#	ARTICLE	IF	CITATIONS
1	Revisiting Middle East Respiratory Coronavirus (MERS-CoV) Outbreak Chest Radiographic Initial Findings, Temporal Progression, and Correlation to Outcomes: A Multicenter Study. <i>Cureus</i> , 2022, , .	0.5	0
2	Alkhumra hemorrhagic fever virus infection. <i>Archives of Virology</i> , 2021, 166, 2357-2367.	2.1	7
3	Full-genome sequencing and analysis of DENV-3 serotype isolated from Yemen. <i>Journal of Infection and Public Health</i> , 2021, 14, 803-810.	4.1	0
4	Untargeted Metabolic Profiling of Extracellular Vesicles of SARS-CoV-2-Infected Patients Shows Presence of Potent Anti-Inflammatory Metabolites. <i>International Journal of Molecular Sciences</i> , 2021, 22, 10467.	4.1	16
5	<i>Nigella sativa</i> for the treatment of COVID-19: An open-label randomized controlled clinical trial. <i>Complementary Therapies in Medicine</i> , 2021, 61, 102769.	2.7	56
6	Monitoring of the Middle East Respiratory Syndrome Coronavirus Activity in a Secluded Herd of Camels Kept Under Field Conditions. <i>Vector-Borne and Zoonotic Diseases</i> , 2021, 21, 994-1002.	1.5	1
7	Burden of Middle East respiratory syndrome coronavirus infection in Saudi Arabia. <i>Journal of Infection and Public Health</i> , 2020, 13, 692-696.	4.1	17
8	<i>Nigella sativa</i> supplementation to treat symptomatic mild COVID-19: A structured summary of a protocol for a randomised, controlled, clinical trial. <i>Trials</i> , 2020, 21, 703.	1.6	16
9	The continuing 2019-nCoV epidemic threat of novel coronaviruses to global health – The latest 2019 novel coronavirus outbreak in Wuhan, China. <i>International Journal of Infectious Diseases</i> , 2020, 91, 264-266.	3.3	2,658
10	Dual versus triple therapy for uncomplicated brucellosis: A retrospective cohort study. <i>Journal of Infection in Developing Countries</i> , 2020, 14, 1380-1386.	1.2	5
11	Covid-19 Disease Is Not Associated with Venous Thromboembolism in a Cohort of Patients in Jeddah, Saudi Arabia. <i>Blood</i> , 2020, 136, 24-24.	1.4	0
12	Assessment of the new World Health Organization's dengue classification for predicting severity of illness and level of healthcare required. <i>PLoS Neglected Tropical Diseases</i> , 2019, 13, e0007144.	3.0	29
13	Multifocal Tuberculosis with Prolonged Paradoxical Reaction. <i>Journal of King Abdulaziz University-Medical Sciences</i> , 2019, 26, 51-57.	0.1	0
14	Ultrastructural Features of Alkhumra Hemorrhagic Fever Virus Infection of Cells Under In Vivo and In Vitro Conditions. <i>Vector-Borne and Zoonotic Diseases</i> , 2018, 18, 108-113.	1.5	1
15	Testing for HTLV-1 and HTLV-2 among blood donors in Western Saudi Arabia: prevalence and cost considerations. <i>Transfusion Medicine</i> , 2018, 28, 60-64.	1.1	5
16	First complete genome sequence of circulating dengue virus serotype 3 in Jeddah, Saudi Arabia. <i>New Microbes and New Infections</i> , 2018, 21, 9-11.	1.6	2
17	Fungal Cerebellar Abscess in an Immunocompetent Patient. <i>The Egyptian Journal of Hospital Medicine</i> , 2018, 70, 1745-1747.	0.1	0
18	Electron Microscopy of Alkhumra Hemorrhagic Fever Virus. <i>Vector-Borne and Zoonotic Diseases</i> , 2017, 17, 195-199.	1.5	6

#	ARTICLE	IF	CITATIONS
19	Invasive Orbital Apex Aspergillosis with Mycotic Aneurysm Formation and Subarachnoid Hemorrhage in Immunocompetent Patients. <i>World Neurosurgery</i> , 2017, 102, 42-48.	1.3	11
20	Invasive aspergillus sinusitis with orbitocranial extension. <i>Journal of Innovative Optical Health Sciences</i> , 2017, 12, 172-179.	1.0	16
21	Epidemiology and clinical consequences of occupational exposure to blood and other body fluids in a university hospital in Saudi Arabia. <i>Journal of King Abdulaziz University, Islamic Economics</i> , 2016, 37, 783-790.	1.1	16
22	Middle East Respiratory Syndrome Coronavirus Transmission in Extended Family, Saudi Arabia, 2014. <i>Emerging Infectious Diseases</i> , 2016, 22, 1395-1402.	4.3	44
23	Risk Factors for Primary Middle East Respiratory Syndrome Coronavirus Illness in Humans, Saudi Arabia, 2014. <i>Emerging Infectious Diseases</i> , 2016, 22, 49-55.	4.3	217
24	Outbreak of Middle East Respiratory Syndrome at Tertiary Care Hospital, Jeddah, Saudi Arabia, 2014. <i>Emerging Infectious Diseases</i> , 2016, 22, 794-801.	4.3	44
25	Risk Factors for Middle East Respiratory Syndrome Coronavirus Infection among Healthcare Personnel. <i>Emerging Infectious Diseases</i> , 2016, 22, 1915-1920.	4.3	64
26	Acute rhinosinusitis during Hajj season 2014: Prevalence of bacterial infection and patterns of antimicrobial susceptibility. <i>Travel Medicine and Infectious Disease</i> , 2016, 14, 583-587.	3.0	16
27	Multiple Introductions of Dengue 2 Virus Strains into Saudi Arabia from 1992 to 2014. <i>Vector-Borne and Zoonotic Diseases</i> , 2016, 16, 391-399.	1.5	21
28	Growth Characteristics of Alkhumra Hemorrhagic Fever Virus in Mammalian Cell Lines. <i>Vector-Borne and Zoonotic Diseases</i> , 2016, 16, 722-727.	1.5	5
29	Human Immunodeficiency Virus-associated Cerebral Aneurysmal Vasculopathy: A Systematic Review. <i>World Neurosurgery</i> , 2016, 87, 220-229.	1.3	22
30	Association of Higher MERS-CoV Virus Load with Severe Disease and Death, Saudi Arabia, 2014. <i>Emerging Infectious Diseases</i> , 2015, 21, 2029-35.	4.3	76
31	2014 MERS-CoV Outbreak in Jeddah – A Link to Health Care Facilities. <i>New England Journal of Medicine</i> , 2015, 372, 846-854.	27.0	378
32	Complete genome sequencing and phylogenetic analysis of dengue type 1 virus isolated from Jeddah, Saudi Arabia. <i>Virology Journal</i> , 2015, 12, 1.	3.4	143
33	Evidence for Camel-to-Human Transmission of MERS Coronavirus. <i>New England Journal of Medicine</i> , 2014, 370, 2499-2505.	27.0	736
34	Detection of the Middle East Respiratory Syndrome Coronavirus Genome in an Air Sample Originating from a Camel Barn Owned by an Infected Patient. <i>MBio</i> , 2014, 5, e01450-14.	4.1	89
35	Evidence for Camel-to-Human Transmission of MERS Coronavirus. <i>New England Journal of Medicine</i> , 2014, 371, 1359-1360.	27.0	89
36	Complete Genome Sequencing and Genetic Characterization of Alkhumra Hemorrhagic Fever Virus Isolated from Najran, Saudi Arabia. <i>Intervirology</i> , 2014, 57, 300-310.	2.8	14

#	ARTICLE	IF	CITATIONS
37	The survival of influenza A(H1N1)pdm09 virus on 4 household surfaces. American Journal of Infection Control, 2014, 42, 423-425.	2.3	34
38	Propagation and titration of Alkhumra hemorrhagic fever virus in the brains of newborn Wistar rats. Journal of Virological Methods, 2014, 199, 39-45.	2.1	8
39	Middle East Respiratory Syndrome Coronavirus (MERS-CoV) Infection: Chest CT Findings. American Journal of Roentgenology, 2014, 203, 782-787.	2.2	254
40	Thermal inactivation of Alkhumra hemorrhagic fever virus. Archives of Virology, 2014, 159, 2687-2691.	2.1	18
41	Comparison of RT-PCR assay and virus isolation in cell culture for the detection of alkhumra hemorrhagic fever virus. Journal of Medical Virology, 2014, 86, 1176-1180.	5.0	5
42	Case definition and management of patients with MERS coronavirus in Saudi Arabia. Lancet Infectious Diseases, The, 2014, 14, 911-913.	9.1	30
43	Isolated Cerebral Aspergillosis in Immunocompetent Patients. World Neurosurgery, 2014, 82, e325-e333.	1.3	25
44	Infection prevention and control guidelines for patients with Middle East Respiratory Syndrome Coronavirus (MERS-CoV) infection. Journal of King Abdulaziz University, Islamic Economics, 2014, 35, 897-913.	1.1	31
45	Outbreak of viral hemorrhagic fever caused by dengue virus type 3 in Al-Mukalla, Yemen. BMC Infectious Diseases, 2013, 13, 136.	2.9	35
46	Trypsin-dependent hemagglutination of erythrocytes of a variety of mammalian and avian species by Alkhumra hemorrhagic fever virus. Archives of Virology, 2013, 158, 97-101.	2.1	2
47	An international survey of bacterial contamination and householders' knowledge, attitudes and perceptions of hygiene. Journal of Infection Prevention, 2013, 14, 132-138.	0.9	3
48	Susceptibility of tick cell lines to infection with Alkhumra haemorrhagic fever virus. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2013, 107, 806-811.	1.8	5
49	Alkhumra, Not Alkhurma, Is the Correct Name of the New Hemorrhagic Fever Flavivirus Identified in Saudi Arabia. Intervirology, 2012, 55, 75-76.	2.8	14
50	Successful propagation of Alkhumra (misnamed as Alkhurma) virus in C6/36 mosquito cells. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2012, 106, 180-185.	1.8	20
51	Reply to comment on: Successful propagation of Alkhumra (misnamed as Alkhurma) virus in C6/36 mosquito cells. Transactions of the Royal Society of Tropical Medicine and Hygiene, 2012, 106, 392-393.	1.8	0
52	Superiority of the buffy coat over serum or plasma for the detection of Alkhumra virus RNA using real time RT-PCR. Archives of Virology, 2012, 157, 819-823.	2.1	10
53	Serratia marcescens-contaminated baby shampoo causing an outbreak among newborns at King Abdulaziz University Hospital, Jeddah, Saudi Arabia. Journal of Hospital Infection, 2011, 78, 16-19.	2.9	43
54	Alkhumra (Alkhurma) virus outbreak in Najran, Saudi Arabia: Epidemiological, clinical, and Laboratory characteristics. Journal of Infection, 2011, 62, 67-76.	3.3	64

#	ARTICLE	IF	CITATIONS
55	Genotype and antiretroviral drug resistance of human immunodeficiency virus-1 in Saudi Arabia. <i>Journal of King Abdulaziz University, Islamic Economics</i> , 2010, 31, 987-92.	1.1	6
56	Hepatitis C virus infections reported over 11 years of surveillance in Saudi Arabia. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2009, 103, 132-136.	1.8	24
57	Misdiagnosis of an imported case of malaria caused by <i>Plasmodium falciparum</i> . <i>Journal of Infection in Developing Countries</i> , 2009, 3, 112-4.	1.2	5
58	Les moulins hydrauliques de FÃ’s Ã l’Ã©poque mÃ©diÃ©vale. <i>Histoire Urbaine</i> , 2008, nÂ° 22, 43-58.	0.0	2
59	Assessment of infection control knowledge, attitude and practice among healthcare workers during the Hajj period of the Islamic year 1423 (2003). <i>Scandinavian Journal of Infectious Diseases</i> , 2007, 39, 1018-1024.	1.5	17
60	Trend in incidence of hepatitis B virus infection during a decade of universal childhood hepatitis B vaccination in Saudi Arabia. <i>Transactions of the Royal Society of Tropical Medicine and Hygiene</i> , 2007, 101, 278-283.	1.8	33
61	Meningococcal, influenza virus, and hepatitis B virus vaccination coverage level among health care workers in Hajj. <i>BMC Infectious Diseases</i> , 2007, 7, 80.	2.9	26
62	Hepatitis C virus infections reported in Saudi Arabia over 11 years of surveillance. <i>Annals of Saudi Medicine</i> , 2007, 27, 191.	1.1	16
63	Causes of admission to intensive care units in the Hajj period of the Islamic Year 1424 (2004). <i>Annals of Saudi Medicine</i> , 2007, 27, 101-105.	1.1	33
64	Hepatitis C virus infections reported in Saudi Arabia over 11 years of surveillance. <i>Annals of Saudi Medicine</i> , 2007, 27, 191-194.	1.1	35
65	Chronic granulomatous disease with recurrent hepatic abscesses in an adult. <i>Journal of King Abdulaziz University, Islamic Economics</i> , 2007, 28, 1593-6.	1.1	4
66	Steady improvement of infection control services in six community hospitals in Makkah following annual audits during Hajj for four consecutive years. <i>BMC Infectious Diseases</i> , 2006, 6, 135.	2.9	7
67	Sexually transmitted infections in Saudi Arabia. <i>BMC Infectious Diseases</i> , 2006, 6, 3.	2.9	65
68	Handwashing and gloving practice among health care workers in medical and surgical wards in a tertiary care centre in Riyadh, Saudi Arabia. <i>Scandinavian Journal of Infectious Diseases</i> , 2006, 38, 620-624.	1.5	33
69	A child with an acanthocephalan infection. <i>Annals of Saudi Medicine</i> , 2006, 26, 321-324.	1.1	16
70	Causes of hospitalization of pilgrims during the Hajj period of the Islamic year 1423 (2003). <i>Annals of Saudi Medicine</i> , 2006, 26, 346-351.	1.1	93
71	Alkhumra virus infection, a new viral hemorrhagic fever in Saudi Arabia. <i>Journal of Infection</i> , 2005, 51, 91-97.	3.3	99
72	Avian influenza: reasons for concern and the challenges ahead. <i>Journal of Family and Community Medicine</i> , 2005, 12, 113-4.	1.1	0

#	ARTICLE	IF	CITATIONS
73	Epidemiology of the human immunodeficiency virus in Saudi Arabia; 18-year surveillance results and prevention from an Islamic perspective. <i>BMC Infectious Diseases</i> , 2004, 4, 25.	2.9	71
74	Preventive strategies to keep Saudi Arabia SARS-free. <i>American Journal of Infection Control</i> , 2004, 32, 120-121.	2.3	9
75	Rift Valley Fever Epidemic in Saudi Arabia: Epidemiological, Clinical, and Laboratory Characteristics. <i>Clinical Infectious Diseases</i> , 2003, 37, 1084-1092.	5.8	410
76	Colonic Tuberculosis Clinically Misdiagnosed as Anorexia Nervosa and Radiologically and Histopathologically as Crohn's Disease. <i>Canadian Journal of Infectious Diseases &amp; Medical Microbiology</i> , 2002, 13, 136-140.	0.3	1
77	Epidemiology and Clinical Features of Methicillin-Resistant <i>Staphylococcus aureus</i> in the University Hospital, Jeddah, Saudi Arabia. <i>Canadian Journal of Infectious Diseases &amp; Medical Microbiology</i> , 2002, 13, 245-250.	0.3	35
78	Epidemiology and Clinical Features of Culture-Proven Mycoplasma Pneumonia Infections at King Abdulaziz University Hospital, Jeddah, Saudi Arabia. <i>Journal of King Abdulaziz University-Medical Sciences</i> , 2002, 10, 13-21.	0.1	0
79	Epidemiology and Clinical Features of Methicillin-Resistant <i>Staphylococcus Aureus</i> (MRSA) at the University Hospital, Jeddah, Saudi Arabia. <i>Journal of King Abdulaziz University-Medical Sciences</i> , 2002, 10, 3-12.	0.1	1
80	Methicillin-Resistant <i>Staphylococcus aureus</i> in Two Tertiary-Care Centers in Jeddah, Saudi Arabia. <i>Infection Control and Hospital Epidemiology</i> , 2001, 22, 211-216.	1.8	49
81	Clinical features of culture-proven <i>Mycoplasma pneumoniae</i> infections at King Abdulaziz University Hospital, Jeddah, Saudi Arabia. <i>BMC Infectious Diseases</i> , 2001, 1, 6.	2.9	6
82	Clinical Infections and Bloodstream Isolates Associated with Fever in Patients Undergoing Chemotherapy for Acute Myeloid Leukemia. <i>Infection</i> , 2000, 28, 367-374.	4.7	73
83	Screening pregnant women for group B streptococcal colonization. <i>Infection</i> , 1998, 26, 288-291.	4.7	15
84	Severe Hereditary Hemochromatotic Cardiomyopathy Responsive to Small-Volume Venesections Combined with Deferoxamine. <i>Annals of Saudi Medicine</i> , 1996, 16, 686-688.	1.1	1
