisions. Health, Risk and Society, 2014, 16, 51-67.	1.7	113
15	Developing a complex intervention for diet and activity behaviour change in obese pregnant women (the UPBEAT trial); assessment of behavioural change and process evaluation in a pilot randomised controlled trial. BMC Pregnancy and Childbirth, 2013, 13, 148.	2.4	112
16	Planned early delivery or expectant management for late preterm pre-eclampsia (PHOENIX): a randomised controlled trial. Lancet, The, 2019, 394, 1181-1190.	13.7	112
17	Cost effectiveness of alternative planned places of birth in woman at low risk of complications: evidence from the Birthplace in England national prospective cohort study. BMJ, The, 2012, 344, e2292-e2292.	6.0	111
18	Women as moral pioneers? Experiences of first trimester antenatal screening. Social Science and Medicine, 2005, 61, 1983-1992.	3.8	107

#	Article	IF	Citations
19	Midwife-led continuity models versus other models of care for childbearing women. , 2015, , CD004667.		107
20	Occupational burnout and work factors in community and hospital midwives: A survey analysis. Midwifery, 2013, 29, 921-926.	2.3	100
21	Effects of Female Relative Support In Labor: A Randomized Controlled Trial. Birth, 1999, 26, 4-8.	2.2	96
22	What happens when patients know more than their doctors? Experiences of health interactions after diabetes patient education: a qualitative patient-led study: TableÂ1. BMJ Open, 2013, 3, e003583.	1.9	86
23	Understanding the social organisation of maternity care systems: midwifery as a touchstone. Sociology of Health and Illness, 2005, 27, 722-737.	2.1	83
24	Reporting errors, incidence and risk factors for postpartum haemorrhage and progression to severe <scp>PPH</scp> : a prospective observational study. BJOG: an International Journal of Obstetrics and Gynaecology, 2014, 121, 876-888.	2.3	81
25	A systematic review of the relationship between severe maternal morbidity and post-traumatic stress disorder. BMC Pregnancy and Childbirth, 2012, 12, 125.	2.4	76
26	Interventions to Reduce and Prevent Obesity in Pre-Conceptual and Pregnant Women: A Systematic Review and Meta-Analysis. PLoS ONE, 2014, 9, e95132.	2.5	76
27	The role of patients and their relatives in †speaking up†about their own safety †a qualitative study of acute illness. Health Expectations, 2015, 18, 392-405.	2.6	75
28	A complex intervention to improve pregnancy outcome in obese women; the UPBEAT randomised controlled trial. BMC Pregnancy and Childbirth, 2014, 14, 74.	2.4	74
29	Implementação da presença de acompanhantes durante a internação para o parto: dados da pesquisa nacional Nascer no Brasil. Cadernos De Saude Publica, 2014, 30, S140-S153.	1.0	72
30	An investigation of the relationship between the caseload model of midwifery for socially disadvantaged women and childbirth outcomes using routine data $\hat{a} \in A$ retrospective, observational study. Midwifery, 2015, 31, 409-417.	2.3	71
31	Overcoming gendered and professional hierarchies in order to facilitate escalation of care in emergency situations: The role of standardised communication protocols. Social Science and Medicine, 2010, 71, 1683-1686.	3.8	69
32	Improving Quality and Safety in Maternity Care: The Contribution of Midwife‣ed Care. Journal of Midwifery and Women's Health, 2010, 55, 255-261.	1.3	68
33	CeBRC-2 Stimulates D-loop Formation by RAD-51 and Promotes DNA Single-strand Annealing. Journal of Molecular Biology, 2006, 361, 231-242.	4.2	66
34	Healthcare quality and safety: a review of policy, practice and research. Sociology of Health and Illness, 2016, 38, 198-215.	2.1	66
35	Value of a modified early obstetric warning system (MEOWS) in managing maternal complications in the peripartum period: an ethnographic study. BMJ Quality and Safety, 2014, 23, 26-34.	3.7	65
36	Parturition and the perinatal period: can mode of delivery impact on the future health of the neonate?. Journal of Physiology, 2018, 596, 5709-5722.	2.9	62

#	Article	IF	CITATIONS
37	Choice, continuity and control: changing midwifery, towards a sociological perspective. Midwifery, 1995, 11, 201-209.	2.3	61
38	Asking different questions: A call to action for research to improve the quality of care for every woman, every child. Birth, 2018, 45, 222-231.	2.2	61
39	The impact of birthplace on women's birth experiences and perceptions of care. Social Science and Medicine, 2012, 74, 973-981.	3.8	59
40	A qualitative exploratory study of UK first-time fathers' experiences, mental health and wellbeing needs during their transition to fatherhood. BMJ Open, 2019, 9, e030792.	1.9	59
41	Women's perceptions and experiences of severe maternal morbidity – A synthesis of qualitative studies using a meta-ethnographic approach. Midwifery, 2014, 30, 158-169.	2.3	58
42	The relationship between severe maternal morbidity and psychological health symptoms at 6–8Âweeks postpartum: a prospective cohort study in one English maternity unit. BMC Pregnancy and Childbirth, 2014, 14, 133.	2.4	58
43	"Someone's rooting for you― Continuity, advocacy and street-level bureaucracy in UK maternal healthcare. Social Science and Medicine, 2009, 69, 1228-1235.	3.8	57
44	Discussions of findings from a Cochrane review of midwife-led versus other models of care for childbearing women: continuity, normality and safety. Midwifery, 2009, 25, 8-13.	2.3	57
45	Freestanding midwifery unit versus obstetric unit: a matched cohort study of outcomes in low-risk women. BMJ Open, 2011, 1, e000262-e000262.	1.9	57
46	Understanding how rapid response systems may improve safety for the acutely ill patient: learning from the frontline. BMJ Quality and Safety, 2012, 21, 135-144.	3.7	57
47	On being at higher risk: A qualitative study of prenatal screening for chromosomal anomalies. Social Science and Medicine, 2006, 62, 2360-2372.	3.8	56
48	Women's safety alerts in maternity care: is speaking up enough?: TableÂ1. BMJ Quality and Safety, 2013, 22, 348-355.	3.7	56
49	Midwifery continuity of carer in an area of high socio-economic disadvantage in London: A retrospective analysis of Albany Midwifery Practice outcomes using routine data (1997–2009). Midwifery, 2017, 48, 1-10.	2.3	52
50	Decentred comparative research: Context sensitive analysis of maternal health care. Social Science and Medicine, 2006, 63, 2986-2997.	3.8	51
51	Women's experiences of maternity service reconfiguration during the COVID-19 pandemic: A qualitative investigation. Midwifery, 2021, 102, 103116.	2.3	50
52	Social welfare, genetic welfare? Boundary-work in the IVF/PGD clinic. Social Science and Medicine, 2006, 63, 1213-1224.	3.8	49
53	Incidence of eclampsia and related complications across 10 low- and middle-resource geographical regions: Secondary analysis of a cluster randomised controlled trial. PLoS Medicine, 2019, 16, e1002775.	8.4	49
54	Biochemical Analysis of a DNA Replication Origin in the Archaeon Aeropyrum pernix. Journal of Molecular Biology, 2006, 363, 355-369.	4.2	48

#	Article	IF	Citations
55	Towards a sociology of healthcare safety and quality. Sociology of Health and Illness, 2016, 38, 181-197.	2.1	45
56	Occupational burnout in midwives: new ways of working and the relationship between organizational factors and psychological health and wellbeing. Risk, Decision and Policy, 1998, 3, 213-232.	0.1	45
57	Choosing embryos: ethical complexity and relational autonomy in staff accounts of PGD. Sociology of Health and Illness, 2007, 29, 1091-1106.	2.1	44
58	How do prospective parents who decline prenatal screening account for their decision? A qualitative study. Social Science and Medicine, 2009, 69, 274-277.	3.8	44
59	Normalizing Birth in England: A Qualitative Study. Journal of Midwifery and Women's Health, 2010, 55, 262-269.	1.3	44
60	Do pregnant women in Greece make informed choices about antenatal screening for Down's syndrome? A questionnaire survey. Midwifery, 2008, 24, 153-162.	2.3	42
61	How do women with social risk factors experience United Kingdom maternity care? A realist synthesis. Birth, 2019, 46, 461-474.	2.2	41
62	Service user, carer and provider perspectives on integrated care for older people with frailty, and factors perceived to facilitate and hinder implementation: A systematic review and narrative synthesis. PLoS ONE, 2019, 14, e0216488.	2.5	40
63	Effect of Self-monitoring of Blood Pressure on Diagnosis of Hypertension During Higher-Risk Pregnancy. JAMA - Journal of the American Medical Association, 2022, 327, 1656.	7.4	40
64	A qualitative exploration of the creation of calm in a continuity of carer model of maternity care in London. Midwifery, 2009, 25, 613-621.	2.3	37
65	Implementing â€~translational' biomedical research: Convergence and divergence among clinical and basic scientists. Social Science and Medicine, 2011, 73, 945-952.	3.8	37
66	Duration and urgency of transfer in births planned at home and in freestanding midwifery units in England: secondary analysis of the Birthplace national prospective cohort study. BMC Pregnancy and Childbirth, 2013, 13, 224.	2.4	36
67	Cesariana e resultados neonatais em hospitais privados no Brasil: estudo comparativo de dois diferentes modelos de atenção perinatal. Cadernos De Saude Publica, 2014, 30, S220-S231.	1.0	36
68	Addressing inequities in maternal health among women living in communities of social disadvantage and ethnic diversity. BMC Public Health, 2021, 21, 176.	2.9	36
69	Models of antenatal care to reduce and prevent preterm birth: a systematic review and meta-analysis. BMJ Open, 2016, 6, e009044.	1.9	35
70	Development and validation of predictive models for QUiPP App v.2: tool for predicting preterm birth in women with symptoms of threatened preterm labor. Ultrasound in Obstetrics and Gynecology, 2020, 55, 357-367.	1.7	35
71	Effect of a novel vital sign device on maternal mortality and morbidity in low-resource settings: a pragmatic, stepped-wedge, cluster-randomised controlled trial. The Lancet Global Health, 2019, 7, e347-e356.	6.3	34
72	Mobile phone apps for clinical decision support in pregnancy: a scoping review. BMC Medical Informatics and Decision Making, 2019, 19, 219.	3.0	34

#	Article	IF	CITATIONS
73	Effect of Self-monitoring of Blood Pressure on Blood Pressure Control in Pregnant Individuals With Chronic or Gestational Hypertension. JAMA - Journal of the American Medical Association, 2022, 327, 1666.	7.4	34
74	Organisation of maternity care and choices of mode of birth: A worldwide view. Midwifery, 2012, 28, 146-149.	2.3	33
75	A survey of worries of pregnant women: Reliability and validity of the Greek version of the Cambridge Worry Scale. Midwifery, 2012, 28, 746-753.	2.3	33
76	The habitus of â€rescue†and its significance for implementation of rapid response systems in acute health care. Social Science and Medicine, 2014, 120, 233-242.	3.8	33
77	Telemedicine with clinical decision support for critical care: a systematic review. Systematic Reviews, 2016, 5, 176.	5.3	33
78	Admission cardiotocography versus intermittent auscultation of fetal heart rate: Effects on neonatal Apgar score, on the rate of caesarean sections and on the rate of instrumental deliveryâ€"A systematic review. International Journal of Nursing Studies, 2007, 44, 1029-1035.	5.6	31
79	Social Service Professional or Market Expert?. Current Sociology, 2009, 57, 529-553.	1.4	31
80	Poor marital support associate with anxiety and worries during pregnancy in Greek pregnant women. Midwifery, 2014, 30, 628-635.	2.3	31
81	The efficient use of the maternity workforce and the implications for safety and quality in maternity care: a population-based, cross-sectional study. Health Services and Delivery Research, 2014, 2, 1-266.	1.4	31
82	Relationships between Maternal Obesity and Maternal and Neonatal Iron Status. Nutrients, 2018, 10, 1000.	4.1	30
83	Blood pressure monitoring in high-risk pregnancy to improve the detection and monitoring of hypertension (the BUMP 1 and 2 trials): protocol for two linked randomised controlled trials. BMJ Open, 2020, 10, e034593.	1.9	30
84	A national cross sectional survey of heads of midwifery services of uptake, benefits and barriers to use of obstetric early warning systems (EWS) by midwives. Midwifery, 2014, 30, 1140-1146.	2.3	29
85	Predictors of birth-related post-traumatic stress symptoms: secondary analysis of a cohort study. Archives of Women's Mental Health, 2016, 19, 987-999.	2.6	29
86	Women and their birth partners' experiences following a primary postpartum haemorrhage: a qualitative study. BMC Pregnancy and Childbirth, 2016, 16, 80.	2.4	29
87	Project 20: Midwives' insight into continuity of care models for women with social risk factors: what works, for whom, in what circumstances, and how. Midwifery, 2020, 84, 102654.	2.3	29
88	The Cultural Politics of †Implementation Science'. Journal of Medical Humanities, 2020, 41, 379-394.	0.7	29
89	An ethnographic organisational study of alongside midwifery units: a follow-on study from the Birthplace in England programme. Health Services and Delivery Research, 2014, 2, 1-100.	1.4	29
90	â€This is just what you do when you are pregnant': a qualitative study of prospective parents in Iceland who accept nuchal translucency screening. Midwifery, 2009, 25, 711-720.	2.3	28

#	Article	IF	Citations
91	Organisational strategies and midwives' readiness to provide care for out of hospital births: An analysis from the Birthplace organisational case studies. Midwifery, 2012, 28, 636-645.	2.3	28
92	The CRADLE vital signs alert: qualitative evaluation of a novel device designed for use in pregnancy by healthcare workers in low-resource settings. Reproductive Health, 2018, 15, 5.	3.1	27
93	â€Just because she's young, it doesn't mean she has to die': exploring the contributing factors to hig maternal mortality in adolescents in Eastern Freetown; a qualitative study. Reproductive Health, 2018, 15, 31.	h 3.1	26
94	Prediction of stillbirth: an umbrella review of evaluation of prognostic variables. BJOG: an International Journal of Obstetrics and Gynaecology, 2021, 128, 238-250.	2.3	26
95	The Birthplace in England national prospective cohort study: further analyses to enhance policy and service delivery decision-making for planned place of birth. Health Services and Delivery Research, 2015, 3, 1-264.	1.4	26
96	Perinatal and maternal outcomes in planned home and obstetric unit births in women at †higher risk†of complications: secondary analysis of the Birthplace national prospective cohort study. BJOG: an International Journal of Obstetrics and Gynaecology, 2015, 122, 741-753.	2.3	25
97	Place of Birth and Concepts of Wellbeing. Anthropology in Action, 2016, 23, 17-29.	1.3	25
98	Midwifery continuity of care versus standard maternity care for women at increased risk of preterm birth: A hybrid implementation–effectiveness, randomised controlled pilot trial in the UK. PLoS Medicine, 2020, 17, e1003350.	8.4	25
99	Experiences of early labour management from perspectives of women, labour companions and health professionals: A systematic review of qualitative evidence. Midwifery, 2017, 57, 69-84.	2.3	24
100	Threatened preterm labour: Women's experiences of risk and care management: A qualitative study. Midwifery, 2018, 64, 85-92.	2.3	24
101	The role of midwifery and other international insights for maternity care in the United States: An analysis of four countries. Birth, 2020, 47, 332-345.	2.2	24
102	Estimating intrapartumâ€related perinatal mortality rates for booked home births: when the †best' available data are not good enough. BJOG: an International Journal of Obstetrics and Gynaecology, 2009, 116, 933-942.	2.3	23
103	The validation and translation of Multidimensional Measure of Informed Choice in Greek. Midwifery, 2011, 27, 170-173.	2.3	23
104	Elective caesarean delivery: A mixed method qualitative investigation. Midwifery, 2013, 29, e138-e144.	2.3	23
105	Coping strategies of women seeking infertility treatment in southern Ghana. African Journal of Reproductive Health, 2009, 13, 81-93.	1.1	23
106	"lf she wants to eat…and eat and eat…fine! It's gonna feed the babyâ€! Pregnant women and partners' perceptions and experiences of pregnancy with a BMI >40 kg/m 2. Midwifery, 2017, 49, 87-94.	2.3	22
107	Online resources and apps to aid self-diagnosis and help seeking in the perinatal period: A descriptive survey of women's experiences. Midwifery, 2020, 90, 102803.	2.3	22
108	Development and evaluation of a novel Vital Signs Alert device for use in pregnancy in low-resource settings. BMJ Innovations, 2018, 4, 192-198.	1.7	21

#	Article	IF	CITATIONS
109	A narrative synthesis of factors that affect women speaking up about early warning signs and symptoms of pre-eclampsia and responses of healthcare staff. BMC Pregnancy and Childbirth, 2017, 17, 63.	2.4	20
110	Preliminary findings on the experiences of care for parents who suffered perinatal bereavement during the COVID-19 pandemic. BMC Pregnancy and Childbirth, 2021, 21, 840.	2.4	20
111	Modified early obstetric warning scores: A promising tool but more evidence and standardization is required. Acta Obstetricia Et Gynecologica Scandinavica, 2019, 98, 7-10.	2.8	19
112	The economic imperativeâ€"opportunities and threats. Midwifery, 2010, 26, 1-2.	2.3	18
113	Freestanding midwifery units versus obstetric units: does the effect of place of birth differ with level of social disadvantage?. BMC Public Health, 2012, 12, 478.	2.9	18
