#	Article	IF	CITATIONS
1	Examining the language demands of informed consent documents in patient recruitment to cancer trials using tools from corpus and computational linguistics. Health (United Kingdom), 2022, 26, 431-456.	1.5	10
2	Unintended consequences of online consultations: a qualitative study in UK primary care. British Journal of General Practice, 2022, 72, e128-e137.	1.4	38
3	Digital Health Intervention Design and Deployment for Engaging Demographic Groups Likely to Be Affected by the Digital Divide: Protocol for a Systematic Scoping Review. JMIR Research Protocols, 2022, 11, e32538.	1.0	5
4	Development, deployment and evaluation of digitally enabled, remote, supported rehabilitation for people with long COVID-19 (Living With COVID-19 Recovery): protocol for a mixed-methods study. BMJ Open, 2022, 12, e057408.	1.9	14
5	Frameworks for Implementation, Uptake, and Use of Cardiometabolic Disease–Related Digital Health Interventions in Ethnic Minority Populations: Scoping Review. JMIR Cardio, 2022, 6, e37360.	1.7	4
6	Switching treatments in clinically stable relapsing remitting multiple sclerosis patients planning for pregnancy. Multiple Sclerosis Journal - Experimental, Translational and Clinical, 2021, 7, 205521732110015.	1.0	4
7	Antibiotic prescribing in UK out-of-hours primary care services: a realist-informed scoping review of training and guidelines for healthcare professionals. BJGP Open, 2021, 5, BJGPO.2020.0167.	1.8	2
8	Combining patient talk about internet use during primary care consultations with retrospective accounts. A qualitative analysis of interactional and interview data. Social Science and Medicine, 2021, 272, 113703.	3.8	7
9	Qualitative study: patients' enduring concerns about discussing internet use in general practice consultations. BMJ Open, 2021, 11, e047508.	1.9	5
10	Patients' use of the internet to negotiate about treatment. Social Science and Medicine, 2021, 290, 114262.	3.8	7
11	OP76â€Hospital-based preventative health services for people experiencing homelessness: systematic review and narrative synthesis. , 2021, , .		0
12	A qualitative study of the experiences and perceptions of patients with functional motor disorder. Disability and Rehabilitation, 2020, 42, 2043-2048.	1.8	30
13	Insights into the social context of living with a dual diagnosis of HIV and cancer: a qualitative, thematic analysis of popular discourse in London newspapers. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2020, 32, 793-799.	1.2	3
14	Potential normalization of an asthma mHealth intervention in community pharmacies: Applying a theory-based framework. Research in Social and Administrative Pharmacy, 2020, 16, 195-201.	3.0	7
15	HIV positive and treated for cancer: The convergence of pressures "invisible―in HIV and "visible―in cancer. European Journal of Cancer Care, 2020, 29, e13222.	1.5	4
16	Self-Reported Patterns of Use of Alcohol and Drugs After Suicide Bereavement and Other Sudden Losses: A Mixed Methods Study of 1,854 Young Bereaved Adults in the UK. Frontiers in Psychology, 2020, 11, 1024.	2.1	14
17	Perceptions of the Use of Alcohol and Drugs after Sudden Bereavement by Unnatural Causes: Analysis of Online Qualitative Data. International Journal of Environmental Research and Public Health, 2020, 17, 677.	2.6	9
18	The experiences of people bereaved by suicide regarding the press reporting of the death: qualitative study. BMC Public Health, 2020, 20, 176.	2.9	10

#	Article	IF	CITATIONS
19	Feasibility, Acceptability, and Impact of a Web-Based Structured Education Program for Type 2 Diabetes: Real-World Study. JMIR Diabetes, 2020, 5, e15744.	1.9	25
20	Use of Alcohol and Unprescribed Drugs after Suicide Bereavement: Qualitative Study. International Journal of Environmental Research and Public Health, 2019, 16, 4093.	2.6	13
21	General Practitioner's use of online resources during medical visits: managing the boundary between inside and outside the clinic. Sociology of Health and Illness, 2019, 41, 65-81.	2.1	14
22	The gift in A&E: re-framing the medical case presentation through Mauss. Social Theory and Health, 2019, 17, 389-406.	1.8	1
23	The Perceived Impact of Suicide Bereavement on Specific Interpersonal Relationships: A Qualitative Study of Survey Data. International Journal of Environmental Research and Public Health, 2019, 16, 1801.	2.6	25
24	A digital self-management intervention for adults with type 2 diabetes: Combining theory, data and participatory design to develop HeLP-Diabetes. Internet Interventions, 2019, 17, 100241.	2.7	36
25	Anti-psychotic medication decision making during pregnancy: a co-produced research study. Mental Health Review Journal, 2019, 24, 69-84.	0.7	4
26	Health care professionals' views towards self-management and self-management education for people with type 2 diabetes. BMJ Open, 2019, 9, e029961.	1.9	19
27	The elicitation and management of multiple health concerns in GP consultations. Patient Education and Counseling, 2019, 102, 687-693.	2.2	15
28	Primary care management of cardiovascular risk for people with severe mental illnesses: the Primrose research programme including cluster RCT. Programme Grants for Applied Research, 2019, 7, 1-98.	1.0	6
29	Searching for Information on the Risks of Combined Hormonal Contraceptives on the Internet: A Qualitative Study Across Six European Countries. Journal of Medical Internet Research, 2019, 21, e10810.	4.3	3
30	The stigma associated with bereavement by suicide and other sudden deaths: A qualitative interview study. Social Science and Medicine, 2018, 198, 121-129.	3.8	69
31	Findings from a feasibility study to improve GP elicitation of patient concerns in UK general practice consultations. Patient Education and Counseling, 2018, 101, 1394-1402.	2.2	15
32	Factors influencing recording of drug misuse in primary care: a qualitative study of GPs in England. British Journal of General Practice, 2018, 68, e234-e244.	1.4	8
33	Exploring the views and experiences of HIV positive patients treated for cancer: a systematic review of the literature. AIDS Care - Psychological and Socio-Medical Aspects of AIDS/HIV, 2018, 30, 535-543.	1.2	6
34	Developing an implementation strategy for a digital health intervention: an example in routine healthcare. BMC Health Services Research, 2018, 18, 794.	2.2	74
35	Protocol paper for the â€~Harnessing resources from the internet to maximise outcomes from GP consultations (HaRI)' study: a mixed qualitative methods study. BMJ Open, 2018, 8, e024188.	1.9	8
36	Non-adherence to oral antibiotics for community paediatric pneumonia treatment in Malawi – A qualitative investigation. PLoS ONE, 2018, 13, e0206404.	2.5	5

#	Article	IF	CITATIONS
37	The co-construction of medical disposals in emergency medicine consultations. Social Science and Medicine, 2018, 218, 69-81.	3.8	4
38	DIAMOND (Digital Alcohol Management ON Demand): a feasibility RCT and embedded process evaluation of a digital health intervention to reduce hazardous and harmful alcohol use recruiting in hospital emergency departments and online. Pilot and Feasibility Studies, 2018, 4, 114.	1.2	3
39	The extent, quality and impact of patient and public involvement in primary care research: a mixed methods study. Research Involvement and Engagement, 2018, 4, 16.	2.9	87
40	The Impact of Suicide Bereavement on Educational and Occupational Functioning: A Qualitative Study of 460 Bereaved Adults. International Journal of Environmental Research and Public Health, 2018, 15, 643.	2.6	25
41	Support Needs and Experiences of People Bereaved by Suicide: Qualitative Findings from a Cross-Sectional British Study of Bereaved Young Adults. International Journal of Environmental Research and Public Health, 2018, 15, 666.	2.6	33
42	Digital Health Interventions for Adults With Type 2 Diabetes: Qualitative Study of Patient Perspectives on Diabetes Self-Management Education and Support. Journal of Medical Internet Research, 2018, 20, e40.	4.3	98
43	A web-based self-management programme for people with type 2 diabetes: the HeLP-Diabetes research programme including RCT. Programme Grants for Applied Research, 2018, 6, 1-242.	1.0	13
44	Publishing qualitative research in medical journals. British Journal of General Practice, 2017, 67, 229-230.	1.4	14
45	Best practice guidance for the use of strategies to improve retention inÂrandomized trials developed from two consensus workshops. Journal of Clinical Epidemiology, 2017, 88, 122-132.	5.0	15
46	Web-based self-management support for people with type 2 diabetes (HeLP-Diabetes): randomised controlled trial in English primary care. BMJ Open, 2017, 7, e016009.	1.9	75
47	DIAMOND (DIgital Alcohol Management ON Demand): a mixed methods feasibility RCT and embedded process evaluation of a digital health intervention to reduce hazardous and harmful alcohol use. Pilot and Feasibility Studies, 2017, 3, 34.	1.2	5
48	Attitudes to suicide following the suicide of a friend or relative: a qualitative study of the views of 429 young bereaved adults in the UK. BMC Psychiatry, 2017, 17, 400.	2.6	32
49	Factors that influence the implementation of e-health: a systematic review of systematic reviews (an) Tj ETQq1 1	0.784314	rgBT /Overlo
50	Exploration of the psychological impact and adaptation to cardiac events in South Asians in the UK: a qualitative study: TableÂ1. BMJ Open, 2016, 6, e010195.	1.9	9
51	Decisions about the use of psychotropic medication during pregnancy: a qualitative study: TableÂ1. BMJ Open, 2016, 6, e010130.	1.9	15
52	Evaluating the clinical and cost effectiveness of a behaviour change intervention for lowering cardiovascular disease risk for people with severe mental illnesses in primary care (PRIMROSE study): study protocol for a cluster randomised controlled trial. Trials, 2016, 17, 80.	1.6	17
53	An open letter to <i>The BMJ</i> editors on qualitative research. BMJ, The, 2016, 352, i563.	6.0	234
54	Soliciting additional concerns in the primary care consultation and the utility of a brief communication intervention to aid solicitation: A qualitative study. Patient Education and Counseling, 2016, 99, 724-732.	2.2	6

#	Article	IF	CITATIONS
55	Patient reactions to a web-based cardiovascular risk calculator in type 2 diabetes: a qualitative study in primary care. British Journal of General Practice, 2015, 65, e152-e160.	1.4	35
56	Achieving change in primary care—effectiveness of strategies for improving implementation of complex interventions: systematic review of reviews. BMJ Open, 2015, 5, e009993.	1.9	153
57	Achieving change in primary care—causes of the evidence to practice gap: systematic reviews of reviews. Implementation Science, 2015, 11, 40.	6.9	316
58	Lowering Cardiovascular Disease Risk for People with Severe Mental Illnesses in Primary Care: A Focus Group Study. PLoS ONE, 2015, 10, e0136603.	2.5	22
59	Negotiating the â€~grey area between normal social drinking and being a smelly tramp': a qualitative study of people searching for help online to reduce their drinking. Health Expectations, 2015, 18, 2011-2020.	2.6	32
60	The influence of personal communities on the self-management of medication taking: A wider exploration of medicine work. Chronic Illness, 2015, 11, 77-92.	1.5	29
61	Exploring the challenges of implementing e-health: a protocol for an update of a systematic review of reviews. BMJ Open, 2015, 5, e006773-e006773.	1.9	47
62	The use of electronic patient records for medical research: conflicts and contradictions. BMC Health Services Research, 2015, 15, 124.	2.2	21
63	Reconsidering â€~ethics' and â€~quality' in healthcare research: the case for an iterative ethical paradigm. BMC Medical Ethics, 2015, 16, 21.	2.4	17
64	Suicide Reporting Within British Newspapers' Arts Coverage. Crisis, 2015, 36, 13-20.	1.2	17
65	Addressing the evidence to practice gap for complex interventions in primary care: a systematic review of reviews protocol. BMJ Open, 2014, 4, e005548-e005548.	1.9	17
66	Behaviour change and social blinkers? The role of sociology in trials of selfâ€management behaviour in chronic conditions. Sociology of Health and Illness, 2014, 36, 226-238.	2.1	65
67	Achieving visibility? Use of nonâ€verbal communication in interactions between patients and pharmacists who do not share a common language. Sociology of Health and Illness, 2014, 36, 756-771.	2.1	15
68	Evaluating the implementation of HeLP-Diabeteswithin NHS services: study protocol. BMC Health Services Research, 2014, 14, 51.	2.2	11
69	PR51 â€~Befriend Your Boobs' (BYB): an educational intervention in breast cancer risk modification and cancer prevention in Barnet's Schools, North-West London. Breast, 2014, 23, S18-S19.	2.2	0
70	Use of electronic patient records for research: views of patients and staff in general practice. Family Practice, 2013, 30, 227-232.	1.9	28
71	Patient Priorities in Osteoarthritis and Comorbid Conditions: A Secondary Analysis of Qualitative Data. Arthritis Care and Research, 2013, 65, 920-927.	3.4	35
72	Exploring patient priorities among long-term conditions in multimorbidity: A qualitative secondary analysis. SAGE Open Medicine, 2013, 1, 205031211350395.	1.8	27

#	Article	IF	CITATIONS
73	The Sexunzipped Trial: Young People's Views of Participating in an Online Randomized Controlled Trial. Journal of Medical Internet Research, 2013, 15, e276.	4.3	25
74	Negotiating roles in pharmacy practice: Interactions across linguistic and cultural barriers. Communication and Medicine, 2013, 9, 83-94.	0.2	1
75	Widening Access to Treatment for Alcohol Misuse: Description and Formative Evaluation of an Innovative Web-Based Service in One Primary Care Trust. Alcohol and Alcoholism, 2012, 47, 697-701.	1.6	14
76	â€~I need her to be a doctor': patients' experiences of presenting health information from the internet in GP consultations. British Journal of General Practice, 2012, 62, e732-e738.	1.4	68
77	What Young People Want From a Sexual Health Website: Design and Development of Sexunzipped. Journal of Medical Internet Research, 2012, 14, e127.	4.3	58
78	Concordance: what is the relevance for pharmacists?. International Journal of Pharmacy Practice, 2011, 9, 67-70.	0.6	14
79	â€~Ageing well': Competing discourses and tensions in the management of knee pain. Health Sociology Review, 2011, 20, 372-380.	2.8	4
80	A dilemma for "social―pharmacy practice research. International Journal of Pharmacy Practice, 2011, 3, 65-67.	0.6	3
81	â€~A heartbeat moment': qualitative study of GP views of patients bringing health information from the internet to a consultation. British Journal of General Practice, 2010, 60, 88-94.	1.4	79
82	â€~At the moment it is just a couple of eccentrics doing it': concordance in day-to-day practice. International Journal of Pharmacy Practice, 2010, 13, 273-280.	0.6	4
83	Health beliefs before and after participation on an exercised-based rehabilitation programme for chronic knee pain: Doing is believing. BMC Musculoskeletal Disorders, 2010, 11, 31.	1.9	80
84	Review: Taking care of yourself in later life: A qualitative study into the use of non-prescription medicines by people aged 60+. Health (United Kingdom), 2010, 14, 213-231.	1.5	8
85	The Potential of Web-based Interventions for Heart Disease Self-Management: A Mixed Methods Investigation. Journal of Medical Internet Research, 2010, 12, e56.	4.3	47
86	Not just old and sick – the â€~will to health' in later life. Ageing and Society, 2009, 29, 687-707.	1.7	126
87	Discourses of agency and the search for the authentic self: The case of mood-modifying medicines. Social Science and Medicine, 2008, 66, 170-181.	3.8	20
